SPECIAL MAIL EDITION FOR: WEDNESDAY MORNING, JANUARY 9, 1907.

(ON TRAINS, FIVE CENTS.) TWO CENTS.

## SEARCHERS FOR BODIES STARTLED BY CRY COMING FROM OUT OF DEBRIS

New York Fireman Unexpectedly Found Alive by Comrades.

Rescued After Buried Alive for Twenty-Four Hours.

His Two Companions Had Succumbed Some Hours Before.

New York, Jan. 8.—The search for the three firemen who went down with the ruins when Hill's paper warehouse was burned Sunday night, was suddenly halted last night as the sound of some one rapping on a timber from within the debris was distinctly heard. For nearly twenty-four hours, with brief respite, the firemen had sought the bodies of their comrades and at first they doubted their senses. As they stared at each other a voice from beneath the charred pile and recognized as that of John Seufert was faintly heard. Seufert said: "I am alive, but can't see anything. Get us out as quickly as you can." Then later, "It is cold here. I have to keep kicking my legs to keep warm."

With new energy the firemen redoubled their efforts until warned that over-eagerness might defeat their purpose. More cautiously they proceeded while Seufert's wife, who had been on

## A QUESTION OF VERACITY Testimony of Witnesses in Train Wreck at Variance.

Washington, Jan. 8.—With the beginning of the sixth day of Coroner Nevitt's inquiry to determine the responsibility for the Baltimore & Ohio wreck at Terra Cotta, D. C., it looks as though the jury must decide between the testimony of Operator Duxrow of Silver Spring, who says that he displayed a white signal for the guidance of the crew of the equipment train, and Engineer Hildebrand of the "dead" train, who testified that he was given the double green light at Silver Spring. Engineer Hildebrand's testimony is substantiated by every member of the crew of the equipment train, while Operator Duxrow is corroborated by only one witness, J. Trundie, the aged helper at Silver Spring station. The investigation may not be concluded until Thursday.

## ACTION ON CORTELYOU POSTPONED ONE WEEK.

Washington, Jan. 8.—At the request of Senators Teller and Dinkell the senate committee on finance today postponed for one week action on the nomination of Postmaster General Cortelyou to be secretary of the treasury. They did not announce whether they would continue their opposition to his confirmation, noting that he had resigned the chairmanship of the Republican national committee.

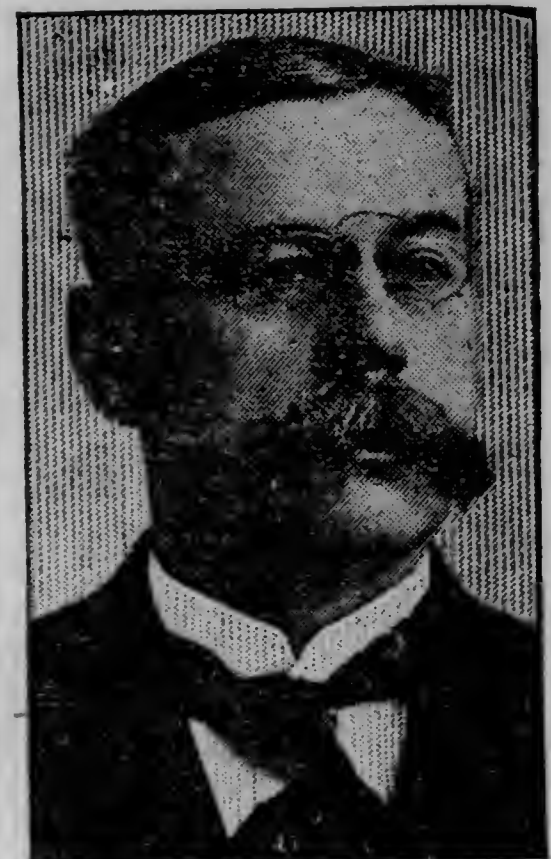

## CRACKSMEN BLOW VAULT

To Secure Records in the N. C. Dougherty Scandal.

Many Documents Obtained Are Burned in Furnace.

Peoria, Ill., Jan. 8.—Some time Sunday night the safety vault at the Public library was blown open and all records of the N. C. Dougherty case were stolen and afterwards burned in the furnace in the building. Dougherty is now in the Joliet penitentiary, and the destruction of these records may be the means of releasing his bondsmen. The police have no clue to the perpetrators, but believe it to have been the work of expert cracksmen assisted by some one familiar with the building.

Only documents which bear in the Dougherty scandal case were taken. Some papers belonging to the secretary were confiscated and \$35 in money.

FRANCIS E. WARREN.

Cheyenne, Wyo., Jan. 8.—On the first ballot the republican members of the legislature in caucus today unanimously voted to support United States Senator Francis E. Warren for re-election. This action insures a straight party vote for Warren and as the Republicans have a large majority in the legislature, his election is certain.

## BRITAIN TO TAKE LEAD

In World Peace Movement at the Hague Peace Conference.

Stead Starts Around the World in Interest of Peace.

Paris, Jan. 8.—William T. Stead of London, who arrived here yesterday, says in an interview that he is on his way around the world in the interest of peace. He further declares that he is authorized by the British premier, Sir Henry Campbell-Bannerman, to say that Great Britain, if no other country does so, would at the approaching second peace conference at The Hague, raise the question of taking steps to provide for the maintenance of international peace. This, Mr. Stead says, will be done in the form of two propositions, as follows: First, that each country participating in the conference appropriate a sum of money to be used in the perpetuation of the idea of maintaining international peace.

Second, that each country participating in the conference render obligatory the observance of Article VIII of the act of the peace conference of 1899, permitting a third power to render mediation without giving offense between two disputing powers, and also that the participating powers extend the scope of Article VIII, so as to bind the signatories, in case of a declaration of war, not to begin hostilities for a fortnight, in which interim friendly powers would have the right to intervene in an attempt to adjust the quarrel.

## LIQUOR SOLD TO INDIAN WOMEN

Agent Frater Asks Cass County Attorney to Stop It.

Walker, Minn., Jan. 8.—(Special to The Herald.)—Indian Agent John T. Frater has invoked the aid of the county attorney of Cass county to stop the practice of certain saloons in Walker from selling liquor to Indian women and school children at the Indian school. Mr. Frater takes the stand that the women are habitual drunkards and the children minors. Provided he can find no redress through the county, he will take the matter before government officials.

Mr. Frater is acting in his capacity of government agent and guardian of the Chippewa tribe in taking the step he has, and those familiar with conditions uphold him in his action. Whole sled loads of Indian children and women come over from the agency on the least provocation and proceed to indulge in intoxicants in a most disgusting manner. An intoxicated Indian woman represents one of the most degrading spectacles, and while they are not permitted to travel the main thoroughfares, the fact that they are habitual drunkards to a large extent is well known. The unlucky children who happen to be with the mother at the time of her debauch, often suffer the most extreme hardships, especially during the winter months. The woman, apparently immune to the cold, while in this condition, often remains in the open throughout the night with a pa-poose strapped to her back, the little one suffering from cold and exposure throughout the night. A majority of these people have a natural craving for alcoholic beverages and the only way to protect them and their offspring from it is to provide a law which places it out of their reach.

## MYSTERIOUS MURDER OF PROMINENT OREGON MAN PUZZLES POLICE

### CRUSHED TO DEATH

Northern Pacific Brakeman, Frank Gilbert, Killed at Ashland.

Caught Between Cars in Sight of Many Passengers.

Ashland, Wis., Jan. 8.—(Special to The Herald.)—Frank Gilbert, a brakeman on the Northern Pacific railroad, was instantly killed in sight of the passengers of the incoming Wisconsin Central sleeper this morning. The Northern Pacific picks up the sleeper for Duluth at Ashland, and Gilbert stood before the sleeper to make the coupling. As the train backed to it, losing his footing, he was caught and crushed to death between the cars in sight of 100 passengers and others at the depot. Several women fainted.

Well Known Portland Physician Thrown Over High Bridge.

Pockets Were Rifled to Cause Theory of Murder.

Officials Believe the Motive Was More Sinister.

Portland, Or., Jan. 8.—The murder in this city last night of Dr. Philip Edwards Johnson, a physician recently arrived from New York, is one of the most mysterious tragedies that ever has occurred in the Northwest. Dr. Johnson came to Portland with his newly wedded wife two months ago to establish his home here and to practice his profession. The couple bought a site for a beautiful home in a fashionable section. Mrs. Johnson before her marriage last fall, was a Mrs. Scarborough. She is a daughter

(Continued on page 3, fifth column.)

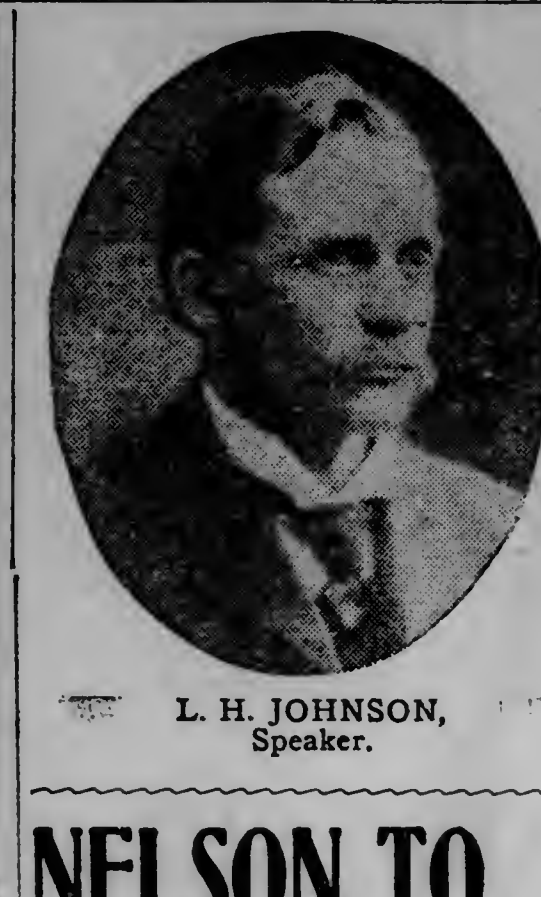

## SESSION OF MINNESOTA LEGISLATURE IS OPENED

ADOLPH E. L. JOHNSON,  
Chief Clerk.

### VON BUELOW OPENS THE PRUSSIAN DIET.

Berlin, Jan. 8.—Chancellor Von Buelow read the speech of the emperor-king at the opening of the Prussian diet today. Referring to the excellent financial condition of Prussia, the speech announced the government's intention to propose fresh legislation to meet the difficulties encountered in Poland "in carrying out the historical task of strengthening the German elements there."

L. H. JOHNSON,  
Speaker.

## NELSON TO BE ELECTED

To Succeed Himself in the United States Senate.

There is Opposition, But No Candidate With Strength.

(From a Staff Correspondent.)  
St. Paul, Jan. 8.—(Special to The Herald.)—The senatorial caucus of the Republican members of the legislature tonight will be, in some respects, very much like that of two years ago, when Senator Clapp was renominated without opposition. Senator Nelson will also be renominated without opposition tonight, in one sense, and in another sense he will not be. He has no opposition, in the sense that no other name than his will be presented to the caucus for its consideration. No other name was presented to the caucus of two years ago, and this is the respect in which tonight's caucus will be similar to that one.

But—There was opposition two years ago to the re-election of Senator Clapp, and there will be opposition now to the re-election of Senator Nelson.

There are Barkises that would be glad to have their names presented to the caucus tonight—if they thought there was the remotest show of their being given the nomination, which, since the legislature is overwhelmingly Republican, is equivalent to an election. But there are no candidates that have been mentioned in this connection, who would stand the remotest show of being nominated, so their names will not be submitted. On the other hand, there are members of the legislature, in both houses, who would be glad to have the chance to vote for a candidate for United States senator of whom they were quite sure. They would accept a going for the chance of casting their ballots for them; to the extent to which they are entitled as individual elements of commerce, which need a certain amount of consideration in law-making, but which too often get all of

(Continued on page 3, fourth column.)

Slate Fixed by Republican Caucus Went Through Intact.

L. H. Johnson Was Elected Speaker of the House.

Joint Session on Wednesday to Hear Governor's Message.

(From a Staff Correspondent.)  
St. Paul, Jan. 8.—(Special to The Herald.)—The legislature formally opened for its thirty-fifth session this morning, both houses organizing and appointing a committee of three members each to notify the governor that the legislature is in session and ready to receive any message he may care to send it. The slate organizations went through from top to bottom in both houses, and the only hitch was a very feeble one in the senate, where several senators not members of the combine registered a protest against the distribution of jobs by voting against the blanket resolution appointing them all. The vote for the resolution, however, was 17 to 4.

Secretary of State Julius Schmal called the house to order at noon, and Dr. J. A. Gates of Kenyon was made temporary clerk. The members were sworn in by Justice Brown, after which L. H. Johnson was elected speaker by a vote of 106 to 13, the thirteen Democratic votes going to Dr. John H. Dorsey of Glenwood. The three Prohibitionists voted for Johnson. The remainder of the elective ones were filed as scheduled heretofore.

Lieutenant Governor Elberhart called the senate to order at noon, and the members were sworn in by Chief Justice Hart, with Senator Schaller of Hastings acting as temporary clerk. The senate went through according to program, after which the resolutions providing for getting the legislative business under way were adopted. This afternoon the house members are picking out their seats by lot, and the senate has adjourned to 10 o'clock tomorrow, when the governor's message will be heard by the legislature in a joint session in the house chamber. Three St. Louis county men got into the list of senate appointments, Peter Schaefer of Ilay being clerk of the insurance committee; George N. Randall of West Duluth, being postoffice messenger, and Andrew Horgren of the West end, being appointed to a clerkship.

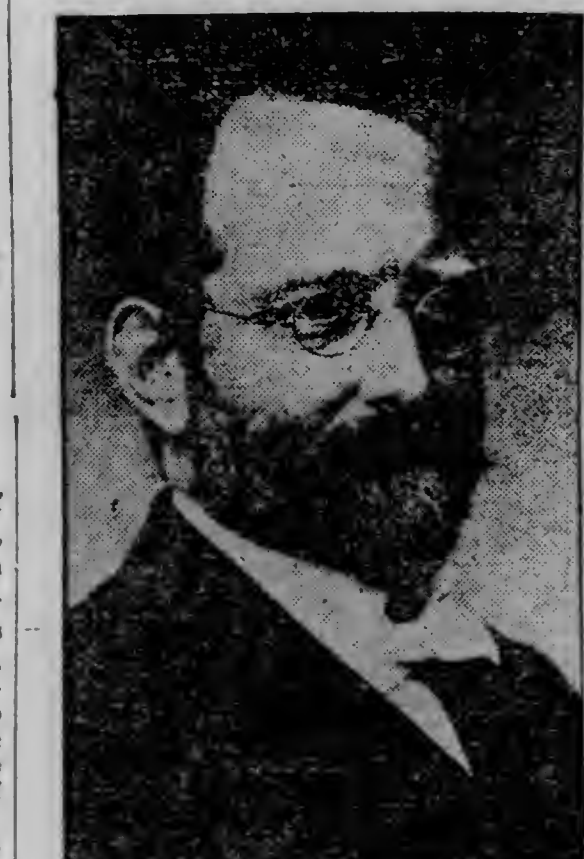

### NEW VILLAGE HALL

Likely to be Erected at Cass Lake Very Soon.

Cass Lake, Minn., Jan. 8.—(Special to The Herald.)—Whether Cass Lake will or will not have a new village hall in the near future will be settled within a short time. Six of Cass Lake's prominent citizens have made a proposition to the village council, in which they agreed to give \$200 toward the erection of a village hall. Such a building is sorely needed, and there is little doubt but that there will be one in the course of erection within a short while.

PRINTERS ASK INCREASE.  
Norfolk, Va., Jan. 8.—The union printers of Norfolk have made a demand for an increase of \$2.50 per week in their wage scale.

## GOVERNORS DELIVER ADDRESSES

GEORGE C. PARDEE,  
Governor of California.

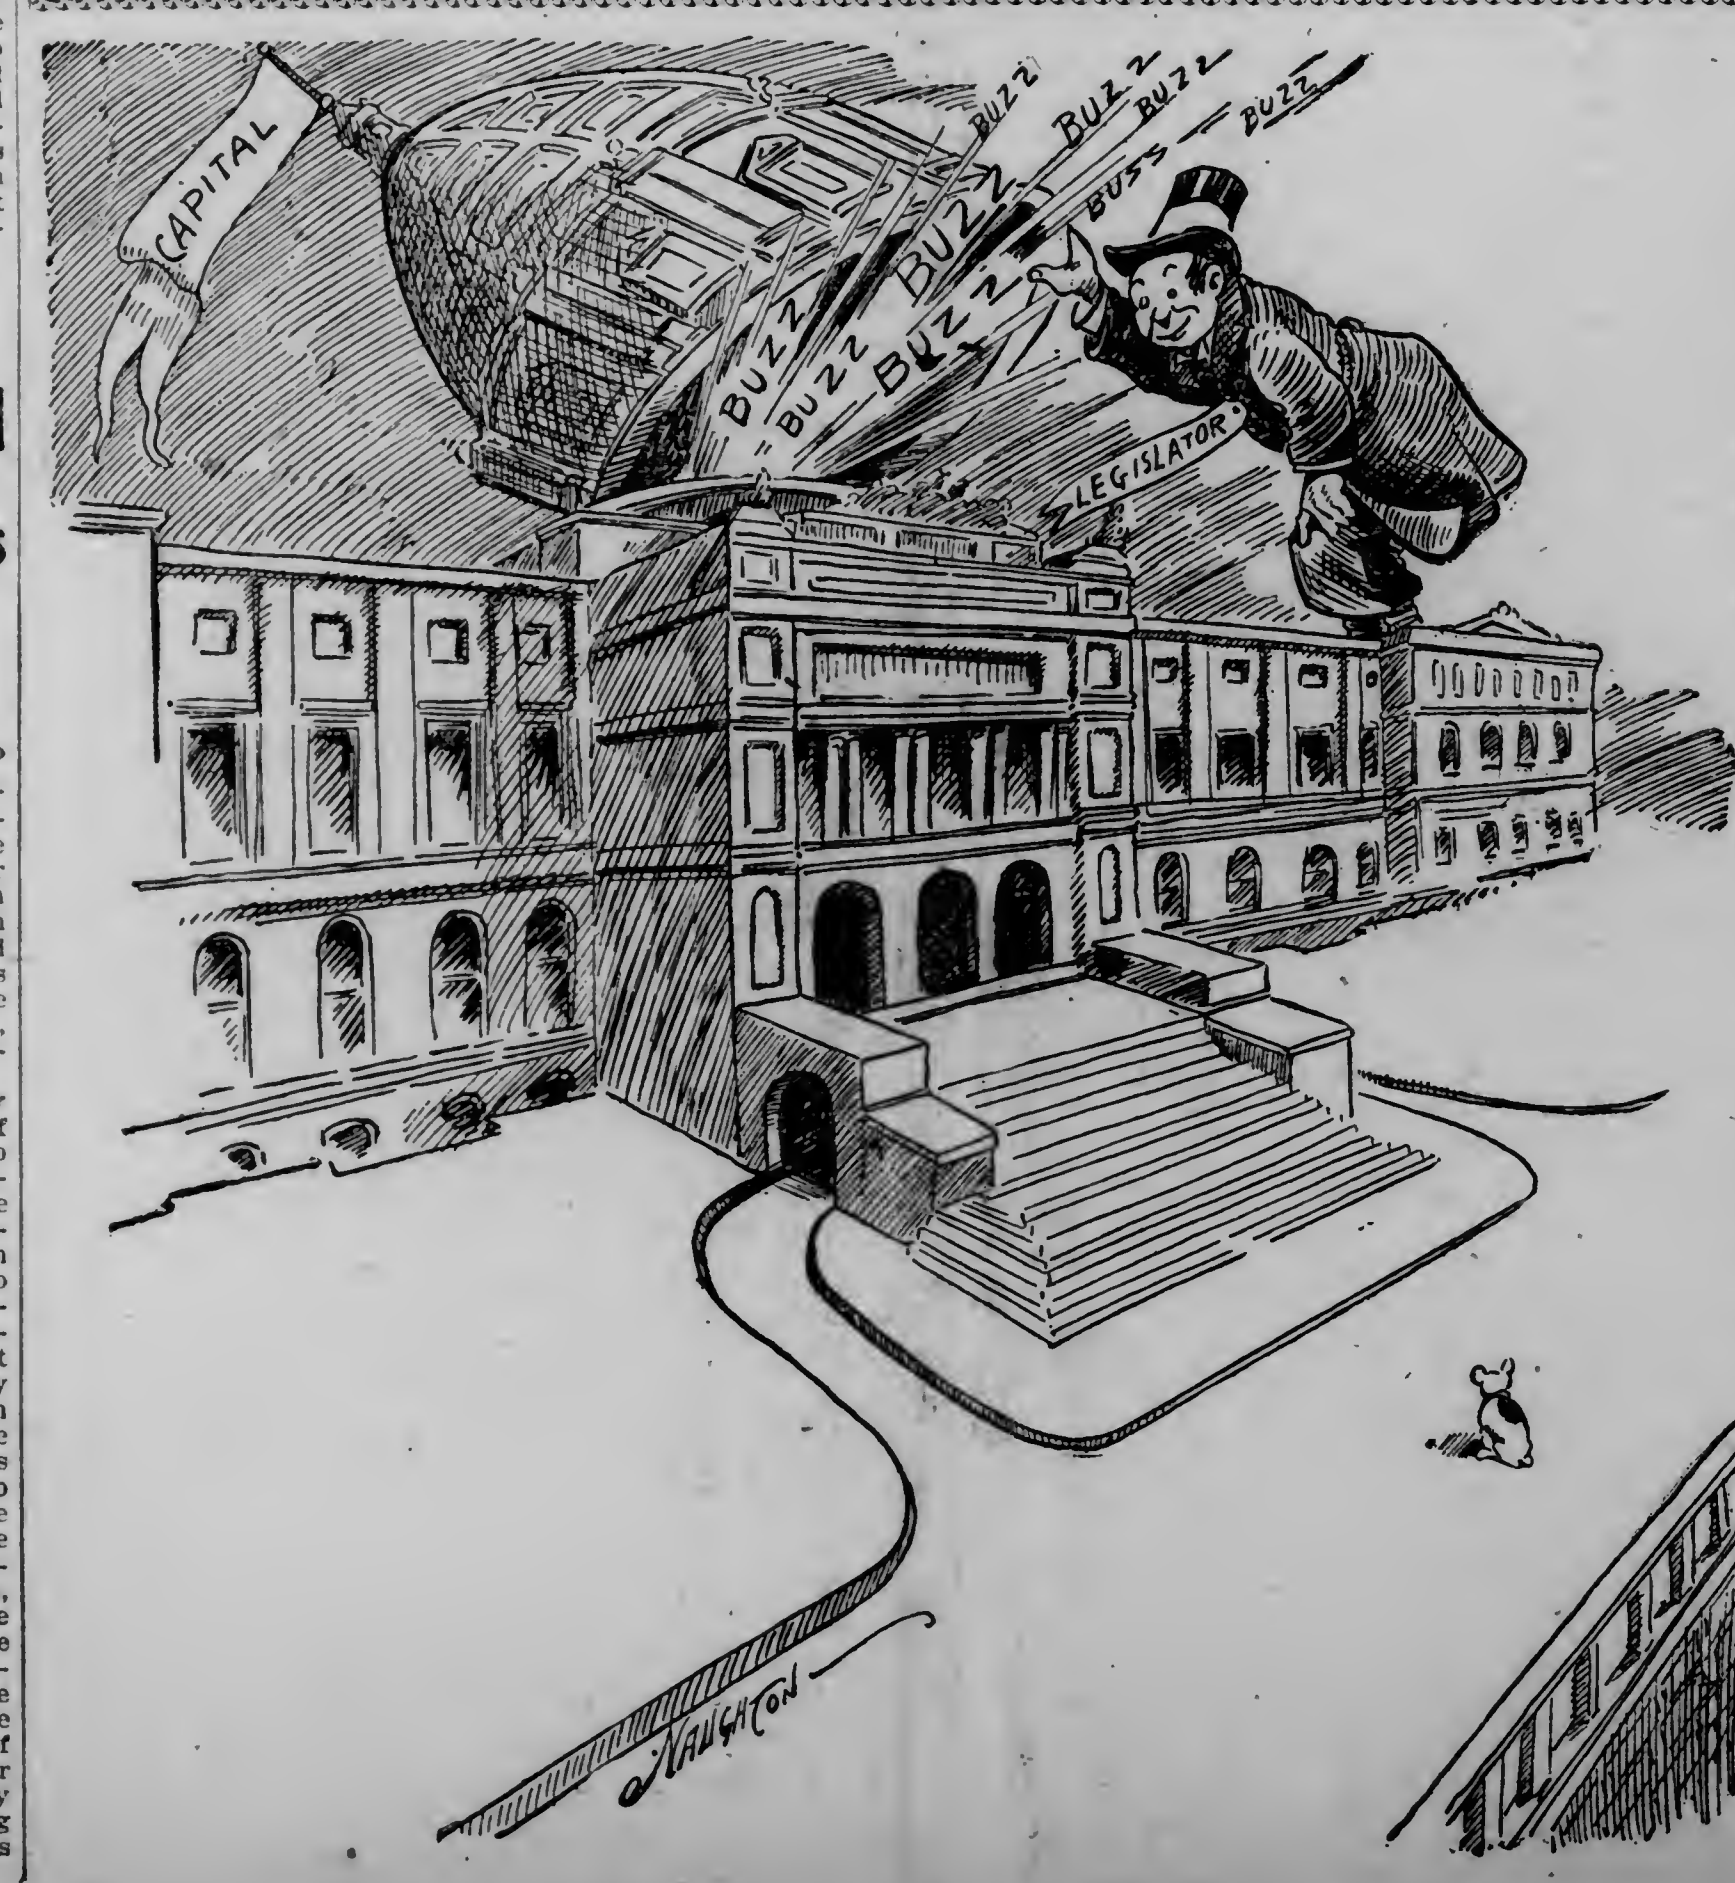

EDWARD W. HOCH,  
Governor of Kansas.

JOSEPH K. TOOLE,  
Governor of Montana.

### THE LID IS OFF IN ST. PAUL.

## MURDER AT THE HULL-RUST MINE

Austrian Laborer Shot Down at Door of Boardinghouse.

Murderer is Arrested But His Name is Not Known.

Hibbing, Minn., Jan. 8.—(Special to The Herald.)—One of the most brutal and uncalculated murders in the history of St. Louis county took place here last night. Neely Blovitch, an Austrian laborer at the Hull-Rust mine, was murdered in cold blood as he was emerging from the door of his boardinghouse late last evening, by a man who refuses to give his name.

The murderer fired two shots, one taking effect in the neck of his victim and the other piercing his abdomen. Blovitch was taken at once to the hospital, where he died about midnight. While the desperado refused to reveal his identity, he is known to some of his fellow laborers in the vicinity of the mine, and it is claimed that he killed three men in the "old country" and spent ten years in European prisons for his crimes there.

He arrived in Hibbing about two weeks ago and has been watched as closely as practicable by the police as he was very evidently looking for trouble. Last night he went outside his boardinghouse and fired two shots from his revolver. Blovitch at once hastened to the door to see what was the matter, and as he was standing with his back against the lighted doorway the murderer picked him out as a target with telling effect. Blovitch collapsed in a heap and his slayer escaped in the darkness, but was arrested this morning by Chief Wing near the Penobscot location. Blovitch was peaceable and well liked among his fellow workmen, and no quarrel or other reason for the shooting is known. The deed could not have been planned, as the murderer had no means of knowing that it would be Blovitch who came to the door in response to his shots, and it is thought that a species of insanity must have inspired the tragedy. Blovitch was not conscious after the accident so, of course, nothing definite could be learned as to any cause for ill feeling between the two men, but all the conditions tend to show that no matter who had come to the door at the time the unfortunate Blovitch did he would have received the same treatment.

Weather Forecast: Mostly clear tonight and Wednesday. Colder tonight with a few snowflakes. Westerly winds. Brisk this afternoon and tonight.

WE DO THE BUSINESS.

## ORIGINAL CHARTER

Gives Great Northern  
Right to Issue Stock,  
Say Attorneys.

Arguments Begin in the  
State's Injunction Pro-  
ceedings.

St. Paul, Jan. 8.—(Special to The Herald.)—Arguments were begun before Judge Nathan in the Ramsey county court here today in the injunction proceedings brought by the attorney general of Minnesota against the Great Northern railway, to prevent the proposed issue of \$20,000,000 worth of additional stock. The argument of the counsel for the railroad embraced the proposition that the state could not prevent the issue because the railroad had the right under the original charter of the Minneapolis & St. Cloud railway to issue the stock; that since 1886 at different periods a total of \$120,000,000 of stock had been issued under conditions similar to the proposed issue by notice filed with the secretary of state. The railroad attorneys further claim that at the time one of the previous issues was made an opinion had been given by the attorney general to the effect that the issue conformed with the state law. They also claim that the state railroad and warehouse commission is without power in the matter, in that it is purely a legislative and not a judicial body, and therefore it could not determine the necessity of the proposed stock issue.

**MAKES NO DEFENSE.**  
Pittsburg, Jan. 8.—Common Councilman William A. Martin, on trial charged with soliciting a bribe to further the passage of the Pittsburg & Tube City railroad's franchise ordinance through the common council.

## Omega Oil

For  
Sore Throat  
and  
Cold in Chest

You can't cure a cold in the chest, or sore throat, or shooting pains in the lungs, by swallowing medicines. The stuff you swallow goes into your stomach, and your trouble is not there at all. What you want to do is to rub your throat and chest with Omega Oil, and do it quick, too. Nature made this oil for exactly this purpose. It subdues and overcomes the inflammation and is at least a hundred times better than a sticky, itching, nasty porous plaster. Don't lose time fooling with such things, but start using Omega Oil as quickly as you can.

Three sizes: 10c., 25c., 50c.  
Free sample Omega Oil Soap  
in every bottle of Omega Oil.

Omega Oil is also good for Rheumatism, Lumbago, Neuralgia, and all aches and pains.

## VERY WEAK INSPECTION

Allen Admitted Two  
Weeks Ago Now Vi-  
olently Insane.

County Charge Safely  
Passed the Ellis Island  
Inspectors.

That there are defects in the system of inspecting immigrants at New York, seems to be proven by the case of Miloven Brajevic, a violently insane alien, who has been brought to the attention of Immigrant Inspector William H. Dean. The man was admitted at Ellis Island scarcely two weeks ago.

Brajevic, a native of Montenegro, was placed in the county jail yesterday, and the authorities notified Inspector Dean, in the hopes that he would investigate the case and take the steps necessary to the deportation of the man, who doubtless will be ordered deported.

Brajevic is 32 years of age, and landed in New York, Dec. 17, 1906, on the steamship La Touraine. He came direct to Minnesota, evidently, and hired out for work in the northwestern part of the state. He was sent to a camp thirty miles north of Virginia, and last week became so violently insane that the lives of his fellow workmen were endangered by his presence. It became necessary to seclude him, and keep him a prisoner until he could be turned over to the county. The proper authorities were notified, and Brajevic was brought to the St. Louis county jail. He will remain there until the government disposes of his case.

Inspector Dean is kept busy during the winter months looking into the cases of aliens who have become public charges since their arrival in the United States, but in all his experience in this direction he has never before encountered a person so violently insane as Brajevic.

There seems to be no doubt that the man is now a public charge because of causes existing prior to landing, and if this is the case the county authorities are of the opinion that signs of his weakness should have been detected at Ellis Island, and the alien refused admission, thus saving the government the big expense incident to his deportation at a later date from some interior point.

Dr. E. S. Bugbee, the well-known eye specialist of Minneapolis, was the most striking figure in the police court grist this morning. He was up as a plain drunk, but news that he was to be charged with petit larceny also, brought a goodly portion of little Italy into Judge Cutting's court to witness the proceedings this morning. Remedio pleaded guilty to being drunk, and had to have the pen dipped twice when he came to sign his name in the police record.

The petit larceny case blew over. It was connected with the way Gianfrancisco made change for a fellow Italian, who claimed that Remedio tried to cheat him out of \$3. Attorney McKoon decided that he could make no case out of the affair and moved for dismissal on this charge.

## SHAH OF PERSIA SAID TO BE DYING

Tehran, Jan. 8.—The shah is dying. The ministers have been summoned to the palace.

## JURORS HAVE LONG SESSION

Unable to Reach Agreement After a Twenty-Hour Debate.

After a twenty-hour session during which they were able to reach no agreement, the jury in the personal injury case of Frank Lundvall against the Interstate Iron company, reported to Judge Cant, shortly after 11 o'clock this morning.

Questioned by the court as to the situation the foreman stated that the jury was divided, four to eight, and that there seemed little chance of agreement. At the request of some of the jurors the court went over again portions of his charge pertaining to contributory negligence on the part of the plaintiff and the responsibility of employers in furnishing reasonably safe equipment with which to work. Judge Cant urged the jurors to reach some agreement if possible and directed them to retire again and thresh the matter out for a longer time.

**BARNES IS NOMINATED.**

George Spencer Loth to Head Board of Trade Again.

George Spencer, president of the board of trade, who was nominated to serve another term, Saturday, is to act as the head of the organization for another year, so a special caucus to nominate a presidential candidate was held by the members of the board this morning.

In the place of Mr. Spencer, Julius H. Barnes heads the ticket as the presidential nominee. Steve H. Jones was nominated for vice president, a berth for which Mr. Barnes was slated.

Inasmuch as Mr. Jones had been previously nominated for the board of directors and H. S. Newell nominated for the post on the board of appeals made vacant by the nomination of Mr. McCabe to the directorate.

The nominations, except for president and vice president, are now as follows: Board of directors, J. N. McKendley, J. E. McCarthy and W. J. McCabe; board of appeals, G. C. Barrum, W. S. Moore, S. A. McPhail; board of appeals, Thomas Gibson, E. Lindahl, H. S. Newell; committee on inspection, J. P. McCarthy, J. P. Hickman, A. M. Prime, C. E. Haley and John T. Pugh.

The annual election of officers by the board of trade will take place next Tuesday.

## TAKES OATH IN CHURCH

Governor of Colorado In-  
augurated in Unusual  
Place.

Executive is Very Favor-  
ably Inclined Towards  
the Railroads.

Denver, Jan. 8.—Rev. Dr. Henry A. Buchtel, chancellor of Denver university, was inaugurated as governor of Colorado today, and for the first time in the history of the state the inauguration took place in a church. In deference to the governor's wish the oath of office was administered to him and he delivered his inaugural address to the legislature in Trinity Methodist Episcopal church, which aided largely in building while he was pastor of that congregation. The governor concluded his address with a prayer followed by the Lord's Prayer in which many of the audience joined. About 2,500 persons attended, the church being crowded.

Governor Buchtel devoted the greater portion of his address to the questions of railway legislation and education, in treating the former he said that the weak and impossible parts of the national law, referred to in President Roosevelt's message to congress, must be omitted from Colorado's program. Nothing would be done to drive capital away from Colorado but instead everything would be done to invite both capital and people to the state. He said: "All our people and all railway officials and all investors of capital and all prospective citizens of Colorado must come to understand that the day of political vagaries has passed forever in this state and that men of practical sense, with breadth of view and moral integrity, are now in control of the legislative, the judicial and the executive departments in Colorado."

The governor favored a reasonable charge for tuition in the educational institutions of the state as a means of improving the results to be achieved. The governor characterized a local option law as the application of the principle of the square deal to the question of the open saloon.

Their annual dinner will be given by the Ladies of the St. Luke's Episcopal church on Thursday, Jan. 10th, at the Elks hall, between the hours of 11:30 a. m. and 2 p. m. Tickets, 35c.

## CELEBRATING CHRISTMAS DAY

Members of Greek and  
Russian Churches Ob-  
serving Holiday.

Last night was Christmas eve for those folks who follow the creed of the Greek and Russian Catholic churches. According to their calendar, this is Christmas eve, and it is being fittingly observed.

Today is Christmas day and the Greeks, Russians, Austrians and others who are members of the Greek Catholic church are feasting. The week will be a holiday one for them, although most of the rest of the world has already forgotten Christmas and New Year's day.

In Duluth the celebrations are taking on the appearance of private parties. Last night, no less than three Christmas eve celebrations were held in West Duluth. Mike Bogmiller of Raleigh street entertained a large company of his friends in honor of the occasion. At the same time, Mike Ziesler, who resides in the neighborhood, were also hosts at holiday gatherings.

## ACCIDENT IN GEORGIA SAID NOT TO BE SERIOUS.

Atlanta, Ga., Jan. 8.—In response to an inquiry, the Evening Journal has a long distance telephone message from Atlanta, Ga., saying that an accident reported on the Georgia railway at Barnett, Ga., is not serious. Two or three cars were overturned and the locomotive was slightly bruised. The sensational report that twenty-five people have been killed proves to be untrue.

## The Best Bank

In Duluth is the one that pays interest, higher than current rates, on money already spent to splendid advantage. At 3 per cent, \$100 invested in a bank savings account would yield you three dollars a year. Every dollar spent at the Duluth Public Market pays you a much higher rate of interest, besides giving you the best values in high grade groceries and meats in the city. With every purchase you get discount stamps, which are redeemable in cash or merchandise when your body is tired of any of the credit stores. And, as a clear pick-up, you can cash in, on a \$25 a month expenditure, discount stamps amounting in a year to a month's supplies. Is not this worth investigating?

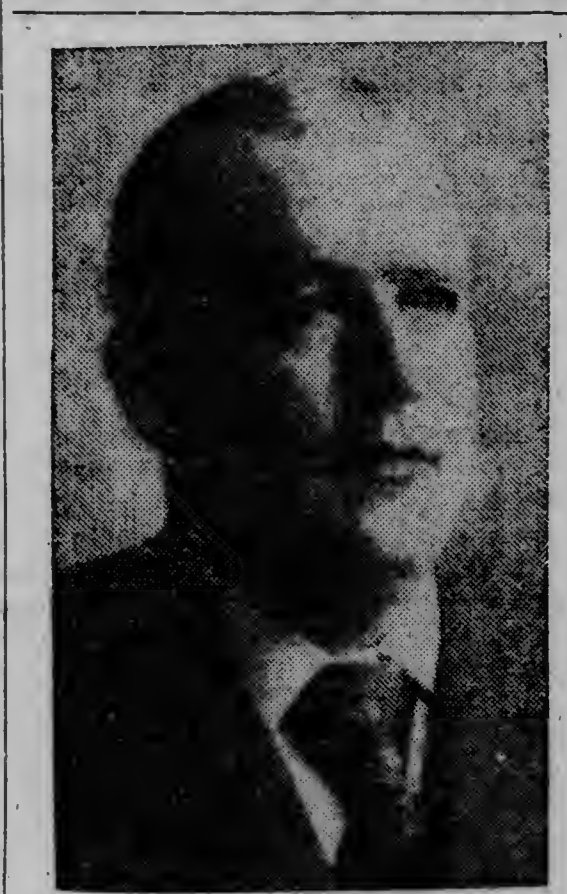

## PATTERSON IS ELECTED

Chosen Head of the  
Newly Organized  
County Board.

Commissioner Charles  
Kauppi is Elected Vice  
Chairman.

At 2 o'clock this afternoon, the new county board met and organized for the coming year.

County Commissioner Edward M. Patterson was elected chairman of the board, and Commissioner Charles Kauppi was chosen as vice chairman. Messrs. Patterson and Kauppi are the two oldest members of the

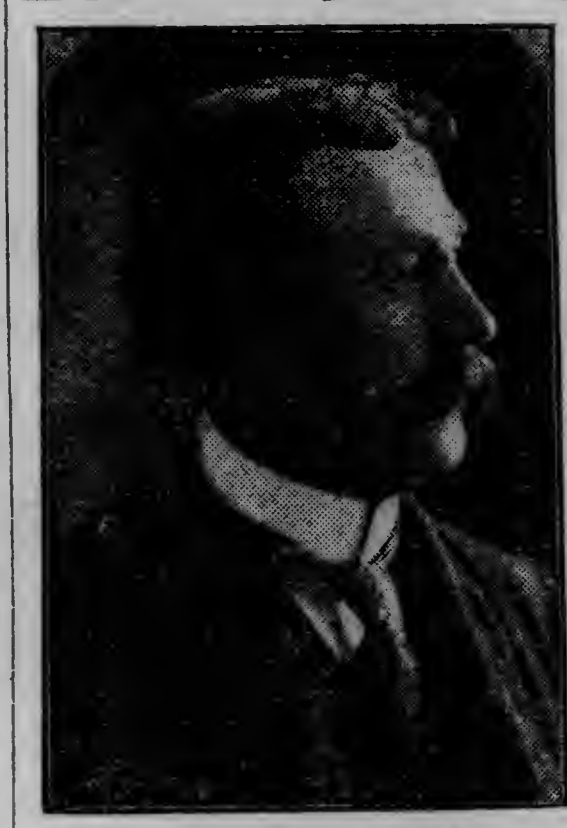

E. M. PATTERSON,  
Newly Elected Chairman of County Board.

board in point of service, and their associates on the board were unanimous in conferring upon them the honor.

The new members of the board assumed their seats. They are U. S. G. McMahon of Ely, who succeeds Capt. Morcott, and George Tischer, who was elected to succeed F. W. Kugler.

The other three members of the

CHARLES KAUPPI,  
Newly Elected Vice Chairman of County Board.

board are, John Sundeen, Neil McInnis and P. J. Ryan. The work of reorganization occupied the better part of an hour, and little business of importance had been transacted at 3 o'clock, although there were a number of routine matters to be taken up.

## BURNED BODY OF DEAD CHILD

Workman Too Poor to  
Give It a Proper  
Burial.

Chicago, Jan. 8.—Charles Peterson, a laborer, was arraigned today before Municipal Judge Hines on the charge of having cremated the corpse of his child in a foundry where he was employed. The child died six days ago, and Peterson was without sufficient funds to give it proper burial. He held the body in the house for five days, hoping to secure sufficient funds for a funeral. Occupants of adjoining buildings, who knew of the child's death, complained to the police that no steps had been taken to inter the body, and when the officers visited Peterson today, he informed them that despairing of being able to obtain enough money to bury the child in decent fashion, he had carried the body to the foundry where he was employed and had burned it in one of the furnaces. Peterson was fined \$25 by Judge Hines.

## ASKED CLERK FOR PASSPORT

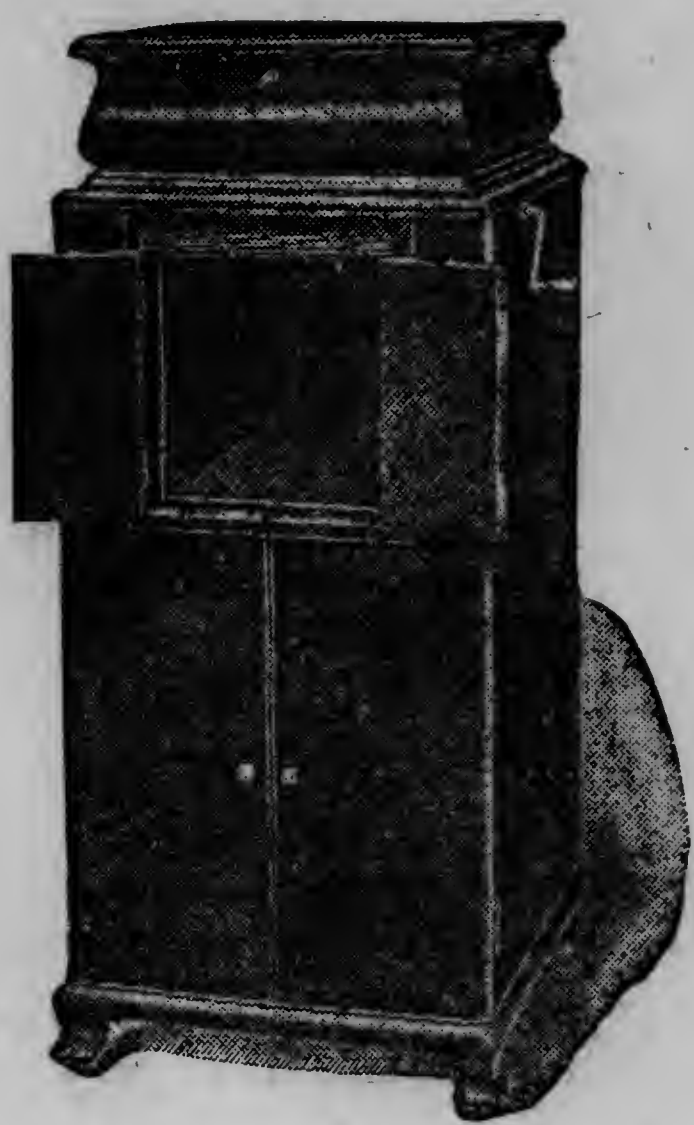

Norwegian Thought One  
Was Needed to Leave  
Country.

City Clerk Cheadle ran up against a new kind of proposition this morning. A Norwegian, wishing to revisit his

## The Victor Victrola

We invite you all to  
come in and hear it

Price \$200

SEE YOU that cabinet? 'Tis in truth a modest, unobtrusive article of furniture, which standing in a music room will not offend the other and older occupants—the piano, the organ or perhaps the harp. Its simple, dignified lines excite no curiosity and convey no hint of its purpose; yet it looks perfectly at home in its surroundings.

Just lift the lid and there is disclosed the turn-table of a Victor, with all the devices for reproducing song or speech.

But where is the horn? Perhaps you expect that from some corner of the room we must produce one and attach it as usual to the top of the cabinet.

But you are mistaken, for there is no horn; the instrument is complete in itself. There it stands ready to delight you, even as the regular types of Victors have done, time and time again.

Where, then, is the record? Just here at hand, the door flies open and one of the albums of records is withdrawn and you are ready for an overture to your program.

But stop, let us close the lid. What, shut in the music? No, not quite, but shut out all sounds of operation. Here is a marvelous thing; you can test it for yourself. Lift the lid and play, and then close it again and note the difference. Surely, the mechanical sounds are practically gone when the lid is down. But the music—

Ah, yes; just open these doors and the melody pours forth. Don't you see we have simply reversed the ordinary practice. We take the sound as it were, by the hand, and lead it down from the sound-box above the record through the tone tubes to a mahogany horn below rather than to a horn above, and modify the volume as we please by closing and opening, more or less, these doors.

And we get by this new process a mellow richness in the tones which comes nearer than ever to the goal of perfection which we seek in reproducing the voice of the musical instrument with all its natural color and feeling.

PAYMENTS

old home, and having become a citizen of the United States, wanted a passport to enter the boundaries of his native land.

He tackled Mayor Cullum first, and the proposition proving too much for the mayor, he sent him down to interview the city clerk. Mr. Cheadle was up against it. He had never heard of his devolving upon the city clerk to furnish homesick foreigners with passports, and he had no more idea what a passport looked like than the next man.

Finally Adolph Anderson from the building inspector's office was called in and by vigorous use of the telephone with Norwegians who have lately visited their home country, and a consultation with the mayor, who had come down, a little conscience stricken at the problem he had turned loose on the clerk, the interested parties decided that a passport was unnecessary, as already the revolution had not taken enough hold on the Norse peninsula to make such formality necessary. A further search revealed the fact that if the departing foreigner wanted a passport he would have to get it from

the secretary of the state at Washington, but that it was entirely unnecessary in visiting Norway or Sweden.

**ENOUGH HARD LUCK.**  
Lancia, the noted Italian automobilist, was asked the other day by a reporter if he did not think motor racing too dangerous, says the Los Angeles Times.

"Dangerous, yes," Mr. Lancia replied. "Too dangerous, no. For nothing that benefits mankind—and automobiles benefit mankind inexpressibly—is too dangerous for a man to undertake."

"I have a good deal of contempt for men who are not brave to the point of rashness. I am like a highwayman who held up a gasoline runabout on the outskirts of Rome."

"This highwayman stopped the runabout with a shot in the air. Then he ran forth from the tomb that had concealed him—the hold-up happened on the Appian Way—and found, to his surprise, only a woman in the little car."

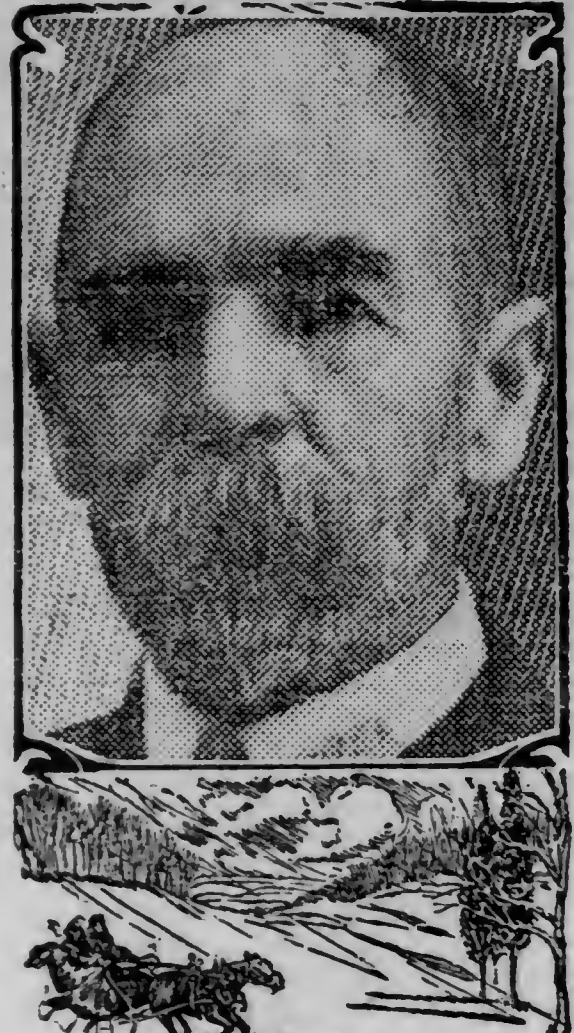

"Where, madam, is your husband?" he demanded sternly and suspiciously.

"He's under the seat," she answered flushing.

"Then," said the highwayman, "I won't take anything. It's bad enough to have a husband like that, without being robbed into the bargain."

## LIEUTENANT BOWMAN.

IN FORTY-EIGHT HOURS  
PE-RO-NA CURED HIM.Cold Affected Head and Throat—  
Attack Was Severe.

Charles W. Bowman, first lieutenant and adjutant of the Fourth M. S. M. Cav. Vols., writes from Lanham, Md., as follows:

"Though somewhat averse to patent medicines, and still more averse to becoming a professional advertisement, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peruna."

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. I use it as a preventive whenever threatened with an attack. Members of the family also use it for like ailments and are recommended to it by our friends."

Affray in Woman's  
Apartments.

New York, Jan. 8.—Mrs. Lena Weidman, a manufacturer with an establishment in the Hotel Endicott at Eighty-first street and Columbus avenue, was shot and killed at her apartments in 30 West Eighty-second street last night in a quarrel in which three other persons were seriously wounded.

Mrs. Weidman, who was 32 years of age, was shot twice through the body and stabbed in the chest. She was taken to a hospital in a dying condition.

Pauline Hotel, 32 years old, an assistant to Mrs. Weidman in the manufacturing business at Eighty-first street and Columbus avenue, received a bullet wound in the body and at the hospital to which he was removed it was said that he would die.

An unidentified man, the fourth member of the party was cut about the throat. He was technically placed under arrest and charged with the shooting.

## CONGO VOICES "CANNED."

Professor Starr of Chicago Brings Phonographic Records From Africa

Chicago, Jan. 8.—The voices of the natives of the Congo Free State, "canned" by Prof. Starr and carried from the heart of Africa across the Atlantic ocean, soon will be heard within the classic walls of the University of Chicago.

Prof. Starr took a phonograph with him to Africa. There he put it into operation and made a large number of records, not only of the dialects of the interior tribes, but particularly of their roving, religious and dance songs.

## M. A. Potter Dies.

Merritt A. Potter, an Indianapolis young man, who has been in the city for months in the employ of the City of Chicago, works here, died at St. Mary's hospital last night following an operation for meningitis.

An abscess formed in his ear which broke, and coming in contact with the brain, caused acute meningitis.

Potter's father and mother are expected in the city today, and the body will be taken to Indianapolis for burial.

## BACK GIVES OUT

Plenty of Duluth Readers Have This Experience.

You tax the kidneys—overwork them—They can't keep up the continual strain—The back gives out—it aches and pains—Urinary troubles set in—Don't wait longer—Take Doan's Kidney Pills.

Duluth people tell you how they act.

Ernest Grotke of 926 Fourth avenue east, Duluth, Minn., writes: "I speak from experience when I say Doan's Kidney Pills are a reliable and valuable remedy. I first heard of their merits from a friend who had received gratifying results in his own case, and I was then suffering from severe dull pains in the small of my back and loins and had become so bad that I was almost compelled to give up work. I procured a supply of Doan's Kidney Pills and began using them. Although other remedies had failed to help me, I soon noticed the benefit and kept on using Doan's Kidney Pills, until the pain and other symptoms gradually but surely disappeared, until I was entirely free from the trouble."

For sale by all dealers. Price, 50 cents. Foster-Niburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

CEDARMEN  
IN SESSIONAnnual Meeting of North-  
western Association  
Being Held Here.Will Elect Officers for  
New Year and Hold  
Banquet.

The annual meeting of the Northwestern Cedarmen's association is being held today at the Spaulding hotel, and cedarmen, representing many cities and towns of the Northwest are in Duluth as delegates. Three meetings have been arranged and the convention will end this evening with a banquet at the Spaulding dining room.

Preparations have been going on for some time for the big meeting and, as it is the first time that the cedarmen's meeting has ever been held in Duluth, the members in this city have been looking forward to the affair with considerable interest. There is a large delegation in attendance from Minneapolis and St. Paul, while Chicago and the Upper Michigan towns are well represented.

The first meeting of the day was scheduled for 11:30 this morning, when the various committees reported regarding the conditions of the association and the plans for the coming year. At the afternoon session beginning at 2:30 the annual election of officers will be held and other routine business matters disposed of.

The chief topics for consideration will be the report of the car stake and equipment committee, which will be complete in respect to the progress which has been made in the action now before the interstate commerce commission. A discussion upon cedar weights is also scheduled for one of the sessions.

The banquet will be held this evening, given for the members by the Duluth Log company, L. R. Martin and Martin Bros. of Duluth, and the C. J. T. & Post company of Cloquet. The affair will be held at the Spaulding and a program of songs and speeches has been arranged by the committee in charge.

According to the prospects there will be from fifty to sixty members in attendance at the sessions.

TO HOLD MORE  
EXAMINATIONSCivil Service Commission  
Announces Several  
for January.

Another examination has been announced by the civil service commission to be held at a federal building on Jan. 25 and 26 to secure eligibles from which to make certification to fill at least 100 vacancies in the position of male teacher in the Philippine Islands. The work of the American teachers is largely of a supervisory character, and the higher positions are filled by natives. The vacancies occur by the promotion of those who have best demonstrated their ability in the service.

An examination will be held at the same time to secure eligibles from which to fill a large number of vacancies in the positions of clerk and teacher in the Philippine service. The civil service commission desires to secure as a result of this examination many eligibles as possible who are college or normal school graduates. There are less than 100 vacancies in this position and appointments will be made with a salary of \$1,200 a year.

Appointments of eligibles resulting from these examinations will probably be in March and April next and their transportation arranged with a view to their arrival in Manila before June, 1907, the beginning of the school year. Women will be admitted to this examination if they have immediate relatives in the Philippines or who are about to go there. There is a special need for women to teach the domestic science subject of instruction.

There are four vacancies in the position of computer in the United States Naval observatory at Washington, D. C., and an examination will be held on Jan. 29 and 30 to secure eligibles for these vacancies and others that may occur. An insufficient number of applicants filed for the examination held in December to meet the needs of the service and qualified persons are urged to enter this examination.

A clerk, who must be qualified in French and German, is needed in the Smithsonian Institution at a salary of \$340 and an examination to secure eligibles for the position will be held Jan. 30.

## PUTS UP A SPITE FENCE.

Belmont Wins Latest Round in War With Nelson Page.

Washington, Jan. 8.—Ferry Belmont and Thomas Nelson Page have a "mad" with each other. Rapid-fire developments in their strife between the millmiller and the author have kept society and officials at the capital wondering what would come of the struggle. Belmont, who is a member of the House of Representatives, has just won the latest round in the fight.

Mr. Belmont won the latest round. He filed a spite fence suit against Mr. Page's best-beloved window seat, and those who have followed the Belmont fight in the struggle, claim easy honors for the capitalist.

Page drew first blood, and it was perhaps a stinging blow which marked the battle's inception, when he wrote some pieces for magazines which were not highly flattering to Ferry Belmont. Belmont, in reply, immediately after reading the magazine article concerning himself, Belmont purchased this tract of land and put a force of laborers to work building a fence which sets Mr.

## ELLIOTT'S SALARY HELD UP.

Controller of Treasury Decides Against  
S. D. District Attorney.

Washington, Jan. 8.—James D. Elliott, district attorney for South Dakota, has been paid a salary since last July without authority of law, according to the decision of Controller of Treasury Tracy. The question came before that official on approval of the account of the disbursing officer of the department of justice, only the first two months of Elliott's service under his present appointment being under consideration, though it is understood he has drawn pay continuously. The controller says: "An officer appointed during a recess of the senate is not an officer and may not discharge the duties of his office prior to confirmation."

Under this construction Elliott cannot be paid for his services at all, should his mission be defeated, which Senator Kittredge is trying to bring about.

## INDIAN SLAYER CAUGHT.

Young Flathead Managed to Dodge the  
Officers Four Months.

Missoula, Mont., Jan. 8.—After keeping out of jail for four months, during which time he has been wanted for a murder committed four months ago, Antonio Nemah, a young Flathead Indian, has been brought to this city and lodged in jail. He was arrested twice prior to this time, but escaped while on his way to the agency jail.

In a quarrel Aug. 20 last, Nemah struck Gabriel Nantah, a fellow Indian, a heavy blow on the head with a club, inflicting injuries from which the latter died eight days later.

## CANNOT BUY PETER.

Belgrade, Serbia, Jan. 8.—King Peter today authorized a specific denial of rumors that he is his intention to abdicate, or permit his son, Prince Alexander, to take his place in consideration of financial compensation.

## TO USE ELECTRIC POWER.

Toronto, Jan. 8.—By-laws providing for the use of electric power furnished by the Hydro-Electric commission, were voted on in about twenty towns of Ontario yesterday. In every instance the by-laws were carried by large majorities.

Cured of Piles by  
Pyramid Pile CureIf You Suffer, You Can Be Cured.  
Costs Nothing to Try.

If you think that you must be operated upon to be cured of piles, you are wrong. Thousands of cases of piles of excruciating severity—worse, no doubt, than yours, have been cured painlessly, quickly and permanently, while the patient has been at his work, without the loss of time necessitated by an operation. In fact many a sufferer has not been able to reach his work after the home remedy prepared by the Pyramid Pile Cure.

No More Piles. One Box Cured—Only 50 Cts!

Such was the condition of an Indiana business man, as shown in a recent letter:

"Received your sample of Pile Cure and have given it a fair trial and it has proven the best I ever tried. I can recommend you highly in this vicinity. Have used your sample and one box and it has affected a complete cure. It has been worth \$100 to me."

"Thanking you for the sample and the cure, I will recommend you to everybody. Yours respectfully, Julius Mayer, Dealer in Feathers, Ginseng and Hides, Bedford, Ind."

The Pyramid Pile Cure can be used at home in the privacy of your own room. There is enough strength in each little suppository to drive out infection, while at the same time it melts away into the diseased tissues of the rectum, heals up the fissures, relieves the inflammation, starts the circulation of the hemorrhoidal veins, diminishes the congestion and brings the organs back to their normal condition.

We want to prove to you that we suffer from piles that the Pyramid Pile Cure will cure. This treatment is prepared exclusively by Dr. J. C. Mayer, who has cured thousands of our name or the bona fide testimonials of the hundreds of cured pile sufferers. Send us your name and address for a free trial package. Use it according to directions. The relief you will get will justify your going at once to the druggist for a 50 cent box. All druggists sell the Pyramid Pile Cure. Just like the sample. Accept no substitutes. Pyramid Pile Cure, 78 Pyramid Bldg., Marshall, Mich.

SUBJECT TO  
TAXATIONWisconsin Central Must  
Pay If Threat is  
Carried Out.Land Purchased in Du-  
luth Cannot be Held  
Without Taxes.

One feature of the present deadlock between the city council and the Wisconsin Central officials, which has not yet been brought out, is pointed out by Bert Fesler, the city attorney.

The Wisconsin Central officials, in their conference with the aldermen last Saturday afternoon, dwelt upon the fact that the property which they have acquired in Duluth is a good speculation and can be held.

About 90 per cent of the property needed by the railroad has been purchased outright, and only a small portion is affected by the condemnation proceedings.

Much of the property purchased is not intended for sale. In fact only a small percentage of it will return any interest on the investment.

"It should be remembered also," said Mr. Fesler, "that if this property is not used for railroad purposes it becomes subject to taxation the same as any other property."

## OLD ENGINEER IS INSANE.

Bundock of Billings Will be Returned to  
the Asylum.

Billings, Mont., Jan. 8.—Apparently hopelessly insane Samuel Bundock, an old pioneer, was placed in jail yesterday afternoon pending an inquiry. He is an old civil engineer, and was once employed by the Northern Pacific. He was once confined in an asylum, but was released apparently sound in mind.

At a meeting of the Yellowstone County Bar association in this city this evening it was decided to withdraw the resolution asking the legislature to form a new judicial district, to be composed of Yellowstone and Carbon counties, and submit one asking that the district be composed of the counties of Yellowstone and Park.

The time has come when the appointment of the judge to the governor. Fred H. Hathorn of this city will not be a candidate for the position.

CARDINAL GIBBONS  
GIVES HIS AUTHORITY.

Baltimore, Jan. 8.—Since Cardinal Gibbons issued his statement Dec. 12 last, regarding the church trouble in France, he has received many inquiries from various parts of the country asking for his authority as to the quotation cited by the French minister of public worship. The cardinal credited M. Brindat as saying: "The time has come when the minds of French children the ancient faith and to turn to the purpose and replace it with the light of free thought; it is time to get rid of the Christian idea, the hunt of the church out of the army, the navy, the schools, the hospitals, the universities, the courts, and now we must hunt him out of the state altogether."

Mr. Brindat has denied on the authority of M. Brindat that the latter, as quoted in the French minister's statement as is given in the second sentence of the foregoing excerpt.

The cardinal yesterday gave the quotations were taken from the London Sunday Review of Aug. 18 and Aug. 25, 1906.

BRIDGE TENDER KEEPS  
FAMILY ON \$55 A MONTH.

Milwaukee, Wis., Jan. 8.—Angus McLellan, 29 years old, under the name of Pleasant street, on a modest stipend of \$55 a month, takes good care of a large family. He is the latest recruit to President Roosevelt's anti-race suicide society.

Mr. McLellan is the father of fifteen children. His youngest child is under 2 years of age. He has been married twice. His first matrimonial venture was with a woman who died after a few years. A full generation may be measured between the ages of his oldest and youngest children.

His four stepchildren are full grown and have moved away from the paternal roof, while his youngest child can barely walk alone.

Mr. McLellan is still hale and hearty. He called at the mayor's office and presented two photographs of his family as souvenirs and told the story of his life.

NORTHERN PACIFIC  
IS SHORT OF COAL.

Butte, Jan. 8.—A dispatch to the Miner from Missoula states that the Northern Pacific is short of coal. The situation being aggravated by the extra demand for coal to maintain big rotary piles on the Coast d'Ale line, where the snow in some places is said to be eight feet deep. As it is, that branch of the Northern Pacific through the mountain section is said to be practically snowbound. Coal has ceased coming from the Roslyn mine and the bankers of the company at this place contain only 10,000 tons, a little more than enough to last the balance of the week.

SEARCHERS FOR BODY  
STARTLED BY CRY

(Continued from page 1.)

the scene since midnight, turning from despair to hope, and then to despair. The men were caught among the timbers about midway, between the second and third floors, and the three upper floors of the five-story structure went down. The third man, Thomas Lennon, apparently was killed.

His body was located yesterday after hours of digging. It was buried in a tangle of debris, from which it was freed by the hand of a rescuer. The torso was caught in such a way that it could not be released until tons of timbers and steel which held it could be cleared away. At that time it was not believed possible that the other two men had survived their injuries.

At midnight rescuers were making their way toward the structure cautiously. It was feared that the men would be killed when on the point of deliverance. He had been stunned

when his companions were killed and for hours remained unconscious. When he regained his senses, he heard workmen about him and cried out.

Into the debris a tube was forced and communication with the firemen established.

Through the tube Seufert was given stimulants and a priest heard his confession. Near him Seufert said was the body of Fireman Campbell.

Seufert was taken out of the ruins at 1:45 o'clock. He will live, it is said, but was very weak and his right leg badly injured.

HAPPENINGS IN  
THE DAKOTASProminent Attorney and  
Democrat is Victim  
of Apoplexy.

Leads—Sunday afternoon John R. Wilson, a prominent attorney, was found dead in his office at Deadwood. He had been a prominent Democrat in South Dakota for years, and has served as a delegate to the national Democratic convention at St. Louis, Mo., in 1904.

Apoplexy is assigned as the cause of his death, as he died in a chair. He was general manager of the Gilt Edge Malt Mining company, at the time of his death. He was 53 years old. He leaves a widow.

Southern Falls—Information has reached here of the death, at Valley Springs, of "Grandpa" Fain, aged 92, who, it is thought, was the most aged person in this part of South Dakota. He is survived by two children, two sons and three daughters.

Julius Carland, of the United States court in this city, has appointed John Russell of Deadwood, to the position of referee in bankruptcy, with headquarters at Deadwood. Mr. Russell succeeds Robert Stevens.

Miller—Buffalo hunting is popular on the west side of the Cheyenne reservation this winter. At least six of the shaggy animals are running wild, though they are claimed by a man named Dupree, who first saw them. The hunt is now in progress, and the next one is planned a month later. Only two buffaloes are to be killed in each hunt. The animals are wild and combative, and the hunt is expected to be exciting. The skins are worth \$100 each, and Dupree demands all the hides as his reward from the fruits of the chase.

Aberdeen—It charges made by Rev. A. V. Dahl, a traveling missionary of the Baptist church in this state, are made to

hold, Rev. C. F. Bronson, pastor of the recently united Presbyterian and Baptist congregations, stands a chance of finding himself without a pastorate unless the Presbyterian church decides to ask him to remain.

Soon after the death of Dr. Campbell, the Presbyterian pastor here, a plan was proposed to unite the Baptist and Presbyterian churches. Meetings were held and the consolidation effected. Mr. Bronson, pastor of the Baptist church, being asked to take charge of the combined flock. The arrangement is to continue six months, and if it proves successful, will be made permanent.

It was thought everything was working smoothly, but Rev. Mr. Dahl, after investigating, declared that the merger was forced and that Bronson was one of the prime movers in the work. Dahl charges that many members of the Baptist church were not consulted, that the scheme of unity was hurried through in the face of protests, and that Bronson has destroyed his standing as a minister in the Baptist denomination.

When he arrived here, Rev. Mr. Dahl urged that the action of uniting with the Presbyterian church was denounced at a meeting of the state board of Baptist missions held a few days ago at Sioux Falls, and that Rev. W. C. King, superintendent, expressing the opinion of the board, said that the matter will be brought before the general conference.

SPURNED FATHER OF  
DOWIE GETS A HOME.

Des Moines, Iowa, Jan. 8.—Judge John Murray Dowie of Essex, Iowa, has been confirmed in his claim to the parenthood of John Alexander Dowie by an acknowledgment by the prophet's wife, who has invited him to come to live the rest of his life in her palatial home across Lake Michigan from Zion City. This is the home awarded her by the court, and the father of the prophet accepted her invitation.

After he was divorced from his wife, four years ago, he bought a little home in Essex. He engaged Mrs. Rosa McCall, a widow, to keep house for him, with the understanding that she should have his home at his death.

When he was about to leave for Chicago she attached his property. He settled by giving her \$600 in addition to the \$200 he had already paid her. She retained possession of the home and furniture until spring. He is selling his valuable library.

## COURT NOW IN SESSION

The Federal Calendar Contains Numerous Personal Injury Suits.

The Criminal Cases Will be Few and Unimportant.

The January term of the United States circuit court began at the federal building this morning, with Judge Page Morris presiding. From two to three weeks will probably be needed to complete the work of the term.

The calling of the calendar of law and chancery cases consumed the greater part of the morning session of the court today. There were fifteen cases at law and five cases in chancery on the calendar at this time but six of the law cases were continued over to the next term and one was stricken from the calendar. All of the chancery cases will be heard at some time during this term.

The case, which was stricken from the calendar, was the personal injury action of William Travas against the Duluth Street Railway company. In the case of Fred Roth against Anne Roth, a demurrer has been filed by the defendant's attorney, and Roth's attorney has until the first Monday in February to file an answer. A demurrer has also been filed in the case of John Kelley against the Great Northern Railway company and will be heard later.

Most of the remaining law cases, which will come up at this time, are personal injury actions and each will probably require several days for trial. There is but one case against the United States on the calendar, that brought by Julia B. Oakes, Jane E. Jones, Jane Andrews and Cornelia Van Echten, but other cases may be brought up at short notice.

The grand jury also commenced its session this morning, but no indictments have been returned this afternoon. There is one criminal case, which will probably be the first to be taken up, which was left over from the last term of court. Charles J. Johnson is the man concerned in the case, and will be tried for illegally manufacturing malt liquor. It is advertised as "Juniper Ale" and is supposed to be a soft drink. A. L. Sullivan of Washington, D. C., is in the city and will prosecute the case in conjunction with United States District Attorney C. Haupt. Should Johnson be convicted, the minimum penalty that may be imposed is a fine of \$100 and thirty days' imprisonment.

Probably the only other criminal case of any importance which will come up at this time is that against a man supposed to have secured a pension by fraudulent means. He is accused of having taken the name of a man who died in the war and is making application for a pension from the government. A number of witnesses have been brought to Duluth from Philadelphia to testify in this case. The grand jury may return a few indictments tonight, but it is doubtful if a report is filed by the body before tomorrow afternoon.

Henry D. Lange, clerk of the circuit court; Charles Spencer, clerk of the district court; and Charles C. Haupt, district attorney, all of St. Paul, arrived in Duluth yesterday, and will be in attendance on the court throughout the term.

## PINCHOT HAS A NEW PLAN

Would Equip Forest Reserves with Telephones and Cottages.

Washington, Jan. 8.—(Special to The Herald).—At the session of the committee on agriculture, this afternoon, Gifford Pinchot submitted a proposition which, if adopted, will have an important bearing upon the future of forest reserves. In the first place it is proposed to change the name to national forests, then to equip each with telephone lines, trails and cottages for use of rangers. Mr. Pinchot asks for \$5,000,000 in all for this purpose, and he assured the committee that the expenditure will prove of great benefit to the service, and that it will result in securing far better cash returns from national forests than is now received. The committee appeared to be favorably impressed with the proposition.

## LEAVE OF ABSENCE FOR ALL SETTLERS

Who Suffer From Want of Fuel in the Winter.

Washington, Jan. 8.—In view of the fact that many homestead settlers are said to be freezing in North Dakota and the rules of the department of the interior provide in many cases that residence of the settler shall be continuous, Senator

Washburn has introduced a bill to provide for a leave of absence for all settlers who are unable to reside on their land during the winter.

Washburn's bill provides that any settler who is unable to reside on his land during the winter may apply for a leave of absence for a period of three months, and during that time he may reside elsewhere without losing his claim.

The bill also provides that any settler who is unable to reside on his land during the winter may apply for a leave of absence for a period of three months, and during that time he may reside elsewhere without losing his claim.

Hansbrough has prepared a resolution to relieve the situation. He proposes that the settlers be permitted leave of absence for three months, to extend over the winter period and that this absence shall not interfere with their entry rights. The resolution follows:

"That homestead settlers upon the public domain, in those sections where climatic conditions and other causes of an unusual nature result in personal hardship, are hereby granted a leave of absence from their land for a period of three months from the date of the approval of this resolution. All homesteaders seriously affected by such causes shall make application, by affidavit setting forth the facts justifying the leave of absence applied for, to the register and receiver of the land office of the district in which their land is situated and settlers granted such shall forfeit no rights by reason of the absence allowed hereunder, provided that the period of such absence shall not be deducted from the full time of residence required by law."

Hear Rev. L. Drummond, the famous Jesuit orator in the Cathedral Auditorium this evening.

## COPPER STOCKS HAVE DECLINE

The Market Has Weaker Tone at the Close.

After selling at fairly good prices during most of the session today, copper stocks fell off and closed weaker. A feature of the day was the advance made by Denn-Arizona, which sold at \$11.25 at the opening and advanced to \$11.75, declined to \$11.50 and closed at \$11.50.

North Butte opened at \$11.25, advanced to \$11.75, declined to \$11.50 and closed at \$11.50. Amalgamated opened at \$11.37 1/2, sold as high as \$12.00, declined to \$11.50 and closed at \$11.50.

Greene-Canaan sold at \$23.75, advanced to \$23.75 and closed at \$23.75. Consolidated opened at \$23.75, advanced to \$23.75 and closed at \$23.75.

Amazonda opened at \$28.50, advanced to \$28.50 and closed at \$28.50. Calumet & Arizona opened at \$17.50 and closed at \$17.50.

Superior & Pittsburg sold as high as \$27.50, declined to \$27.50 and closed at \$27.50.

Consolidated sold at \$10 and closed at \$10. Hancock Consolidated sold at \$10 and closed at \$10.

Hear Rev. L. Drummond, the famous Jesuit orator in the Cathedral Auditorium this evening.

## CITY BRIEFS

The Duluth Yacht Club Calendar was designed and executed by the North-Land Printery.

Administrator Sues Company. Joseph Collyard, administrator of the estate of Dominick Nicoletti, deceased, has started a suit in the district court, against Butler Bros., to recover \$5,000 damages alleged to be due for the death of Nicoletti in a mine at Hibbing.

Realty Company Incorporated. Articles of incorporation of the A. R. Fulton company were filed with the register yesterday by H. C. Fulton, J. S. Fulton and C. G. Fulton. The company is capitalized at \$30,000 and purposes to deal in real estate, mortgages, etc.

Alquist Is Insane. Charles Alquist, who was examined in the probate court yesterday afternoon, was found to be insane and an order was made committing him to the state hospital. He is insane that someone is attempting to do him great harm.

Dies of White Plague. Miss Sophie E. Erickson, 27 years of age, died this morning of consumption after a lingering illness. The funeral will be held from the family residence, 135 South street, Thursday afternoon, at 2 o'clock, and interment will be at Park Hill.

Superior Cutlers Forfeit. The rink representing the Superior Curling club shipped by A. K. Smith forfeited the fourth game of the first series in the Manley-McLennan trophy contest, which was to be played tonight, to Huron's rink. The first three games went to the Duluth rink leaving the Superiors twelve points down, with the contest hopelessly lost. The second series will be played in Superior this evening.

Hear Rev. L. Drummond, the famous Jesuit orator in the Cathedral Auditorium this evening.

Mrs. F. G. Beyerly is quite seriously ill at her home, 417 Second avenue east.

Miss Blossom Scott, 17 East Superior street, is home from a few days' visit to the Twin Cities.

Louise Rouleau returned yesterday from New York.

Mr. James Robertson and daughter left for Marquette, Mich., today.

Mr. and Mrs. Cuyler Adams left for Boston en route to Europe today.

W. B. Patton left for Philadelphia, Pa., today.

D. Casmir left today for Chicago.

Miss Irma Presentin left for Chicago today.

C. A. Remington of Hibbing, Minn., is a guest at the St. Louis.

M. S. Burrows has returned from the East and is at the St. Louis.

WATCHMAN MURDERED. Provisional R. I. Jan. 8.—Samuel Slater, for seventeen years night watchman at the Glenlyon Dye works of the Saylesville Bleachery, was shot and killed early today by one of two robbers whom he surprised in the finishing room of the establishment. The robbers escaped.

## WOULD HAVE LOWER FARE

Governor Hoch Believes Railroads Should Reduce Rates.

All Passes in the State Should be Forbidden.

Topeka, Kan., Jan. 8.—The legislature reconvened here today in biennial session. Governor Hoch will not be inaugurated for his second term till Monday, Jan. 14. Great interest centers around the selection of a successor of Alfred W. Benson, United States senator, whose term expires on March 4. As the legislature is overwhelmingly Republican, a member of the party is elected.

In his message Governor Hoch recommended the passage of a law forbidding the giving of free railroad passes to any except actual railroad employees and said:

"I recommend the appointment of a committee to hear arguments for and against a proposition to reduce railroad fares in this state. A reduction of railroad fares is sure to come. It is only a question whether or not that time has arrived."

He said the board of railroad commissioners should have a larger contingent fund and be able to employ an expert to make a thorough investigation of freight rates.

Of the bills passed by the last legislature directed against the Standard Oil company, he said:

"The maximum freight rate law and the anti-discrimination law have made possible the establishment of an independent oil refinery, all of which are in successful operation. Other similar institutions are projected and some are in process of construction. These laws are saving the users of coal oil about \$900,000 every year."

This legislature could do the common cause great good by commencing in joint resolution an anti-trust law, particularly to the favorable consideration of other states. He said he believed there is no more hopeful industry in the United States than the best sugar industry, and he favored a protective tariff to aid it.

He favored the establishment of a state bank, to be worked by the inmates of that institution.

He favored a law providing that banks set aside a certain amount from their deposits as an insurance fund for depositors.

He favored a primary election law and recommended a law providing severe penalties for the violation of statutes now in force.

He said the prohibitory law has been a great success, citing the fact that 200 saloons in Kansas City alone had recently been effectively closed and the mayor of that city ordered from office for non-enforcement of this statute.

Kansas must take no backward step in this matter, said Governor Hoch, who said that additional laws be passed which would prevent from office for non-enforcement of this statute.

He said that the traffic in liquor is a serious one, that must be solved, if solved at all, by the state, and he declared, "realize this fact."

Municipal suffrage has proven a success and he urged that the right given women to vote be extended.

## MUST REVOKE ALL LICENSES

Of Saloonkeepers Who Violate Ordinances in Wisconsin.

Madison, Wis., Jan. 8.—The supreme court today decided the city councils must revoke licenses of saloonkeepers violating city ordinances. The Madison council last summer refused to revoke the licenses of violators. The circuit court declared the action obligatory and this action the supreme court sustains.

## MACEY DOLLAR DESK FILE

A simple device for following up orders, inquiries, remittances, engagements, appointments, reports, collections, etc.

Made of quarter-sawn oak, for use on office desk or table, nicely indexed. Every office man, bank, lawyer, bookkeeper, needs one. They save you time, worry and labor.

## SPORTS OF THE DAY

## COME INTO THE TRUST

## Tri-State Outlaw League Surrenders to Professional Ball.

## Was Only Refuge for Contract Jumpers From Big Teams.

Cincinnati, Jan. 8.—By the favorable action taken by the national baseball commission yesterday on the application of the Tri-State league of Pennsylvania for protection under the national agreement, the refuge of contract jumpers has been destroyed and the national game placed on a firmer basis than ever before in the history of the sport in America.

But little difficulty was experienced in arriving at an agreement. The committee from the Tri-State league headed by President Carpenter, presented the application and after some deliberation an agreement was reached by which the Tri-State comes into the national agreement subject to the endorsement of the national association which meets in New York today, and for which meeting the delegates left immediately after the close of their conference with the national commission.

The agreement entered into by the committee and the Tri-State league provides as follows: The question of classification and circuit of the new members shall be determined by the national association which meets in New York today; all players who have heretofore violated national agreement contracts shall not be allowed to play with any club except those of the Tri-State league; players from the Tri-State, except contract jumpers who have signed contracts with national agreement clubs, are to remain the property of the clubs that have signed them.

All major league players in the Tri-State league who are not contract jumpers, are to revert to the clubs having title to them. In case of dispute over title to these players, the national commission shall decide the ownership. Minor league players coming under this rule are to have their titles fixed by the national association. Contract jumpers who are to be compelled to return to National agreement clubs any money that had been advanced them by the Tri-State league applies to Tri-State league players who have signed with national agreement clubs. The national commission which preceded the consideration of the outlaw application, August Hermann was re-elected chairman and John T. Brush, secretary.

The applications of players, Wiggins, Wilkie and Broderick for re-instatement were refused.

The next schedule committee of the National and American leagues will meet today to consider dates for the ensuing year.

## GANS AND BRITT.

## Another Finish Fight Will Be Held at Tonopah, Nev.

San Francisco, Jan. 8.—Articles were signed yesterday for a finish fight, by representatives of Joseph Gans and James Britt at Tonopah, Nev. The prize of \$25,000. Both are to weigh 133 pounds two hours before the contest. The prize is to be divided 50 per cent to the winner and 50 per cent to the loser. Each man will be allowed \$100 for training expenses.

## THE STRIKE IS DECLARED OFF

## Officials and Men on Southern Pacific Reach Agreement.

Houston, Tex., Jan. 8.—The strike of the Southern Pacific firemen was formally declared off at noon yesterday, following the signing of an agreement by Vice President and General Manager Thornwell, Pay and General Manager W. G. Van Vleet for the Harriman roads against the strike. The agreement was signed by the Brotherhood of Locomotive Engineers and Vice Grand Master Timothy J. Sullivan, Brotherhood of Locomotive Firemen and Enginemen.

This agreement went into effect at noon. It provided that the firemen shall determine whether or not the Southern Pacific railway abrogated its contract with the firemen when it signed the new agreement, May 1, 1906, with the engineers. The company shall name one of the board, the firemen shall name a second and the two thus chosen shall select a third.

All employees who went on strike shall return to their former positions without prejudice to their rights.

The seniority of engineers who went on strike shall be determined at a meeting of the general board of adjustment of the Brotherhood of Locomotive Engineers of the Southern Pacific railroad, Atlantic system, at a meeting to be held in Houston, Thursday, Jan. 10.

What each organization shall concede will be determined by the board of arbitration.

## CORNER IN SPORTS

Basketball is the latest game to enter the class of professional sports. Good basketball players now command as good, or nearly as good salaries, as the first class professional ball players. In the big Eastern cities, a Pittsburgh team is said to have one man who is paid \$300 a month for playing eight games.

Good players are in great demand by the big Eastern teams and the professional sport is rapidly becoming established throughout the East.

The success of professional baseball appears to have paved the way for all kinds of professional sports that were not dreamed of a few years ago.

Hockey, football, wrestling, bowling, and a score of other sports have been seized upon by promoters who are turning them to account as a means of livelihood, and incidentally furnishing employment for hundreds of athletes who originally took up the sport as a diversion or an exercise.

## SKATERS MAY GET TOGETHER

## Alroth and Rankin Are Negotiating for a Match.

"I will race Rankin three mile heats, or three heats of any distance from a mile to two miles, or three heats, the first to be made in the Copper country or at St. Paul, all expenses paid, and the winner to take all of a two year championship of the Head of the Lakes last winter over Alroth. Rankin thinks it no more than fair that Rankin should race him the same distance this time."

Rankin, a mountaineer, last man on the half, having made Noval Buple let himself out his pace for a mile distance, but his speed is not so good as Alroth's. Alroth is essentially a distance man, and he is not so sure of going up against Rankin on a short dash.

Alroth has written to Rankin the conditions under which he will race and is awaiting a reply.

Should the Duluth skater go to the Copper country, it is probable that Rankin will give him a return race in the Central rink here, as that was the understanding of the Copper country race's proposition to Alroth.

## GRAFTER IS BADLY FOOLED

## Member of Pittsburg Council Fails to Get His Boodle.

Pittsburg, Kan., 8.—Sensational testimony was given yesterday in the \$200,000 "graft" case, when it was proved that a member of the Pittsburg and Tulsa City Railway company, who was also implicated in the "graft" scandal, had been paid a \$10,000 bribe to give the Pittsburg and Tulsa City Railway company an entrance into the Pittsburg market.

Among the witnesses were J. H. Millholland, a civil engineer for the railroad company; C. B. Richardson, a broker and member of the common council, was put on trial in the criminal court charged with collecting a bribe for the passage of the ordinance.

Richardson testified that he had placed a \$10,000 certified check in a safe deposit box which was to have been given to him by the Pittsburg and Tulsa City Railway company. He also testified that he had ordered him to deliver the keys of a safe deposit box back to Cameron, re-elected Mayor of Pittsburg, who had been removed from office by the city ordinance over the mayor's veto.

Millholland also testified that \$20,000 in cash was subsequently placed in safety deposit boxes, first at the Colonial Trust company and then at the Union Trust company for Martin. Millholland held the key to one box and the key to the other was in the hands of another safety deposit box at the Farmers' Deposit National bank. He also testified that he had ordered him to deliver the keys of a safe deposit box back to Cameron, re-elected Mayor of Pittsburg, who had been removed from office by the city ordinance over the mayor's veto.

C. B. Richardson, the broker, told of the mysterious disappearance of the \$10,000 which he had loaned to Cameron and of Cameron's refusal to return the money and his subsequent disappearance. Richardson also testified that he had been paid a \$10,000 bribe to give the Pittsburg and Tulsa City Railway company an entrance into the Pittsburg market.

## FIRM HOLD

## ON TROPHY

## Duluth Curlers Have Defeated West Duluth and Superior.

The Duluth Curling club seems to have a pretty firm hold on the Manley-McLennan trophy again this year.

## Will Probably Hold Manley-McLennan Cup Another Year.

Three Superior rinks came to Duluth 14 skaters and met three Duluth rinks, losing by twelve points. All three Duluth rinks won their games. The fourth game will be played this evening, when A. K. Smith will bring over a rink to play the Hudson rink.

The Duluth rinks last evening were skipped by R. MacLeod, Roy Smith and A. W. Frick, while the Superior rinks were skipped by R. Stephenson, W. E. Maddock and D. C. Gates.

The game between Smith and Hudson tonight will complete the first set of games, and there is no doubt but that the Duluth club will win it. The Hudson rink will have to defeat MacLeod's rink to win the trophy.

This will give the Duluth club the first victory over both the Western and Superior clubs.

The return match with the Western club will be played this afternoon and this evening at the Western rink. It is necessary to play one of the games in the afternoon and the other in the evening. The Western rink will play in the afternoon, the rinks being as follows: Pettum, Jamar, Stanke, Dunlop, skip; Hamilton, Weddell, Boutin, Philpault, skip.

The return match with the Superior club will be played this evening. The rinks will be as follows: Kennedy, McBride, Whyte, C. D. Brewer, skip; Kennedy, Foreyth, Day, Macrae, skip; Park, Cutler, Reicher, West, skip; Scott, Hewitt, Meldahl, Macaulay, skip; Hill, McDonald, Zauf, Melrump, skip; Method, Silger, Ashley, Hanchett, skip.

## WINS ROLLER RACE.

## Duluth Skater Too Fast for Phil Busha of Superior.

Walter Wiggins of Duluth won the first of a series of five roller skating races from Phil Busha of Superior last evening at the Temple rink.

## STEAMER HAD PERILOUS TRIP

## Captain of City of Panama Relates Story of Voyage.

City of Mexico, Jan. 8.—Lewis Kaiser, United States consul at the port of Mazatlan, Mexico, has telegraphed to the Association Press the story of the southbound trip of the Pacific mail line steamer, City of Panama, which for days was thought to have been lost off the California coast. Throughout the voyage, the steamer was beset by a heavy sea, and the captain, Manuel Acuna, a Chilean, who was a member of the crew.

## NELSON WILL BE RE-ELECTED

## (Continued from page 1)

the consideration, while the people go home.

So far as Knute Nelson is concerned, he ranks as a good United States Senator. He is industrious, energetic, and his record is a credit to his state. He is a man of high character, and his support is worth more than any other.

Minnesota, beyond any question, is a state of high character, and his support is worth more than any other.

Who knows where Knute Nelson stands on the tariff revision? He is a revisionist, or is he a standpater? Nobody knows, and nobody is going to ask him. He is a man of high character, and his support is worth more than any other.

Minnesota, beyond any question, is a state of high character, and his support is worth more than any other.

Who knows where Knute Nelson stands on the tariff revision? He is a revisionist, or is he a standpater? Nobody knows, and nobody is going to ask him. He is a man of high character, and his support is worth more than any other.

Minnesota, beyond any question, is a state of high character, and his support is worth more than any other.

Who knows where Knute Nelson stands on the tariff revision? He is a revisionist, or is he a standpater? Nobody knows, and nobody is going to ask him. He is a man of high character, and his support is worth more than any other.

Minnesota, beyond any question, is a state of high character, and his support is worth more than any other.

Who knows where Knute Nelson stands on the tariff revision? He is a revisionist, or is he a standpater? Nobody knows, and nobody is going to ask him. He is a man of high character, and his support is worth more than any other.

Minnesota, beyond any question, is a state of high character, and his support is worth more than any other.

Who knows where Knute Nelson stands on the tariff revision? He is a revisionist, or is he a standpater? Nobody knows, and nobody is going to ask him. He is a man of high character, and his support is worth more than any other.

Minnesota, beyond any question, is a state of high character, and his support is worth more than any other.

## PROMOTER ARRESTED

Charles Mansfield's High Finance Methods Are Not Appreciated.

Partner Charges Him With Having Raised a \$48 Check.

Charles H. Mansfield, alleged to be the senior partner of the Mansfield-Malburg Manufacturing company, and a junior member of the Mansfield-Robertson Manufacturing company, was arrested at the union depot in Superior yesterday charged with check raising. The warrant was sworn out by Philip Malburg, one of his business associates.

Mansfield was brought back to Duluth and last evening occupied a cell in the city jail. Mansfield came to Duluth from Little Falls, Minn., several weeks ago and opened an office in the Burrows building. He advertised for a partner to engage with him in the manufacture of extract of albumen, a substitute for the white of an egg, and to be used in the manufacture of choice confections. One of the qualifications of the partner was that he was to furnish \$500 of the capital.

Philip Malburg, a carpenter, residing at 314 East Ninth street took up Mansfield's proposition and the Mansfield-Malburg Manufacturing company made preparations to open a factory at 1631 West Michigan street. It is claimed that Malburg furnished \$500 cash as his share of the capital and that Mansfield deposited a sight draft of \$500 on some New York concern as his part of the capital.

Mansfield, according to the police, formed another partnership with David Robertson, and it was decided to open a factory in the East end. Robertson deposited \$500 in the City National bank to the credit of the Mansfield-Robertson Manufacturing company.

Some freight arrived yesterday consigned to the Mansfield-Robertson Manufacturing company. By mistake, it was delivered to the Mansfield-Malburg company. Mr. Robertson and Mr. Malburg met and began comparing notes and the result of their meeting was a determination to investigate Mansfield's business. They found at the American Exchange bank that Mansfield had cashed a check of \$448. Malburg claims the check was raised from \$48 to \$448. The matter was put in the hands of Chief Troyer and Detective Serry arrested Mansfield as he was about to take the Northern Pacific train at Superior for Ashland.

## THE STAGE

### TONIGHT'S ATTRACTIONS.

LYCEUM—Max Fleeman in "The Man on the Box."  
METROPOLITAN — Burlesque, with Frank Goteh, champion wrestler.  
BIJOU—Vaudeville.

### COMING ATTRACTIONS.

LYCEUM—"Peggy From Paris," Friday and Saturday.

### AT THE BIJOU.

Good Bill This Week at Popular Vaudeville House.

The bill at the Bijou theater this week seems to have made a substantial hit with the patrons of that popular little place of amusement. The three Valentines, sensational gymnasts, are the feature of the interesting program. They are a big hit.

Collins and Hawley are clever singers and dancers and W. Hart is the vehicle of black-face monologues, artist, of which patrons of the Bijou are justly proud. The three Masquerade sisters are character artists of no mean ability and they make a good impression. Vaudeville. Clairville are also gymnasts, and capable ones. Ladies about to take the "Meet Me in Honeysuckle Time" and the moving pictures are fraught with much interest.

Farce Comedy at Lyceum. Harold MacGrath's delightful little novel, "The Man on the Box" is the vehicle chosen by Max Fleeman to mark his comedy talents.

The play is full of droll situations, arising from the plan of the hero of the story to masquerade as a coachman for the sake of being near the young lady of his choice.

Mr. Fleeman is said to have a happy faculty for clever stage management, and critics have applauded the good stage "business" which accompanies the lines.

The play is a joint production which should give it a standing as well as be seen at the Lyceum tonight and tomorrow.

GEORGE ADE PRODUCTIONS. Two of George Ade's greatest successes are coming to the Lyceum in the near future.

"Peggy From Paris" will be the attraction Friday and Saturday evenings, with a Saturday matinee. The County Chairman, one of his first and best known comedies, on Saturday, Jan. 12.

BURLESQUE AND WRESTLING. In addition to the entertainment given by the Championship, Frank Goteh will meet a local "unknown" named Peterson, at wrestling, at the Metropolitan this evening. The show has been described as very good. There are no less than six specialties in the clip and every one of them has been favorably received during the week. On Thursday, there will be a matinee for ladies.

### PLAINTIFF IN TIGHT PLACE.

Married Woman Suing Married Man for Breach of Promise.

Fergus Falls, Minn., Jan. 8.—The decision of the supreme court reversing the district court of this county in the case of Josephine Sveve vs. Hildus H. Lunder, and remanding it back for retrial, has placed the plaintiff in a rather peculiar position.

The suit was for breach of promise. Miss Sveve asserting that Mr. Lunder had been engaged to her, and had afterwards deserted her and had married another woman. The case was tried some time ago and the jury gave a verdict for \$1,500. Since the trial Miss Sveve has married, and in case of a retrial, she will occupy the unusual position of a married woman suing another woman's husband for breach of promise. On the other hand, if the action is dropped, she loses what promised to be a very snug little fortune.

# Sales of Handsomely Tailored Suits, Gowns, Wraps and Furs

Are Breaking all Our  
Past Selling Records---

And Now the White Sale Joins Hands!

**T**ODAY'S splendid response is again proof of the very excellent values—the good news keeps traveling and the store keeps getting busier as the sale progresses! Stocks have been heavy and assortments are still excellent—where stocks have become quite badly broken they are cleaned out at even below half former prices. Women who have clothes buying to do at this time can't afford to think of buying them without visiting the Gidding Establishment—for everyone who has been here says it is the most pretentious value-giving event ever inaugurated by a Duluth store.

## There Are Still Beautiful Lines of High-Class Suits to be Cleaned Out at Half and Even Less Than Half Their Former Selling Prices!

YOU HAVE TO SEE THEM TO FULLY APPRECIATE THE LOW PRICES

An almost endless range of styles to choose from, as stocks were very heavy—we haven't put by our best sellers as is the case with many stores, but have included our entire lines—Handsome Imported Novelty Materials—Neat Mixtures and Rich Broadcloths and Velvets—most of them styles that can be worn right through the Spring and Summer—regular selling prices have been \$19.50 to \$87.50—at Half Price they are \$9.75 to \$43.75.

### Many Lines of Skirts Are Now on Sale at Half Price

Included are Cream White Serges, Voiles and Panamas, Novelty Plaids, Stripes and Mixtures—tan, blue and reseda green, Voiles and Evening Shades in Chiffon Panamas.

### Cloth Shirt Waist Suits on Sale at Half Price

Serges, plain or fancy Panamas, Voiles and Worsteds—black, navy, brown, cream, white and pin stripes and checks—regularly selling at \$15.00 to \$35.00—at half, \$8.25 to \$17.50.

## Rich Beautiful Fur Sets, Fur Coats, Fur Lined Coats—Decided Clearance!

Beautiful Neck Scarfs and Muffs of Dark Rich Mink, Lustrous Black Lynx, Beautiful Ermine and Chinchillas, Quiet but Rich Broadtails and Persian Lambs, Serviceable Martens, Fox, Grey and Blue Wolf, and a dozen and one other kinds of furs. All made up into Fashionable Neck Pieces and Muffs.

Fur Coats and Fur-lined Coats—excellent assortments are still here, notwithstanding the past several days' very heavy selling.

Fur Coats—Of Persian Lamb, mink trimmed. Of Gray or Sable Squirrel or Near Seal. Of Baby Astrakhan. In Jacket or Blouse styles. Box Coat styles and short effects.

Fur-lined and Fur-trimmed Coats—with collar—or collar and cuffs—of Fine Mink, Baum Marten, Persian Lamb, Black Lynx, Marten and Squirrel. Fur-lined throughout, satin lined throughout or part satin lined.

## Handsome Gowns and Wraps For Very Dressy Functions Are Now Being Closed Out at Half Their Former Very Low Prices!

And in some instances Less Than Half former prices. There is no question but that it is the opportune time for buying a party, reception, dinner or theater dress or wrap—you couldn't begin to buy the material alone for what you can get

the whole dress now—and discriminating women say they are more beautiful than any that could possibly be made by any local modistes—they are all hand-finished and bear every ear-mark of the high-class modiste of New York. The simpler dresses range in price from \$22.50 to \$45.00—at Half they are \$11.25 to \$22.50—the more elaborate gowns range from \$39.50 to \$200.00—at Half they are \$29.75 to \$100—the wraps range from \$25 to \$125—at Half they are \$12.50 to \$62.50.

Many of the above are just what is Wanted for Wear at the Winter Resorts.

## THE WHITE SALE STARTED TODAY WITH FLYING COLORS!

### An Altogether New Series of Models!

It was organized with a definite purpose. up, and you  
pay just

### ONE HALF

## WEST END ADDITION IS PLANNED

Owners of Columbia Block  
Are Considering Exten-  
sive Improvements.

Sleigh Ride Party Has  
Runaway—Other West  
End News.

Owners of the Columbia block, at  
the corner of Twentieth avenue west  
and Superior street, are contemplating  
an addition to the building in the  
near future.

The structure is occupied on the  
ground floor by the clothing store of  
S. Morterud and the dry goods store  
of the Gujer-Prytz company. On the  
second floor are lodge rooms and  
halls.

### property. Stryker, Manley & Buck are the local agents.

## MEN JUMPED OUT And Left Young Women in Sleigh Behind Runaway Team.

Twenty-two young people of the  
First Swedish M. E. church enjoyed  
a sleighride to New Duluth Friday  
evening, the pleasure of the occasion  
being marred only by an insignificant  
runaway, which caused some little  
excitement for a time.

The young people were in one of  
those long, low outing sleighs. At  
Fifty-sixth avenue west the horses  
became frightened at something, and  
the driver lost control of them for the  
time being.

Rumor has it that the young men  
in the party lost no time in escaping  
from the conveyance, leaving the  
young women to get out as best they  
could. Even the driver failed to stick  
to his post, according to authentic  
report.

### Wednesday evening, A. Thoren; Thursday, Mrs. P. E. Almen; Friday, Carl Persson, and Saturday, Ed An- derson.

## OFFICERS ARE INSTALLED. Modern Samaritans of the West End Hold Installation Exercises.

Officers of Beta council and the  
Beneficent Degree, Modern Samaritans,  
were installed with appropriate  
ceremonies at Columbia hall, in the  
West end, last evening. Imperial  
Vice Good Samaritan John Christia,  
Chief Messenger W. B. Henderson  
and Imperial Scribe W. A. Hicken  
were in charge of the installation.

The following officers of Beta coun-  
cil were installed: Post good samari-  
tan, C. E. Dice; good samaritan,  
Christ Anderson; vice good samari-  
tan, Joseph Olson; high priest, J. A.  
Anderson; centurion, Michael Bur-  
netto; chief messenger, A. Otterson;  
watchman, David Beldan.

The following officers of the Bene-  
ficent Degree were installed: Past  
lady good samaritan, Mrs. A. Fur-  
rington; lady good samaritan, Mrs.  
H. Gardner; lady vice good samari-  
tan, Mrs. E. Vanier; lady high priest,  
Mrs. Joseph Olson; centurion, Mrs.  
L. Anderson; chief messenger, Mrs.  
F. Wahl; watch, Mrs. D. Perr.  
C. E. Dice and Mrs. A. Farrington,  
past good samaritans of the two  
lodges, were presented with a set of  
silver spoons and a dozen hand-  
painted dishes. A short program  
was given in addition to the installa-  
tion ceremonies. Andrew Nelson, A.

### G. McKnight and Dr. O. A. Oredson spoke. After the exercises there was dancing.

## A PROSPEROUS YEAR. The Swedish Mission Congregation Has Made Very Good Progress.

The most prosperous year in the his-  
tory of the Swedish Mission church in  
the West end has just ended, and a  
new set of church officers elected to  
take charge of affairs during the com-  
ing year.

E. G. Ek, who has been church sec-  
retary for a number of years, was re-  
elected. Fred W. Erickson was elected  
treasurer, and Emil Smedberg super-  
intendent of the Sunday school, which  
is a large one.

The income of the church last year  
was the largest it has ever experienced  
and the mortgage on the church prop-  
erty was wiped out. The church boasts  
of 400 members and in the Sunday  
school are 322 children. Thirty-six  
teachers give them their Sunday school  
lessons every week. There is also a  
branch Sunday school in the East end,  
of which John Turquist is superin-  
tendent.

### Rev. J. A. Anderson, pastor of the First Swedish M. E. church and Rev. J. W. Loughridge, pastor of the Cen- tral Baptist church.

## West End Shortfalls. Mrs. Emily Sundeen of Litchfield, wife of Rev. Sundeen, once pastor of the Swedish Mission church, is visiting in the West end, the guest of Mr. and Mrs. Alfred Swedberg. She sang at the Swedish Mission church Sunday evening.

The Swedish Christian Sick Benefit  
society will hold its annual midwinter  
festival and entertainment at Sloan's  
hall Feb. 1. Committees to make all  
arrangements have been appointed and  
are at work.

John Jacobson has returned from the  
Pacific coast, where he met a number  
of former Duluthians, among them,  
Charles Schell. He declares that Mr.  
Schell, engaged both in the tannery  
and building business, is very success-  
ful. Mr. Schell is located at Seattle,  
where a number of former residents of  
the West end are living.

Mr. and Mrs. John Chapman of 2821  
North Twenty-first avenue west  
have returned from Fergus Falls,  
where they have been visiting friends.  
The marriage of Miss Hilma Nyberg  
and Julius Hogstrom is scheduled to  
take place on the evening of Jan. 15 at  
the home of Oscar F. Strom, 224 Twen-  
tieth avenue west.

Your prescriptions will be properly  
filled at the Lion Drug store.  
Miss Ruth Johnson has gone to Den-  
ver, Colo., to visit her sister, Ida. Miss  
Ida will return to Duluth with her  
sister.

### Rev. J. A. Anderson, pastor of the First Swedish M. E. church and Rev. J. W. Loughridge, pastor of the Cen- tral Baptist church.

## Many at Funeral. Services for Oscar Johnson at First Swedish Baptist Church.

The funeral of Oscar Johnson, the  
13-year-old messenger boy who was  
killed by a train last week, was held  
Sunday afternoon at the First Swedish  
Baptist church and was one of the  
saddest and most largely attended ever  
held in the West end. The church was  
crowded with friends and relatives of  
the Johnson family.

The lad's Sunday school classmates  
acted as pallbearers. The services were  
conducted by Rev. A. Edstam, pastor  
of the church, and he was assisted by

## RATS FULL OF DYNAMITE. Farmer Afraid to Kill Rodents Swarming in His Barn.

Worcester, Mass., Jan. 8.—Charles B.  
Dana, an Oxford farmer, would like some  
advice as to how to get rid of a family  
of rats fattened on a diet of dynamite.  
Dana lives in mortal terror of the  
"animal bombs," as he calls them. His  
barn is full of them. He can't kill them  
for fear they will explode while being  
assassinated, and if he lets them stay in  
the barn he is afraid one of them will  
commit suicide by falling from the hay-  
mow and distribute his barn, farm im-  
plements and livestock over the sur-  
rounding country.

Dana stored a box of dynamite in his  
barn for the winter. A few days ago  
he discovered that rats had eaten every  
bit of it. He said that since the dynamite  
disappeared, he has seen more rats  
and larger ones than ever before in his  
life.

Dana is trying to entice a rat away  
from the barn for experimental purposes,  
but has had no success.

Dana is trying to entice a rat away  
from the barn for experimental purposes,  
but has had no success.

### Rev. J. A. Anderson, pastor of the First Swedish M. E. church and Rev. J. W. Loughridge, pastor of the Cen- tral Baptist church.

## ADVENTISTS SCRAP; ONE IS CALLED LIAR.

Chippewa Falls, Wis., Jan. 8.—A sena-  
tion was created in the Seventh Day Ad-  
ventist Sabbath school of Stanley, when  
Superintendent E. A. Tyler rejected the  
minutes of the last session as read by  
Secretary Alvin Baker, because Baker  
had mentioned the name of Mrs. Cam-  
eron, a sister who had been dismissed  
from the fold.

Baker was determined the minutes  
should stand as read and called the su-  
perintendent a hypocrite and liar. Mrs.  
Tyler interposed and Baker complimented  
her in a similar fashion, adding:  
"Wish they would go to a warm place  
at the close of the earthly life."

This was quickly done, and the dis-  
turbance was soon brought to a  
close. Just as the session was about to  
close, the minutes were read and the  
Adventists quickly assembled. Here it  
was decided Mrs. Cameron was guilty of  
no wrong and she was dismissed. Baker,  
however, did not escape, but the judge  
was as merciful as possible, and fined  
him only \$2.50.

Baker defended himself by saying his  
charge was in strict accordance with  
formality to Holy Writ, and he exulta in  
his misfortune, which, he says, will  
heap coals of fire upon the heads of his  
persecutors.

## MRS. BAKER DIES IN COUNTY JAIL

### Insanity Suspect and Victim of Morphine Passes Away.

Mrs. Mary Baker, the woman who was yesterday taken in charge by the police being thought insane, and who was to have been examined before Judge Middlecott this afternoon before commitment to Fergus Falls, died about noon today in the county jail. Mrs. Baker was suffering from the excessive use of morphine, and late last evening fell into a stupor from which it was necessary to use stimulants to arouse her. She passed away quietly falling into a deep sleep from which she did not awaken.

Mrs. Baker was for twenty-five years a resident of this city and quite widely known here.

### COSTLY JOKE.

Kansas City Star: "The story of Billy Holtham's costly joke illustrates that the laugh is not always on the side of the joker."

"The incident occurred a short time after the Civil war, when Holtham was assistant operator at Denver, Colo. In those days two operators did all the work in the Denver office. Holtham opened the office one morning, took the daily paper and began reading about the war between Germany and France. All at once, the desire to perpetrate a practical joke seized upon him. Taking the pencil from his pocket he imitated the following cablegram upon one of the office blanks:

"To the Emperor Napoleon, Garden of the Tuilleries, Paris, France: Colorado will not accede to the cession of Germany to France. Please let Bohemia alone. Governor Gilpin or any other man."

"Holtham called up Omaha and sent the cablegram to the man on duty there, just as he would have sent a bona fide cablegram."

"Omaha was the repeating office for all Eastern business. Holtham then tore up his copy and threw the remains in the waste basket. Then he sat down and laughed. He supposed that the man on duty in Omaha would, of course, see the joke, and, after laughing himself over it, would throw his copy into the waste basket. But the Omaha operator was a man who took everything seriously, and, hatching the cablegram on the New York

ORDER FOR HEARING CLAIMS.

State of Minnesota, County of St. Louis.

In Probate Court, General Term, Jan. 7, 1907.

In the Matter of the Estate of Jean Baptiste St. Emile, Deceased. Letters of administration on the estate of Jean Baptiste St. Emile, deceased, late of the County of St. Louis, State of Minnesota, being granted to Ida St. Jacques.

IT IS ORDERED, That six months be and the same is hereby allowed from the date of this order, in which all persons having claims or demands against the said estate, or who are required to file the same in the Probate Court of said County, for examination and allowance, or of being forever barred.

AND IT IS FURTHER ORDERED, That notice of this order be published in said estate by publishing this order once in each week for three successive weeks in the Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County.

Dated at Duluth, Minnesota, this 7th day of January A. D. 1907.

By the Court, FRANCIS A. WATKINS, Judge of Probate of Carlton County, Acting Judge of Probate of St. Louis County, Minn.

(Seal, Probate Court, St. Louis County, Minn.)

Duluth Evening Herald, Jan. 8, 15 and 22, 1907.

ORDER FOR HEARING APPLICATION FOR APPOINTMENT OF ADMINISTRATOR.

State of Minnesota, County of St. Louis.

In Probate Court, General Term, Jan. 7, 1907.

In the Matter of the Estate of William J. Emley, Deceased. On receiving and filing the petition of Anna C. Emley of the County of St. Louis, representing, among other things, that William J. Emley, late of the County of St. Louis, in the State of Minnesota, on the 18th day of December A. D. 1864, at the County of St. Louis, died intestate, and being an inhabitant of this County at the time of his death, leaving goods, chattels, and estate within this County, and that the said petitioner is the widow of said deceased, and praying that administration of said estate be to William Emley granted.

IT IS ORDERED, That said petition be heard before said Court on Monday, the 4th day of February A. D. 1907, at ten o'clock A. M., at the Probate Office, in the Court House in the City of Duluth, in said County.

ORDERED FURTHER, That notice heretofore given to the heirs of said deceased and to all persons interested, by publishing this notice in each week for three successive weeks prior to said day of hearing, in the Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County, be served upon the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.

By the Court, FRANCIS A. WATKINS, Judge of Probate of Carlton County, Acting Judge of Probate of St. Louis County, Minn.

(Seal, Probate Court, St. Louis County, Minn.)

Duluth Evening Herald, Jan. 8, 15 and 22, 1907.

hook, thought nothing more about it. "This happened about the middle of the month and nothing more was heard of the fateful cablegram until about the middle of the following month, when Mr. Woodward, the Denver manager of the Western Union office, received the following message from the secretary of the cable company in New York:

"Please come down with the dust." "Woodward scratched his head, but could not solve the enigma, and replied:

"Don't understand your message about dust. Please explain." "In due time an answer was received, saying:

"Your cablegram to Emperor Napoleon, Garden of the Tuilleries, Paris, France, signed Governor Gilpin or any other man, \$187.50 in gold, please remit."

"At this juncture Billy Holtham stepped in and pushing the message toward him, Woodward remarked:

"What do you suppose that New York idiot means by that?" "Holtham read it, and, turning pale, blurted out: 'Why I sent that thing to Omaha as a joke, supposing the man receiving it there would see the point and throw his copy into the waste basket, as I did with mine.'"

"Joke!" replied Woodward, angrily. "Do you understand that gold is now worth just two to one, and that the cost of your little joke is \$375?"

"Manager Woodward wrote a letter to the cable authorities explaining the matter to them, and asking that the cablegram be canceled, but they were intransigent and demanded payment in full. At that time cablegrams were enormously high, and payable in gold at that. The result was that poor Holtham had to make the amount good, and the telegraph company permitted him to pay \$50 a month until the whole sum was paid. Fortunately, operators were then paid \$125 a month salary, and it was not as hard on Holtham to liquidate the obligation as it would be upon a telegrapher at the present day, with salaries so greatly reduced."

"The late Edward Rosewater, who was manager of the Western Union office at Omaha when the incident took place, secured copies of the cablegram and of all the correspondence relating thereto and put the whole thing in a book, and it is, no doubt, somewhere among the collection of telegraphic curiosities."

**COSTLY MINING.** More than double the amount of money taken out in gold in the Nome district was expended during the last season in the purchase of supplies and development work, and of the Portland Oregonian. In other words, two dollars were expended for every dollar that was taken out of the ground in the form of mineral wealth. The Nome district produced \$4,000,000 in gold, and \$12,000,000 or even more, was expended in the district.

This is according to a conservative estimate made by John Rigby, chief engineer of the Nome Improvement company, who has returned to Portland for the winter.

"Last season was a poor one," Mr. Rigby said, "because of the dry weather. The consequent low water interfering with much of the placer mining. With plenty of water the output would have been much larger."

"Much of the money expended in Nome this year was in development work, from which the investors will realize, if at all, until later. The men who took out the money are the ones who spent the most money. Those who are after the gold are the ones who spend the most."

"The history of nearly all mining camps is that more money is spent that is taken out in gold."

"Nome is still the camp of the smelter miner. The big companies have not grabbed up everything as yet, and will not until the rich pay dividends. Those who are working in the low-grade ore and sands remain to be mined. The big companies will have to do it, as that kind of operating requires a big investment."

"There are hundreds of claims around Nome which are ripe for litigation, and because of the many lawsuits, the production of gold is not as large as it would be if all the claims were free. The federal court is crowded with work and is a year behind."

"During 1900 and 1901 there was a great rush into Nome. People were wild in their pursuit of wealth, and they had been led to believe that all of the land near Nome for miles around was gold. So they staked out thousands of claims. Eventually they drifted back to their states, and for the most part left their claims in the hands of others to whom they gave the power of attorneys."

"But little development work was done on the claims, and in later years many of them have been reworked. Rich deposits were overlooked by the first locators. Learning that the old claims were of value, many of the original locators or those who represented them, are now trying to renege possession of them. This is the cause of the constant litigation."

**PASTORAL PEACE.** Los Angeles Times: Mayor Stoy of Atlantic City said the other day of a disappointing industrial stock:

"The people that had their money in this stock felt, when it dropped, a shock akin to that which was incurred by a man who had staked his money on a horse race."

"For an experiment this philanthropist risked a child from the New York slums among slum horrors, all the beauty and poetry of nature was offered. Thus the philanthropist expected to give the youngster an esthetic education."

"Well, on other day the man went to see his charge, who is a little girl, and took her on his knee, glanced with approval at the quaint old farm kitchen, and said:

"Beautiful, my dear, the country very beautiful, my dear."

"Oh, beautiful," the youngster answered. "And what have you seen during your week's sojourn here?"

"I've seen thirty-seven turkeys killed and a man's nose broken in a pumpkin patch."

## PARDEE IS OUTSPOKEN

### In His Views Concerning the Japanese School Question.

### Governor Handles Subject Without Gloves in Message.

Sacramento, Cal., Jan. 8.—In his message to the legislature today, Governor Pardee said, concerning the Japanese school question:

"It is safe to say that the president, when he penned the portions of his annual message upon the Japanese question, was not aware of the condition of the coast, and especially in California. In common with the people of the East, the president does not understand the racial difference between the Japanese and the Chinese and people of Caucasian blood."

"Unfortunately neither the Japanese nor the Chinese appear to be capable of absorption and assimilation into the mass of our people. It is useless to expect that a people with such different racial characteristics and civilization can ever mix with our people and become absorbed into our body politic; they cannot be good American citizens; it is useless to attempt to make them such."

"Under the circumstances it is not at all strange that there is an aversion to the mingling of the children of the two races. And, therefore, California has decreed that whenever it is so desired, the local school authorities may provide separate schools for these Japanese children, in which they shall be taught as Caucasian children are, and by equally capable teachers."

"The laws of California require the separation of the Japanese children from the Caucasian. To give them as good school facilities more than complies with the treaty. Therefore, it would appear that the Japanese state and is in no way acting in contravention to the treaty with Japan."

"The State of California, a sovereign state of the United States of America, has no quarrel with the government of either Japan or China. On the contrary, California has the greatest respect for these two countries and deprecates equally any indignities which may be put upon Americans in Japan or China, or upon Japanese or Chinese in this country. But, nevertheless, until the courts of this country shall have declared that California has no right to do so, this state reserves to itself the right and privilege to conduct under the law, state, national and treaty, its schools in such manner as seems best to us; and this without the slightest disrespect towards the government of the United States or the subjects of any foreign nation."

**NO MORAL RIGHT TO THE MONEY.** Retiring Governor of South Dakota Assails Bond Deal.

Pierre, S. D., Jan. 8.—Samuel H. Elrod, the retiring governor of South Dakota, in his farewell message to the legislature, today severely assails the noted North Carolina bond deal, by which South Dakota was to receive \$1,000,000 in gold, and \$12,000,000 or even more, was expended in the district.

"This is according to a conservative estimate made by John Rigby, chief engineer of the Nome Improvement company, who has returned to Portland for the winter."

"Last season was a poor one," Mr. Rigby said, "because of the dry weather. The consequent low water interfering with much of the placer mining. With plenty of water the output would have been much larger."

"Much of the money expended in Nome this year was in development work, from which the investors will realize, if at all, until later. The men who took out the money are the ones who spent the most money. Those who are after the gold are the ones who spend the most."

"The history of nearly all mining camps is that more money is spent that is taken out in gold."

"Nome is still the camp of the smelter miner. The big companies have not grabbed up everything as yet, and will not until the rich pay dividends. Those who are working in the low-grade ore and sands remain to be mined. The big companies will have to do it, as that kind of operating requires a big investment."

"There are hundreds of claims around Nome which are ripe for litigation, and because of the many lawsuits, the production of gold is not as large as it would be if all the claims were free. The federal court is crowded with work and is a year behind."

"During 1900 and 1901 there was a great rush into Nome. People were wild in their pursuit of wealth, and they had been led to believe that all of the land near Nome for miles around was gold. So they staked out thousands of claims. Eventually they drifted back to their states, and for the most part left their claims in the hands of others to whom they gave the power of attorneys."

"But little development work was done on the claims, and in later years many of them have been reworked. Rich deposits were overlooked by the first locators. Learning that the old claims were of value, many of the original locators or those who represented them, are now trying to renege possession of them. This is the cause of the constant litigation."

## STREET CARS.

NOTICE TO THE PUBLIC.

This company operates a street railway line in the city of Duluth between Third avenue east and the end of River Point, and another street railway line in the city of Superior between Second street and the end of Conover's Point. These lines are operated by the Duluth and Superior Street Car Company, which is a corporation organized under the laws of the state of Minnesota.

The fare for a continuous ride in one direction between any two points on either one of these lines is 10 cents. The public is hereby notified that this company does not, by undertaking to carry any passenger, or by accepting fare for such carriage, assume any responsibility beyond that of a common carrier of passengers safely between points on the above mentioned lines.

This company is not responsible for loss of connections, nor safe transportation, between the above mentioned lines by any ferryboat or other means of transportation. While the employees of this company have been instructed to keep themselves posted and give upon request all the information they can as to the probability of connections being made with other transportation, the company has no better means of forecasting unexpected interruptions of the service of such lines nor of telling how long such interruptions will continue, than the public has, and therefore cannot be responsible for notice of such interruptions.

**Damage Suit—Reveals**  
**Scandal—Involving**  
**Eveleth People.**

**Testimony Rivals That**  
**of the Odorous Ham-**  
**Potter Trial.**

Not since the trial of the Ham-  
 Potter breach of promise action has  
 there been a case on trial in the dis-  
 trict court of this county that in-  
 volved so much scandal concerning  
 prominent married people as does the  
 damage suit of John J. Trezona of  
 Eveleth against Arthur J. Penna, a  
 mining captain of Sheboygan, Wis.

The action is one in which Mr. Trezona, who is a member of a promi-  
 nent family on the range, is suing  
 for \$10,000 the alleged seduction of  
 his wife's affections, and Penna is  
 charged with not only seducing  
 Trezona and breaking up her home.

One of the several peculiar features  
 of the case is that the opposing coun-  
 sel, Theodore Hollister imported to Trezona  
 and Porter J. Neff for Capt. Penna,  
 Penna, were on opposite sides during  
 the Ham-Potter trial.

The fact that Capt. Penna had to  
 sit for the greater part of the forenoon  
 facing the wife who he is charged to  
 have seduced, and whose home he is  
 alleged to have broken up, was not the  
 least of the peculiar features of the  
 case.

It is alleged that Capt. Penna had  
 to sit for the greater part of the forenoon  
 facing the wife who he is charged to  
 have seduced, and whose home he is  
 alleged to have broken up, was not the  
 least of the peculiar features of the  
 case.

## GOVERNOR JOHNSON'S MESSAGE TO LEGISLATURE

THE CLARK IRON COMPANY  
WINS SWEEPING VICTORY

Judge Cant Decides Great  
Mine Case in Its  
Favor.

Plaintiffs in Case Get  
Nothing by Their  
Action.

No Evidence Found of  
Conspiracy to Defraud  
Heirs.

Judge W. A. Cant, of the district  
court of St. Louis county, this morn-  
ing filed a sweeping decision in the  
famous Rogers, or Clark mine case in  
favor of the Clark Iron Company and  
its sub-lessees.

The case involved the possession of  
the Clark and the Leonard iron mines  
on the Mesaba range, properties esti-  
mated to be worth all the way from  
\$500,000 to \$1,500,000.

The suit was tried last summer, the  
trial lasting a period of six weeks.  
It was hotly contested from start to  
finish.

The Rogers interests were represented  
by J. C. Richards and C. C. of  
Duluth and Fenlin & Becker of In-  
dian Territory. The Clark Iron com-  
pany was represented by John G. Wil-  
liams, William Elder, Oscar Mitchell  
and L. W. Wolcott; the American Min-  
ing company by J. B. Cotton and Frank  
D. Adams; and the Leonard Iron Min-  
ing company by William R. Begg, and  
Charles O. Baldwin.

Judge Cant's conclusions are as fol-  
lows:

"That the defendants are entitled to  
entry of judgment herein, as follows,  
to wit:

"That plaintiffs take nothing by this  
action; that the defendant Clark Iron  
Mining company is the owner in fee  
simple and entitled to the possession of  
the tracts and parcels of land sit-  
uated in the County of St. Louis and  
State of Minnesota, described as fol-  
lows, to wit: the southwest quarter of  
the northwest quarter and the west  
half of the southwest quarter, all in  
section 28-55-26, according to the govern-  
ment survey thereof; that plaintiffs  
have not, nor has any of them, any  
right, title, estate, or interest therein  
or any lien whatever therein; that the  
plaintiffs be forever barred from as-  
serting any claim whatever thereon  
adverse to the defendants; that the de-  
fendants, the American Iron Mining  
company and the Leonard Iron Mining  
company, are the owners in fee simple  
of the leasehold title, interest and es-  
tate for mining purposes claimed and  
described by them; that the defend-  
ants herein and, under the Clark  
Iron Mining company, are entitled re-  
spectively to the possession of the lands  
affected thereby; that defendants re-  
cover their costs and disbursements in  
this action.

(Continued on page 15, first column.)

UNION TAKES  
MILLER BACK

Former Assistant Fore-  
man is Again in  
Good Standing.

Washington, Jan. 9.—W. A. Miller,  
former assistant foreman of the book  
bindery in the government printing  
office, who two years ago was rein-  
stated in the government printing  
office by President Roosevelt after he  
had been expelled from the Book  
Binders' union, and then discharged  
from the printing on charges filed by  
officials of the union, was reinstated  
as a member of Book Binders' union,  
local No. 4, last night. Miller was  
dismissed from the government  
printing office again last fall by Pub-  
lic Printer Stillings, on the charge  
of insubordination, and is now in  
Minneapolis.

AN EXAMINATION FOR  
PURE FOOD INSPECTORS.

Washington, Jan. 9.—Examinations  
will be held throughout the country on  
Feb. 5 next for positions in the agri-  
cultural department under the pure  
food and drug act. The examination  
will be for one chief food and drug in-  
spection chemist at \$3,000 a year; sev-  
eral food and drug inspection chemists  
at \$2,000 a year, and a large number  
of food and drug inspectors at \$2,000  
a year. In all, about twenty-five ap-  
pointments are to be made. The list of  
eligibles will be certified to the de-  
partment as soon as the papers of the  
applicant can be examined after the  
examinations.

EKERN TO BE SPEAKER  
OF WISCONSIN HOUSE.

Madison, Wis., Jan. 9.—Assemblyman  
Norman L. Eker, of Trempealeau coun-  
ty, was nominated for speaker of the as-  
sembly at a Republican caucus last night  
on the first round ballot, receiving 28  
votes to 31 for Leroy and 1 for Estab-  
rook. Leroy was the Center unionist.  
At the senatorial caucus Senator J. H.  
Kern was nominated as president pro  
tempore and A. R. Emerson as pres-  
ident clerk.

THE RUSSIAN TERRORISTS  
GET "HANGMAN PAVALOFF"

HARRY S. NEW,  
Chairman of the Republican National  
Committee, Succeeding George  
B. Cortelyou.

RULES MAY  
BE CHANGED

To Expedite Progress of  
Bills Before House  
Committees.

Would Prevent the Fre-  
quent Practice of  
Smothering Bills.

(From a Staff Correspondent.)  
St. Paul, Jan. 9.—(Special to The  
Herald.)—If plans that were being  
considered by members of the house  
rules committee, yesterday after-  
noon, are carried out, a revolution in  
the business methods of the house  
may be accomplished.

The object of these plans is to ex-  
pedite the progress of the bills be-  
fore the committees. It was pro-  
posed to place a ten-day limit on  
the time during which a committee  
could hold a bill back from consid-  
eration, unless it is granted a fur-  
ther extension by the house.

This would not only make the  
committees more active, if it were  
rigidly enforced, but it would pre-  
vent the frequent practice of per-  
petrating the "smothering" of bills to  
be smothered in committee.

The old method was about as slip-  
shod and as prejudicial to good  
legislation as any that could be  
imagined.

There was no limit whatever upon  
the time that committees could con-  
sume in "deliberating" upon pend-  
ing measures. If a bill was intro-  
duced, sent to a committee, it  
might come back to the house in a  
week, and it might never come back  
at all. If its author became restive,  
his only remedy was to ask the  
house to recall the measure, and  
this took a majority vote. It would  
be impracticable, with examples of  
such bills using their ingenuity to  
delay progress, to take up the time  
of the house with motions to recall  
them all.

The result was that many meri-  
tous bills were never voted upon.  
(Continued on page 11, fourth column.)

COMPROMISE  
WITH SALOONS

Lid Will be Partially Put  
On at Ash-  
land.

Ashland, Wis., Jan. 9.—(Special to  
The Herald.)—Following a vigorous  
campaign by the Civic league for the  
enforcement of the law, the city  
council, last night, adopted the re-  
port of a special committee which  
will close the saloons at midnight  
and until 1 o'clock Sunday after-  
noon. Side doors will be kept locked  
during this time and the blinds and  
curtains up. The law will be en-  
forced to the letter. The report is  
a compromise, the Civic league hav-  
ing asked for midnight and Sunday  
closing.

HIGH WATER CAUSES DAMAGE.  
Duquoin, Ill., Jan. 9.—High water has  
caused thousands of dollars worth of  
damage in this section. Railroad tracks  
are inundated for miles, and homes  
completely submerged.

The Military Procurator  
Shot Down by an  
Assassin.

The Crime Shows Evi-  
dence of Careful Pre-  
paration.

Policeman Also Killed  
and Small Boy  
Wounded.

St. Petersburg, Jan. 9.—Lieut. Gen.  
Vladimir Pavloff, the military procur-  
ator or advocate general, generally  
known since the days of the late par-  
liament as "Hangman Pavloff," from  
the epithet constantly applied to him  
to the radical deputies, was shot and  
killed at 10 o'clock this morning while  
walking in the garden of the chief mili-  
tary court building near the Morka  
canal. The assassin, who was disguised  
as a workman, was captured after a  
long chase through the crowded city  
streets, during which he fired about  
forty shots from two revolvers which  
he carried, killing a policeman and  
wounding a small boy.

The crime was executed deliberately  
and showed evidence of the same care-  
ful preparation which was characteris-  
tic of the murders of Gen. Ignatieff  
and Von der Launitz, and undoubtedly  
which it is reported has sentenced  
Emperor Nicholas and several of the  
ministers to death. The assassin, who  
was the uniform of a military clerk  
attached to the court, succeeded in ob-  
taining an entrance to the garden un-  
der the pretext of submitting a report  
to the military procurator. He ap-  
proached the unsuspecting general  
within arms length, drew an automatic  
pistol and discharged the whole load,  
even shots, into Pavloff's body. Every  
shot was well aimed and two of them  
tore a gaping wound in his breast from  
which the general expired while being  
carried to his apartments, which were  
located in the same building.

Hastily slipping another "clip" of  
cartridges into his revolver and draw-  
ing a second weapon, the assassin ran  
across the garden to the carriage en-  
trance, threatened the porter with his  
revolver, and fled.

(Continued on page 16, first column.)

GOVERNOR JOHN A. JOHNSON.

DEMANDS AN  
ACCOUNTING

Member of Little Kan-  
awha Syndicate Sues  
His Associates.

St. Louis, Jan. 9.—Suit for an ac-  
counting of funds was filed yester-  
day in the circuit court by E. D.  
Fulton, a member of the Little Kan-  
awha syndicate.

George J. Gould, Joseph Ramsey,  
Jr., and Stephen B. Elkins are among  
the defendants named in the suit,  
which grows out of an \$8,000,000 deal  
by the syndicate in West Virginia  
coal lands and in two small rail-  
roads.

Mr. Fulton asks an accounting of  
the funds for profits alleged about  
to be distributed, to which, he says,  
he is in part entitled, and for \$303,-  
407, he claims as a balance due on a  
transaction in coal tracts.

Fulton names these defendants:  
The St. Louis Union Trust company,  
G. J. Gould, William E. Guy, Joseph  
Ramsey, Jr., John S. Jones, Henry

G. Davis and Stephen B. Elkins.  
He asks in his petition that the full  
membership of the syndicate be dis-  
closed.

Dec. 2, 1902, Ramsey, Gould and  
Guy formed what is known as the  
Little Kanawha syndicate. Later  
Davis, Elkins, Jones and other cap-  
italists were included.

In his petition, Fulton says the  
members of the syndicate agreed to  
spend \$8,000,000 on projects embrac-  
ing the purchase of coal lands and  
certain small railroads, and that  
when money was needed the mem-  
bers were to be liable in proportion  
to their subscriptions to the stock  
of the syndicate. Calls were issued  
for 75 per cent of the \$8,000,000, it is  
stated, and payments on them were  
made to the St. Louis Union Trust  
company.

Fulton further declares, in his peti-  
tion, after purchases had been made,  
the syndicate sold various properties  
at an advance, and he believes the  
syndicate and trust company intend  
to disregard him in making a di-  
vision of the profits.

PATENTS FOR DULUTH  
AND HINCKLEY MEN.

Washington, Jan. 9.—(Special to The  
Herald.)—Patents have been issued to  
George E. Barrett of Duluth for a cul-  
ivator and Henry Copilovich of Hinckley  
for wood still retort.

## BLOCKING THE WAY.

Senate seems to be up against the old "nigger in the fence game."

CONDEMNS TONNAGE TAX  
UPON THE IRON MINES

Urges Five or Ten Per Cent Tax on  
Fee Owners' Royalties.

Favors Two-Cent Passenger Rate and  
End of Free Passes.

## GIST OF GOVERNOR'S MESSAGE.

Condemns the plan of imposing a tonnage tax upon the iron  
mines of the state, and favors tax of 5 or 10 per cent on royalties  
received by fee-owners.

Recommends a registry tax of 1/2 of 1 per cent on mortgages  
and a tax of not more than 10 per cent on the income of mortgages.  
Urges license taxes on all corporations and more taxes from  
sleeping car companies, etc.

Recommends a permanent tax commission and laws to reach  
personal property that now escapes taxation.

Favors creation of a state department of mines, under a com-  
missioner of mines, to enforce the mine inspection law.

Recommends increase in royalties on iron ore on state lands to  
a minimum of 50 cents per ton, and that leases be auctioned on a  
royalty basis with no maximum royalty.

Declares railroad rates are too high and recommends joint  
legislative committee to study rates with a view of establishing a  
distance tariff law.

Favors a 2-cent maximum passenger rate, total abolition of free  
passes, and the enactment of a reciprocal demurrage law.

Urges law to make rate orders of the railroad commission effec-  
tive at once and remain in effect until set aside or suspended  
by the courts.

Calls attention to the lumber trust and urges enforcement of the  
state's anti-trust law.

Says primary election law needs amendment and suggests the  
nomination by political conventions of two or more candidates for  
the primary election, the voters making the final choice.

Urges liberal appropriations for drainage of state lands, private  
property benefited to be compelled to pay its share.

Recommends that another good roads amendment to the con-  
stitution be submitted to the voters, leaving the amount of the  
road tax to be fixed by the legislature.

Favors abolition of fellow servant rule in nearly all damage  
cases; extension of the state labor bureau; passage of uniform  
divorce laws; submission of constitutional amendment providing for  
the initiative and referendum; permitting issuance of bonds upon  
municipally owned streets and not upon the community; the regu-  
lation of lobbyists; the abolition of private banks; permitting banks  
to loan 25 instead of 15 per cent of their capital stock on first mort-  
gages on improved farms.

Recommends extension of pure food law, including addition of  
standard of purity and label requirements for food.

Favors extension of binding twine plant at state prison and  
authority to sell its output outside the state, and the manufacture  
of farm machinery at the state prison.

(From a Staff Correspondent.)  
St. Paul, Jan. 9.—(Special to The  
Herald.)—There was great interest  
taken in Governor Johnson's mes-  
sage to the legislature, which was read by  
him to a joint session of the senate  
and the house this morning. The  
governor was given an enthusiastic  
reception and the many strong points  
in the message were warmly ap-  
plauded. The following is the full  
text of the message:

Gentlemen of the Senate and House  
of Representatives: The first para-  
graph of our constitution declares that  
government is instituted for the se-  
curity, benefit and protection of the  
people, in whom all political power is  
inherent. It is with the right to  
alter, modify, or reform such govern-  
ment when the public good may re-  
quire. It is not instituted for the  
protection of interests deriving their

privileges from the sovereign power  
of the people; neither is it instituted  
to deprive any individual or any in-  
terest of any right which may ob-  
tain under the constitution. You are  
elected as representatives of all the  
people of the state to make such al-  
terations and modifications in our  
laws as will insure to the domestic welfare  
and I believe that at this session of  
the legislature you are given oppor-  
tunities that seldom come to a law-  
making body. I hope and believe  
you will approach the office com-  
mitted to your care with zeal and  
activity, and with the sole purpose and  
motive of doing that which is best  
for the commonwealth.

"Public office is a public trust," and  
while some who aspire to office are  
prompted by other than patriotic  
motives, the majority desire to do  
that only which is right and just. I

Make Liberal Appropri-  
ations to State.

Washington, Jan. 9.—That the new  
regulations for the mobilization of  
the National Guard, just perfected  
by Assistant Secretary of War Otis

ble any repetition of the difficulties of  
reorganization of the militia forces  
in the face of war, as experienced in  
the early days of 1898, is expected  
by the war department. These regu-  
lations which have just been printed  
and promulgated, are drawn under  
the terms of the constitution and  
existing Dick militia law and prece-  
dent statutes. They provide for the  
minimum strength of the organiza-  
tions of the militia in time of peace,  
and equipment by the state authori-  
ties, so that this force will be in-  
stantly available in time of need. In  
the first place, it is expected that  
the state authorities will take ad-  
vantage of the generous appropri-  
ations made by the national govern-  
ment annually for the support of  
the National Guard, to keep all their  
organizations at a certain fixed min-  
imum strength for the support of  
be completely equipped and drilled.  
And in addition the state must pro-  
vide ample equipment, arms, cloth-

NO TROUBLE  
FOR PERSIA

Death of the Shah Will  
Not Cause Any Dis-  
turbance.

Crown Prince Will at  
Once Accede to the  
Throne.

London, Jan. 9.—The Persian lega-  
tion today is the center of much  
activity, cabinet ministers and mem-  
bers of the diplomatic corps calling  
to present their condolences on the  
death of the shah.  
One of the leading Persian officials  
said to a representative of the As-  
sociated Press:  
"We do not credit the reports that  
trouble is likely to follow the death  
of the shah. Certainly there will be  
no internal trouble, as there are  
no pretenders to challenge the  
crown prince's title to the throne.  
Concerning the reports of foreign  
conspiracies, we do not anticipate  
any disturbances of the present con-  
ditions."  
It can be definitely stated that  
Russia and Great Britain have had  
extended exchanges of views rela-  
tive to the existing situation, and  
have discussed an accord, under  
which, during the crucial period fol-  
lowing a change of rulers, neither  
power will seek to advance its in-  
terests, politically or territorially.  
The officials here say that in view  
of the accord between Great Britain

## CHARACTER ATTACKED

Witnesses Testify Against the Morals of Mrs. Trezona.

Star Witness for Penna is Eccentric St. Paul Socialist.

Interest in the trial of the Trezona-Penna damage case was not lacking this morning, and courtroom No. 3, the smallest in the courthouse, was packed to the door with witnesses and spectators.

Capt. Penna, who was under fire nearly all day yesterday, while his alleged love letters to Mrs. Trezona were being read to the jury, began his defense this morning.

The first witness for the defense was a Mrs. Alice Walrath of St. Paul, who rented apartments to Mrs. Trezona when she resided in that city. Mrs. Walrath, who was closely questioned by Mr. Neff, with a view of bringing out evidence damaging to the character of Mrs. Trezona, was exceedingly cautious and guarded in her replies. About all that was developed in her questioning was that Mrs. Trezona had told her that she did not care much for her husband.

Helen Clayton, whom Mr. Trezona claimed to know by the name of Volberg, Ronda, was the next witness. Miss Clayton, or Ronda, as her name may be, possesses even, white teeth, blue eyes and good clothes. According to her own testimony there is one important essential she lacks, and that is virtue. She testified that she had been intimate with John J. Trezona, the plaintiff, during the summer of 1905, when Mrs. Trezona is alleged to have left him.

Grant D. Spicer of St. Paul, was easily the star witness of the morning session.

Spicer runs a delicatessen store, or

Be True if you would be believed—  
It's the man behind the promise  
And the mills behind the man—  
Speak softly and carry good values.

**THE SPALDING HABERDASHERY,**  
SALE STARTS TOMORROW. SPALDING HOTEL.

## MORE ABOUT MANSFIELD

Police Get Further Information Regarding His Methods.

Nearly Succeeded in Having His Victims Furnish Bail.

C. H. Mansfield, the alleged forger under arrest in Duluth, this morning made a strenuous attempt to get one of his victims to go on his bond for appearance when wanted, and had not the police intervened, would probably have been successful.

The smooth qualities of the man are illustrated in the story he told Malberg and Robertson regarding the new, wonderful substitute for the white of eggs, which they were to manufacture.

He was, according to his story, in London, England, when he first got into touch with the new substance. He was walking along a street in London, when he saw through the window a man turning a crank on a big machine, and being curious, he went in to investigate. The man at the machine readily told him a few points about the stuff, but said an old German in Berlin had the patent and he couldn't tell him anything about the process. Mansfield, according to his story, realized the fortune in the investment, and looked up the old Dutchman, whose Berlin address he tells with the story, and after the expenditure of over \$2,000 and a good deal of time, succeeded in getting him to America and started in business over here.

This story, as related by Mansfield, made a decided impression on both Malberg and Robertson, who were claimed to have swallowed the hook.

## Bad Blood

Is responsible for most of the diseases and ailments of the human system. It seriously affects every organ and function, causes catarrh, dyspepsia, rheumatism, weak, tired, languid feelings and worse troubles. Take Hood's Sarsaparilla which purifies and enriches the blood as nothing else can.

For testimonials of remarkable cures send for Book on the Blood, No. 3. C. I. Hood Co., Lowell, Mass.

practically a certainty. Should this be done, the entire government building would be given over to the federal offices, which would give ample room for their purposes, while the postoffice would be much more comfortably housed across the street. Improvements will be made on the postoffice work room, however, before the new building is erected.

## PROPERTY IS PURCHASED

### County Board Closes Deal for New Jail Site.

Shortly before 3 o'clock this afternoon, the county board passed a resolution authorizing the purchase of the property at the corner of Fifth avenue west and Second street, for \$15,500.

A full account of the plan is given in another column, and the action of the board this morning simply closes up the deal, as the site has already been approved by the court house commission.

## CANANEAS ARE WEAK AT CLOSE

### Stocks Have a Decline in the Copper Market.

The copper stock market was rather dull, but fairly steady today. The Cananea stocks were lower. Greene-Cananea sold at \$23.75, declined to \$23 and closed at \$23 bid and \$23.125 asked. Greene Consolidated opened at \$23.75, advanced to \$24.25, fell off to \$24 and closed at \$24.875 bid and \$25 asked. Cananea Central sold at \$24.50, declined to \$23.75 and closed at \$23.75 bid and \$24 asked.

Superior &amp; Pittsburg sold at \$27.50, declined to \$27.25 and closed at \$27.25 bid and \$27.50 asked. Anaconda sold at \$27.50, declined to \$27.25 and closed at \$27.25 bid and \$27.50 asked. Calumet &amp; Arizona opened at \$27.50, advanced to \$28 and closed at \$28 bid and \$28.125 asked.

Superior &amp; Pittsburg sold at \$27.50, declined to \$27.25 and closed at \$27.25 bid and \$27.50 asked. Anaconda sold at \$27.50, declined to \$27.25 and closed at \$27.25 bid and \$27.50 asked. Calumet &amp; Arizona opened at \$27.50, advanced to \$28 and closed at \$28 bid and \$28.125 asked.

The noted Jesuit orator, will deliver his postponed lecture this evening at 8 o'clock, in the Cathedral Auditorium.

### SPOTTING AN IMPOSTER

Joseph Chate, the famous lawyer related at a dinner party at Lenox, some interesting reminiscences of the heretofore, says the Boston Herald.

"A striking case," said Mr. Chate, "transpired in the 1870's. It was a case of a workman who claimed to have lost the sight of his left eye in an explosion, while he actually declared that the eye was utterly destroyed."

The judge held all the evidence, pro and con. Then, sending the workman from the courtroom, he said:

"Get a blackboard and write a sentence on it with green chalk. Also get a pair of spectacles with ordinary clear glasses for the left eye, and with red lining for the right."

"This in the course of an hour or so brought back, and he was ordered to put the queer glasses on."

He put them on and the judge said to him:

"Turn the blackboard round and see if you can read what is written." "The man read the sentence without hesitation. Whereupon the judge said to him sternly: "Your case is dismissed. You are an imposter. You must have read that sentence with your left eye, for the red glasses over the right eye turned the green writing black and made it quite invisible on the blackboard."

### FIVE AND TEN CENT STORES.

The great increase in the number of 5 and 10 cent stores in the last few years, nearly every small town having at least one and larger cities several, has caused a feeling of concern to give them special attention. One wholesale house has a complete 5 and 10 cent store on one of its floors, not a single detail missing, says the New York Sun.

Here the man who wants to buy the outfit for such an enterprise will see all the articles that can be bought for a nickel or dime, from needles to dishpans, on the walls or in showcases. The proper arrangement of the show windows is explained, even to the plate glass window in front, the shelves, showcases, etc.

Two or three men are there to show the intending purchaser the art of setting. The jobber has a price list and the lump sum for the whole outfit. He will duplicate everything, even painting the front, and the intending purchaser can see exactly how the store will look from the sidewalk and indoors when it is ready for business on the main street in Boomville.

## WISCONSIN LEGISLATURE

Organizes at Madison With Full List of Officials.

Madison, Wis., Jan. 9.—The legislature met and formally organized by the election of the following officers:

Senate—President pro tem, J. H. Stout, Menomonie; chief clerk, A. R. Emerson, Darlington; sergeant-at-arms, R. C. Falkner, Camp Douglas.

Assembly—Speaker, Herman L. Egan, Whitehall; chief clerk, H. E. Shaffer, Madison; sergeant-at-arms, W. S. Irvine, Greenwood.

Democratic members of the assembly voted for B. S. Potter of West Bend for speaker. Adjournment was taken till Thursday morning to permit of the appointment of committees. Governor Davidson's message will be read to a joint session Thursday.

### Rev. Russell H. Conwell

At the First M. E. church tonight.

### DID NOT LIKE POOR HOUSE

### Stephen Mahoney, Professional Vag, Prefers Jail to County's Aid.

Stephen Mahoney, vag of long standing, and well acquainted with the doings of the police court, was up before Judge Cutting again this morning on a vagrancy charge. Mahoney is over 50 years old and bright enough to have amounted to something more than a vag had he been so inclined. He is something of an anarchist in his line and is given to prolonged protests which are interesting enough to make his periodical appearances before the dispensers of justice in the city hall awaited with considerable eagerness.

This morning his pet aversion was the poor house. Steve would rather go to jail than to the institution for the care of the poor in this county. In Steve's opinion the county jail looks like the St. Regis hotel compared with the accommo-

### TO VISIT INDIANAPOLIS.

President Will Attend Unveiling of Lawton Monument There.

Washington, Jan. 9.—President Roosevelt has definitely decided to make a trip to Indianapolis to attend the unveiling of the monument to Brig. Gen. Henry W. Lawton, on Memorial day. He made this promise today to a committee of citizens of Indianapolis.

The president will make a speech in which he will talk, among other things, of the Civil war soldiers and Oliver P. Morton, Indiana's war governor.

### NO TIDINGS YET FROM MISSING STEAMER PONCE.

New York, Jan. 9.—No tidings have come as yet from the long overdue steamship Ponce, which sailed Dec. 25, from San Juan, P. R. for New York. Incoming steamers which passed over the course usually followed by the Ponce, report that nothing was seen of the missing steamer. The only hope now held out is that the Ponce is drifting about with disabled machinery or that she has already been picked up by some steamer and is being slowly towed to port.

### PUBLIC EXAMINER KERST HAS RESIGNED.

St. Paul, Jan. 9.—(Special to The Herald.)—Public Examiner P. M. Kerst of St. Paul has tendered his resignation to Gov. Johnson in the effect of Feb. 1. Mr. Kerst was only recently re-appointed public examiner by Governor Johnson.

Mr. Kerst is leaving the service of the state to assume the duties of examiner for the Twin City banks.

Governor Johnson did not announce the appointment of a successor.

### NEW POSTMASTER.

Washington, Jan. 9.—The president today sent the following nomination to the senate: Postmaster—Minnesota, Oscar Krook, Marshall.

You will get the knack of finding chances and opportunities through reading the Herald want ads, and then you will not worry about it even if your friends insist that you are simply "lucky."

## C. H. MANSFIELD, Alleged Forger, Arrested by Police Monday Afternoon.

line, slinker and all.

Mansfield offered to make a demonstration. He went to a bakery shop, purchased two cakes, nicely frosted, and took them to the men, the genuine stuff made from the white of eggs. These, it is claimed, he showed to the men, and even took them up to show their wives, assuring them that no expert could tell the stuff they were to manufacture from the genuine white of egg product.

Every check which Mansfield deposited with the local banks has been proven fraudulent, and the only doubtful case is that of a sight draft upon Webster, Doune &amp; Co., 25 Park Row, New York city, from which no word has been received as yet. This draft, made out for \$16.35, was Mansfield's contribution to the Malberg-Mansfield company, and the police have no doubt that it is as fraudulent as the rest.

Another instance of the way he worked was the manner in which he got possession of the bank check on the American Exchange bank to which he is claimed to have forged Malberg's signature, and which is the chief piece of evidence against him. After depositing an alleged fake check on the Oldis National bank, he went to the American Exchange bank, where he had possession of the firm's bank book with the deposit slip.

## THE BEST COUGH CURE

Mix it Yourself

Go to your drugstore and get one-half ounce of Concentrated oil of place; two ounces of glycerine; half a pint of good pure whiskey; mix it up and shake thoroughly. Glycerine and whiskey first, then add the whiskey. Use in tablespoon doses every four hours. The Concentrated oil of place comes put up for medical use in half-ounce bottles each enclosed in a small wooden box. This protects it from heat and light. If you do not find it sealed you know that you are not getting the real article. There are also several imitations put up to resemble the Concentrated oil of place and called by similar names. This stuff will soon put your throat out of order and debility will follow. The Concentrated oil of place is what you want, and a reliable drugstore will tell you this. It is the only official preparation and the only pure product that will make a reliable mixture and not cause nausea.

## SENATORS REACH AN AGREEMENT

Brownsville Affair to be Investigated by Sub-Committee.

Washington, Jan. 9.—Practically all of yesterday was given over by the senators to the Brownsville affair. The effort to bring about harmony between opposing views concerning the proposed investigation at Brownsville, Tex., was made by the senators. What amount of an agreement between Senators Foraker and Lodge has been attained by their friends, but inasmuch as it was decided not to present the compromise until all of the senators desiring to do so had made speeches on the subject of the dismissal of the negro troops, the compromise will not be presented until tomorrow. The compromise is not presented by Senator Lodge and a similar one by Senator Foraker. It is intended to offer as a substitute for his original one. It provides for an investigation by a sub-committee of military affairs into the affair at Brownsville and to the committee provisions that a sub-committee be sent to Brownsville and that the expenses of the investigation be paid out of the contingent fund of the senate. Such a resolution was introduced by Senator Foraker. Both sides were agreed on the substance of the resolution and the committee on the constitutional question. It was the speeches and form of the resolution that Senator Foraker objected to.

## MOB CHASES NEGRO ASSAILANT FOR MILES.

Lynchburg, Va., Jan. 9.—Late Monday afternoon Miss Gladys Shelton, 18 years of age, daughter of a well-to-do farmer near Monroe, Amherst county, was outraged by a negro. The negro then took the girl to a creek and raped her. He changed his mind and made her go to a neighbor's home while he went in another direction. Yesterday afternoon five negroes were arrested there and brought to Lynchburg. A mob of seventy-five men, chased the negro and a deputy for twenty-five miles. The girl's condition is serious, but she will recover.

## LUMBER CARRIERS RE-ELECT OFFICERS.

Detroit, Jan. 9.—The Lumber Carriers' association, which controls practically all the lumber-carrying vessels on the Great Lakes, has elected its officers for the year 1907. The officers of the association were re-elected as follows: President, J. A. Calkins, Chicago; Vice-president, H. E. Runnels, Port Huron.

## Doctors Admit That They Can Do Nothing More For Your Stomach Than Stuart's Dyspepsia Tablets are Doing Every Day.

COSTS NOTHING TO TRY.

According to the expert analysis of government authorities in the United States and Great Britain, Stuart's Dyspepsia Tablets contain the exact elements provided by nature for digesting food in the healthy stomach.

Stuart's Dyspepsia Tablets have saved sufferers from stomach disorders millions of dollars by giving them, in one small 50-cent package, more relief than countless treatments by physicians would bring about at \$5.00 per visit.

Perhaps you are afflicted with dyspepsia—or some kindred disease arising from a disordered digestion. It may be headaches, heartburn, palpitation, liver trouble, insomnia, nervous debility. They all have their beginning in a stomach which does not secrete the juices or grind the food which is taken into it.

If so, we urge you to send for a free trial package of Stuart's Dyspepsia Tablets. It will cost you nothing and surely will bring you no gain unless you find, after using it, that you are benefited and feel that you need a full-sized package.

There is absolutely no danger in using Stuart's Dyspepsia Tablets. Nothing is contained in them that has not been subjected to the closest scrutiny by the government officials.

Stuart's Dyspepsia Tablets will digest your food without demanding a careful diet. One grain of these Tablets has power to digest 3,000 grains of ordinary food. You can be sure therefore that no matter what your condition, these little tablets taken after each meal, will shortly restore your stomach to its normal condition and render it capable of doing its work unassisted.

We withhold the names of hundreds who have written us voluntarily expressing their gratitude to this simple substitute for nature.

Send for trial package today. F. A. Stuart Co., 70 Stuart Bldg., Marshall, Mich.

50-cent size package for sale by druggists everywhere.

## WOLVES ARE VERY BOLD

Food Hard for Them to Get in Woods Now.

Some Are Seen at Demise Officially Announced by Grand Vizier.

Folks with snow shoes and such like things for out-of-door sports may like the deep snow and the cold, but that friend (?) of civilization, the wolf, is not very enthusiastic about those features of the winter.

Much as the average wolf dislikes the society of the white man and the guns which are his, the wolf has been caused him to seek the haunts of the woods. In the woods these days, the wolves are having very hard times. The hoe and the man with the gun and an eye to the state bounty for wolf pelts, ought to be able to shoot up a tidy little sum while the big drifts last.

Since this now has become very deep in the woods and prey naturally scarce, many wolves have been seen in the immediate neighborhood of the city. Several were seen just the other day near West Duluth and one lone and hungry-looking one was sighted at Hermantown yesterday.

Pressed by hunger and driven to it by lack of food in the timber, wolves often have little scruples about attacking human beings, provided that there is not a crowd about.

Word comes from across the international boundary to the effect that half-starved wolves have attacked small herds of sheep and caused considerable loss. It is said to be a great scarcity of rabbits and deer in the woods that the snow is very deep everywhere and that these animals which find it difficult to secure food when the snow is deep, are having hard times. All of them report seeing wolves, but none have been attacked by them as yet. However, all of them go about armed, ready to defend themselves if it should become necessary.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens stomach membranes, stimulates the flow of digestive juices, purifies the blood, builds you up.

## BIG YEAR FOR STREET PAVING

1906 Broke All Records Since Boom Year of 1893.

Over seventy-five thousand square yards of paving were completed during the past year in this city, according to the figures of the city engineer's office, and the total cost of this variety of improvement during the year was \$144,581.00.

The streets and avenues finished were as follows: Superior street, from Eighth to Twenty-fifth avenue west, except that done in 1902; Second street, from Sixth avenue west to Seventh avenue east; Twentieth avenue east, from Superior street to London road; Tenth avenue east, from London road to Fourth street; First alley, from Twenty-second to Twenty-third avenue east.

The above were laid with macadam, and Third avenue west to the Northern Pacific tracks to Second street, was paved with sandstone blocks.

This is the largest amount of paving ever done in a single year here, with the exception of the years 1891 and 1893, when the greatest part of the cedar block paving was laid.

DeWitt's Little Early Risers, reliable little pills, recommended by all druggists.

## BALLOT BOXES ARE MISSING

Attorney General Cannot Find All of New York Ballots.

New York, Jan. 9.—Attorney General W. B. Updegraff has not been able last night to locate all the ballot boxes entrusted to his possession by a supreme court order, and intimated that he might be obliged to bring contempt proceedings against the board of elections.

Certain boxes containing ballots cast in Manhattan were stored under the direction of the board, and a search continued until late yesterday failed to reveal their whereabouts. According to the attorney general, Commissioner D. Dooley, upon being served with the court order, refused to surrender these particular ballot boxes, or make known where they might be found. To prevent, he says, possible tampering with the ballots cast in the Hearst-McClellan majority election which may be needed for a recount under the action begun by the state to oust Mayor McClellan and seat William W. Hearst as mayor.

Attorney General Jackson, acting under orders from the supreme court, caused raids to be made at such storage places throughout Greater New York as were known to him.

Some delay the greater number of boxes were located, newly sealed and placed under guard of officers representing the attorney general. It was toward night that Commissioner Dooley was found at the office of Corporation Counsel Ellison and formally served with a copy of Justice McKim's order to deliver the ballots to the attorney general.

Mr. Jackson says that the commissioner refused to obey the court order, which, the attorney general added, will, however, have to be respected.

Do you intend to institute contempt proceedings against the board of elections? Attorney General Jackson was asked.

"While I am in favor of the utmost publicity in this matter, do not care to say what action I intend taking, but I will say that Justice Hendricks' order will have to be complied with," replied the attorney general.

## RULER OF PERSIANS

Passes Away at Teheran After a Lingering Illness.

Some Are Seen at Demise Officially Announced by Grand Vizier.

Teheran, Jan. 9.—Official announcement of the death of the shah at 11 o'clock last night was made at 9 o'clock this morning, at the office of the grand vizier.

London, Jan. 9.—The Daily Mail's correspondent at Teheran, in a telegram sent last night at 11:50 o'clock, says: "The shah of Persia died this evening, though no public announcement."

MUZAFFER ED DIN, Late Shah of Persia.

ment of the fact will be made until tomorrow (Wednesday).

"It was evident Monday that the end was rapidly approaching and four injections of camphor were employed to prolong life. All the shah's vital functions were suspended yesterday and at 5 o'clock last evening the help attendant and the ministers were summoned. The women of the palace also began preparations for mourning.

"Soon after sunset the doors of the harem were closed. This was the sign that all was over. The news of the shah's death reached the foreign ministers late last evening, but the public is still unaware of the fact. The streets are deserted and the city is in darkness."

## ASSOCIATION HAS GRIEVANCE

Cedarmen Claim Western Weighing Association Uses Unfair Tactics.

The employment of unfair tactics by the Western Railway Weighing association was charged by the Northwestern Cedarmen's association, at its meeting in the Spalding hotel yesterday afternoon. Members of the latter organization claim that it is practically impossible for them to secure fair treatment of any claim for overcharging.

The purpose of the weighing association is weighing cars, and considering all claims for overcharging. The Cedarmen say the scales are kept in very fair shape, but the special clerk is in regard to the other matter.

The association, in an attempt to remedy the evil, will try to secure legislation in the three states of Minnesota, Wisconsin and Michigan, which will provide for placing all weighing under inspection and jurisdiction of state officials. A legislative committee was appointed and if no satisfaction is gained from the law-making bodies of the separate states, the interstate commerce commission may be appealed to.

The treasurer of the association reported at the meeting that there was a cash balance on hand of \$307.80. The following officers were elected:

Dr. REA, of Louisville, Ky., and Minneapolis, Minn.

MAKES HIS NEXT REGULAR PROFESSIONAL VISIT TO THE NORTHWEST.

The many patients of Dr. W. D. Rea will be glad to know that he has arranged to make his next regular professional visit to Duluth, Minn., Spalding hotel, Saturday, Jan. 12; remaining one day only.

For the last ten years, Dr. Rea has been making these regular professional visits, and has one of the largest practices of any physician in the treatment of Cancer, Consumption, Tumors, Heart diseases, diseases of men, diseases of women, nervous diseases, and chronic diseases, there are few physicians his equal. It is claimed by Dr. Rea's friends that he can diagnose the disease of any patient without asking him a question. This being the case, he is not liable to doctor them for the wrong disease, as is often the case with inexperienced physicians.

Consultation and examinations to those interested, \$1.00.

## PANTON & WHITE CO.

Furs and Fur Coats All Reduced to 1/4 and 1/2 Off Regular Price.

An exceptionally liberal offer, at just the period of the year when Furs and Fur Coats will be called into active service.

It's liberal, because it affects the entire stock—distinctly high-class fur pieces and garments in the season's fullest and best assortment.

It gives you choice of the winter's finest fur fashions to be found at the Head of the Lakes, at actually 1-4 to 1-3 less than our regular prices—admittedly the lowest in the city.

No need for much talk. Every piece speaks for itself—be it neckpiece, muff or coat. We ask your inspection and comparison of these values.

The result is a foregone conclusion—you'll most certainly participate in these great savings.

Millinery. This millinery clearance has stimulated a wide interest and brisk selling in ladies' headgear. The beauty of the hats themselves commends them to the favor of all who see, the remarkably little prices do the rest. Result—some dozens of women wearing new hats to-day—new since Saturday of last week. Here are the values that have produced the conditions:

89c for \$3.00 Street Hats. Beautiful velvet trimmed hats in assorted colors and black—regular value \$5.00, \$6.00 and \$7.00—only \$2.39 each.

\$1.89 for \$4.00 Trimmed Hats. In most stores the best of this lot would be \$4.50—here it was \$4.00, but just now you can get your choice for \$1.89.

\$2.39 for \$5, \$6 and \$7 Hats. Beautiful velvet trimmed hats in assorted colors and black—regular value \$5.00, \$6.00 and \$7.00—only \$2.39 each.

\$4.69 for Hats worth up to \$10. Few left, but every hat in the lot is a beautiful model, and the values run to \$10.00.

Patterns at Two Prices. All pattern hats—excepting "all black" or "all white" hats—regularly selling at \$2.00 to \$2.50 for \$1.00 each; formerly \$2.00 to \$2.50 for \$1.00 each.

Table Linens. The White Sale affords a most excellent opportunity for liberal and economic supply of the future's Table Linens. Every piece in the house is included in the White Sale—none reserved—"John S. Brown's," "Richardson Sons & O'Brien," "Neilson & Crosby"—all of them. We quote both regular and White Sale prices:

88-inch, \$2.50, \$1.90 88-in. \$2.25, \$1.75 72-inch, \$2.50, \$1.89 72-in. \$2.00, \$1.68 72-inch, \$1.75, \$1.45 72-in. \$1.69, \$1.35 72-inch, \$1.50, \$1.25 72-in. \$1.25, \$1.00 72-inch, \$1.00, .75 72-in. .75, .50 54-inch, .35, .25 54-in. .25, .19

HALF AND UNBLEACHED. 72-inch, \$1.25, .98 72-in. \$1.00, .89 72-inch, .75, .50 66-in. .50, .39 54-inch, .35, .25 54-in. .25, .19

Crash Towelings. Heavy all linen brown crash, regularly 7c, for 5c.

50 pieces fine all linen bleach goods. Choice of the lot at a fine cotton crash for only 3 1/2c.

19-inch all linen bleached crash, heavy twill, one of the best grades made, always 17c, for 12 1/2c.

18-inch all linen crash, an extra good grade at the regular price 15c; White Sale price, 11 1/2c.

A Bargain Counter Full of White Sale Bargains—Here are Bargains that will prepare some summer things at big savings now. See them.

15c CAMBRICS 9c. 3,000 yards of real fine cambric, equal to any regular goods, our own included at 15c a yard. Short lengths and the big quality make the special price, 9c.

39c SILK MULLS 19c. 3,000 yards plain white silk mulls, in short lengths, three to fifteen yards in a piece. Sell regularly at 39c, but the White Sale makes them a 19c bargain at, per yard.

PANTON & WHITE COMPANY THE BIG GLASS BLOCK STORE QUALITY IS PARAMOUNT

for the ensuing year: P. W. Baber, Chicago, president; A. T. Naughton, Chicago, vice president; W. B. Thomas, Manitowish, Mich., treasurer; Milton O. Nelson, Minneapolis, secretary; and Bro. Tom Ahavik, Wis., L. R. Martin, Duluth, and L. R. Clark, Chicago, directors.

An elaborate banquet was served at the Spalding hotel last evening, the hosts being the Duluth Log company, L. R. Martin, Martin Bros., Clouet Tie & Post company, Pittsburg & Lake Superior Iron company and Marshall H. Coolidge company. The banquet brought the very successful meeting to a close.

Indigestion, constipation come and go like rent and tax day and other sorrows. If you take Hollister's Rocky Mountain Tea, the greatest remedy known to mankind. 3c, 5c, 10c, 25c, 50c, 1.00, 1.50, 2.00, 2.50, 3.00, 3.50, 4.00, 4.50, 5.00, 5.50, 6.00, 6.50, 7.00, 7.50, 8.00, 8.50, 9.00, 9.50, 10.00. Ask your druggist.

We will deliver wood by the cord to any part of the city.

RED CLIFF LUMBER CO. COMPANIES INCORPORATE.

Two Duluth Concerns File Articles With Register of Deeds.

Two local concerns filed articles of incorporation with the register of deeds yesterday afternoon. The Stewart Transfer company has incorporated with a capital stock of \$50,000. The incorporators are Harris E. Stewart and B. U. Stewart and Earl H. Stewart all of Duluth.

Smith, Oldham & Co. have incorporated with a capital stock of \$50,000, to carry on a general brokerage business. The incorporators are Hansen E. Smith, John M. Oldham and W. J. Stevens.

## THE GLASS BLOCK STORE

All Fur Lined Coats At 1/4 to 1/3 Less Than Regular.

A determined clearance of the Glass Block's fur lined Coats of well known high standard quality.

Most Duluth women have long known the Pantan & White Co. clearly lead in superiority of style and quality in fur lined coats—whatever be the price.

Most women know, too, that these same excellent styles and qualities are obtainable for much lower prices here than other stores ask for no better values.

And now all are offered at positive, bona-fide reductions of 1/4 to 1-3 from the regular low selling prices.

Choose any Coat in the stock. Find a saving of \$5 to \$50 in every choice. We've already done a mammoth fur coat business—now we assume any risk of loss to effect a clearance—and you get the benefit of the reductions.

Winter Coats—1/2 Every day adds dozens of names to the list of women and girls—and little tots—who are wearing smart, stylish new coats from the great Glass Block clearance of fancy mixture coats at Half. It offers a splendid new coat to every woman and girl in Duluth—and promises less than half you'd have to pay regularly elsewhere. And you'll need them for three months to come. "Half price" includes—

All Fancy Mixtures for Women. All Fancy Mixtures for Girls. All Children's Coats—all kinds. Children's Bearskins and Astrakhan. Women's Imported Novelty Mixtures.

Muslin Underwear Is one of the best features of the White Sale. We so gladly commend this part of the White Sale, because we know how beautifully clean and fresh and pure and how splendidly tailored—is all this profusion of white wear. We ordered it so and diligently watched that it was so—now we assure you that it is so. Probably nowhere else will you see either so large a variety or such beautiful and desirable muslin wear.

Gowns from 49c to \$12.50. Drawers from 25c to \$5. Corsets from 49c, 75c and up. Corset Covers—25c up to \$5. Chemises range from 98c to \$7.

15 styles of gowns—usually worth \$1.50, each, 98c. 7 styles of usual \$1 gowns, all styles, for each, 79c. Regular 35c values in Cambric Drawers for each, 25c. 75c Lace and Embroidery trimmed Drawers for only each, 49c. Ten styles, usual \$1.50 Skirts, \$1.19. Hundreds of 35c quality Corset Covers, in this sale, 25c. Fourteen styles in regular 75c value Corset Covers for, 49c.

Embroideries So tremendous has been the demand for embroideries that we've been making many more short lengths. These with everything which is, by the immense selling, made an odd lot are being constantly added to the great bargain offer in embroideries—at such prices as these—

Edges and Insertions—Cambric, Swiss and Nainsook fully 1-3 to 1-2 less than regular prices. All 8c to 10c values at per yard, 5c. All values up to 15c a yard, per yd., 10c. All values up to 25c a yd, per yd., 15c. All values up to 35c a yd, per yd., 25c. All values up to 50c a yd, per yd., 35c. All values up to 75c a yd, per yd., 50c. All values up to \$1 a yd, per yd., 75c.

35c WHITE PIQUE 19c. 2,500 yards fine quality, all sizes cords—short lengths, blue none too short for a waist or a skirt. You'd ordinarily have to pay 35c—but the great White Sale price is 19c.

A New One! Lawns! Note Well! Another store offers this bargain!—A 22-inch lawn, for which they "charge you" regularly 26c—at a bargain price of 15c (in big type). Now listen! This lawn is 40-in. wide, fine and sheet—we ask reg. only 19c, and the White Sale price is 13c.

39c SILK MULLS 19c. 3,000 yards plain white silk mulls, in short lengths, three to fifteen yards in a piece. Sell regularly at 39c, but the White Sale makes them a 19c bargain at, per yard.

PANTON & WHITE COMPANY THE BIG GLASS BLOCK STORE QUALITY IS PARAMOUNT

for the ensuing year: P. W. Baber, Chicago, president; A. T. Naughton, Chicago, vice president; W. B. Thomas, Manitowish, Mich., treasurer; Milton O. Nelson, Minneapolis, secretary; and Bro. Tom Ahavik, Wis., L. R. Martin, Duluth, and L. R. Clark, Chicago, directors.

An elaborate banquet was served at the Spalding hotel last evening, the hosts being the Duluth Log company, L. R. Martin, Martin Bros., Clouet Tie & Post company, Pittsburg & Lake Superior Iron company and Marshall H. Coolidge company. The banquet brought the very successful meeting to a close.

Indigestion, constipation come and go like rent and tax day and other sorrows. If you take Hollister's Rocky Mountain Tea, the greatest remedy known to mankind. 3c, 5c, 10c, 25c, 50c, 1.00, 1.50, 2.00, 2.50, 3.00, 3.50, 4.00, 4.50, 5.00, 5.50, 6.00, 6.50, 7.00, 7.50, 8.00, 8.50, 9.00, 9.50, 10.00. Ask your druggist.

We will deliver wood by the cord to any part of the city.

RED CLIFF LUMBER CO. COMPANIES INCORPORATE.

Two Duluth Concerns File Articles With Register of Deeds.

Two local concerns filed articles of incorporation with the register of deeds yesterday afternoon. The Stewart Transfer company has incorporated with a capital stock of \$50,000. The incorporators are Harris E. Stewart and B. U. Stewart and Earl H. Stewart all of Duluth.

Smith, Oldham & Co. have incorporated with a capital stock of \$50,000, to carry on a general brokerage business. The incorporators are Hansen E. Smith, John M. Oldham and W. J. Stevens.

## RAILROAD NEWS BREAKS THE THIRD ROAD CAR RECORD TO BORDER

Car Service Association  
Does an Immense Business in 1906.

Total for Year is 39,000 Higher Than in 1905.

Despite the car shortage in the Northwest, of which so much has been said and written, the Lake Superior Car Service Association, operating in Duluth and Superior, broke all previous records in 1906 in the number of cars handled, eclipsing the total figures of 1905 by about 39,000 cars. The total number of cars handled in December, 4,244 cars, also broke all existing records for the month.

James Kelly, manager of the organization, has completed his December report, and has prepared figures showing the business transacted by the association during the year 1906. These figures offer interesting comparisons with those prepared in previous years.

In 1906, for example, the total for the year was 39,000 cars handled, showing an increase for 1906, as compared with 1905, of 10,322 cars. The cars used now hold about twice as much as they did ten years ago, and this increase is considered in an estimate of the increase in the amount of freight handled at the head of lakes during any specified period. In 1901 only 194,255 cars were handled by the association.

The increase last year was due largely to big shipments of building material and coal. The increase in the shipment of coal was due almost entirely to the shipments of coal. The immense total of 2,011 cars of coal were sent out of Duluth and Superior last month to supply the wants of the interior towns.

The following table shows the increase by years in the number of cars handled by the association:

1901	194,255
1902	247,223
1903	218,565
1904	211,700
1905	245,435
1906	294,940
1907	311,412
1908	300,113
1909	304,779
1910	272,010
1911	251,058
1912	240,588
1913	217,423
1914	222,795
1915	232,633
1916	271,412

The table set below gives a comparison of the number of cars handled by months during the years 1905 and 1906, showing an increase for every month in 1906, except February and September:

January	1906	1905
February	23,270	22,379
March	25,270	22,379
April	26,997	22,379
May	28,587	21,263
June	28,587	21,263
July	28,587	21,263
August	28,587	21,263
September	28,587	21,263
October	28,587	21,263
November	28,587	21,263
December	28,587	21,263
Total	322,033	311,412

### MANY IMPROVEMENTS.

#### Head of Lakes to be Center of Railroad Activity.

The Head of the Lakes will be the center of a great activity during the coming year. The Great Northern and Northern Pacific are planning improvements in the way of increased yard facilities and additions to the Great Northern shops. The Terminal company will greatly enlarge its yards and tracks, and will also purchase two large locomotives. It is understood that the Northern Pacific will double its tracks between South Superior and the Union depot at West Superior. This move is made necessary because of the fact that Great Northern passenger trains are now using two Northern Pacific tracks between these two points.

### COAL FAMINE VERY SERIOUS

At Brainerd, All Dealers  
Being Out of Hard  
Coal.

Brainerd, Minn., Jan. 9.—(Special to The Herald.)—The coal condition is getting serious in Brainerd. There is not a pound of hard coal in the hands of the dealers and there seems no probability of improvement in the near future.

The banks here elected officers yesterday. The First National bank re-elected all the old officials: Directors, G. W. Holland, Adam Brown, B. A. Ferris, E. A. Farrar and George O. LaBar. The officers re-elected are: President, G. D. La Bar; vice president, G. W. Holland; cashier, E. A. Farrar; assistant cashier, George H. Brown.

The Citizens State bank elected the following directors: M. T. Dunn, Fred Hoffman, C. N. Parker, J. W. Koon, H. Ribbet, John Carlson, A. Thoben. Officers: President, M. T. Dunn; vice president, Fred Hoffman; cashier, J. A. Eschelder. The sum of \$4,000 was placed in undivided profits. Brainerd now has two strong, conservative banks headed by men who stand high in financial circles in the state.

### MOORE IS HELD

For Trial in the District Court for Beltrami County.

Beltrami, Minn., Jan. 9.—(Special to The Herald.)—J. R. Moore, the resourceful gentleman who, with the assistance of Franklin Anderson and J. W. Cherry, secured several Beltrami people out of various amounts through notes, was arraigned before Justice Skivvik.

There had been five warrants issued against Moore, but it returns had been made in but two, one on the charge of forgery in the second degree and another on grand larceny in the second degree. He was held on both to the district court.

### Rev. L. Drummond,

The noted Jesuit orator, will deliver his postponed lecture this evening at 8 o'clock, in the Cathedral Auditorium.

Thomas H. Shevlin, the Minnesota lumber king, announces that he will build a railroad to the Rainy river, extending from Kellther northward. Kellther is a town on a branch line of the Minnesota & International railway, about midway between Bemidji and the Big Fork river. The new line will measure fifty-five miles in length, and work on it will probably begin this year.

The road will have its northern terminus at Spooner and Beaudette, two border towns. On the American side of the river at this point Mr. Shevlin has an immense sawmill, employing 200 men. On the Canadian side he is operating a mill employing 500 men. Within the past sixty days the townsite at the American mill has been joined to the town of Spooner, and plans for connecting the enlarged town by rail with the outer world, have now been perfected. While primarily a road for getting out logs and lumber, the line will operate freight and passenger trains in connection with the Northern Pacific, which controls the Minnesota & International.

The development of this piece of territory will mean much to Duluth. The country through which the line will run is fertile for agricultural purposes, and even now is well settled up. As soon as what timber as remains is cut away it will be a prosperous farming, dairying, and stock-raising district, with busy farmers and the region richer to them, thickly populated with progressive people.

Duluth will be nearer this district by rail than will either St. Paul or Minneapolis, and alert Zenith City wholesalers and jobbers should have little difficulty in obtaining a much stronger foothold there than the same sort of business interests in the Twin Cities. The whole region along the Minnesota & International and its branches offers a remarkably rich field for Duluth houses. With this country opened up and developed, and with the completion of the Duluth, Rainy Lake & Winnipeg road through International Falls, opening up another fine stretch of productive country, Duluth will be given a boost that will make Minneapolis and St. Paul sit up and take notice.

The Minnesota & International, with its two proposed border extensions, will give direct connection with the Twins, and the fact that Duluth is so much further north gives this city a great advantage in distance, even though shipments from here will go by a more roundabout way than those from Minneapolis and St. Paul. From Duluth to the border via the Minnesota & International is much shorter than from the Twin Cities to the border via the same route, and Twin City houses cannot expect to compete with Duluth interests along the Rainy Lake road, for all shipments from the Twin Cities to the territory in question would have to pass through Duluth.

Spooner is about seventy-five miles below International Falls, where both the Rainy Lake road and the Backus-Brooks extension of the Minnesota & International will have terminals. The Shevlin road will thus give a third outlet to the Rainy River country, and the stimulus in value there is already apparent. Some 800 acres of land along the Long Sault rapids, twenty-five miles above Beaudette, have just been acquired by unrevealed interests. In some instances as high as \$9 an acre was paid for the land. The rapids are said to be capable of supplying as much power as the falls at International Falls.

### Rev. Russell H. Conwell

At the First M. E. church tonight.

### WES WRIGHT CHOSEN

As Chairman of the Commissioners of Beltrami County.

Beltrami, Minn., Jan. 9.—(Special to The Herald.)—The members of the board of county commissioners assembled yesterday to hold the annual meeting of the board, and the auditor's office, where the session is being held, has been crowded with interested parties watching the proceedings.

The board, as present constituted, is composed of the following members: First district, Wes Wright; Second district, George Gunderson; Third district, F. O. Sibley; Fourth district, Joseph Wagner; Fifth district, A. W. Dunahut. Wright and Sibley are new members of the board.

The board organized by electing Wes Wright as chairman and Joseph Wagner as auditor. The vote being unanimous for both candidates.

### GUILTY OF LARCENY.

Young Man at Akeley Given a Sixty Days' Sentence.

Akeley, Minn., Jan. 9.—(Special to The Herald.)—Jake Putman, a young man employed in the mill here, was arrested Monday on the charge of larceny. He pleaded guilty and was given a sentence of sixty days in the county jail. He formerly lived in Mankato, where he belonged to the baseball team. There are reports of other charges being brought against him as soon as he has served his time.

### WEDDING IN PAJAMAS.

Jersey City Supplies Novelty in Matrimonial Line.

New York, Jan. 9.—Jersey City yesterday supplied the latest marital and society novelty—a pajama wedding at 4 o'clock in the morning.

Frank C. Lahane, "marrying justice," tied the knot.

Nelson W. Wheeler, a wealthy retired farmer of Westfield, Conn., who admits following life's furrows forty-two years, gave into Jersey City late Monday.

"Miss Flora B. Young, Norwich, Conn.," he wrote upon the hotel register, directly under his own name.

The pair were rattled through the streets of the sleeping city to the home of the "marrying justice."

Magistrate Lahane put on a frock coat over his pajamas, and at 4 o'clock opened his door and let blushing "Flora" and her swain into front parlor.

The noise of the marriage awakened the entire neighborhood, and upon the invitation of the magistrate, a number of married men living in his own flat house trooped in. All wore pajamas.

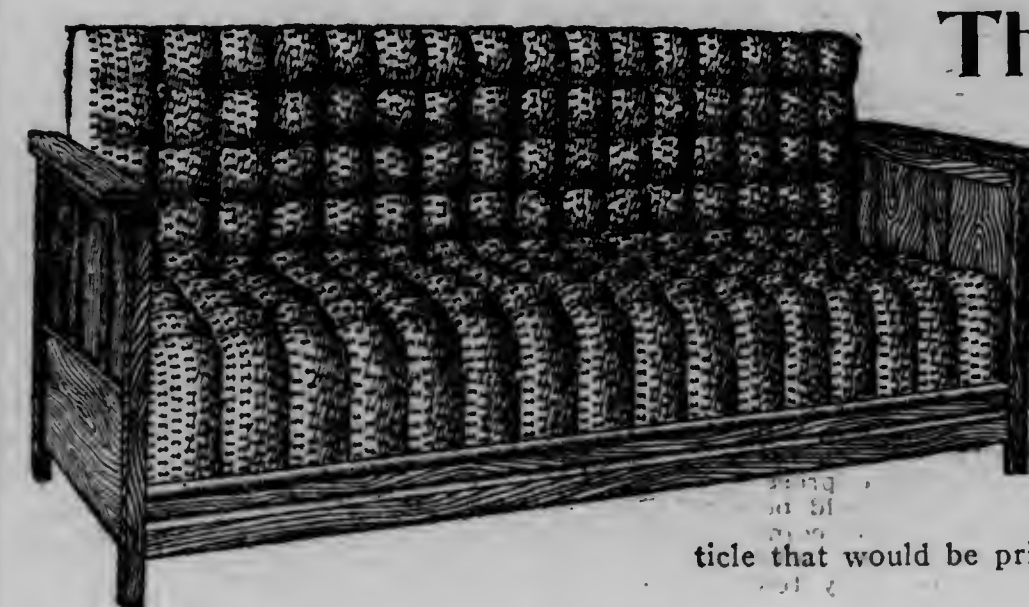

## BAYHA & CO

## AN INVITATION

If Furniture and Housefurnishings are to be bought soon—won't you call? We've said so much to you in previous "talks" about our new and beautiful store, and we are proud of it, that we are anxious for an opportunity to show you through. Even if you do not think of buying right now, we would like to have you come in and look over the stock, which is "up-to-the-minute" in every respect.

Anything and everything in Furniture, Draperies, Housefurnishings of every kind are here, and we will be only too glad to show them to you. Visit us often.

## These Prices Will Appeal To Your Economy.

These Fine  
Bed Sofas  
\$14.85

We have them with either the solid golden oak frame or the mahogany finished birch—seats and backs tufted, and upholstered in dark green Verona Velour. An article that would be priced at \$30 in other stores.

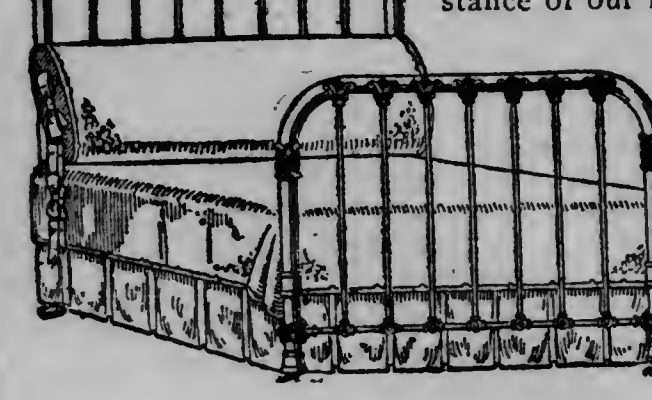

## Handsome 3-Piece Leather Covered Parlor Set \$14.85

Frames are solid oak in the golden finish, suit is very handsome style, frame finely finished, rich golden oak, seats upholstered in genuine leather—black. A \$35 value elsewhere, here a rousing good special at \$14.85.

## Our Line of Brass Beds

Is by far the most complete in the city—over 50 styles here for your choosing, and as an instance of our lower prices we mention one—

For \$16.65

That couldn't be duplicated elsewhere for less than \$30. An all brass Bed—full size—straight post bed with large brass ball post mounting—heavy tubing throughout—finished in best guaranteed lacquer. A fine style Bed and a royal good bargain at \$16.65.

## Solid Oak Quarter Sawn Dining Tables \$16.75

This is a solid oak table—quarter-sawn—hand-polished finish—42-inch top—6-foot extension—pedestal base—a finely finished table, well made, and one that could not be duplicated elsewhere for less than \$30 or \$35.

Our Dining Room section is replete with extraordinary values—a line for variety—for quality of goods shown—and for money saving prices, surpasses any other similar showing in Duluth.

## Two Victor Concerts Saturday Jan. 12, Afternoon and Evening.

We Cordially Invite You to Attend.

### CHILDREN'S MATINEE AT 2:30 P. M.

#### PROGRAM.

## Our Scotti-Caruso Program

Is one that you cannot fail to enjoy. We have selected the numbers sung by these two world-famous artists, with great care, and we believe this splendid program will please all. We invite all to attend. Program commences 8:15 sharp.

## All Goods sold on very Easy Terms of Payment

## The White Sale —and— The Garment Clearance

Duluth's two absorbingly interesting merchandising events. Hundreds of Duluth's most careful, discriminating women are saving money at one or both these sales.

A few details in our "ad" on page 5.

### PANTON & WHITE CO

#### DULUTH DEANERY MEETING.

Opening Session Next Tuesday at St. Paul's Episcopal Church.

The opening session of the regular meeting of the Duluth deanery will be held in the St. Paul's Episcopal church at 9:30 next Tuesday morning. The session will commence with holy communion, followed by an address by Rev. W. J. Cordick of Superior. There will then be a short business meeting, followed by two talks on Catechetics, one by Rev. R. A. Read of the St. Paul's church, on "From the Seminary to the Parish," and the other by Rev. A. J. Coe of the St. Paul's church, on "Catechetics in the Sunday School." In the afternoon at 2:30, the Rev. A. R. Parker of Lakeside will speak on the St. George church of New York, and A. H. Wurtelle of the Trinity church of the St. Augustine church of New York.

A mass meeting of the members of the Episcopal churches of the city will be held. The topic of the evening will be "The Men's Thanksgiving." Prof. A. F. M. Constance, in charge of the musical part of the deanery, has arranged special music for it and will have present the full choir of St. Paul's church.

#### MILLION FOR SOBRIETY.

New Yorker Gets Reward for Long Water-Wagon Ride.

Amityville, N. Y., Jan. 8.—Eugene Anderson finished a ride of thirteen years on the water wagon Monday, the prize of his long abstinence being \$100,000 left to him in trust, to be delivered when, in the opinion of the trustees, he showed sufficient control over his appetite for drink. He is now 50 years old, and has not said how he will celebrate coming into possession of the fortune.

#### SUSPECT SON OF TRYING TO POISON HIS FATHER.

St. Louis, Mo., Jan. 8.—Joseph Boulting, a wealthy retired farmer, is lying near death at a lodging house in this city, while officers are securing the country for his son, who is suspected of poisoning his father's illness.

The son was with the old man a part of the night and was heard by roomers cursing him, and shouting, "I'll kill you." He disappeared early in the morning and the father was found in convulsions, which a physician said indicated he had been poisoned.

The older Boulting recovered consciousness and declared his belief that he had been poisoned, but did not accuse his son. He was rational only a few minutes.

#### WRITES TO THE CHIEF ABOUT AN OLD MURDER.

Thief River Falls, Minn., Jan. 8.—Chief of Police Erickson has received a letter from Jackson, Minn., signed by Thorpe Edell, purporting to give a tip on an alleged murder in 1860 or 1861 in Thief River Falls.

The letter stated that a wheat buyer had been killed here and that a resident of Kinbrae, Minn., whose name the correspondent mentioned, could give full information.

## The Virtue of Mastication

(From "The Tribune" Correspondent.)

New York, Oct. 5th. Professor Irving Fisher, of Yale University, has been conducting experiments upon last January in order to determine the effects of the thorough mastication of food. He has found that their endurance is increased 50 per cent, although they took no more exercise than before the experiments, and although they diminished their consumption of food to one-sixth the original quantity.

These experiments emphasize the advantages of the scientific food, GRAPE-NUTS, which, when eaten properly—that is, crisp and dry, direct from the package, with a little cream or milk—requires thorough "chewing."

Grape-Nuts food comes in delicate crisp granules, intended to be ground up by the teeth. The work not only preserves the teeth but brings down the saliva from the gums so necessary in the primary work of digestion.

If your teeth are fit, chew, chew, until the food is liquid and insists on being swallowed.

If teeth are faulty, soften Grape-Nuts with cream or hot or cold milk and allow to stand a minute soaking, but even then don't forget to chew.

Many people say (and it is true) that when they eat Grape-Nuts they seem able to digest not only that food but other kinds which formerly seemed indigestible.

There's a Reason for

### Grape-Nuts

## MEETING IN PROGRESS

County Board Reorganizes and Gets Down to Work.

Mine Inspector Harvey is Called on the Carpet.

Contrary to the usual custom the old county board did not meet until yesterday. The annual meeting was held and the board reorganized without the formality of adjourning the old board sine die.

Commissioner John Sundeen was chosen as temporary chairman and the regular order of business observed.

Commissioner E. M. Patterson, former vice chairman of the board, was the unanimous choice for chairman during the coming two years and Commissioner Charles Kauppi was elected vice chairman for the same term.

Chairman Patterson and Vice Chairman Kauppi made a few remarks expressing their appreciation of the honor conferred by their fellow commissioners, and F. W. Kugler, the retiring commissioner in the second district, made a short but happy speech introducing his successor, George Tischer. Mr. Kugler referred to pleasant relations with the other commissioners during his several years' service on the board and said that he had banished from memory any occasion when differences of opinion had been caused by personal tiffs. As an expression of his good will toward the members of the board Mr. Kugler presented a box of cigars with instructions to the commissioners to "smoke and be merry."

Chairman Patterson announced the following committees: Highways and Bridges—Patterson, McInnis, Ryan, McMahon, Sundeen and Tischer. Claims and Accounts—McInnis, Kauppi, Sundeen and McMahon. Taxes and Assessments—Kauppi, Ryan, McMahon and Tischer. Supplies and Purchasing—Sundeen, Tischer, McInnis and Kauppi. License and Legislation—Ryan, Kauppi, Tischer, McMahon, Sundeen, McInnis and Ryan.

Outside the routine business to be transacted at the annual meeting, the chief thing of interest at certain charges that were claimed to have been made by W. E. Cullen, recently against the manner in which W. A. Harvey, county mine inspector, performs his duties. Members of the board said that Mr. Cullen is regarded as a very severe critic of the mine inspector's work.

Mr. Harvey appeared before the board in response to a request that he explain the matters to which Mr. Cullen is said to have referred.

Commissioner Kauppi said a juror when he hears of a case, he has had no very extensive mining experience. The commissioner said he had heard from the people that there was considerable criticism about Mr. Harvey, that the latter had paid attention to the mine and took the reports of the mining officials, instead of making his own investigation.

Mr. Harvey declared that the statements by Mr. Cullen were false. He declared that he had never paid attention to the mine and that he had never taken the reports of the mining officials, but that he had taken the reports of the mine inspectors.

Mr. Harvey said that, without exception, the mining men have conformed to his requirements and that he had no friction with them in any way. He also stated that he has been under great stress of mind in investigating the work of the miners and made such recommendations as he thought proper. Mr. Harvey said that he did not always talk to the miners, for the reason that some of them could not speak English. Where it is possible he always makes inquiry of the men, but makes his recommendations to the management of the mine.

Mr. Harvey said he was glad of the opportunity to be heard by the board, and courted the fullest consideration of his work. It is likely that the board will appoint a committee to conduct an investigation, and that the publicity that has been given them.

A communication from H. M. Bracken, secretary of the state board of health, stated that the board has been receiving reports from several places to the effect that small pox existed in St. Louis county and that the patients were from Frodoe & Kilien's camp No. 2. Dr. Bracken says that it is evident that the camp was not properly looked after at first. He says that the camp appears to be quarantined, but it does not appear who quarantined it, as no one seemed to have authority to do so. The state health officer says he understands the camp is in an unorganized township, and such being the case it is under the jurisdiction of the county board of health.

Dr. Bracken says he understands St. Louis county had no board of health during the past year. He was informed that Dr. Miller who was appointed county health officer, refused to serve. He recommends the appointment by the county board of a board of health that will be prepared to do its duty in the future. The letter was received and filed.

Bids were opened for the county printing and supplies for the coming year. The bids were referred to the committee on claims and accounts. The matter was to have been brought up and disposed of at a meeting today.

W. F. McKay was reappointed assessor of the unorganized township in the county at salary of \$3 per day.

Appropriations for clerk hire in county offices for the first half of the year were as follows: County auditor, \$7,500; county treasurer, \$5,000.

The appointments of clerks and deputies by the county officers were confirmed. There were no changes from

the clerical forces employed during the past two years.

The bonds of the several county officers were accepted and filed.

An appropriation, not to exceed \$600, was made for the local laboratory of the state board of health.

Benjamin F. Howard was appointed appraiser of the state lands in St. Louis county.

Louis Anderson was granted a license to sell liquor in the town of Canasta. Three commissioners voted against the license.

A petition from the Northern Traction company requesting a franchise to build its tracks and operate its cars on certain of the county highways on the Mesaba range, was referred to the county attorney, to be taken up by the board today, after a report from that official. The petition is signed by R. F. Berdie, president of the traction company. Mr. Berdie says the company has already begun to grade its line from Hibbing toward Virginia.

After disposing of other routine business, the board adjourned until 1 o'clock this afternoon.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably induce a healthy condition of the bowels, to the National Pure Food and Drug Law. Sold by all druggists.

## WILL NOT CALL SPECIAL MEETING

Chairman of Republican Committee Sees No Need for It.

Indianapolis, Jan. 8.—Harry S. New, chairman of the national Republican committee appointed to succeed George B. Cortelyou, in an interview said he saw no reason for calling a special meeting of the committee.

At least one public reason for calling a meeting soon, he said, "if any large number of the members of the committee feel that it is necessary to meet, they should call a meeting that would be another matter. Members of the committee must attend its sessions absolutely at their own expense. Very few of them are at Washington."

Between national conventions the committee is without duties, the being the case, it would seem to be absurd to require these men to come from Oregon, Florida, Texas and elsewhere to state and territory in the union, not to mention Porto Rico and Hawaii, and waste their time and money to do so.

## PUPIL DID HOUSEWORK?

Do Her Washing.

New York, Jan. 8.—Charges that it substantiated, would make it seem that at least one public reason for calling a meeting soon, he said, "if any large number of the members of the committee feel that it is necessary to meet, they should call a meeting that would be another matter. Members of the committee must attend its sessions absolutely at their own expense. Very few of them are at Washington."

Between national conventions the committee is without duties, the being the case, it would seem to be absurd to require these men to come from Oregon, Florida, Texas and elsewhere to state and territory in the union, not to mention Porto Rico and Hawaii, and waste their time and money to do so.

## COCAINE AS ANESTHETIC

Rockefeller's Research Institute Reports an Important Discovery.

New York, Jan. 8.—John D. Rockefeller's \$5,000,000 institute for medical research in this city announced a discovery which is expected to revolutionize the practice of surgery.

The discovery relates to cocaine. As an anesthetic for serious operations either in the heart or in the lungs, it is a most valuable discovery. It is a powerful stimulant of the heart and after its injection the patient becomes more alert and less liable to shock. Chloroform does not depress the heart, but it depresses the brain and the patient is liable to become unconscious.

The discovery has been regarded as available only for minor operations. Dr. Kist and Dr. S. J. Metzger, of the Rockefeller institute, after a series of elaborate investigations have found out, however, that cocaine is a most valuable anesthetic for all operations, and that it is as safe as ether and has no bad effects.

"I have been somewhat covetous, but Dr. Kist's results have just the results desired. We have been perfect," George B. Krause, 306 Walnut avenue, Altoona, Pa.

## RICH MEN REDS, SHE SAYS.

Anarchists Have Wealthy Converts, Declares Emma Goldman.

New York, Jan. 8.—Emma Goldman, who was arrested in Clinton hall, Sunday, while making an anarchistic speech, has been held in \$2,000 bail for examination and Alexander Berkman, her consort, was held in \$1,000 bail.

Emma Goldman defended herself by this remark: "We have members of our society of anarchists that are among the wealthiest and most prominent in the city. Men who live in Fifth avenue mansions, and are leaders in the social and political circles of the city. We are not the lot of underlings that the police would make us out."

"Are these wealthy men who are in sympathy with you regularly admitted members of the anarchist society, anarchists in all the world implies?" a reporter asked Miss Goldman.

"Yes, they attend our meetings when they can do so without inviting notoriety; they contribute to our cause, subscribe to our magazines and believe as we do."

## DOHERTY, ALMOST 100, DEAD

Northern Wisconsin Loses Oldest Man, a Resident of Poplar.

Poplar, Jan. 8.—With the death of Francis Doherty at this place, Monday, Douglas county lost its oldest citizen. Had Mr. Doherty lived until April 15 he would have reached the age of 100 years. He was born in Ireland, April 15, 1807, moved to New Brunswick when a boy, and later to Poplar.

Mr. Doherty was the oldest man in Northern Wisconsin.

For fifty years a staple remedy of superior merit. Absolutely harmless.

## CONTROL OF RAILROADS

By State Laws Advocated by Governor of Idaho.

Under Present Conditions People Are at Mercy of Roads.

Bolse, Idaho, Jan. 9.—Governor Frank R. Gooding, in the message which he sent to the state legislature, recommends the creation of a state railroad commission of three members, to be appointed by the governor, clothed with full power to establish maximum rates, enforce entire publicity in relation to railroad transportation within the state, and correct railway abuses of which the people have complained. He states that a deplorable condition has confronted the people of Idaho, owing to lack of proper railroad equipment to handle the traffic of the state. Under present conditions, he says, "the state is at the mercy of the railroad companies, whose sole aim is to pay enormous dividends and keep the opinion that railroad rates in Idaho are most exorbitant in many cases. He urges that a reciprocal demurrage provision be included in the act creating the commission.

Governor Gooding urges stringent anti-pass legislation, not only prohibiting all state and county officials from receiving free transportation on the railroads, but prohibiting all citizens of the state, unless actually employed by the corporations, from accepting any passes or tickets from railroad, telegraph or telephone companies.

Governor Gooding reviews the legal proceedings following the arrest of Harry Orchard, Steve Adams, Charles H. Moyer, William D. Haywood and George A. Pettibone, charged with the assassination of former Governor Frank Steunenberg. He deprecates the fact that many labor organizations have criticized the action of the state officers in taking up the prosecution, and says: "This is a murder case, and such it should be tried, regardless of the position the accused men have occupied, or may now occupy in labor organizations. They are entitled to a fair trial. The character of our courts and our citizenship ensure this."

Governor Gooding asserts that there is no desire on the part of the state to put labor organizations, or the principles underlying them, on trial, or to make war on the labor union idea. The state is endeavoring to punish a few individuals who, in the horrible character, he says, and he adds: "The confession of Harry Orchard, which has been made in a large part by the later confession of Steve Adams, tells a tale so full of horror as to be almost unbelievable."

The governor states that the course of the prosecuting officers has been approved by the state courts, the federal district court and the supreme court of the United States, and that the proceedings had, together with all matters of interest in the case, were the subject of the strictest scrutiny by the president of the United States, Hon. Theodore Roosevelt, who, acting through his personal representative, the first attorney general of the United States, visited Idaho and made a careful and painstaking investigation of the case. He reported to the president, and Mr. Roosevelt has since that time, by word and action, expressed himself as heartily in accord with the state in prosecuting this case."

## Avoid "Taking Cold." Protect the Lungs.

Germs of lung and throat diseases fill every crowded train and car. Your system should be in condition to resist them.

Each season of the year one has to fortify himself against the disease or diseases peculiar to that season. In summer you have to be careful of the digestive organs. In winter and early spring, when the weather is changeable, at times damp, and again cold, you have to guard against "taking cold," which generally is the beginning of all lung, throat and nasal troubles.

"Getting sick" depends largely on the condition of the body to withstand the attack of the disease germs. Two men may be exposed to the same disease germs, and one take the disease and the other escape. The explanation is simple. The body of one was in a healthy condition and able to ward off the germs; the other's physical condition was so weak that it was unable to do so.

Every one is exposed to disease. At this season of the year every crowded train, street car and subway car contain many germs of the different lung and throat diseases. Whether passengers catch these diseases or not depends on their powers of resistance.

Improper diet and poor digestion have much to do with giving disease a chance to gain a foothold.

Just now many eat heartily and on account of the bad weather do not take exercise enough to digest the food eaten. This lowers the power of resistance. To overcome this you should take DUFFY'S PURE MALT WHISKEY regularly, as prescribed. It makes digestion perfect and enables you to get all the nourishment out of the food you eat. Besides it builds up the nerve tissues, tones up the heart and brings all the vital forces into action.

You should also obtain plenty of fresh air for the lungs. Though your house be kept warm fresh air should be obtained from open windows. Your sleeping rooms should always have plenty of pure air. Do not starve the lungs, and you will starve the cold.

A teaspoonful of DUFFY'S PURE MALT WHISKEY in each glass of water you drink will kill all disease germs and prevent grip and pneumonia.

Sold by all druggists, grocers and dealers or direct, in sealed bottles only never in bulk. Price \$1. Insist on the genuine and see that the "Old Chemist" trade-mark is on the label. Beware of re-filled bottles and spurious whisky substitutes offered for sale by unreliable dealers. They are positively harmful and will not cure. Illustrated medical booklet and doctor's advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

It is known that before he arose yesterday morning he had determined to kill his wife, and had planned it all out. He says he had no thought of hurting the boy, but the latter's interference prompted him to shoot him down.

WIFE OF 18 YEARS IS SEEKING A DIVORCE.

Marshalltown, Iowa, Jan. 8.—Mrs. Kate Downing Bailey, until recently of Des Moines, wife of A. James Bailey, a traveling man of Des Moines, has filed a petition for a divorce in district court. She alleges failure to provide the necessities of life, medical attendance through sickness, unchastity and other statutory grounds. The Baileys were principals in a sensational case of abduction, and when they drove to Melbourne, ending all search, and took a Great Western train to Chicago, through Marshalltown, and were married at St. Joseph on the following day. Mr. Bailey only came here a few months ago from Des Moines.

FALL WAS FATAL. Eau Claire, Wis., Jan. 8.—Hans Langrade, a widower, aged 60, was instantly killed by falling down stairs at the home of Hans Olson in this city. Olson says that someone pushed the man. Mrs. Carlman of the Adelphi hotel, in Minneapolis, is a daughter of the dead man.

A Woman's Health

Is a heritage too sacred to be experimented with. For her peculiar and delicate ailments only medicines of known composition and which contain no alcohol, narcotics, or other harmful or habit-forming drugs should be employed. The one medicine which fulfills all these requirements is Dr. Pierce's Favorite Prescription—a remedy with a record of over forty years of cures to recommend it; a remedy, the makers of which print its formula on every bottle-wrapper and attest its completeness and correctness under oath; a remedy devised and adapted to woman's delicate constitution by an educated physician—an experienced specialist in woman's diseases; a remedy, every ingredient of which has received the written endorsement of the most eminent medical writers of all the several schools of practice for the cure of woman's peculiar diseases; a remedy which has more bona-fide cures to its credit than any other sold by druggists for woman's special requirements. It is not given away in the form of "trial bottles" to be experimented with, but is sold at a fair price by all dealers in medicines.

Delicate, weak, nervous women should especially shun the use of alcoholic medicines which, from their stimulating and exhilarating effects may seem, for a time, to do good, but which from the inevitable effects of the alcohol in shrinking up the red corpuscles of the blood are sure to do great and lasting harm in the long run. Besides they beget a craving for stimulants which is most deplorable.

Only invigorating and nerve strengthening effects can follow the use of this famous medicine for women. It can not possibly do harm in any state or condition of the system. It has been carefully adapted to woman's needs by an experienced physician—a specialist in their diseases. It makes weak women strong and sick women well.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvis, backache, frequent headaches, dizzy or fainting spells, is nervous and easily startled, has gnawing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia, or "blues," or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dress-makers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening "Favorite Prescription" is as unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, epimas, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

No woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription, which is of known composition and has a record of over forty years of cures and sells more largely to-day than ever before. Its makers withhold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter free of charge. All letters of consultation are held as strictly private and are returned in plain, sealed envelopes. Address: Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." They are the original Little Liver Pills first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They are sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for \$1 stamps. Address Dr. Pierce as above.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for \$1 stamps. Address Dr. Pierce as above.

## WILL ASK FOR RAISE

Carpenters and Painters  
in Line for Wage  
Increase.

Will Follow Example of  
Minneapolis Union  
This Spring.

It is the opinion of the local labor leaders that several of the Duluth unions will ask a slight increase in the scale of wages at the opening of the busy season next spring. At least two of the unions, the carpenters and the painters, are known to be considering this course and others are likely to do the same before spring sets in. The members of the carpenters' union in Duluth have been talking over the question of asking for higher wages for some time and have about concluded to ask for a slight increase, although nothing official has been done. The painters have also considered the matter and will probably ask for a small raise. It is said that the members of these two unions are the lowest paid of any skilled mechanics and the opinion is general among the union men that a raise in pay is deserved. Minneapolis carpenters have decided to put in a bid for a slight increase this spring. They have set the figure of increase at 5 cents an hour and the Duluth union will probably do the same when it actually decides to raise the scale. Carpenters in Duluth are at present drawing 40 cents an hour so that with the 5 cent increase the scale would be 45 cents.

With the great amount of building operations, which are in prospect for the spring and summer season, the carpenters expect to have little difficulty in obtaining the slight increase which will probably be asked. Duluth and the Twin Cities are on about an equal footing as far as building goes, as both St. Paul and Minneapolis have prospects of a great building year before them.

George Davis, business agent of the builders' structural alliance and also a member of the carpenters' union, says that the slight increase of 5 cents an hour will probably be asked by the carpenters this spring. He stated that the Duluth union would be liable to follow the example of the Minneapolis carpenters. Mr. Davis said that nothing had been planned definitely by the carpenters, however, and that up to the present time there had been nothing but talk in regard to the matter.

## THE ADVICE OF SENATOR KNOX

Will be Accepted by  
the Mother of Harry  
Thaw.

Pittsburg, Pa., Jan. 9.—United States Senator P. C. Knox, it is said, has convinced Mrs. William Thaw that her plan is to let her son, Harry Thaw, understand he will be tried for the murder of Stanford White, with the "unwritten law" plea as the defense. Then, at the last moment, the plan is to have a commission appointed after which Thaw may be whisked away to Matteawan's criminal insane asylum, and go into retirement until such time as it is considered propitious to ask for his trial after recovering his reason.

One very close to the elder Mrs. Thaw says the plan has been adopted, following the refusal to become connected with the case of such lawyers as David T. Watson, John G. Johnson, Alexander Simpson, Abraham Levy, who defended Nan Patterson, as well as several other prominent attorneys of New York City.

With this plan, the fear of what C. J. Holman, his wife and stepson, Howard Nesbit, have to tell will not bother the defense. It would eliminate many of the handicaps which Thaw's relatives have been trying to overcome. Thaw's relatives say there has been no attempt to outline a defense, and there will be none, except the report of the alienists, who will go into the supreme court before Judge Fitzpatrick and assert that Harry Thaw is insane, has been for some time, and that he will continue to be without his reason as long as he is confined in the Toms or any other strictly penal institution. Upon this testimony, which the Thaw family believe will not be contested by District Attorney Jerome, Thaw will be sent to Matteawan for four or five years, live a life of ease, and, perhaps, eventually come forth a free man. Senator Knox has had several conferences with Mrs. Thaw, and while he will not become associated with the case as an attorney of record, he is appearing as an adviser to the mother.

No attempt will be made to say that Thaw was insane when he committed the murder. It will simply record that he was insane now and cannot be legally tried for the murder. Later, in possibly three or four years, it is said, Thaw will be removed from the criminal insane retreat and brought back to the Toms for trial. It will be then up to him to prove his sanity at the time of the deed, and with the witnesses scattered and other circumstances in his favor, Thaw will stand a good chance of acquittal.

Thaw will have not a word to say. He will be insane in the eyes of the court, and any protest he might make will not avail. The medical men will render their opinion, the court will accept their report, and, despite his protests, he will be adjudged crazy.

## NOT LILLIAN'S NIGHTIE.

Actress Played Mean Trick on Man Who  
Stole Her Diamonds.

New York, Jan. 9.—The meanest trick ever perpetrated upon an honest burglar has been inflicted by Lillian Russell upon the gentleman who last October coolly walked out of her stateroom with a pint or more of her diamonds.

The theft occurred while Miss Russell was on tour with "Barbara's Millions." Between Dayton and Columbus a gentle rain, carrying a handsome overcoat upon his arm, entered Miss Russell's stateroom as it by accident, politely suggested one's traveling bag under the folds of his coat. Everybody poot-pooted the red reality, nevertheless, and in the course of a few hours the diamonds were the trail of the man who had borrowed the gems. When he found that he was likely to be caught, he fled, leaving the return of the diamonds looking to the questions were to be asked. He imposed one other condition. In the traveling bag he had found a beautiful nightie of pale pink silk, relieved by insertions of baby blue and purple. Partly out of gallantry and partly from a sincere regard for Miss Russell, he stated that he desired to keep the nightie as a trophy. He apologized for the sentiment, but he could not deny it.

The comedienne was glad enough to recover her jewels without bickering over a mere nightie, and she consented to the condition. The diamonds were returned,

Miss Russell was happy and presumably the chivalrous thief was satisfied. Only yesterday was the sequel disclosed. A few days ago Miss Russell received a letter, in strange handwriting, postmarked Cleveland. It was signed, "The man who got to your junk," and was written in terms of bitter reproach. "You took an unfair advantage," wrote. "You did not act on the square. For weeks I have been priding myself on that silk what-you-may-call-it, and behold! I have discovered the initials 'M. C.' embroidered on it. Now, what's the answer? Am I stung?" To which Miss Russell has replied: "It would have been a gross breach of etiquette for me to interfere with your possession of her. Besides, my maid might have nabbed her without even so much as an introduction."

## RECIPROCAL DEMURRAGE

To be Considered by  
Shippers and Receivers  
Association.

St. Paul, Minn., Jan. 9.—The annual meeting of the Minnesota Shippers and Receivers' association will

be held at 610 Endicott building, SE Paul, on Jan. 16, to consider the reciprocal demurrage bill and other matters connected with transportation, and an invitation has been extended to all business men to be present.

George S. Loftus, the commissioner of the association, has suggested the following remedy for car shortage reciprocal demurrage: Less "watered" stock, more competent help, serving shorter hours; more and better equipment, shorter and faster trains, more double track mileage, will give the shipping public prompt and better service. Superintendents and agents should not be compelled to vie with each other in cutting

down operating expenses by hauling heavy "drags" running up into the thousands of tons. Long, heavy trains move slower and cause more "bad-order" cars, wrecks, etc., and from the shipping public's standpoint renders both slower and poorer service than shorter and lighter trains. Officers of railway systems should not be compelled to earn dividends on millions of "watered" stock. If the stock of the railway corporations of this country represented the actual cost, their officers could render prompt and efficient service, and at the same time earn good, liberal dividends for their stockholders.

## KING EDWARD As a Cattle Breeder Takes the Prizes From Farmers.

London, Jan. 9.—King Edward, as a cattle breeder at his model place in Sandringham, has been such a success that he carried off nearly a dozen prizes at the one hundred and eighth Smithfield cattle show, last week. The farmer, who makes his living from what is royalty's pastime, had scarcely a show between the exhibits of the king and other gentlemen breeders.

and other noble cattle breeders, instead of taking the prizes gained by their beasts, should be content with honorable mention, and so give the genuine farmer a chance of gaining some substantial reward for the trouble he takes to rear show cattle. At present he has to be content for the most part with "highly commended" certificates, as it is obvious he cannot hope to successfully compete with those who are able to spend unlimited sums in cattle rearing.

There may be someone advertising for employment today who would be worth to you as much as any two of your present employees.

## SPORTING NEWS OF THE DAY

SUPERIOR  
DEFEATED

Duluth Y. M. C. A. Team  
Wins Fast Game of  
Basketball.

Local Players Make  
Favorable Impression  
on First Appearance.

The Duluth Y. M. C. A. team won its first game of basketball last night at the Association gymnasium, defeating the Alumni team of the Nelson-Dewey high school of Superior. The Alumni team, headed by J. Nixon, their star center, proved to be a well balanced team of old timers. Their line-up was considerably changed from the original. Hudson, Henderson and Connolly taking the places of Lamont, West and Chadote. The name Connolly is known where ever basketball is played in this section of the country and his playing last night was not of color. Every man knew his position and played it. The same can be said of Duluth. The new men filled their places in great form, holding the old-time team and again, Dennis at guard was always there. Duluth at center held his own against an older and much heavier man, getting the ball at the center often. Superior was inclined to rush it, many fouls being charged against them. Duluth did his share of foul work too, causing the team work to be interfered with. Many times the ball would be worked by good work by the Duluth forwards the goal when the whistle would blow for a foul, breaking up some nice passing. The score at half time was 12-12, and the second half was captured by Duluth, making the final score 20-25. Superior excelled in field goals, getting seven to Duluth's six, and also in rough work, having three fouls called on them against twenty-five for Duluth. Duluth led in converting free throws into scores, making 13 to Superior's 10.

A return game will be played in Superior next month. The line-up: Duluth—forward, Connolly; center, Henderson; guard, Bluff; forward, Henderson; guard, Bluff; forward, Henderson; guard, Bluff. A challenge from the Cooke Institute team of Minneapolis has been received and is now being considered. Other games are in sight, but no dates will be announced for the time being. The team used their new white shirts with the association emblem in red on the breast, making a very neat appearance.

SCHEDULE IS  
ARRANGED  
High School Basketball  
Teams Will Play for  
Pennant.

William Burris, captain of the seniors, Sargent McDonough of the juniors, and Arthur Taylor of the freshmen, met yesterday afternoon at the boys' department, Y. M. C. A. and completed plans for the schedule of games that are to be played between the various classes of the high school. All the games are to be played in the gymnasium of the Y. M. C. A. and the conclusion of the games the two classes having the largest percentage will play off for the pennant. The pennant will be made in the color of the winning team. The league will close with a banquet, at which time the pennant will be presented. The teams have been practicing for the past few weeks. Some good men have been developed and the series of games promise to be fast and interesting. The following is the schedule: Seniors vs. Freshmen, Friday, Jan. 11, 8 p.m.; Seniors vs. Sophomores, Friday, Jan. 11, 8 p.m.; Seniors vs. Sophomores, Monday, Jan. 14, 8 p.m.; Seniors vs. Freshmen, Friday, Feb. 1, 8 p.m.; Seniors vs. Sophomores, Friday, Feb. 1, 8 p.m.; Seniors vs. Juniors, Friday, Feb. 15, 8 p.m.

FARMER TIED TO  
RAILROAD TRACK  
By Robbers and Nar-  
rowly Misses Death  
by Train.

Pittsburg, Kan., Jan. 9.—After being beaten by highwaymen, Frank Mason, a farmer, was tied to the tracks of the Pennsylvania road near Beaver last night and escaped being crushed to death by wrenching himself free of his bonds, just as the Cleveland-Pittsburg flyer was thundering down upon him. Mason was driving along a country road preceded by a short distance by his son with another team. Two men jumped at Mason and demanded his money. When he refused, they began to beat him. He showed fight and was battling with the robbers when his coming with his assistance was almost knocked unconscious. The older man was beaten into insensibility and then dragged to the railroad tracks and tied to the rails. Regaining consciousness when he heard the rumble of the approaching flyer, he made a last desperate effort and crawled from the track just as the freight train was passing. He was found unconscious in the road and was revived with difficulty. Both men will recover, though their injuries are serious. The old French nobility and has the title of viscount.

EDITOR SENT TO JAIL.  
London, Jan. 9.—Edward W. Marry, editor of Judy, was sentenced at the Old Bailey yesterday to two months' imprisonment for publishing obscene advertisements. The Marry is a well-known figure in periodical literature, the author of a number of books, a fashionable clubman, descendant of the old French nobility and has the title of viscount.

CORNER  
IN  
SPORTS

Duluth will give a very fair imitation of a real, live sporting town next week. Beginning next Monday amateur sportsmen will take possession of the city for a week, and curling, bowling, and other events will hold the center of the stage for that time.

The chief of these, of course, will be the curling bonspiel which will be held at the Duluth curling rink. Some thing like 200 visiting curlers are expected in the city for the occasion, and they will spend the entire week here, curling morning, afternoon and evening on the ten sheets of ice at the Duluth rink.

The chief event of the week will be the international match which will probably be played on Wednesday evening, when all of the Canadian skiers in attendance will be opposed by an equal number of American skiers. The ski club will also hold its tournament during the bonspiel week, and expert ski runners from a dozen different points in the Northwest are expected in the city to take part.

On Friday evening of this eventful week there will be an indoor baseball match between the Big Duluth team and the fast Hibbing aggregation. The Northern Hardware hockey team is also likely to have a game here during the week, with the crack Victoria team of St. Paul.

Horsemen will pull off a matinee on the ice track on Saturday afternoon of the week in question. In fact it looks as if Duluth might as well take a week off and devote it to sports of all kinds.

That the good showing of the West Duluth curlers made last week was no fluke, was proven last evening by the game put up at the Western rink, when the Duluth curlers were given a bad scare, and their margin of victory was cut down to a single point.

The Westerners have improved wonderfully over a year ago, and they will be heard from in the approaching bonspiel.

NEW SPORTS  
FOR Y. M. C. A.  
Boys Will Take Up Ice  
Boating, Skiing and  
Snowshoeing.

Boys Will Take Up Ice Boating, Skiing and Snowshoeing.

Six Grade Schools Are  
Entered in the Basket-  
ball League.

Skiing, snowshoeing and ice boating were three new sports which it was decided to take up last evening by the Y. M. C. A. boys' department. The Outing committee, at its regular meeting, decided to build an ice boat, under the direction of Mr. Brace, the manual training instructor, for the use on the bay. It will be made in the manual training department, and will be kept for the use of the members.

It was decided to organize ski and snowshoe clubs. The ski club will be organized at a mass meeting called for Thursday evening at 8:30 o'clock. Officers for the club will be elected then, and plans made for holding a tournament at an early date.

The meeting to organize a snowshoe club will also be held Thursday evening, and arrangements will be made for a weekly trip.

The interscholastic basketball league is rapidly getting into shape, and it is expected that the games will commence in another week. Six schools have already organized teams, and it is expected that several others will be ready in a few days. A meeting has been called for Thursday afternoon at 5 o'clock, when officers will be elected and the schedule prepared. Each school will be represented by two members, and this group of boys will form the committee. A suitable trophy will be awarded the winning school, and a banquet given for the boys at the conclusion of the season.

The outing for Saturday will be a boating party. The boys will leave the building at 2:30. Friday evening, Jan. 11, the first practical talk of the season will be given. It will be on chemistry by Prof. Phillips of the high school. Saturday, Jan. 12, there will be a skating party to Hunter's park, and Friday, Jan. 13, the second slide ride. The Carlisle, a single slide, will be run for organization last evening. The following boys were present: Arthur Branscombe, Elmer Johnson, Jack Branscombe, Arvid Berg, Goldwin Branscombe, Carl Young, Ernest Swanson, Arthur Branscombe, Elmer Johnson, Jack Branscombe, Arvid Berg, Goldwin Branscombe, Carl Young, Ernest Swanson. The club will meet every Tuesday and will be in charge of George Wilson.

ARRANGE GAME  
WITH HIBBING  
Big Duluth Team Will  
Play for \$50 Side  
Bet.

Arrangements have been made for an indoor baseball game, to be played in Duluth, a week from Friday evening, between the Big Duluth team and the Hibbing aggregation. Both teams are composed almost entirely of outdoor players, and the match will be for \$50 a side. The teams are composed of the Big Duluth team, and the Hibbing line-up, almost the same as the line-up of last summer's outdoor team.

WILL FURNISH  
ANTI-TOXIN FREE  
To the People Who  
Are Unable to Pay  
for It.

St. Paul, Jan. 9.—In order to combat diphtheria more successfully and to prevent the spreading of the disease in case of an epidemic, the state board of health has arranged to keep a fresh stock of antitoxin constantly on hand and will ship it out to the different town boards of health as the occasion demands. This action was taken at yesterday's regular meeting of the board, and was recommended by Dr. Braden, who has made a comprehensive study of the matter. It is said that it is impossible to treat diphtheria cases properly without the use of antitoxin, and local authorities must be furnished free to people unable to pay for it.

In order that this plan may be carried out the board of health will have a fresh supply of antitoxin at hand and a supply will be sent to any board of health requesting it, but antitoxin will not be furnished physicians except upon the order of the local board of health.

Another important measure which was discussed and resolved upon by the board of health, was that of employing a physician to look after tuberculosis in the state. The duties would consist in traveling through the state and giving lectures on the treatment of the disease. In addition to taking a hand in the active work of the state board, it was decided to ask the legislature to enact a law providing for the regulation of birth and death records, regulation of sanitary control of public buildings, regulation of meat inspection and in order to enforce cleaning up property from local boards of health. The legislature will be asked to appropriate the board to pay for 1907 in place of the \$25,000 allowed at the last session.

new earlier and worked harder, it would be possible to clean the slate before the close, and the members would have the satisfaction of knowing that they were voting for

There is one lone Populist in the new legislature, and Senator Ole O. Sageng, an Otter Tail county farmer, has the honor of bearing alone the standard of the People's party. He is something of a humorist, and he can be relied upon to prevent the proceedings of the senate from becoming too dull by touching them up with a bit of colorful fire now and then.

Senator Sageng was a house member in the sessions of 1901 and 1902. He didn't look much; in fact it must be said that he was a little of a looking statesman as there was in the legislature. But he got on his feet one day and began to talk. It was concerning something that he knew a good deal about and that he felt pretty deeply about, and he made an astonishingly good speech. Before he was through, word of what was going on spread to the senate, and many members at that body hurried over to the fact that it was a joke.

Representative Elmer Adams, discussing the method of selecting house members by lottery, gravely broached to a group of lawmakers yesterday, the project of giving them out in alphabetical order. As his name began with "A", his colleagues were about to expire with admiration at his nerve, and John Zach of Washington county, who comes at the foot, was on the verge of collapse from the shock, when a sudden change of heart, and he hit them over the head with a joke.

When the oath of office was administered to the two houses yesterday, the other hand, Representative F. H. Peterson of Moorhead, who refused to take it.

He did it because his religious convictions are against it, and in favor of the biblical injunction to "swear not at all," so Chief Justice Stark took his affirmation in lieu of the oath.

Senator E. B. Hawkins was here yesterday to look in on the opening of the senate, and to renew his wide acquaintance with the members, new and old.

Dr. S. R. Holden of Duluth will be reappointed in a few days as a member of the state board of dental examiners. He was supported for the place by the state association of dentists. Nothing will be done in the near future about the appointments of executive agent of the game and fish commission and the Duluth surveyorship of logs and lumber. As to the former place, while many have taken it for granted that it would go to Duluth because S. F. Fullerton was living in Duluth when he was appointed, rumor says that it may not go to Duluth at all.

The caucus of the Democratic house members, which selected Dr. J. H. Dorsey of Glenora as the Democratic candidate for speaker, yesterday also appointed Thomas J. Brady of St. Paul as the chairman of the minority in the house. The selection of Dr. Dorsey for the complimentary Democratic vote for speaker was well deserved. Dr. Dorsey is the Democratic member of longest service, and he stands uncommonly well with his colleagues of both parties.

In turning down all of the women candidates for assistant postmaster the house took a new tact, one that indicated that its members do not enjoy the usual pre-session exercise of being buttonholed by the women candidates and their friends. The sentiment of the members was quite unanimously and decidedly to the effect that no women need apply for elective positions under the house.

One of the first pieces of business

Your attention is called to the necessity of making needed repairs upon the state capitol. The foundation is defective; the stone work supporting the base to all of the entrances should be replaced; a new roof is required, and the existing and the foundation would be relieved of much superfluous weight if the tower were removed. An architect should be consulted or employed to make an examination of the building and re-

It is claimed that the northeast corner is a better location for the building than the McDougall property. For other reasons. One of the reasons is that such a structure on the west side of the street, backed by the alley, would be less objectionable to residence property owners in the city than it would be on the east side of the street, directly opposite them. If the jail building is actually located on the Cash property, it is the intention of the board of commissioners to construct a building, which, in point of architecture, will be in harmony with the location.

# HOME-MADE REMEDY FOR RHEUMATISM.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle.

These harmless ingredients can be obtained from any good pharmacy.

This prescription, states a well-known authority, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism. Relief is felt from the first few doses.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious kidney or urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it you want it badly.

## RUSSIAN TERRORISTS

(Continued from page 1.)

pistols, and dashed down Clinika street, past the Imperial opera house with a crowd of thirty house porters and court attaches in close pursuit.

A policeman stationed in front of the opera house attempted to seize the assassin, but was shot down by the latter, who turned and opened fire on his pursuers, wounding a boy. The assassin then resumed his flight through the streets, firing at the police officers and house porters who attempted to bar his way. When his ammunition became exhausted, he was intercepted and captured at Lantien lane.

The entire career of Gen. Pavloff was in the judicial department of the army. After serving several years as a military judge he was appointed judge advocate general of the war ministry and later procurator of the supreme military court.

## BUFFETED BY GALE.

Destroyer Paul Jones Passes Through a Heavy Storm.

Santa Barbara, Cal., Jan. 9.—The torpedo boat destroyer Paul Jones, for twenty-four hours has been fighting a southeaster that is raging in Santa Barbara channel, and several times the vessel has been in great danger. Her anchors have been dragging, and it has been necessary to put to sea to avoid the beach. Three men have been hurt, and great seas that have been breaking over her decks have swept them clear of everything movable. Two of the Paul Jones' boats have been stove in. One of the injured men lost all the fingers of one hand and another had his ribs badly crushed. Last night the Paul Jones was lying well off shore.

A specific for pain—Dr. Thomas' Electric Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

## ANNUAL MEETING.

Home Hospital Association Will Pay Off Its Mortgage.

The annual meeting of the Home Hospital association was held yesterday in the basement of the First Norwegian Lutheran church, Third street and First avenue east. The following officers for the ensuing year, were elected: President, Rev. J. H. Stenberg; vice-president, Rev. Th. Fossum; secretary, Rev. Louis S. Marvick; treasurer, S. Morterud; financial secretary, Rev. J. A. Bierke.

The Home Hospital association has a house and lots on Eighth avenue west and First street, valued at \$800. It is the intention to raise money to pay the \$3000 mortgage on the property before hospital work will be begun.

Following are the members of the board of directors: J. H. Stenberg, T. H. Fossum, A. Ringstad, L. S. Marvick, S. H. Thvedt, Peter Aune, S. Morterud, S. A. Johnson, J. A. Bierke, P. A. Grothman, N. Stensland and Richard Hanson.

# ASSAULT IS THE CHARGE

Andrew T. Park Claimed to Have Beaten Newspaper Publisher.

Case Grew Out of the Seventh Ward Political Situation.

Andrew T. Park, Republican candidate for alderman in the Seventh ward, was arrested yesterday afternoon on a warrant charging him with assault.

The complaint was sworn out by George M. Jensen, publisher of the West End Advertiser, and grew out of the political situation in the Seventh ward.

Before Mr. Park was selected as the standard bearer of the Grand Old party in the Seventh, Mr. Jensen was prominently mentioned as a likely candidate for the position, but as he thought his chances were rather slim he yielded to Mr. Park's suggestion that he withdraw and Park gave him some printing to do for him. Mr. Park gave him a check for \$500 which was advanced payment for the work, which Jensen now says he insisted on payment for printing done at the regular rate.

Mr. Jensen waxed wrathful at the aspersions which his rival was casting at his good name and went to interview Mr. Park and have his story straight.

The interview grew hot. Jensen demanded the check. Park told him he had tried to get the printing which the check had paid for and could not do it. Jensen said Park had been slandering him. Park said he hadn't, and then Jensen brought matters to a head by accusing Mr. Park that he didn't believe he could tell a straight story if he tried.

What happened next, according to Mr. Jensen's story, is a little confused. At Jensen's request he was struck by a 300-pound cyclone, which he inferred must have been A. T. Park.

Mr. Jensen yesterday swore out a warrant for the arrest of Mr. Park, and Mr. Park's plea being not guilty, the trial was set for Jan. 17.

## CYCLONE DAMAGE TO BE REPAIRED

Forts Will be Rebuilt and Ships Will be Floated.

Washington, Jan. 9.—Army and navy authorities have been hard at work repairing the damages done to the ships and forts by the great gulf cyclone last fall, and they have commenced practically all the estimates necessary as a basis for congressional appropriations for this purpose.

The army probably sustained the greatest monetary damage, and Quartermaster Gen. Humphrey has asked congress for \$254,000 for the reconstruction of Fort Morgan in Mobile bay, and Fort Barrancas at Pensacola. He also has requested an appropriation of \$23,000 to repair the barracks and quarters at Fort S. Philip at the mouth of the Mississippi river.

Though not so large in a pecuniary sense, the naval losses included several vessels which were engaged in the Spanish-American war. The Gloucester, which under Wainwright's command had a brilliant history at Santiago and in Porto Rico, lies far under the beach at Pensacola.

The naval constructors have secured the use of the big army dredge Cacus and have almost completed the digging of a channel through the soft sand to bring the ship down to deep water. Chief Constructor Cummings estimated that \$20,000 will repair the damage to the ship proper.

The Machias is completely under water and the dockworkers who are trying to raise her have had a hard time. Several times the ship dropped to the bottom after having been partly raised. Divers are plugging up the holes in her bottom and the reports to the chief constructor are that the Machias will soon be afloat.

The little Vixen, one of the ships in the Spanish battle of Manila, like the Gloucester, lies high on the beach at Pensacola, but the inspectors re-

port that she is in good shape and can be floated.

## THE STAGE

TONIGHT'S ATTRACTIONS.

COMING ATTRACTIONS.

LYCEUM—"The Man on the Box." Friday and Saturday.

FIGMAN MAKES HIT.

"The Man on the Box" is a Delightful Little Comedy.

CAST.

Lieut. Robert Worburton, lately resigned, Charles Henderson, his intended brother-in-law, Morgan Wallace, Col. George Annesley, a retired army officer, Wilson Forbes, Count Karloff, an untitled duke, and John C. Brownell, a millionaire.

Magistrate Watts, George Centre, Clerk of the Court, Reginald Pitt, Officer Cassidy, Marshall Franklin, Monsieur Pierre, Edward Johnson, William, a stable boy, John Pearson, Elizabeth Annesley, Helen Holmes, Nancy Worburton, Clara L. Chapman, Mrs. Conway, Clara Woodland Bennett.

"The Man on the Box" presented at the Lyceum last evening by Max Figman and a company of John Corb's players, is as refreshing a comedy as has been handed over the footlights of a local theater in some time past.

New York, which often has on some very bad things and finds nothing of merit in them, has been recognized the worth of this little piece and contrived to fill the Madison Square theater, where Henry D. Baker played the title role for something like 30 nights.

## KENNEY & ANKER

## PRIMARY ELECTIONS

Strongly Urged by Governor Burke of North Dakota.

Believes in Taking School and Judiciary Out of Politics.

Bismarck, N. D., Jan. 9.—Governor Burke was inaugurated before the joint session of the legislature today and presenting his message said, among other things, that both political parties two years ago had adopted resolutions favoring a primary election law and had gone before the people pledged to support such a law. In view of the almost unanimous sentiment in favor of a law of this character, he urged that one be passed. He advocated the taking of the schools and judiciary of the state out of politics by passing a law placing the names of the candidates for office of judges of the district and supreme courts and county and state superintendents of schools on a ballot without party designation. Governor Burke called attention to a deficiency of the pure food law, which permitted short weight in packages or cans containing food and recommended the enactment of the law covering this feature. He referred to the rate bill passed by congress and said that, while it prevented the railroads from giving passes in interstate traffic, the railroads were not deterred from giving passes within the boundaries of the state. If they can give passes in the state they can give passes in all states through which the road runs thus making the interstate act inoperative. On the subject of passes for public officials, he said: "Because of the magnitude of the railroad interests, I think it is especially wrong for a public official to accept passes from a railroad company. He does not have the pass when he loses the office. The corporation understands human nature and knows that it is natural to return favors and that the public official, honest as the world goes, remembers the favor and is inclined to be inactive in the passage of and in the enforcement of laws regulating and controlling railroads. A public official ought to be in a position where he can enact, enforce or interpret all laws for the common good and general welfare of the public without embarrassment to himself, and this he will find hard to do while his pockets are full of railroad passes. I therefore recommend the enactment of an anti-pass law, to further supplement the 'rate bill' and to enable the railroad companies in this state to reduce their rates for carrying passengers."

"It is now well settled that because railroads are for the use of the public, the public, through the legislature, has a right to control and regulate them, so long as the regulations are reasonable. This control includes the right to fix reasonable passenger and freight rates, the right to regulate the conditions of the roadbed, and the right to compel the railroad companies to furnish proper and reasonable equipment and cars to the public."

**JILTED MAN SUES TO GET HIS RING BACK.**

Des Moines, Jan. 9.—To recover a \$250 diamond engagement ring which he gave to his fiancée who afterwards jilted him, but refused to return the ring, Charles Frankenstein has brought suit in district court against pretty 20-year-old Hannah Greenblatt. Frankenstein is a traveling man, at present in Wayne county, Michigan.

Frankenstein says he proposed to Miss Greenblatt last January. She accepted him, he says, and to seal the compact he gave her the diamond ring. The engagement was announced according to custom in the local papers. But later, Frankenstein says, his sweetheart threw him over. In addition to the ring he demands \$50 as costs and consolation.

**BEEBE'S COURT ILLEGAL.**

Damage Cases at New Richmond Can Now be Pushed.

New Richmond, Wis., Jan. 9.—Judge E. W. Helms has announced his decision in New Richmond's famous police court case, sustaining County Judge Otto W. Amquist, who some weeks ago ruled in habeas corpus proceedings that the police court presided over by Sylvester S. Hawkins was never properly constituted and that all of the acts of Beebe acting as judge were null and void.

In the proceedings before the so-called police court Mayor Hawkins appeared for the prosecution, acting as city attorney.

Helms' decision will have an important bearing on suits that have been brought for damages for alleged false imprisonment. Suits aggregating several thousand dollars are now pending in circuit court against Mayor S. N. Hawkins and Police Officer James E. O'Brien.

Mayor Hawkins has threatened to take the lecture platform and in a series of speeches "expose" several prominent citizens.

**SPOONER BOY DROWNED.**

Three Broke Through While Skating on Mill Pond.

Spooner, Wis., Jan. 9.—While skating on the mill pond near this village, Harry Kopp, Homer Peabody, Jr., and Vera Walsingham broke through the

ice, the Kopp boy being drowned. Young Peabody secured a stick and by heroic efforts saved Walsingham. The boys were 12 years of age, Kopp being the son of the miller.

The farmhouse owned and occupied by Ben Robinson, near Trugo, caught fire and burned Monday. The total loss aggregates \$1,000.

**FIRE IN HIS WHISKERS.**

Spread From Thim to Sundberg's Bed and Caused Death.

Hitterdahl, Minn., Jan. 9.—The coroner's jury in the case of Sakari Sundberg, 80 years of age, who was found dead in bed, near here, has returned a verdict of death from accidental causes. It is supposed that in lighting his pipe, while in bed, his whiskers caught fire and communicated the flames to the bedding. He leaves a wife.

**BACK BROKEN BY BUCKET.**

Fatal Accident to Butte Miner in the Rex Mine.

Butte, Mont., Jan. 9.—Robert Crawford, 23 years old, was fatally injured while at work in the dump of the Rex mine, near Columbia, by the ore bucket falling and striking him on the back. At the hospital it was found his back was broken.

William McDevitt, aged 35 years, of Butte, fell through a hole on the 1,000-foot level of the Mountain Consolidated mine and was fatally injured.

**SAYS HE IS DESERTER.**

State, However, is Prosecuting Wilson at Marshfield for Burglary.

Marshfield, Wis., Jan. 9.—Ray Wilson, alias Ed. McCormick and "Seety," an all around crook, wanted at Wausau, Antigo, Abbotsford and many other places, has been arrested here on a charge of burglarizing the Onahwa house on the night of Jan. 3 of \$200 worth of clothing and \$10 in money.

While in the city jail, waiting to be transferred to the county jail, Wilson made an attempt to escape by breaking the lock and but for the vigilance of the officers would have been successful.

Wilson says he is a deserter from the United States army and he intimates that he will give himself up on charges, hoping that the government will take him from the custody of the state.

**SKATERS ARE AT ODDS IN CANADIAN CITIES.**

Montreal, Jan. 9.—There is a skating war in Canada which will grow to feet American skating interests. The Canadian Amateur Athletic union has issued a warning to United States skating associations not to send men to this year's championships held by the Amateur Skating association of Canada, in Montreal, because the latter has withdrawn from the Canadian Amateur Athletic union, which body threatens to professionalize competition.

**MAIL CARRIERS.**

Washington, Jan. 9.—(Special to The Herald.)—John F. McNally has been appointed regular and Addie McNally substitute rural carrier of route 8 at Little Falls.

Sometimes it may be as important to one man to find a quick purchaser for a second-hand desk as it is for another man to find a purchaser for a carload of perishable freight. In either case it usually happens that a Herald want ad. is "the best broker."

**OLD SETTLER KILLED.**

Echo, Minn., Jan. 9.—While returning home from Echo, Monday night Iver Iverson, an old settler of Redwood county, was killed by falling from his wagon. Judge E. B. O'Brien was the driver when he passed over his head. He was 65.

## We Will Cure You

We want all afflicted people to feel that they can come to our office freely for examination and explanation of their condition without being bound by any obligation to take treatment unless they so desire. We will make a thorough and scientific EXAMINATION of your ailments FREE OF CHARGE—an examination that will disclose your true physical condition, without a knowledge of which you are groping in the dark. If you have taken treatment elsewhere without success, we will show you why it failed. Every person should take advantage of this opportunity to learn their true condition, as we will advise them how to best regain their health and strength, and preserve them unto ripe old age. **WE MAKE NO MISLEADING STATEMENTS** or deceptive propositions to the afflicted, neither do we promise to cure them IN A FEW DAYS in order to secure their patronage (an honest doctor of recognized ability does not resort to such methods). We guarantee **A SAFE AND LASTING CURE IN THE QUICKEST POSSIBLE TIME** without leaving injurious after effects in the system, and at the lowest cost possible for **HONEST, SKILLFUL AND SUCCESSFUL TREATMENT**. We cure **KIDNEY AND URINARY DISEASES, SMALL, WEAK ORGANS, SEMINAL EMISSIONS, STRICTURE, DISCHARGES, VARICOCELE, NERVO-SEXUAL DEBILITY, CONTAGIOUS BLOOD POISON** and all diseases and weaknesses due to habits, dissipation, or the result of special disease. Write for symptoms blank if you cannot call. **CONSULTATION FREE AND CONFIDENTIAL.** Office hours 8 a. m. to 8 p. m. Sundays to 10 a. m. to 1 p. m.

**Progressive Medical Association,**  
No. 1 West Superior Street, corner Lake Avenue, Duluth, Minn.

## "ACRES OF DIAMONDS."

Russell H. Conwell Will Deliver Famous Lecture in Duluth.

"Acres of Diamonds," the lecture which will be delivered by President Russell H. Conwell in the Star lecture course at the First Methodist church this evening, is one of the classics of the American lecture platform. It has been delivered 2,000 times in the last twenty-five years, and it will still draw a capacity house in the big Broad street temple, in Mr. Conwell's home city of Philadelphia.

Mr. Conwell is one of the most sought after men on the lecture platform at the present time, and his visit to Duluth will be one of the events of the entertainment season.

**CONTRACT RENEWED.**

Pressmen Come to an Agreement With the Typothetae.

Philadelphia, Jan. 9.—After a series of conferences, an agreement has been reached between the executive committee of the United Typothetae of America and the executive council of the International Printing Pressmen and Assistants' union, renewing the present contract for a term of five years. A compromise was arrived at by which the Typothetae agreed to grant the eight hour day beginning Jan. 1, 1909.

**OHIO RIVER RECEDES.**

Evansville, Ind., Jan. 8.—The Ohio river began receding today and it is believed the worst of the flood is over. The river is now under forty feet in depth. Thousands of acres of land are under water but nearly all stock has been protected.

"As We Say, or, Your Money Back."

# Ericson's Sale of Overcoats

Continues to offer the best values in Duluth—no reservations—no culls, but a genuine clearance sale of every Overcoat in the store.

Note the savings, and remember the former prices were very reasonable.

\$30.00 Overcoats now	\$21.00
\$25.00 Overcoats now	\$17.50
\$20.00 Overcoats now	\$14.00
\$18.00 Overcoats now	\$12.60
\$15.00 Overcoats now	\$10.50
\$12.00 Overcoats now	\$8.40
\$10.00 Overcoats now	\$7.00

At these prices there'll be few garments left in a short time. The time to make your selection is now.

**Chas. W. Ericson,**  
CLOTHIER—HATTER—FURNISHER.  
219 West Superior Street.

## HITCHCOCK SAYS HE HAS AUTHORITY

For Withdrawing the Indian Lands From Allotment.

Washington, Jan. 9.—Secretary Hitchcock of the department of the interior, appeared today before the special senate committee which had investigated citizenship and property rights of the five civilized tribes of Indians. It had been announced that the secretary's purpose was to explain what he believed to be his statutory authority for withdrawing four million acres of Indian lands from allotment in order to create forest reservation asked for by Secretary Wilson of the department of agriculture. Mr. Hitchcock declined to state his authority to the committee but said that his legal department had prepared a report which would be made to congress and that this report would justify the course he had taken. All of the members of the special committee differed from Mr. Hitchcock and finally he agreed to send the report to the committee today but he declined to answer questions relating to the character of the report beyond declaring that he had found legal authority for his action in withdrawing the lands in the face of an act of congress ordering that the lands be opened to allotment.

## CENTRAL ICE RINK

Singer's Dock, Lake Ave. South.  
Skating tonight, Good Music,  
Fine Ice, All Welcome.

## ELOPERS BROUGHT BACK.

Second Time Mrs. Hartje Has Vanished Cupid.

Pittsburg, Pa., Jan. 9.—For the second time within four years, John F. Scott, author of Mrs. Margaret Hartje, has brought an eloping daughter from Youngstown before she could be married. This time it was Ida, 15-year-old daughter of Mrs. Hartje, and her choice was Howard Lapp, aged 24, an electrical engineer.

## GETS A SILVER BACKBONE.

Operation Expected to Save Life of Injured Philadelphian.

Philadelphia, Jan. 9.—Dr. Ernest La Plante of the staff of the Medico-Chirurgical hospital Monday performed a remarkable operation upon Richard Wiggins, a driver, who had been mangled between his wagon and a gate, having his back broken in two places, causing paralysis.

## BANKER MORGAN NOT ILL.

Friends Explain Why He Stays Away From His Office.

New York, Jan. 9.—The absence of J. Pierpont Morgan from his office in Wall street for a week or more led to reports that he was ill, but a friend of Mr. Morgan said that he was staying at home because he found it more enjoyable to work there than at the office of J. P. Morgan & Co. The financier makes his headquarters in his fine new library, and there, with stenographers and his secretary at hand, he transacts as much business as he would were he down town. His partners visit him there whenever necessary, and it is said that meetings of directors of various corporations in which he is interested have been held in Mr. Morgan's home.

## The Gilding White Sale

Is keeping its pace still drawing large crowds of purchasers and the interest in this event appears to be constantly increasing. As an auxiliary to the white sale, they are having an exploitation sale of the Grossard and Irresistible corsets which is being conducted by Miss Farnie, an expert corsetier.

## NEWS FROM WEST DULUTH

### INSTALLED PLAYGOERS OFFICERS COMPLAIN

Two West Duluth Courts of C. O. F. Held Joint Ceremony.

Members and Friends Enjoyed Very Pleasant Social Gathering.

A joint installation of Santa Maria Court, W. C. O. F., and St. James Court No. 614, C. O. F., took place last evening in Gilley's hall. The ceremonies were public and were witnessed by a large crowd, this being the first joint installation held for years by the two local courts.

Santa Maria court officers were first installed, Deputy Chief Ranger Mrs. J. D. Kenna, being the installing officer. The officers installed were as follows: Chief ranger, Mrs. Nellie Kern; vice chief ranger, Mrs. Margaret Anderson; recording secretary, Miss Angela Gilley; financial secretary, Mrs. Mary Masse; treasurer, Mrs. Mary Burns; trustees, Miss Angela Jacobs, Mrs. Roscoe Kingham and Mrs. Maggie Harvey; senior conductor, Mrs. Mary Thomas; junior conductor, Mrs. Mary Doe; inside sentinel, Mrs. Mary Baudin; outside sentinel, Miss Lilly Roy.

The newly installed officers were then escorted to their stations in the meeting hall and Deputy High Chief Ranger William Haley took charge of St. James court and the following officers for the new year were installed: Chief ranger, A. C. Schulte; vice chief ranger, F. L. Charette; past chief ranger, J. J. Moran; recording secretary, A. Murphy; financial secretary, William J. Doherty; treasurer, J. Bollmeur; trustees, J. Fountain, C. Madden and F. L. Collier; senior conductor, F. Roeller; junior conductor, C. Hugh; inside sentinel, William Drapney; outside sentinel, William Ehr.

After the installation ceremonies had been concluded, Rev. Fanning Lynch, spiritual of the local courts, made a few remarks and congratulated the order on the excellent work in which it is engaged and pledged his support to it at all times. A social session was then held and refreshments were served, being to a close one of the most successful events ever held by the two courts of the Catholic Order of Foresters of West Duluth.

### CHURCH THREE CENTURIES OLD

Episcopalians Will Celebrate Three Hundredth Anniversary.

Next Tuesday the Episcopal church all over the country will celebrate the three hundredth anniversary of the founding of the church in America. In Duluth the event will be marked by an elaborate program of speeches and musical numbers to be given Tuesday evening in St. Paul's Episcopal church. The musical portion of the program will be in charge of Prof. A. F. M. Cushman, and he is preparing a list of extensive and elaborate list for the occasion.

The speakers will be Hon. Pargo Morris, Rev. Frank Durante of Hibbing, Bishop J. D. Morrison and Rev. R. J. Mooney.

Judge Morris will talk on the topic "The Men's Thank Offerings," Bishop Morrison on "Reminiscences," and Rev. Durante on the "Three Hundredth Anniversary." Rev. Mooney will talk on the historical topic, "Jamestown in 1607."

## THE WHITE SALE and THE GARMENT SALE At the GLASS BLOCK STORE

are proving the most interesting events in merchandising in Duluth this month.

From day to day more women attend, as the news of the remarkable values becomes more widely circulated.

But the crowds come for a reason. Have you learned it?

**PANTON & WHITE COMPANY**  
THE GLASS BLOCK STORE  
1000 PARK AVENUE

Playgoers of West Duluth and the West end are not satisfied at the treatment that is accorded them by the Duluth Street Railway company. They think that the company shows a partiality toward the other end of the city, which is unfair, and some vigorous protests were sent in to the office of the company this morning.

A good sized delegation of West Duluthians and West enders attend nearly every good attraction at the Lyceum and these sections are also well represented at the other show houses. The theater patrons think that the street car company should give them prompt service after the play as is accorded the residents of the East end. A special theater car is nearly always ready to take up the East enders but the residents of the western part of the city generally have to wait anywhere from five to fifteen minutes and are then packed into one car where there is little standing room.

Those who attended the Lyceum last evening were particularly aggravated by a long wait in the cold after the play was over. There were about fifty people from the West end and West Duluth who watched a long string of street cars go by before a car bound for West Duluth showed up. If the street car company would arrange to have one car in readiness for the residents of this end of the city at the close of the play, there would be no more complaint.

### DECLARES DIVIDEND.

West Duluth Bank Is In Very Prosperous Condition.

The annual meeting of the stockholders of the Western State bank was held yesterday afternoon, and the election of officers and directors took place. The reports of the officers showed the bank to be in a flourishing condition, and a dividend of 5 per cent was declared. This is the first time the bank has declared a dividend, and this declaration shows that it prospered last year.

The stockholders discussed the advantage of keeping open during the evenings for the benefit of the working men. A large number of the depositors are of the laboring class, and on this account the plan of keeping open evenings may later be adopted. It was decided to cut down the term of paying interest from six to three months. The surplus of the city has been increased by \$1,500.

The following officers were re-elected: President, James Cochran; vice president, L. E. Lashley; directors, L. R. Clark; directors, James Cochran, H. H. Phelps, J. A. Scott, M. E. Clark, A. H. Olson, S. L. W. Ramsted, A. Hendrickson, S. J. Nygren, C. F. W. Korth, L. R. J. P. Weir, A. J. Madsen, Dr. David Graham.

### Closed for Three Days.

The Northwestern, 228 Central avenue, will close for three days, Wednesday, Thursday and Friday, to mark all the goods down and arrange for the sale of the annual clearance sale, which will commence Saturday morning, Jan. 12th, at 8:30 a. m.

### West Duluth Briefs.

Robert Coulter returned to West Duluth yesterday from a cruising trip in the northern waters.

Mrs. Charles Utter, 221 North Fifty-fourth avenue, who has been ill at the Duluth hospital for several weeks, is recovering.

George E. Randall, who has secured a senate appointment as postoffice messenger, left for St. Paul yesterday to commence his duties.

The Irving Alumni meeting to be held at the Irving school tomorrow night will begin at 8 o'clock.

J. D. Lowe has been called to Jefferson, Wis., on account of the death of his father, John Lowe, who was an old resident of the state.

Miss Maud Donovan, who has been visiting at the home of Mrs. J. Bellmeur for the past month, will return to New York city this evening.

Brooklyn, N. Y., has established a coal agency and office at the corner of Sixty-third and Grand avenues.

William Barnes has been appointed the West Duluth agent for the Metropolitan Surety company of New York.

A special meeting of Pearl Hive No. 4, L. O. P. M., will be held this evening at Wade's hall, and all business matters not completed at the last session will be transacted.

Mrs. C. Jensen returned from Taylors Falls, Minn., yesterday, after spending a few days with relatives there.

Harry Tallor of Ellnor street will soon move his family to Lakeside.

William Andrews has gone to the Pacific coast where he will remain in the future. His family will follow in a few weeks.

Rex Harding, of the Zenith Furnace company, returned from Chicago yesterday after spending the holidays visiting relatives.

A meeting of the West Duluth Athletic association will be held this evening at the club rooms in St. James hall, and officers will be elected for the new year.

Miss Agnes Anderson, 2723 West First street, and Miss Mayme Nelson, Fourth street and Piedmont avenue, returned yesterday after their hall last evening. After the ceremony was finished, the remainder of the evening was spent socially.

Rev. L. Drummond, the noted Jesuit orator, will deliver his postponed lecture this evening at 8 o'clock, in the Cathedral Auditorium.

## The White Shower

A surpassingly beautiful display of worthy White Goods temptingly priced.

Alluringly arrayed in snowy white, this store is still holding out commanding values in all its fresh, new stock of

**Undermuslins, Linens, Domestic, Laces, Embroideries, Waists, Waistings**

and every other kind of merchandise coming under the head of white goods. You need these things—that's certain. Later on stock and prices will not be nearly as favorable. Is there, then, any possible excuse for not taking full advantage of this?

## Clearance Sale of Winter Wear

Don't overlook this important sale where from a QUARTER TO HALF PRICE reign and in many instances still better than HALF PRICE.

### The Final Clearance Price of Fur-Lined Coats.

- \$9.95 Women's Fur lined Coats, worth up to \$22.50.
- \$18.75 Women's Fur lined Coats, worth up to \$45.
- \$1.95 Children's Bearskin Coats, heavily lined and interlined, worth up to \$3.50.
- \$2.25 Children's heavy Coats, made of Scotch Tweed, nicely trimmed, former price \$5.00.
- \$12.50 Nobby Short Coats made of cloth, Broad-tail Krimmer, Persian, Chinchilla, Bearskin, etc., beautifully trimmed, heavy, plain or fancy, silk lined, regular price up to \$27.50.
- \$3.98 A big collection of fancy Neck Fur pieces, many beautiful and useful styles, worth up to \$7.50.
- \$10.00 Fine imported Pattern Hats, worth up to \$27.50.
- \$7.50 Women's Model Hats of all descriptions, worth up to \$18.75.
- \$5.00 Women's Hats, worth up to \$13.75.
- \$2.50 Women's Hats, worth up to \$7.50.
- 15c Trimmed Street Hats, worth up to \$1.50.

## ALBENBERG'S

Corner Superior Street and First Avenue West.

## COLD WAVE IS GENERAL

Zero Temperature Exists in All the Northwestern States.

Coldest in Duluth Was 12 Below During the Night.

A stinging northwest wind blew down over Duluth and Northern Minnesota last evening making many unprepared people shiver on their way home to supper.

It grew gradually colder yesterday morning but in the afternoon the temperature began to fall rapidly and at 7 o'clock in the evening the thermometers registered 1 deg. below zero.

The lowest figure reached during the night was 12 deg. below and at 7 o'clock this morning the temperature was 9 deg. below.

During the forenoon the sun warmed things up a trifle and at 10 o'clock it was only 3 deg. below the zero point.

Eccentric private thermometers in different sections of the city went considerably lower than the official government instrument and some registered from 20 to 30 below zero.

The northwest wind, although it did not reach a great velocity, made the low temperature all the more uncomfortable and exposed portions of the anatomy suffered.

The cold wave extended over all portions of the Northwest this morning and zero weather was general in all states north of Iowa and Nebraska.

The coldest temperature recorded was that of 24 deg. below in Manitoba. A freezing atmosphere prevails as far south as Oklahoma City. In Alberta the weather has already commenced to moderate and the local weather forecaster promises warmer temperatures tonight and predicts that it will be 20 deg. above zero by tomorrow.

### SENTENCE REDUCED.

Kansas City, Jan. 9.—The sentence of William C. Anderson, the embelizing assistant, paying teller of the First National bank, was today reduced by Judge

Wofford, from four years to two years and nine months. Anderson confessed to embezzling \$2,000.

### Rev. Russell H. Conwell

At the First M. E. church tonight.

## INVESTIGATION OF HARRIMAN LINES

Resumed Before the Interstate Commission at Chicago.

Chicago, Jan. 9.—M. O. Markham, traffic manager of the Missouri Pacific, was the first witness called before the interstate commerce commission today when the investigation of the Harriman lines was resumed.

Mr. Markham was questioned by C. A. Sovereign of St. Paul, acting for the commission.

The witness was asked if the Union Pacific and Southern Pacific were, prior to their consolidation, competitors for transcontinental business.

He said they were.

Before going to the Missouri Pacific Mr. Markham was connected with the Illinois Central, and he said that both roads were active competitors for Pacific coast business, originating along the line of the Illinois Central.

"Was there any lessening of competition after the consolidation?"

"It was generally understood that the competition was less."

Mr. Markham declared that in his opinion the Union Pacific was not a link in transcontinental transportation, as contended yesterday by the attorneys for Mr. Harriman, but as long as the Portland gateway is open it is a Pacific coast line in itself.

The witness said that the Union and Southern Pacific lines, before the consolidation, were an independent line, could not give to the Union Pacific a large or small amount of eastbound traffic at Ogden.

Mr. Markham was cross-examined by Mr. Milburn, representing the Harriman lines, who took exception to the statement made by the witness that he considered the Union Pacific an independent Pacific coast line. He asked the witness if the Southern Pacific, acting as an independent line, could not give to the Union Pacific a large or small amount of eastbound traffic at Ogden.

"I don't know whether it could or not. There are influences at work which would prevent it."

dependent line, might be this?"

"It might, and destroy itself."

"Mr. Milburn then asked if the Union Pacific was to be compared to a direct line west from Ogden. The witness replied:

"The rate settles those things, and rates can be made as low via Portland, to San Francisco as by any other route."

Mr. Markham said that while acting as assistant traffic manager of the Illinois Central it was understood that traffic originating west of a drawn line from Cairo to the vicinity of Cleveland was to go west via Ogden.

Mr. Milburn pressed the witness closely to know if such an order had ever been issued, and the witness declared that it was understood because of information derived from soliciting agents.

Mr. Milburn, by a long series of questions, brought out the statement that in all Pacific coast traffic originating on the Illinois Central, that line, and the Southern Pacific must be factors, his object being to show that however the traffic went, the Southern Pacific was certain to be an element and could not in all cases be construed as a competitor of the Union Pacific.

### Rev. L. Drummond.

The noted Jesuit orator, will deliver his postponed lecture this evening at 8 o'clock, in the Cathedral Auditorium.

Sometimes it may be as important to one man to find a quick purchaser for a second-hand desk as it is for another man to find a purchaser for a carload of perishable freight. In either case it usually happens that a Herald want ad. is "the best broker."

### R.R. Forward & Co.

Now at Nineteenth Avenue West on Superior Street.

## CITY BRIEFS

**The Duluth Yacht Club.**  
Calendar was designed and executed by the North-land Yacht Club.

**Patton Child Dies.**  
The infant son of Dr. F. J. Patton of 1153 East Third street, died last evening. This is the second child that Dr. and Mrs. Patton have lost within a year.

**Veteran Is Ill.**  
Capt. John Irvine of 602 Lake avenue south, is ill at his home with malaria fever. Mr. Irvine, who is a veteran of the Civil war, first contracted the disease when on duty in the South. An attack of la grippe came on shortly after he developed into the fever.

**Will Try Miller.**  
John H. Norton, the county attorney, expected to begin the trial of criminal cases in the district court this afternoon. If a jury should be available. The first case for trial is that of the state against August Miller, who was indicted for grand larceny in the second degree. Miller is charged with stealing a watch from a boarding house on St. Croix avenue.

**Week Day Services.**  
At the First Danish Norwegian Methodist church, Twenty-first avenue west and First street, services will be held every evening this week at 8 o'clock. There will be a different leader each evening.

**By Duluth Writer.**  
Prof. J. R. Kohnen of this city had an interesting article in the last number of the Arena, on "The Church and State in France."

**Mrs. K. N. MacLeod.** of Eighth avenue east left yesterday afternoon for Los Angeles.

**Robbed Fellow Workman.**  
Accused of robbing a fellow workman at Two Harbors of \$10 John Wikstok, a Polander was arrested yesterday afternoon on the charge of robbing a fellow workman. Wikstok was taken to the police station and held in the city jail. He was charged with robbing a fellow workman of \$10 at Two Harbors.

**Negro Uses Razor.**  
A warm fracas occurred in the kitchen of Boyle's restaurant last evening in which a cook named Downing and a negro waiter named Brown were engaged. The colored gentleman produced his razor in the course of the battle and carved a six-inch gash in the arm of the other. The negro escaped but the police have a very good description of him and are confident of getting him soon. Downing was taken to St. Mary's hospital but it is not thought that he is at all seriously injured.

**Sons of Veterans Install.**  
Duluth camp, No. 5, Sons of Veterans, held its annual installation of officers last evening at Kalumet hall. Division Commander E. P. Heller acted as installing officer and the officers installed were: Commander, A. L. Foster; senior vice commander, J. C. Resenberg; junior vice commander, N. E. Hard; chaplain, Charles Ottenger; first sergeant, H. S. Holcomb; sergeant at arms, J. C. Resenberg; corporal of the guard, Leon Hurd; camp guard, J. P. Conley; delegate to the division camp, J. C. Resenberg; and J. A. Wing, Ed Robinson and W. W. Huntley.

**Stated for a Captaincy.**  
A communication has been received from the secretary of the examining board of the United States army staff at Fort Leavenworth, Kansas, notifying First Lieut. O. H. Dockery, of the local recruiting staff, that he may expect a call before the board at any time for examination for a captaincy. Although the call may not come until next summer or later, Lieut. Dockery is putting in all his spare time studying for the examination.

## TO SUCCEED BRYCE.

**Lewis Harcourt Likely to be Secretary for Ireland.**

London, Jan. 9.—Lewis Harcourt, Liberal member of parliament for the Rosendale division of Lancashire, has, according to apparently authoritative, though not official information, been appointed to the vacancy in the Irish secretariat caused by the appointment of James Bryce as British ambassador at Washington. Mr. Harcourt's selection is regarded as peculiarly appropriate because of the life-long advocacy by his father, Sir William Harcourt of Home Rule for Ireland.

**Call and Let Us Explain to You How We Do It!**

In selecting our goods we exercise the greatest care to buy only those fabrics which will give good wearing value. These are made up in the latest styles and at low prices. You would pay for an inferior piece of goods in a ready-to-wear suit.

**MORRISON, Tailor,**  
8 LAKE AVENUE SOUTH.

## SENTENCES HANDED OUT

**Judge Morris Sends Three Indians to Cass County Jail.**

**Postoffice Robber Given Three Years in Stillwater.**

Three indictments were returned this morning by the United States grand jury. The charge of securing intoxicating liquors at Waif House and taking it to the reservation at Leech Lake was preferred against three Indians, and they were sentenced by Judge Morris this morning. Paul Bottle, Windagowab and Mayagadyskaung were the three Indians, and they were given a sentence of sixty days in the Cass county jail and a fine of \$100 each.

William Hoffman will probably be perjured. Hoffman applied for a pension and used the name of another man in doing so. An indictment was returned against him this morning.

The case of the government against Charles J. Johnson was first brought to court on the charge of an attempt at forgery, in presenting an affidavit to the government land office, pleaded guilty this morning, and was sentenced this morning. The judge imposed a fine of \$500 in default of which Johnson will be compelled to serve a term in the Beltrami county jail.

**HE WOULDN'T DIVIDE ROLL.**

**President Ezeta Was Handed a Good Thing and Kept Money.**

Perhaps if Joe Narvaez had a larger vocabulary in his own language, which was Mexican, and a better knowledge of equivalent terms in ours, the friendship between him and the late president of the United States, Mr. William McKinley, would have been a more lasting one. The government is attempting to prove that he is selling a malt beverage without paying a license. The case was continued today after the jury had been drawn yesterday afternoon. If the government succeeds in proving its claim, Johnson will have to pay a fine or go to prison. The minimum penalty is \$100 and thirty days in the jail.

**NAMED AFTER WARD AMES.**  
The new freight steamer being built by the Superior Shipbuilding company for the Acme Steamship company of Superior, will be known as the Ward Ames, named after the prominent grain man of Duluth.

**JOHN H. GRAHAM DEAD.**  
Grand Rapids, Mich., Jan. 9.—Dispatches from St. Joseph, announce the death there today of John H. Graham, one of the pioneer steamboat navigators of Lake Michigan and one of the founders of the Graham & Morton line which operates lines between Chicago, St. Joseph, Benton Harbor, Holland, Milwaukee and Duluth. Mr. Graham had been ill about three weeks with typhoid fever.

**One of Pioneer Steamboat Navigators of Great Lakes.**

**For Skating, Snow Shoeing Etc.**

We have just received another lot of High-Cut Moccasins for ladies and boys. Also Shoe Pacs in all sizes. All at popular low prices.

**Wieland's.**

## SEVEN CHARRED BODIES FOUND IN COOLED METAL IN PITTSBURG FURNACE

Horrible Results of Giving  
Away of Steel  
Band.

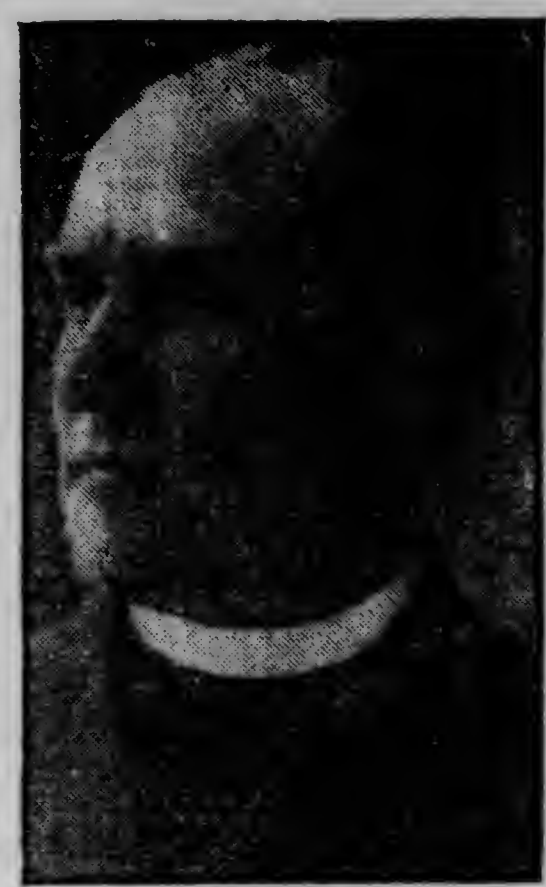

Twelve Badly Crippled  
Foreigners Are in the  
Hospitals.

Several More of the  
Workmen Are Still  
Missing.

Pittsburg, Jan. 10.—As a result of last night's explosion of molten metal at the Eliza furnaces of the Jones & Laughlin company, Limited, the charred trunks of seven men are at the morgue and twelve badly burned and crippled foreigners are in the hospitals, while anxious workers, with crowbars, picks and shovels are digging through a mass of steel and clinders for the bodies of several more, who are still missing. Of the injured three will probably die.

The scenes at the morgue today were pathetic as the building was beset by a constant stream of relatives of the unfortunate who lost their lives in the accident. The bodies of the victims were badly burned and are almost unrecognizable, but despite this five of the seven, taken out have been identified. The company officials absolutely refused to allow any one to enter the plant today.

E. L. Messier, the superintendent, stated that, in his opinion, the accident

the University of Denver, Who  
Is Now the Governor  
of Colorado.

## MORTGAGE EXEMPTION

From Taxation Has  
Proved a Failure in  
Wisconsin.

Governor Davidson  
Strongly Urges Income  
Tax for State.

Madison, Wis., Jan. 10.—Governor Davidson delivered his message to the legislature today, speaking in part as follows:

In recent years this state has accomplished much in the way of bringing public service corporations under state control and compelling them to give the people better service at more reasonable rates than before obtained. While the advance made is in every way commendable, the work along this line is far from complete. The people are supreme. What they want in just legislation they will have, and if obstacles come in their path, no matter in what form they present themselves, they will be swept aside. It would seem that the evils of the

(Continued on page 5, fourth column.)

**TWO-CENT FARE**  
Provided in Bill Introduced in the Wisconsin Assembly.

Madison, Wis., Jan. 10.—A bill was introduced in the assembly today providing for a 2-cent passenger fare on railroads in Wisconsin, the gross receipts of which are to exceed \$7,000 per mile per annum. Both houses adjourned until Tuesday.

## AMERICANS TO COME TO AID OF BRITISH COUSINS

Will Solve the Difficulties of the Cape  
Breton Coal Company.

Picturesque Abandoned Village to Once  
More Teem With Life.

Halifax, N. S., Jan. 10.—Negotiations towards consolidating several coal companies in the Maritime provinces, headed by Henry M. Whitney of Boston, it is believed in this city, will solve the difficulty into which the Cape Breton Coal, Iron & Railway company has fallen through defaulting the payment of interest amounting to half a million dollars on its bonds, which were due on Jan. 13, last year. This company was financed almost exclusively by English capital and was promoted chiefly by Mr. Mahon, a director of the bank of England, and Mr. Gladstone, a nephew of the late prime minister of Great Britain.

In a statement made public today, the company says that it has temporarily passed interest on its bonds principally because development work absorbed much more capital than was originally estimated, but claims that an arrangement will be made "almost immediately" to relieve the stringency.

Enormous sums have been spent by the company in laying out the town of Broughton, where the mines are located, in an effort to make it a model mining town. A large hotel, one of the finest in Eastern Canada, was erected and good dwelling houses constructed for the miners and staff.

After this was done it was discovered that the site chosen was in the wrong place for the sinking of a shaft to the mines and that the company could get no subsidy for a railway to haul its output on the route proposed for six months. The picturesque little town has been abandoned except by about twenty men retained at the colliery to keep the engines and boilers from ruin. A few months ago, a son of Mr. Mahon, who was on the spot as manager, committed suicide.

The proposed reorganization of the company's affairs is expected to be completed in about a month.

## SEVERE EARTHQUAKES IN EUROPE AND SLIGHT ONES IN UNITED STATES

Considerable Alarm on  
the Scandinavian  
Peninsula.

Houses Are Rocked and  
People Make Hasty  
Exodus.

Shocks Are Felt at Will-  
iamsport and Balti-  
more.

Stockholm, Jan. 10.—Two distinct and sharp earth shocks were felt at several points in Sweden at 1:30 this morning.

Dispatches received from Arvika, Mellerud and Stromstad, report that the rocking of the houses at those places caused a hasty exodus of the alarmed inhabitants.

Christiania, Jan. 10.—Two severe earth shocks were felt here at 1:30 this morning, accompanied by rumblings like thunder. Telegrams received in this city show that "no shocks were felt at other towns in Norway. The disturbances caused considerable alarm, but no damage has been reported.

Yekaterinburg, Russia, Jan. 10.—Two earth shocks were felt here early this morning.

Williamsport, Pa., Jan. 10.—A series of shocks, evidently earthquakes, were felt and heard in this section, from 4:45 to 5:30 o'clock this morning. Buildings shook so that families were awakened and rumbling sounds were heard over an area of about twenty miles.

Baltimore, Jan. 10.—Several earth shocks were felt at a number of points in Baltimore county, north of this city, at about 5:45 o'clock this morning, according to reports received here. The shocks while light, were distinct and lasted about fifteen seconds.

VICE ADMIRAL DOUBASSOFF,  
Who Has Been Notified by the Ter-  
rorists That He Is to Die.

## ADMIRAL TO BE THE NEXT

St. Petersburg, Jan. 10.—Vice Admiral Doubassoff, ex-governor general of Moscow, and at present a member of the council of the empire, has received notification that another attempt upon his life will be made.

Lodz, Russian Poland, Jan. 10.—Col. Patko Andrieff, chief of the gendarmes of the Lodz district, was shot and killed this morning on Puludnolwa street. A passing infantry patrol fired a volley at the assassin, but only wounded several innocent persons. The assassin escaped. Puludnolwa street was closed by troops and the police began making a strict search of all the houses fronting upon it.

## FIRE NEARS DYNAMITE

People Near Powder  
Plant Are Fleeing to  
the Hills.

Flames Slowly Creeping  
Towards Storehouse  
of Explosives.

Hollidaysburg, Pa., Jan. 10.—The plant and buildings of the Standard Powder company of Pittsburg, located at Horrell's Station, four miles from here, were destroyed by an explosion today. No lives were lost. The explosion was caused by a fire which started in one of the buildings. The damage done to the wrecked plant will exceed \$100,000.

A fire is now in progress and the flames are working their way toward a store house, where 5,000 kegs of powder and two carloads of dynamite are stored. Train traffic has been suspended on the Williamsburg branch of the Pennsylvania railroad, and the inhabitants of the Frankstown valley are fleeing to the hills to find shelter from an anticipated explosion.

The residence of John Walls, one mile away, and that of August Cooper were wrecked by the force of the concussion. The explosion was heard a distance of twenty-five miles.

**BURCHITE ACQUITTED**  
Of Manslaughter in Shooting Louis  
Kling for a Deer.

Brainerd, Minn., Jan. 10.—William Burchite, charged with manslaughter in shooting Louis Kling by mistake for a deer, near Cass lake, on Nov. 14 last, was found not guilty.

**SIR THOMAS LIPTON  
OFFERS ANOTHER CUP.**

London, Jan. 10.—Sir Thomas Lipton has offered a cup for a yacht race in Hampton Roads during the Jamestown exposition, to take place probably in September. The question of the class of boats to compete and the conditions of the race are left to the executive committee of the exposition to decide.

## MANY BILLS INTRODUCED IN LEGISLATURE AIMED AT CORPORATION ABUSES

Coal Dealers and Farm  
Machinery Trust the  
First Hit.

Several Committees Are  
Abolished and New  
Ones Added.

Former Members Barred  
From Lobbying on  
the Floor.

(From a Staff Correspondent.)  
St. Paul, Jan. 10.—(Special to The Herald.)—If the temper of the legislature is to be judged by the character of legislation that is being offered, this will be a hard session for corporations. Most of the measures being offered are leveled at corporation abuses, and the members are hurrying to get their bills in first. This morning joint resolutions were introduced in both houses, providing for legislative investigations into alleged combinations of coal dealers, in violation of the anti-trust laws, and into the farm machinery trust, which, it is claimed, is doing an illegal business in this state. The resolutions, which provide for two senators and three representatives on each committee, went over until next week, on notice of debate.

The house adopted a new rule barring from the floor former members that are engaged in lobbying. Gratuities were disposed by requiring that they shall get the impossible

(Continued on page 3, first column.)

**PERSIANS'  
NEW SHAH**  
Will be Enthroned at  
Chadir Festival,  
Feb. 2.

Preparations for Inter-  
ment of Dead Mon-  
arch Continue.

Teheran, Jan. 10.—The enthronement of the new shah, Mohammed Ali Mirza, has been fixed for the Chadir festival, the festival of the Lake, which will be celebrated on Feb. 2.

Up to today no disturbance of any kind had been recorded and the ceremonies in connection with the funeral and interment of the late shah are proceeding in the customary manner.

At a late hour yesterday afternoon the body of the dead monarch was removed with imposing ceremonies to the "great takleh," where it will remain until its actual interment. The date of these obsequies, however, has not yet been fixed.

## SAN FRANCISCO SHORT OF COAL

San Francisco, Jan. 10.—Unless the coal situation is relieved San Francisco will suffer seriously by next week. There is at present in the bunkers and in the hands of the retail dealers little more than seven days' supply of fuel. After that the problem will become decidedly serious. There are no colliers on the way to this port and a genuine coal famine threatens the city.

The scarcity of fuel is being felt in all the cities across the bay. Prices of the fuel are even higher in these places than on this side. There is talk of a movement to ask the Southern Pacific company to sell half of its reserve supply of coal at a reasonable figure to relieve the situation. The railroad company has stored away somewhere about 200,000 tons.

## GOVERNOR'S MESSAGE IS RECEIVING MUCH PRAISE

Most Important Public Document This  
State Has Ever Furnished.

Governor Has Put It Up to the Legis-  
lature to Act.

(From a Staff Correspondent.)  
St. Paul, Jan. 10.—(Special to The Herald.)—Governor Johnson's message was the principal topic of discussion about the capitol and the hotel lobbies yesterday afternoon and evening.

A bunch of very important bills came into the senate at its morning session, but the fact that the matters they treated were nearly all covered by the governor's message served to distract attention from them.

The sentiment seemed to be that the governor had not left much for the legislature to imagine in the way of

new legislation. Not an important issue before the people was neglected in his message, and the suggestions he made are all in line with public sentiment on these subjects.

Notwithstanding the fact that the governor and the majority of the legislature are of different political faiths, praise of the message was not grudgingly bestowed, but Republicans and Democrats alike joined in declaring it the most important public document this state has ever furnished. Its comprehensive sweep of the situation in state and nation, its certain apprehension of the needs of the people and its pointed suggestions of remedies,

(Continued on page 6, fifth column.)

## JUDGE FEARS ASSASSINATION IN BREATHITT COUNTY; ASKS GOVERNOR TO SEND TROOPS FOR PROTECTION.

Lexington, Ky., Jan. 10.—Special Judge Carnes, trying James Hargis, Ed. Callahan, John Smith and John Abner, for the assassination of Dr. B. D. Cox at Jackson, Breathitt county, four years ago, late last night wired Governor Beckham asking that fifty soldiers be sent to guard him against assassination, as his life is in danger. Civil authorities, he says, are powerless to protect him. Jackson is filled with armed men.

Frankfort, Ky., Jan. 10.—Governor Beckham this morning sent Adj. Gen. Lawrence and State Inspector Hines to Jackson to investigate the situation there before ordering out the militia. The governor has received a request from Judge Carnes, presiding in the Hargis case, for a detail of militiamen, but does not wish to take such a step without careful investigation.

Gen. Lawrence and Col. Hines will reach Jackson about 5 p. m.

## AUGUST MILLER IS ACQUITTED

Jury Finds That He Did Not Steal a Watch.

August Miller, who was indicted for grand larceny in the second degree, was acquitted this morning after the jury had deliberated over the evidence about half an hour.

Miller was accused of stealing a silver watch at a Finnish boarding house on St. Croix avenue. The principal witnesses for the state, the persons whose watch is claimed to have been stolen, told rather conflicting stories as to where he last had his watch and he was not able to identify the watch as the timepiece recovered by the police more than to say they were similar in appearance. Miller claimed to have bought the watch he had from some person whose name he could not remember.

"All is soon ready in an orderly house," and the ad. you are looking for is soon found in The Herald want column.

**\$40 Heaters, \$31.50**

**\$35 Heaters, \$27.50**

These mean big savings to you—if you buy now. Prices are going up. Stoves and Ranges will cost you more next year than they do now—if you want to make a good investment buy a Buck's Heater at the prices we are making on them now.

These heaters are full nickel, high grade construction—fourteen-inch and thirteen-inch fire pots.

We give you the advantage of buying at reduced prices and on our gradual payment plan—the most liberal terms in the city.

If you need a heater, you will make a wise move by buying one now. Don't wait.

**French & Bassett**  
DULUTH, MINN.

## PRINCIPALS PLAYED BY OPPOSING LAWYERS

Attorneys in Trezona-Penna Suit Indulge in Sarcasm.

Case is Due to Go to the Jury Before Night.

Seldom has a more biting, sarcastic, expression of one man's opinion of another been heard in a St. Louis county courtroom, than was contained in the address of Attorney T. T. Hollister to the district court jury this morning, in the summing up of the Trezona-Penna damage suit.

Mr. Hollister claimed that the evidence shows Mr. Trezona to have been a true and faithful husband to his wife up to the time Capt. Penna is alleged to have seduced her and broken up the family ties. He criticized Mr. Neff for holding up and ridiculing before the public the admitted fact that Mr. Trezona on account of the liquor habit, had broken away from the habit by taking a cure and his efforts to live a sober and industrious life should be looked on with sympathy and with encouragement.

Mr. Hollister expressed himself as feeling especially bitter toward Penna after the latter brought his wife to the courtroom to hear the "history of his perjury," and to testify in his behalf in the face of all the disgrace simply for the sake of saving a few dollars. He declared that the act lost for Capt. Penna the last shred of sympathy he, Hollister, might have had. Expressing a very charitable view of the position in which Mrs. Penna has been placed, Mr. Hollister claimed that because of the love she still seems to have for her husband and her intention to stand by him she would naturally color her testimony as much as possible in his favor. Mr. Hollister claimed that it was not in human nature for Mrs. Penna to entertain no bitter feeling toward Mrs. Trezona, as the former testified yesterday on the witness stand.

During the trial, Mrs. Trezona made to Duluth after the damage case was started, Mr. Hollister claimed that she was sent for to give testimony against Capt. Penna before the grand jury. He claimed that paid spies for Capt. Penna notified his counsel, Mr. Neff, that she was in the city, and that, as a result, she was in some way spirited away, and she could not be found when her husband went to the hotel to look for her.

The courtroom was packed with men, this morning, who seemed to take a morbid interest in the proceedings. Mrs. Penna remained during the arguments of her husband's behalf.

During Mr. Hollister's arguments, Mr. Trezona seemed overcome by his feelings and left the court room.

When the noon recess was taken, Mr. Hollister was nearing the end of his argument to the jury and there remained the charge to be delivered by the court.

Porter J. Neff, who has been defending Capt. Penna, opened the argument to the jury.

Mr. Neff declared that the case has resulted from an attempt by Mr. and Mrs. John J. Trezona to blackmail Capt. Penna. He claimed to have shown by the testimony, oral and documentary, that there was a collusion between Mr. Trezona and his wife to defraud the captain out of the few thousand dollars he and Mrs. Penna are said to have accumulated after years of frugality and saving.

Mr. Neff was unimpaired in his denunciation of Mr. Trezona as a drunken husband, who made home life so unpleasant for his wife that he drove her to seek the society of the Pennas.

He claimed that Mrs. Trezona had such a bad reputation at Eveleth that the Penna home was the only place where she was tolerated at all. He accused John Trezona of even trying to hoodwink his own parents in the alleged deal between himself and his wife.

Mr. Neff characterized his client, Capt. Penna, as a "greenhorn" and a "sucker," who never meant any of the

protestations of love indicated by the letters. He admitted that Capt. Penna wrote the letters, but claimed that Mr. Trezona's story that he took the letters from his wife's trunk at St. Paul during her absence was a fake. He claimed that the real facts of the matter are that Mrs. Trezona, in the furtherance of the alleged blackmail scheme, voluntarily turned the letters over to her husband.

Mr. Neff further claimed that Mr. and Mrs. Trezona met here in Duluth some time after the suit was started and stopped at one of the local hotels. He declared his belief that when the complaint was filed it was the intention of Trezona to have his wife testify in his behalf, but that after the Penna letters were put in, Trezona and his counsel feared that it would be unwise to use both her testimony and the letters, as it would be too "raw."

Mr. Neff did not ask for a verdict for Capt. Penna. He admitted that the captain had done wrong, but he urged that under the circumstances, considering the character of both Trezona and his wife, and their relations throughout the present trouble, that Trezona was not entitled to any substantial damages. He argued that the jury should return a verdict of damages for 5 cents, but not to exceed one dollar, at the most.

## LIEUT. GENERAL WILL SOON GO

When McArthur's Term Expires Office Will be Vacant.

Washington, Jan. 10.—Representative Dalzell of Pennsylvania, from the committee on rules, when the house met today, presented a rule permitting the house, as in committee of the whole, to vote on the question whether the grade of lieutenant general should cease, and determining when the present lieutenant general retires. Mr. Dalzell said, in explanation of the rule, that it would give the house and power of the state railroad commission was recommended. An inheritance tax law was urged, the measure suggesting that income of \$25,000 annually would be deducted from the estate of the decedent by popular vote was also advocated.

Upon remedial insurance legislation the governor urged that no insurance company officer should receive a salary in excess of \$10,000. And that special contracts should be prohibited as well as excessive commissions and rebates. One means suggested to avoid excessive commissions should be by prohibiting the level premium plan for preliminary term insurance.

TO RETIRE SIGSBEE.  
Washington, Jan. 10.—I was appointed to the navy department today that Rear Admiral Charles D. Sigsbee, who was in command of the battleship Maine when that vessel was blown up and destroyed with great loss of life in the harbor of Havana, Feb. 15, 1898, will be placed in the retired list of the navy on the 15th inst. on account of age.

Will Make Stamps as Usual.  
Although an outside printing concern promised to print all our postage stamps cheaper than the Government can do the work itself the contract was again awarded to the Bureau of Engraving and Printing. It is claimed that the small saving in money would be more than offset by the loss on the machinery in the latter plant, even if sold to the outsider at market value.

In medicine, as well, cheapness is not to be considered over merit, and for that reason Hostetter's Stomach Bitters should be the first choice of every one suffering from poor appetite, headache, vomiting, belching, heartburn, dyspepsia, indigestion, constiveness, colds or malaria. For over 53 years it has been given complete satisfaction. Try a bottle. It has been approved by the pure drug commissioners.

OCEAN-STEAMSHIPS.  
Plymouth—Arrived: Pennsylvania, from New York for Hamburg.  
Haver—Arrived: La Lorraine, from New York.

CHURCH IS HANGED.  
St. Louis, Jan. 10.—William E. Church was hanged at Wardentown this morning for the murder of his foster parents, Mr. and Mrs. H. W. Yeater, on Aug. 30, 1903. Church strangled them to death.

HE THOUGHT WRONG.  
Secretary of the International Policyholders' committee, is a firm believer in women's intelligence, and in many of his enterprises women have held important posts, says the Los Angeles Times.

Appropos of a woman's wit, Mr. Eaton said at Atlantic City:

"As I was strolling the other day on the boardwalk, a wheeled chair, containing two ladies, trundled slowly by me. I heard one lady say:

"What has become of that blonde with whom Harry Hawk was flirting all summer?"

"Thought he was flirting, you mean," said the second lady. "She married him last month."

NAUTICAL IGNORANCE.  
Young Capt. Seabury, of the White Star liner, Cretia, was talking about the ignorance of the sea and of nautical terms that is sometimes displayed by female passengers, says the Los Angeles Times.

"Last fall," he said, "there was a young lady from Warwick whom I met over the storages."

"As we were making our tour, the steamer people were eating their dinner, and I couldn't help remarking the tremendous appetite of a red-haired man."

"Great Jupiter! I said just look at the amount of food that fellow consumes."

"I suppose you mean," said the young lady, "that he's what you sailors call a stowaway."

"The getting out of doors, is the greatest part of the journey," so put you hat and go out and answer that Herald wanted, which aroused your interest today.

## SOZODONT TOOTH POWDER

a delicious dentifrice. Free from acid and grit. Just the thing for those who have an inclination for the niceties of every-day life. Ask your dentist.

## THREE OFFICIALS WERE OUSTED

During Governor Hanly's Term and Much Money Recovered.

Indianapolis, Jan. 10.—In his message to the legislature, Governor Hanly referred to the fact that during the two years of his administration three state officers have been ousted from office for misappropriation of funds; that \$38,000 had been recovered from them and turned into the treasury, and that out of the \$230,000 which had been paid against former state officers for alleged misappropriation of money belonging to the state, \$100,000 had been recovered.

He considered remedial insurance legislation the most important subject to come before the legislature. He recommended a 5-cent rate on private bank deposits, a primary election law, a law providing for a depository of public funds and laws more definitely fixing the responsibility of public officials. The governor urged that no insurance company officer should receive a salary in excess of \$10,000. And that special contracts should be prohibited as well as excessive commissions and rebates. One means suggested to avoid excessive commissions should be by prohibiting the level premium plan for preliminary term insurance.

## CARLOS AVERY MAY GET PLUM

Said to be Slated for S. F. Fullerton's Position.

St. Paul, Jan. 10.—(Special to The Herald.)—It is announced from an authoritative source that S. F. Fullerton, executive agent of the Minnesota game and fish commission, will not be re-appointed, but that the appointment will go to Carlos Avery, editor of the Hutchinson Leader. Governor Johnson has not yet indicated what he will do, but it is quite certain that Mr. Avery will get the place.

## KNOCKING DOWN.

Philadelphia clergyman was talking about the late Sam Small, says the Los Angeles Times.

"I once heard him speak," he said, "and his humor and eloquence impressed me deeply."

"He had a happy knack of illustration. He wanted I remember, to illustrate the frailty that is a part of even the best characters, and he told a story about a brave young soldier."

"This soldier," he said, "enlisted in the Spanish-American war and fought like a lion for his country. The firm he had worked for, pleased with the record he was making, told him that his wife that all the time he was away they would pay half his wages to her."

"Accordingly," at the end of the first week, the young woman called at the office, and the head of the firm handed her \$3.

"She looked at the money, and her face clouded over."

"Nine dollars?" she said.

"Yes," said the head, a little hurt; "that is just half. I'm sorry you are not satisfied."

"It is not that I'm not satisfied," said the young woman, "but all along he's been telling me his pay was only \$14 a week. Now that he gets home, them Spaniards don't kill him, I will."

HER MOTIVE.  
Anthony Comstock, the famous and brave fighter against vice, was talking in New York about certain information that had been lodged with him, says the Los Angeles Times.

"It is perhaps helpful information," he said, "but I confess that I mis-trust its motive. It suggests to me an incident that occurred last month in Matawan. A young woman of Matawan said to her husband one night:

"My dear, there is a gentleman in the parlor. He wants to speak to you."

"Who is it, do you know?" the husband asked.

"Dear," said his wife, "you must forgive me—but that cough has bothered you so much of late—and though I'm coming on, it still clings to you, and—oh, if you knew how worried I've been about you! She threw her arms around his neck."

"What would I do if I were to lose you?" she moaned.

"Come, come," said the young man, pinning her shoulder tenderly. "men don't die of a slight cold. So you've called in the doctor, eh? Well, else we would worry over that, and you feel easier. Which one is it? Squills?"

"It isn't the doctor," was the answer. "It's the life insurance agent."

E PLURIBUS UNUM.  
Lawrence, Kan., World: The English language was sitting in its corner of the ring, dazed but conscious. It might have known, it muttered. "But fools learn only by their own experience. See what he did to the Northern Pacific morning, the beef trust, the coal combine, the Russo-Japanese war, the scrap in Central America, the folks without children, and the man who wouldn't eat with a negro. I might have known that he would get me and reform me!"

DOTS AND CROSSES.  
New York Sun: "I find," said the middle-aged man, "that I am now, in writing, more and more inclined to read the words of my 'I's and the crosses of my 't's."

"Once, when I was myself more prone to such droivnesses, I used to me to indicate slovenliness or undue haste on the part of a writer, and so forth. I now reveal a lack of proper consideration for the person addressed, but now when I find that I am myself falling into such ways I have a feeling of greater leniency toward those whom I once thought offending."

Now it no longer seems to me that failure to dot our 'I's and cross our 't's indicates carelessness or indifference; it indicates a certain amount of wisdom.

OCEAN-STEAMSHIPS.  
Plymouth—Arrived: Pennsylvania, from New York for Hamburg.  
Haver—Arrived: La Lorraine, from New York.

CHURCH IS HANGED.  
St. Louis, Jan. 10.—William E. Church was hanged at Wardentown this morning for the murder of his foster parents, Mr. and Mrs. H. W. Yeater, on Aug. 30, 1903. Church strangled them to death.

HE THOUGHT WRONG.  
Secretary of the International Policyholders' committee, is a firm believer in women's intelligence, and in many of his enterprises women have held important posts, says the Los Angeles Times.

Appropos of a woman's wit, Mr. Eaton said at Atlantic City:

"As I was strolling the other day on the boardwalk, a wheeled chair, containing two ladies, trundled slowly by me. I heard one lady say:

"What has become of that blonde with whom Harry Hawk was flirting all summer?"

"Thought he was flirting, you mean," said the second lady. "She married him last month."

NAUTICAL IGNORANCE.  
Young Capt. Seabury, of the White Star liner, Cretia, was talking about the ignorance of the sea and of nautical terms that is sometimes displayed by female passengers, says the Los Angeles Times.

"Last fall," he said, "there was a young lady from Warwick whom I met over the storages."

"As we were making our tour, the steamer people were eating their dinner, and I couldn't help remarking the tremendous appetite of a red-haired man."

"Great Jupiter! I said just look at the amount of food that fellow consumes."

"I suppose you mean," said the young lady, "that he's what you sailors call a stowaway."

"The getting out of doors, is the greatest part of the journey," so put you hat and go out and answer that Herald wanted, which aroused your interest today.

Other prices cut in proportion. Remember, we guarantee fit, style and workmanship. No garment is allowed to leave our shop unless it is right.

**Elof Strand,**  
Merchant Tailor,  
Hotel McKay and First Street.

may show simply an effort to save time, on the part of a writer hurried, or a philosophical desire to avoid the waste of time, the most valuable of all things to us, and the only thing that is allotted to all men without regard to wealth or capacity, in absolutely equal and inalienable shares.

"And so now, if I get from a friend a letter without all the 'I's and 't's duly dotted and crossed, I may not indicate that he is careless himself or thoughtless of me, but that he values time, and trusts me not to be offended that he writes to me in his accustomed way. As we grow older, then, which we so thoughtlessly waste in our youth, becomes more and more precious. Fortunately for me, however, we never realize how little of it we now have left, else we would worry over that, and so, as we grow older—if blessed with good health—we do more and more joy in existence."

"So it is in my growing years and keeps the knowledge of the value of time that I find one reason for my dropping my 'I's and crossing my 't's. I am inclined to think after all that the controlling reason for this lies in our own nature. As we grow older we come to realize that the million petty details, the details are important to us, and they may seem all important; their situation for our main duty, but as we grow older and take a broader view, we are likely to smile and perhaps to wonder over the time we waste and the worries we once gave out and over innumerable things that seemed to us of importance, but that really were of no account at all. As we grow older we gain that great advantage in life—freedom and power likely to come to us only as the result of observation and experience—an ability to get along without worrying over trifles."

"And so I am inclined to think that it is not so much the saving of time thereby as it is this later life emancipation that moves me now in my manner of writing. I am no less careful of the substance; I think, indeed, that I am now more thoughtful of that and more thoughtful as well of making my meaning clear and even my writing plain and easy to read, but I no longer worry as I once did about the dots and crosses."

KLIEPTOMANIA.  
Kleptomania is occasionally induced by continued and close application to the study of a particular subject. A singular case was recently reported from Germany.

A well-known professor was found to have transferred to his own private collection many of the valuable butterflies or chrysalis he had charge in his official capacity.

The existence of mental derangement, says the Boston Transcript, was clear from the facts that came out in the case of the investigation afterward made by the museum authorities.

It was found that the professor had often sent his wife out all day to catch butterflies, so intense was his passion for these insects. On one occasion the professor, while hunting a butterfly, was nearly run over by an express train; at another time he fell into a river, and once both he and his wife fell into a pond.

Place on sale tomorrow their lines of

**FRANCES WILSON.**  
Mrs. Frances Wilson, 23 Nelson street, Clinton, Mass., writes:  
"Had you seen me at the time of my illness, you would have wondered that I take delight in sounding the praises of Peruena.  
"My ailment was a severe cold which attacked the bronchial tubes and lungs.  
"I followed your special directions and after using six bottles of Peruena I was on my feet again.  
"I think Peruena a wonderful medicine."  
"The promptness with which Peruena relieves a fresh cold, and even removes chronic colds, have become thoroughly established.  
"I have known it throughout the country. This ranks Peruena as a reliable prophylactic against consumption."  
Mr. William Swain, 425 Stiles street, W. Philadelphia, Pa., writes:  
"Before I commenced taking Peruena I could do nothing but cough. I could think of for eatnark.  
"I was getting up in the morning and my lungs felt dry and sore. No one who has not experienced this can know how I suffered.  
"I tried nearly everything recommended, but nothing did me any permanent good.  
"The first bottle of Peruena did me so much good that I continued taking it until I was cured.  
"I cannot praise Peruena high enough. I wish every one could know of it.  
"The cold weather and colds can do nothing better than to procure a bottle of Peruena."

**Cataracts** Give instant relief in Nasal Catarrh—stuffy nose, inflammation, sore throat, and hoarseness. Best remedy for sore throat, etc. Urugate or mail.

**Dyspepsia** Quickly relieve Sour Stomach, Heartburn, Indigestion and Dyspepsia. Sugar-coated tablets. Made by Hood's Food, Lowell, Mass. If Made by Hood's Food.

## COPPERS HAVE DULL SESSION

### Denn-Arizona Makes a Good Gain During the Day.

The copper stock market had rather a weak time today. The Cananea stocks were off and the other stocks. Trading was not heavy. Greene Cananea sold at \$23.75 and closed at \$23.75 bid and \$24 asked. Greene Consolidated opened at \$31, advanced to \$31.57½ and closed at \$31.75 bid and \$31.87½ asked. Cananea Central sold at \$31 and closed at \$31 bid and \$31.50 asked.

North Butte opened at \$118, advanced to \$118.75, declined to \$117.75 and closed at \$117.75 bid and \$118 asked. Amalgamated opened at \$119.87½, advanced to \$120.50, declined to \$119.25 and closed at \$119.25 bid and \$119.50 asked. Anaconda opened at \$236, advanced to \$236.75, declined to \$235 and closed at \$235 bid.

Butte Coalition opened at \$37.75, advanced to \$38, declined to \$37.50 and closed at \$37.50 bid and \$38 asked. Calumet & Arizona opened at \$180, fell off to \$179 and closed at \$179 bid and \$180 asked.

Denn-Arizona was \$45 bid at the opening, sold at \$45 and advanced to \$50, closing at \$50 bid. Superior & Pittsburg had a sick time, selling as high as \$27.37½, declining to \$26.75 and closing at \$26 bid and \$26.75 asked.

Calumet & Sonora sold at \$33.50 and closed at \$32 bid and \$34 asked. Keweenaw sold at \$14 and closed at \$14 bid. Warren at \$14 and closed at \$14 bid. Hancock Consolidated at \$17 bid, and Cluff at \$1.25 and closed at \$1.25 bid.

Copper Queen of Idaho was inactive and closed at \$2.25 bid and \$2.50 asked. Globe Consolidated at \$9.50 bid and Calumet & Montana at \$8 bid and \$8.50 asked. Black Mountain sold at \$10 and closed at \$10 bid.

Stockholders in the Cliff Mining company have been notified that the company has issued the remaining capital stock, in order to pay for the additional mining claims that have been purchased. This new stock to be issued will be offered to Cliff stockholders according to the amount of the stock they hold, at the rate of \$2.50 per share to be paid for on or before Feb. 7, 1907. A stockholder may secure one share of the additional stock for every one share of the old stock he holds, one that he now holds in the company, at the rate mentioned. This offer is made only to Cliff stockholders.

## Cured of Piles by Pyramid Pile Cure

### If You Suffer, You Can Be Cured. Costs Nothing to Try.

If you think that you must be operated upon to be cured of piles, you are wrong. Thousands of cases of piles of excruciating severity—some no doubt, than yours, have been cured painlessly, quickly and permanently, while the patient has been at his work, and without the loss of time necessitated by an operation. In fact many a sufferer has not been able to reach his work, or to move across the room until after using the home remedy prepared by the Pyramid Drug company.

No More Piles! One Box Cured—Only 50 Cents!

Such was the condition of an Indiana business man, as shown in a recent letter:

"Received your sample of Pile Cure and have given it a fair trial and it has proven the best I ever tried. I can recommend you highly in this vicinity. Have used your sample and one box, and it has effected a complete cure. It has been worth \$100 to me."

"Thanking you for the sample and the cure, I will recommend you to everybody. Yours respectfully, Julius Mayer, Dealer in Feathers, Ginseng and Hides, Bedford, Ind."

The Pyramid Pile Cure can be used at home in the privacy of your own room. There is enough strength in each little suppository to drive out infection, while at the same time it melts away into the diseased tissues of the rectum, heals up the fissures, relieves the inflammation, starts the circulation of the hemorrhoidal veins, diminishes the congestion and brings the organs back to their normal condition.

We want to prove to every sufferer from piles that the Pyramid Pile Cure will cure. This treatment is prepared exclusively by the Pyramid Drug company, which is sufficient evidence of its genuineness. However, we do not ask you to depend upon the reliability of our name or the bona fide testimonials of the hundreds of cured pile sufferers. Send us your name and address for a free trial package. Use it according to directions. The relief you will get will justify your going at once to the druggist for a 50 cent box.

All druggists sell the Pyramid Pile Cure. Just like the sample. Accept no substitute. Pyramid Pile Cure company, 76 Pyramid Bldg., Marshall, Mich.

## "ANOTHER OPERATION WILL BE NECESSARY!"

—New York Telegram.

## CITY BRIEFS

The funeral of Ouida Wilcock will be held tomorrow afternoon from the family residence, 412 East Fifth street.

**Have Zinc Holdings.**

At a meeting held Monday W. J. Power, Carl Thiel, R. F. Brady, Jr., S. Kritz and J. Johnson of Hibbing organized to explore their holdings in the Wisconsin lead and zinc districts.

**Roller Skating Race.**

The second race for the Head of the Lakes championship, between Phil Busha and Walter Higgins will be held this evening at the Temple rink.

**Enters Strange Plea.**

John Smith, one of the men who was shot by a man named Mitchell near the Union depot a month ago, was brought to the notice of local authorities again yesterday when he was arraigned before Judge Cutting in municipal court, charged with petty larceny. He is accused of stealing a sheepskin coat from in front of a store on the Bowers, and he has been charged with the same crime again yesterday when he was arraigned before Judge Cutting ordered a plea of not guilty recorded and set the hearing for Jan. 11 at 2 o'clock.

**Runaways on Superior Street.**

While coming down First avenue west yesterday a horse belonging to Mrs. B. Webster became unmanageable and after throwing Frank Wentland the driver out of the rig started on a mad chase down the avenue. When it reached Superior street the delivery man, who was driving a horse and cutter owned by Dr. A. E. Walker, the Walker horse became infected with the runaway microbes and after smashing up the cutter badly with his heels, started on a record breaking race east on Superior street. He turned down First avenue east, and was caught by a policeman near St. Croix avenue. The cutter was a total wreck but neither of the horses was seriously injured.

**Collins Gets Verdict.**

The jury in the case of Richard J. Collins against Ouellette & Baxter returned a verdict of \$35.50 in favor of Mr. Collins, in the district court yesterday morning. The action was started by Mr. Collins to recover on a bill of lading that he claims to have sold the factory concern. The jury was out about an hour.

**Land Contest Case.**

Register Engel is hearing a contest case at the federal building, the action having been started by Vern B. Culbertson who is contesting the homestead entry of Burton V. Greenman in section 20, township 57, range 8. The land is situated a few miles north of Beaver Bay and Culbertson is trying to have Greenman's entry set aside.

**May Get More Help.**

Postmaster Eaton stated yesterday that he hopes to have the pressing need for a chief railway mail clerk for the Duluth office supplied in the near future. The matter will be taken up with the authorities and Congressman Bede will be asked to lend his aid. More mail is handled in Duluth than in several cities where chief railway mail clerks are stationed and there would be plenty of work for one in this city.

**Mrs. Rust Gets Divorce.**

Edith Rust was this morning granted a decree of absolute divorce from Cameron Rust of this city. The proceedings were held before Judge Dibell.

**Suffers From Melancholia.**

Mrs. Pauline Luick, wife of J. H. Luick, an East Fourth street resident, was examined in the prison hospital yesterday morning concerning her mental condition. Mrs. Luick is said to be suffering from melancholia. Her case was continued.

**Band Concert Sunday.**

The Third Regiment band will give the second of a series of concerts at the armory Sunday afternoon. An elaborate program is being prepared and rehearsed. The soloist will be Miss Josephine Northmore.

**Johnson Case Still On.**

In federal court Judge Morris is still hearing evidence today in the case of the government against Charles J. Johnson and it is not likely the trial will be completed before tomorrow. The government is trying to prove that Johnson manu-

factured and sold a malt liquor known as "Juniper Ale" without a license.

**Naval Officers Coming.**

Lieut. J. J. Wetting, in command of the Minneapolis naval recruiting office, and Dr. Bachman, medical officer in charge, will arrive in this city tomorrow or Saturday to swear in three men who have been secured by the local branch recruiting office.

**Adjudged a Bankrupt.**

William Ide of Hibbing was adjudged a voluntary bankrupt this morning by Judge Morris of the federal court. His application for bankruptcy was filed some time ago. His liabilities amounted to \$1,500 and his assets were \$200.

**Visits Old Home.**

A. George of the firm of Marra & George, proprietors of the Minnesota and the Olympia candy kitchens, left yesterday for New York where he will take a steamer for Greece, to visit his old home and a number of other continental points. Mr. George expects to be gone about four months.

**Ladies of St. Paul's to Meet.**

The Women's Auxiliary of St. Paul's Episcopal church will meet tomorrow afternoon at 2:45 with Mrs. Dickenson and Mrs. Ketchum in the Bolivar flats. Rev. Mr. Barker of Lakeside, will give a talk on "South Africa."

**Action for Hotel Rent.**

The civil action of Ivarn & Sloan against Stitt & Howe is being tried before a jury in Judge Engstrom's room. The case is one in which the plaintiffs seek to recover a sum alleged to be due in rent for the Elmore hotel at the West end. Stitt & Howe have made a counter claim on account of extensive repairs that they allege they had to make to the building and for which they claim to have paid.

**SCREECH OWLS ON ENGINE.**

Kansas City Times: "That's scowling an engine come, when you make 'er overtake and kill birds on the wing."

**TOO LATE TO CLASSIFY**

Hair Dressing, Shampooing, Facial Massage, Manicuring at Miss Horvath's.

WANTED—POSITION BY COMPETENT, experienced stenographer. Best of references. No salary object. Address Y. Herald.

YOUNG MAN WOULD LIKE TO obtain work in city. Can furnish references. T. 23, Herald.

WANTED — PARTNER — EXPERIENCED in grocery business, with \$500. Y. Herald.

FOR RENT — A LARGE ROOM SUITABLE for two gentlemen; all conveniences. 29 Fifth avenue west.

WANTED — A FEW GOOD MEN IN DULUTH and Superior to install our inverted gas lights; something new. Easy selling; best made and sold on approval; good wages. Call between 6 and 8 p. m. at Room 625, Manhattan building.

Hair Dressing, Switches, Facial Massage, Shampooing, Set's a priors, 17 E. Dup. St. Manicuring Sec. Zenith, 124.

**MARRIAGE LICENSES.**

Ell Oliver Jacques, Jr., and Fabiola Non-cul, both of Duluth.

Casper Stahl and Katherine C. McPherson, both of Duluth.

Marion Alvar and Ida Hendrichson, both of Duluth.

William D. Murphy and Katherine A. Murphy, both of Duluth.

Edwin Wilhelm and Wilfrid Peterson and Sigrid Maria Walgren, both of Duluth.

**DEATHS.**

TREDEAU—Leon Trudeau, 30 years of age, died at his home, 1029 Garfield avenue, January 8, the chief cause of death being cancer.

SALBERG—Edward Salberg, for a number of years a cook in lumbering camps about Duluth, died yesterday at St. Mary's hospital of cancer. He was 43 years of age.

OSTROM—Rudolph, the 5-year-old son of Mr. and Mrs. Andrew Ostrom of West Duluth, died yesterday of diphtheria.

**PERSONALS**

John A. Hendrickson, who has been in the Philippines Islands for the past two years, returned home yesterday via San Francisco.

Mr. and Mrs. A. B. Siewert of East Third street, have returned after a short visit to Oshkosh, Wis.

Miss Young of Oshkosh, N. Y., and Mrs. E. E. Webster, photographer in the United States, land office, is seriously ill at St. Paul, where she is visiting relatives for the past two weeks.

John T. McLaughlin is in Duluth on business.

Mrs. K. N. McLeod left for Los Angeles, Cal., yesterday.

Mrs. F. Fischer and Miss E. Fischer left yesterday for Minneapolis.

G. H. Anthony, formerly general agent in Duluth for the Wisconsin Central, and now acting in the same capacity at Winnipeg, Man., is in the city today.

Miss Lyla Johnson, left last night on a trip to Tarpon Springs, Fla.

Mr. and Mrs. J. H. Johnson, president of the Arizona Copper Mountain Mining company, left this afternoon for Phoenix, Ariz., to inspect the mine. Mr. Blume will remain there about a month.

Mr. and Mrs. J. H. Johnson, president of the Arizona Copper Mountain Mining company, left this afternoon for Phoenix, Ariz., to inspect the mine. Mr. Blume will remain there about a month.

## REV. E. M. NOYES

### HERE ON VISIT

### Former Duluth Pastor is Guest of Friends in City.

Rev. Edward M. Noyes of New Center, Mass., former pastor of the Pilgrim Congregational church of this city, is in Duluth today. He was a guest of Mr. and Mrs. W. G. Hedgari, at a luncheon at the Kitchi Gamm club today.

Rev. Mr. Noyes will be remembered by a large number of Duluthians, as he had a wide acquaintance, and a host of friends when he left this city some twelve or thirteen years ago.

Mr. Noyes is now a member of the Prudential Committee of the American Board of Commissioners of Foreign Missions, and is traveling through Minnesota in the interests of the work. He expects to leave the city tomorrow evening.

**Rheumatism Cured in 24 Hours.**

T. J. Blackmore, of Haller & Blackmore, Pittsburgh, Pa., says: "I have short time since I procured a bottle of Mytic Cure. It got me out of the house in 24 hours. I took my bed with rheumatism nine months ago and the Mytic Cure is the only medicine that did me any good. I had five of the best physicians in the city, but I received very little relief from them. I know the Mytic Cure to be what it is represented to be, and I am recommending it to other poor sufferers." Sold by all druggists.

**SECOND CHANNEL AT LIME KILNS**

Urged by President Livingston of the Lake Carriers.

Detroit, Mich., Jan. 10.—The annual report of President William Livingston of the Lake Carrier's association, was read at the opening meeting today of the annual gathering of the association. President Livingston's report discussed at length

# WOMEN'S GYM FROLIC

Word comes from London that Mr. Hildesley, secretary of the Imperial Society of Dance Teachers, has discovered that the state of dancing in general is woeful. He ventures to say that 95 per cent of the people who attend the smart and most select and private dances of the West end of London do not know the simple quadrille movements. He ventures again, and says that 5 per cent cannot reverse, and as a third cannot last plunge, that "90 per cent cannot wait—that is, they can go round with the music, but they absolutely cannot wait."

How true! It sounds almost like Duluth. Of course a quadrille is so seldom danced here that the agony of watching a lot of people perform exceedingly graceless movements, or being oneself a part of said graceless maneuver is spared the folks in this part of the country at least. But the romping that is done in modern ball rooms is woeful—to endorse the London gentleman. The folks who dance once in an age, simply and entirely for sheer delight of jumping around may be forgiven, for their serious purpose in life is something far different, but the society folks, who devote a good part of their lives to dancing, should and ought to learn how.

Girls in their first seasons usually dance passably. They are so delicately light and airy that they could not move ungracefully. By their fourth season they are tolerated, and after that critical eyes are cast upon them, very many, faux pas of which they are guilty. The poetry of motion is made meaningless, and dancing simply becomes a romping frolic that everybody enjoys taking part in.

Another thing, keep on dancing until you are 60, if you wish, provided you never get over 200 pounds in weight, but after you pass that mark, give in gracefully, sit the dances out, looking cool and dignified, and graciously condescend to be a part of the crowd, but do not, in behalf of your own avoirdupois, get up and try to be airy and end being red, hot, and fat, and blowsy.

This trade is directed against the feminine folks entirely. There is not one of them but could get the time to learn how to dance, and you can't find one in ten who does not know how. Men usually dance with two graceful man displeases one, and then, beside, they have their days taken up with the business of the more important, things.

But whenever a group of people are seen at this amusement, the wonder grows in the minds of the men, and they are sure to find time to bridge, and beaux, and automobiles, and gowns, without a single worry concerning less critical things of the important parts of their existence as entirely as they undoubtedly do.

But, after all, so long as you get your card filled by the host, and men in sight, and you dance well enough to please yourself and him—who cares?

**HONOR REV. E. M. NOYES**  
Reception in Compliment to Pastor Tomorrow Evening.  
A large number of Duluth people are interested in the visit to this city of Rev. E. M. Noyes of Newton Center, Mass., formerly pastor of the Pilgrim Congregational church of this city. The week of prayer is being observed in the Congregational churches throughout the world, and at the meetings tonight and tomorrow evening, Mr. Noyes will speak. During his four-day stay in Duluth, he will hold a series of meetings in this city. Mr. Noyes became widely known, and cordial invitation is extended to his friends and acquaintances to call and greet him tomorrow evening. The reception will be held in the church parlors.

During his stay in the city, Mr. Noyes is the guest of Mr. and Mrs. W. G. Hegardt.

noon at the home of Mrs. Philip Bayha of 516 Leavenworth north. The election of officers for the year took place and those who will serve the society during the coming year are: President, Mrs. Philip Bayha; vice president, Mrs. J. C. Hanson; secretary, Mrs. George W. Jensen; treasurer, Mrs. H. O. H. Munson.

The work of the society during the year has been most satisfactory, \$1,200 having been contributed to the work of the church. After the business meeting a social hour was enjoyed.

**Morning Wedding.**  
The wedding of Miss Fabiola Brunet, daughter of Dr. and Mrs. L. M. Brunet, and Eli O. Jacques, Jr., took place at the church of St. Jean le Baptiste. The wedding service was read at 9:30 o'clock by Father Frigon. The bride was attended by Miss Belle Jacques and the groomsmen were William Jacques. The wedding music was played by LaBrosse's orchestra, with Miss Plebiger at the organ. The bride wore a dainty gown of white embroidered with radium silk trimmings. She wore a white lace picture hat and carried a prayer book. Miss Jacques' gown was of pale yellow radium silk with a white lace hat and she carried pink roses.

After the ceremony a wedding breakfast was served at the home of the bride's parents at 1033 West First street, and a wedding reception was held this afternoon. During the receiving hours from 1 to 3 o'clock a large number of guests called. Assisting about the rooms were Misses Pearl Chalk, Gertrude St. Germaine, Grace Sheridan, Minnie Gregory and Lillian and Adeline Appel.

Mr. and Mrs. Jacques left on the afternoon train for an Eastern wedding trip. They will be at home in this city.

**Gym Frolic.**  
The date of the annual gymnasium frolic of the Young Women's Christian association has been set for Wednesday evening, Jan. 23, and the end of the first term of work will be marked by a gala event. The gym frolic participated in by all the gymnasium members has come to be one of the most important and delightful of the informal social events of the year.

The registration of classes for the second term which begins Feb. 4, is going on, and each Friday at noon an informal phonograph concert will be given at the rooms, and the members of the gymnasium committee will receive the names of new members.

**Personal Mention.**  
Mr. and Mrs. Frederick Lee Gilbert will leave within a few days for a short visit at Saginaw and will later return to California for the remainder of the winter.

Mr. and Mrs. G. A. St. Clair will leave soon for a six weeks' trip to California.

Miss Mayme Beatty has returned to Portland, Or., after spending the holidays with friends in this city.

Mrs. John Monaghan of 424 East First street has returned from a short trip to St. Paul.

Mrs. E. C. Blanchard is visiting in Minneapolis for a few days.

**What Retail Markets Offer**  
Quart bottle of maple syrup, 50 cents.  
Jonathan apples, 60 cents a peck.  
Greenings, 40 cents a peck.  
Bermuda onions, 10 cents a lb.  
Little pork sausage, 10 cents a lb.  
Fresh herring, 6 cents a lb.  
Hailbut and codfish.

If through chance or design, the housekeeper in your establishment has thus far avoided buckwheat cakes, wish to urge her to purchase them. There never has been a cook who really enjoys making buckwheat cakes, and the eating of them is a pleasure. For cooking the cakes, the best fat is lard.

**MORTGAGE EXEMPTION**  
(Continued from page 1.)  
present system of taxing personal property are inherent and that a reliance should be placed upon corporate, income and inheritance taxes. The mortgage exemption law was enacted to meet the expectation of its advocates and the results of its enactment have proved very gratifying. Its only result has been to exempt the owner of the credit with- out any burden or cost to the borrower. It has increased the tax rate upon all other property except that of the law during the three years preceding. There is certainly no reason or logic in exempting mortgages from the tax, and the legislature has the power to amend the law so as to exempt mortgages from the tax.

The inheritance tax law passed in 1904 has proved to be a most fruitful source of revenue to the state. It has emphasized the fact that the state has a right to a portion of the property of its citizens, and it is a proper collection of the tax.

**SEVEN CHARRED BODIES**  
(Continued from page 1.)  
was caused by the loosening of one of the steel bands about the bottom of the furnace. It fell, said he, and that made that policies of the shell weak. The great pressure of the steel charge and gas against the weak point, resulted in the plate giving way, and other plates were naturally affected.

There were 100 tons of steel in the furnace at the time. The loss to the company, according to Superintendent Messier, will not be less than \$50,000, and may greatly exceed these figures, as the entire furnace bottom is said to be ruined. The estimate of damages includes the value of the stock house, the pipe house, laboratory and a small office building, which were destroyed by the fire, following the explosion.

**AN ARTIST'S MODEL**  
By Louis Joseph Vance.  
(Copyright, 1907, by Joseph B. Bowles.)  
Along the hallway which was dark, Mrs. Thorne faltered, panting. There was hardly enough light for her to make out the boldly lettered name upon Carton's door. She tapped it softly—the door opened, and she found a man who had hardly less noise.

Before she realized it, the door was swung open, and she found herself in the hall, and facing the figure of Richard Carton, painter—a tall, broad-chested man, built like a lion, and very dark, with his feet squarely, with the bearing of a lion.

"Well," Carton asked, looking down at her coolly.  
"Mr. Carton," she responded with a question, to which he bowed affirmation. The name, of course, meant nothing to her, but she felt a slight, almost willowy figure, clothed in shabby black, and the soft pallor of her face, framed by the mass of her hair, very dark and shot with metallic tresses, bronze-colored and very wavy.

"What is it?" he asked, again with that knowing gaze.  
"It is an orange—made over maize silk, with insertions of Valenciennes, and a giraffe and choux of velvet satin ribbon."

"Indeed," he asserted, with warmth, "I should think you would be very splendid in it! I know you would!"  
And late that night, while The Boy slept, she went to her room and found an old trunk, from whose depths she drew that she abiding relic of her girlhood—the maize silk dress, which she had tenderly, standing before the mirror. Surely it was not less becoming than it had been in her old days; surely it still suited her as it had when she had worn it last, and he had said— "What had he said?"

Carton sat at ease before the canvas, amazingly pleased and satisfied with himself. "Upon my word," he cried, "it's stunning—no less! I don't tell you that you would be fine in the—the maize organdie? If I can do as well tomorrow as I have on this start today, I shall be proud indeed. I do believe it will be worth exhibiting. And he thanks are to you, Mrs. Thorne. You've been a perfect inspiration to me on this!"

"I am very glad—very. Shall you want me tomorrow?"  
"Of course I shall, Mrs. Thorne. Tomorrow, you know, I want to have this thing done. I want to see it then. She is to come to see my work tomorrow."

"Oh! I—I should like to see her." She went away with the dull pain gnawing once more at her heart. It seemed to her that she was revisiting the maize organdie when she danced with the Boy, dependent upon her own mood—the maize organdie, which she had set out to seek his fortune, and he had liked it, and had said— "Foolish, boyish things, but I like them." He had forgotten even the dress that she would not pose upon the morrow, that she fairly could not, and yet the appointed time found her as usual in the model-stand, and again in the organdie.

"She is not late?" Mrs. Thorne asked, looking at her watch.  
"Not very," Carton stepped back into the room, and he said, "The faster must have patience." He spoke with a sort of nervous restraint. "I think I have done very well—for me. Come and tell me what you think."

She had not looked upon the canvas before. Carton did not like anyone to do so without his invitation. But now—The girl of long ago whom she had thought dead and buried, looked gladly out of the canvas, smiling, a beautiful reincarnation of her zone ingenuousness. Absolutely it seemed very cruel and heartless. She turned away, but he did not notice.

"I shall exhibit it," he was saying, "and call it 'The Maize Organdie.' It reminds me of you." "Ah, had she spoken? No, it had been but the swift intake of her breath. He remembered the night before 1 had come here to study—long before I was held low, so that he might not see to Paris. And yet it doesn't seem so strange. I've been so uncommonly busy. There was a dance in the village, and a girl there who wore a dress just like that. I danced with her most of the evening—and thought my heart was 'Why?' Her voice was no more than a whisper.

"I was going away and leaving her, because I thought a great deal of her, and too poor to ask her to wait for me." He paused. There was still in his manner that hesitant constraint. She made a year later, so I suppose it's just as well I said nothing. I came very near it, though."

"After the last dance, I took her home. There was a moon—there is always a moon, isn't there? We stopped at her gate to say good-by—with the moon watching us. Presently I went away without thinking what I had said to—what I have been trying to say for the last fortnight. I wonder what would be her answer."

"What do you mean?" she had found her voice at last, even though it were no more than a broken murmur. "I mean that I've been trying to ask her to marry me—and I've been afraid. What do you think she would say if I did?"

"And now it seemed that he held both her hands, having secured them in some manner incomprehensible, but her head was held low, so that he might not see her face.

"It would depend," she breathed. "If I told her that I loved her—if I told you so, and ask you to be my wife, dear?"

Abruptly she broke his hold upon her hands, and turned away. "But—but the other girl?" she demanded. "Ah, but the other girl was the creature of my illusion. You insisted on it. It was you who did not come to my tent, and I was so sure that you would. I announced our marriage. Dear, did I tell the truth?"

It became manifest that he had, and she was silent.

## The White Sale

Its second week—better even than the first. It's the best White Sale ever held in the city. Best for you.

**Biggest Assortments; Lowest Prices**  
We know, for women who've found out tell us so. That's the reason you find the White Sale crowd here.

**We Want to Introduce Something New!**

## "Monogram" Furniture and Piano Polish—

A remarkable compound discovered by an expert furniture finisher and polisher, which will restore the beautiful luster to all polished furniture, preserve the finish and, best of all, which is free from any harmful ingredients, such as are sometimes found in furniture polish.

**NOTE:** We use this polish in our own furniture polishing and refinishing room and heartily commend it to you.

**Drug. 25c Per Bottle**

## The Garment Clearance!

Duluth's most splendid sale of all kinds of high-class outer garments for women.

## PAYTON & WHITE COMPANY

THE BIG GLASS BLOCK STORE WHERE QUALITY IS PARAMOUNT

refused to newspaper men, the officials saying that later they might be of use. A heavy guard of foreign workmen was placed at the yard entrance and even the police were powerless to get past the foreigners.

**WILL BE HEARD IN DULUTH**  
Hon. Rukard Hurd Arranging for Visit of St. Paul Orchestra.

Hon. Rukard Hurd, president of the St. Paul Symphony orchestra, is in Duluth today, making preliminary arrangements for the appearance of the orchestra at the Lyceum theater next Wednesday night.

The orchestra is a civic organization, said Mr. Hurd. A number of people spirited men in St. Paul got together about six months ago and decided that they wanted an orchestra. They started out to raise \$10,000, but it came so easily that they decided to make it \$25,000 instead. This was all subscribed as a guarantee fund, and a movement is now on foot to raise \$75,000 more to put the orchestra on a firm financial basis.

**HAPPENINGS IN THE DAKOTAS**  
Wade Turner Charged at Minot With Murder and Assault.

Minot—Wade Turner, alias Hughes, who has been for four months in a Ward county hospital, was arrested yesterday on his sickness charged with murdering the landlady of a boarding house in Anadarko, Okla., where he stayed. He is charged with poisoning the landlady with arsenic. He was arrested at Bridgeport, Okla., in 1906. Letters written to the young man's father helped in tracing him down to Minot. At Campbell, while asleep in bed, was nearly burned to death by a fire. He was rescued by a neighbor. He was taken to the hospital, where he was kept for some time. He was then taken to the hospital, where he was kept for some time. He was then taken to the hospital, where he was kept for some time.

## KILLED BY FALLING TREE

Freeston, Minn., Jan. 10.—Webb shock of Bristol township died yesterday morning from injuries received by a tree falling upon him while chopping wood. He was about 50 years of age, and leaves a wife and one married daughter.

## HIDDEN DANGERS.

**Nature Gives Timely Warnings That No Duluth Citizen Can Afford to Ignore.**  
DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete acid, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Duluth proof: Moses Leckey, nagman on the Northern Pacific railroad, living at Seventy-first avenue west, West Duluth, Minn., says: "A friend told me a great kidney secret when he recommended Doan's Kidney Pills to me. He had used them with marked benefit, and on his recommendation I bought a box. I was severely ailing in my back and loins, and the irregularity of the kidney secretions was most annoying. It prevented sleep and I was unable to do my work. I took the pills and in a few days the trouble, but I continued using them. I had taken two boxes; then not a trace of a symptom of the trouble remained. I am now as well as ever. I am a great endorser of that medicine. It is not needless to say that I am a great endorser of that medicine."

For sale by all dealers. Price 50 cents. Doan's Kidney Pills are sold by New York, N. Y. sole agents for the United States. Remember the name—Doan's—and take no other.

## MCKENZIE GIVEN A BLOW IN FACE

### Hildreth Lands in Fistic Encounter in Bismarck Hotel Lobby.

Bismarck, N. D., Jan. 10.—Col. M. A. Hildreth of Fargo struck Alexander McKenzie, the Republican leader of North Dakota, a blow in the face, Tuesday night, as a result of a heated discussion in which the chieftain called the colonel a lying scoundrel.

The affair occurred in the lobby of the Grand Pacific hotel, shortly after supper, when McKenzie approached Col. Hildreth and Representative Casey, who were conversing, and called Hildreth to task for a statement made by him in the campaign in one of his anti-Republican speeches, and told Hildreth he himself knew he was lying when he made the statement.

Hildreth retorted that he had the documents to prove his statements and the lie was passed again.

McKenzie waxed warmer and threw some unpleasant things at Hildreth, who made a sharp and caustic reply. Finally McKenzie called Hildreth a vile epithet, whereupon Hildreth struck him a blow in the stomach and followed it up with one in the face.

McKenzie seemed staggered for a moment and then drew back and pulled off his coat, when the crowd interfered and parted the enraged men.

The trouble has caused an immense sensation and is indicative of the intense feeling existing between the different factions.

## BUFFALO LITHIA WATER

### Strong Testimony from the University of Virginia.

**"IN URIC ACID DIATHESIS, GOUT, RHEUMATISM, LITHAEMIA and the like, ITS ACTION IS PROMPT AND LASTING."**

**Geo. Ben. Johnston, M.D., LL.D., Prof. Gynecology and Abdominal Surgery, University of Virginia, Ex-Pres. Southern Surgical and Gynecological Assn., Ex-Pres. Virginia Medical Society and Surgeon Memorial Hospital, Richmond, Va.:** "If I were asked what mineral water has the widest range of usefulness, I would unhesitatingly answer, In Uric Acid Diathesis, Gout, Rheumatism, Lithaemia, and the like, its beneficial effects are prompt and lasting. . . . Almost any case of Pyelitis and Cystitis will be alleviated by it, and many cured. I have had evidence of the undoubted Disintegrating, Solvent and Eliminating powers of this water in Renal Calculus, and have known its long continued use to permanently break up the gravel-forming habit."

**"IT SHOULD BE RECOGNIZED AS AN ARTICLE OF MATERIA MEDICA."**

**James L. Cabell, M.D., A.M., LL.D., former Prof. Physiology and Surgery in the Medical Department in the University of Virginia, and Pres. of the U. S. Board of Health:** "BUFFALO LITHIA WATER is a well-known therapeutic resource. It should be recognized by the profession as an article of Materia Medica."

**"NOTHING TO COMPARE WITH IT IN PREVENTING URIC ACID DEPOSITS IN THE BODY."**

**Dr. P. B. Barringer, Chairman of Faculty and Professor of Physiology, University of Virginia, Charlottesville, Va.:** "After twenty years' practice I have no hesitancy in stating that for prompt results I have found nothing so effective in preventing uric acid deposits in the body as to compare with BUFFALO LITHIA WATER."

**"I KNOW OF NO REMEDY COMPARABLE TO IT."**

**Wm. B. Towles, M.D., late Prof. of Anatomy and Materia Medica, University of Va.:** "In Uric Acid Diathesis, Gout, Rheumatism, Rheumatic Gout, Renal Calculi and Stone in the Bladder, I know of no remedy comparable to BUFFALO LITHIA WATER."

Voluminous medical testimony sent on request. For sale by the general drug and mineral water trade.

**PROPRIETOR, BUFFALO LITHIA SPRINGS, VA.**

## COAL BEDS TO BE FOUND

**Russell Conwell Says Rich Mines Exist in This State.**

**Says That He May be Divulging Some Millionaire's Secrets.**

"I don't know whether I am giving away millionaire's secrets or not," said Russell H. Conwell, during the course of his lecture on "Acres of Diamonds," at the First Methodist church, last evening, "but I recently heard it stated at a dinner at the home of Andrew Carnegie that some day the richest veins of coal in the country would be discovered near Duluth, and that ultimately the plants of the Steel corporation would be located here.

"It was also stated that prospectors are now at work trying to locate the coal beds in this part of the country, and there is no doubt in my mind but what they will succeed."

Mr. Conwell prefaced his lecture with some remarks on the progress made during the last fourteen years in Duluth, and said that it was nothing to the growth and prosperity that would be seen here during the next twenty years.

Mr. Conwell's lecture is well known to Duluthians, having been heard here as well as in other parts of the country. The fact which the lecturer strives so hard to impress upon his audience is that the opportunities of men's lives are not in some far distant country, or in some strange or unknown occupation, but right in their own door yards and "under their very noses."

The title of the lecture was suggested to Mr. Conwell by a story told by an Arab guide, of a wealthy Persian farmer, who sold his land to go on a long search for diamonds. He died in distant lands in poverty, and the man who purchased his farm discovered veritable "acres of diamonds" in it, the farm having been the site of the famous Gollconda diamond mine.

Numerous other anecdotes of the same nature were related in the speaker's witty manner.

Mr. Conwell decried the attitude of people toward the rich.

"Show me the man in your city who owns property and I will show you the best people in your city," he said. "It is a man's duty to be rich."

"But you say I can't get rich in Duluth." You can get rich in Duluth as well as you can any place on earth. The merchant who failed in Duluth is the man who came here, rented a little box, put his stony little soul into it, and resolved to grasp every penny that came in sight. The right business principle is the principle of Christianity. Find the needs of your fellowmen; supply that need and you are entitled to a profit.

"The great majority of the people are poor because of their own shortcomings. The young man who stands amid the street corners smoking, who has the means to be a success, but who will not take the time to do so, is a failure. He is a failure because he is not using his own power. He is a failure because he is not using his own power. He is a failure because he is not using his own power."

Mr. Conwell gave numerous illustrations, citing the case of an Eastern manufacturer who had a large business in the West, but who came West to buy his goods, ships them through Duluth, manufactures them in the East, and sending them

back to Duluth to sell at a profit of 80 per cent.

"What's the use of saying that ten or twenty years ago the opportunities were greater in Duluth?" asked the speaker. "The opportunities are greater now than they ever were. Find a human need and you will find a fortune. And don't worry about the capital."

## SHORE BELLS WILL WARN MARINERS

**System of Submarine Signalling to be Adopted by Navy.**

Washington, Jan. 10.—Experiments conducted by the lighthouse board in this country; the British admiralty and the Danish government supplemented by some smaller tests made by Rear Admiral Evans, have satisfied the navy department of the value of the system of submarine signalling by means of bells to indicate the approach of a ship in thick weather or nightfall to the shore and steamer and receiving the bell signals under water. Admiral Evans tried the submarine bells on the Alabama and Maine with satisfactory results and it was found that unlike the doubt which exists in the case of aerial signals transmitted through a fog, it is possible in the case of the submarine signals to locate the sound of sound to within one-half point of the compass. As the receiving and transmitting devices already have been used on all the light ships on the Atlantic coast, it is believed that when the naval vessels are properly equipped they will be able to keep in touch with these ships from Maine to Florida when off the coast, thus reducing largely the chances of stranding and of collision.

**We will deliver wood by the cord to any part of the city.**

**RED CLIFF LUMBER CO.**

## PRESERVATION OF ANTIQUITIES

**Provisions of Congressional Act to be Carried Out.**

Washington, Jan. 10.—Steps have been taken by the secretaries of war, interior and agriculture to carry out the provisions of the act for the preservation of American antiquities, approved June 8, 1906, which has been arranged that jurisdiction over ruins, archaeological sites, historic landmarks and other objects of historic or scientific interest, shall be exercised as follows:

By the secretary of agriculture, over lands which are in the exterior limits of military reservation; by the secretary of the interior, over all other lands owned or controlled by the government of the United States.

Under the rules adopted by the executive commission, no permit will be granted for the removal of any ancient monument or structure which can be permanently preserved under the jurisdiction of the United States in situ, and remain an object of interest. Permits for the excavation of archaeological sites and the gathering of objects of antiquity, will be granted by the respective secretaries having jurisdiction to republicans, museums, universities, colleges or other recognized science or educational institutions, or to their duly authorized agents.

It is also provided that every collection made under the authority of the law shall be accessible to the public. No such collection shall be removed from the museum without the written consent of the secretary of the Smithsonian institution, and then only to another museum, where it will be accessible to the public.

It is made the duty of officers in charge of land owned or controlled by the United States to inquire and report as to the existence on or near such lands of ruins and archaeological sites, historic or pre-historic ruins or monuments and other objects of historic or scientific interest, with a view to their preservation and exhibition.

## GAMBLE IS MADE CAUCUS NOMINEE

**After Explanation of His Son's Employment by Senate.**

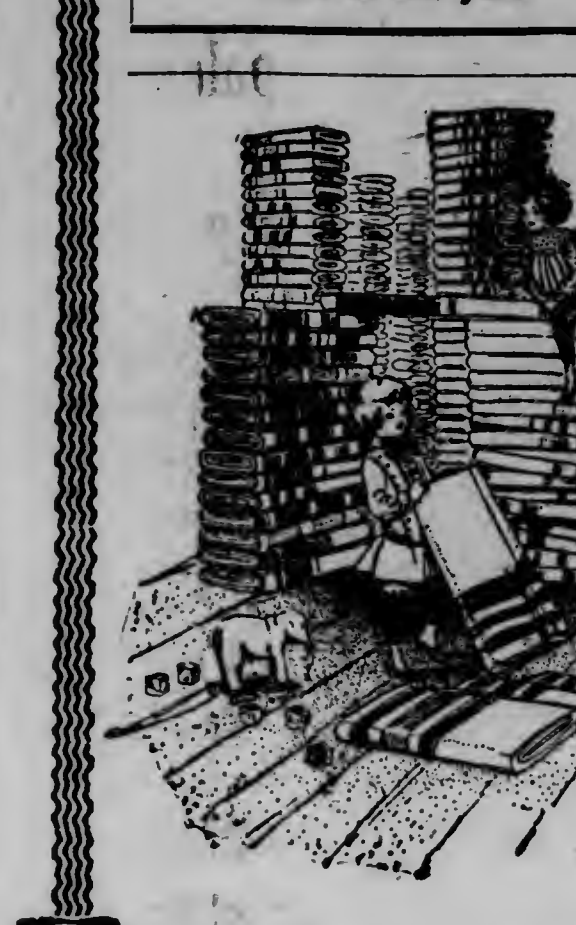

Pierre, S. D., Jan. 10.—The senatorial caucus yesterday unanimously renominated United States Senator Gamble. Mr. Gamble was invited to speak, and in a long address he answered all charges, giving the facts in detail.

His son, Ralph, was first employed from Aug. 1, 1902 to Jan. 5, 1903, during the absence of Leonard Underwood, his next employment was from June 1, 1903, to Nov. 4, 1903, during the absence of Leonard Underwood, the regular incumbent. Congress was not in session then and there was nothing to do. Finally he was employed from May 9, 1904, to Jan. 9, 1905, while awaiting the appearance of Willis French, who was regularly employed during the absence of Leonard Underwood. Congress was in session but two months and two days. While congress was in session Ralph was employed in the executive branch of the government. Congress employs its help by the year and expects service only during sessions.

At the conclusion of Gamble's address Senator Dillon said that if any members of the legislature desired an investigation, the Yankton delegation

## Pequot Sheetings

Pequot Sheetings

would do all in its power to promote it. He placed Gamble in nomination and a large number of counties seconded enthusiastically, and the nomination was made unanimous by acclamation, though before the vote was taken Representative Parnley said he was not satisfied with the explanation and would not deem himself bound by the action of the caucus.

## SEEKS DEATH AS HYMN IS PLAYED

**Wife of Sioux City Preacher Tries to Kill Herself.**

Sioux City, Iowa, Jan. 10.—While Mrs. Charles Gross sat at the piano playing "Nearer, My God, to Thee," in the parlor below, Mrs. Reid, a boarder in Mrs. Gross' home, and wife of Rev. J. C. Reid, pastor of Mount Zion Baptist church, turned on the gas in her room with intent to commit suicide, and then scribbled this note: "Mrs. Gross doesn't know that she is playing my death hymn."

The minister recently accepted a call to the church here, coming from Fort Madison, Iowa. He was once a patrolman on the police force in Minneapolis, but, being converted, studied for the ministry and was ordained. His wife came here only a few days ago.

Her husband, twenty minutes after she had turned on the gas, found her unconscious, and, summoning a physician, rested her head on a certain cure to give a reason for the attempt upon her life other than homesickness. She says she was affected, too, by hearing the hymn.

## THE PRESIDENT'S BILLS MAY FALL BY WAYSIDE.

Chicago, Jan. 10.—A Washington special to the Chicago Tribune says: "The bills introduced by the president, three important bills, each representing a distinct administration policy, are practically dead for this session of congress. It is hinted in each case that behind the killing of the bills there is to be traced a personal antagonism to President Roosevelt and a desire to belittle or injure his administration. This is only indirectly true.

## HE SOUGHT TO SELL OR LEASE HIS WIFE.

Milwaukee, Wis., Jan. 10.—That Mr. husband, Louis Diefeldt, sought to sell or lease his wife, "Lizzie" Diefeldt, aged 25 years, in divorce

## NEVER TIRES

**Of the Food That Restored Her to Health**

"My food was killing me and I didn't know the cause," writes a Colorado young lady: "For two years I was thin and sickly, suffering from indigestion and inflammatory rheumatism. I had tried different kinds of diet, plain living, and many of the remedies recommended, but got no better.

"Finally, about five weeks ago, mother suggested that I try Grape Nuts, and I began at once eating it with a little cream or milk. A change for the better began at once.

"Today I am well and am gaining weight and strength all the time. I've gained 10 lbs. In the last five weeks and do not suffer any more from indigestion and rheumatism is all gone.

"I know it is to Grape-Nuts alone that I owe my restored health. I still eat it now and at the capital of the world. Name given by Postum Co., Battle Creek, Mich.

"The flavor of Grape-Nuts is peculiar to itself. It is neutral, not too sweet and has an agreeable, healthful quality that never grows tiresome. The organs of digestion is made strong, the organs of their work of building up good red blood cells and of carrying away the excess of diseased material from the system.

The result is a certain and steady return to normal health and mental activity. "There's a reason." Read the little book "The Road to Wellville" in pigs.

## CRIMSON SNOW IN THE ROCKIES

**Lofty Ranges Covered With Dust From Other Planets.**

Winnipeg, Man., Jan. 10.—The Canadian Pacific railroad agent at Glacier, in the Rocky mountains, reports the unusual phenomenon of crimson snow having fallen in that region of the lofty ranges. This is not the first time such an occurrence has been observed in the Rockies, but the manifestation is apparently very early. No satisfactory explanation has been advanced as to its cause. The snow covering the mountains with the pronounced red hue over their mantle of white has an extraordinary weird effect. The Indians and halfbreeds and others susceptible to superstitions are attributing the color to the visitation as a portent of dire calamity and are applying themselves with unusual fervor to devotions.

Among the explanations put forward to account for the visitation is the theory that it is caused by red volcanic dust from the mountains having been caught up by high winds and held in suspension until brought down by the snow. Another theory is that it is the dust of planets, while a third is the effect that some peculiar manifestation in the chemistry of nature has caused the discoloration of the snow.

## KILLED BY TRAIN.

**Farmer Run Down While Crossing Track With His Team.**

Breckinridge, Minn., Jan. 10.—Hans Olson, a farmer living in the town of Bradford, about twelve miles east of this place, was instantly killed at about 7 o'clock Tuesday night by being run down by the westbound Great Northern passenger train, while crossing the track with his team on his way home. Both his legs were cut off and his head badly bruised. One horse was killed and the other badly injured. The sleigh in which he was riding was also smashed to pieces. Olson was about 60 years old and had a family of several children. He is in business at Ferguson Falls, Minn., and another son is a farmer near his home.

## DOLLIVER APPREHENSIVE.

Des Moines, Iowa, Jan. 10.—That Senator Dolliver is not without apprehension as to a possible slip in his selection as United States senator next week is shown by the fact that he has announced he will come to Des Moines at once.

He expects to be here before the Republican caucus are held in order to meet the legislators and make sure there are no breaks in his political fence.

He will have the support of the progressive faction of Iowa Republicanism, and the only danger is a possible combination between stand-pat Republicans and Democrats.

## CANNOT GET A BOND.

**Treasurer-Elect of Milwaukee County Likely to Lose His Office.**

Milwaukee, Jan. 10.—Elected to office, but unable to take his seat because of inability to furnish the required bond, Julius J. Goetz, county treasurer-elect, finds himself in a predicament. Unless the county board will relieve him of \$800,000 of the required bond, Mr. Goetz admits that it will be impossible for him to assume the duties of county treasurer.

Under the law, the county board will have to elect a new treasurer. Meantime County Treasurer Theuring will hold the office.

## DIDN'T LIKE HER COOKING

**Fergus Falls Couple Come to the Parting of the Ways.**

Fergus Falls, Minn., Jan. 10.—Lena M. Pederson has begun an action for a divorce from her husband, Olaf Pederson, on the ground of cruelty. She says her husband was disagreeable and complained particularly about her cooking, not only at home but among the neighbors, thus causing her great humiliation. He finally took her back to her parents' home and told her to stay there, and she demands a divorce and asks for alimony.

They were married in this city last June.

Rufus Perry of the town of Maine met with a shocking accident yesterday. He was cutting wood with Schuyler Bull, a neighbor, and the latter's axe glanced and struck him in the mouth, cutting through the palate and jaw and virtually laying open his face. He will recover, but will be badly disfigured.

## ROBBERY FOR SIX CENTS.

**Victim is Dying and Murder May be Charged.**

Appleton, Wis., Jan. 10.—Charles Hombolette, an Appleton young man, who has been working in the lumber woods, is being held at Wabeno for highway robbery, and his victim lies at the point of death after one of the most heartless shooting affairs recorded here in a long time. Walking along to town with Julius Nelson, another lumberman, when they were far from any habitation, Hombolette suddenly drew back, demanded Nelson's money, and without any argument, pulled a revolver and shot him three times in the back and six cents in his pockets, and after the shooting. It is claimed Hombolette then took the leather strings from Nelson's boots and bound him helplessly with them, himself walking on to Wabeno. The leather strings were strong and Nelson was finally able to free himself, when he met other woodmen and was given assistance. When Hombolette heard the man had been found he expressed himself as sorry he had not killed him, and then he would not have been found until spring. Nelson still lies at the point of death.

## WILSON MAY QUIT.

**Secretary of Agriculture May Resign, Says Another Report.**

Washington, Jan. 10.—One more change in the Roosevelt cabinet, the last possible for the present, is scheduled by the politicians, to take place on March 4, when Secretary of the treasury and Secretary of the interior are to retire, if the men named as their successors should be confirmed by the senate. This latest reported cabinet change refers to the "last of the McKinkies," Secretary James Wilson of the department of agriculture. Gifford Pinchot, new chief of the bureau of forestry, is the man picked to displace Wilson. Secretary Wilson and Secretary Hitchcock are the only two surviving members of the McKinley cabinet.

## TROUBLE IS FEARED

Population of Jackson, Breathitt County, is Greatly Excited.

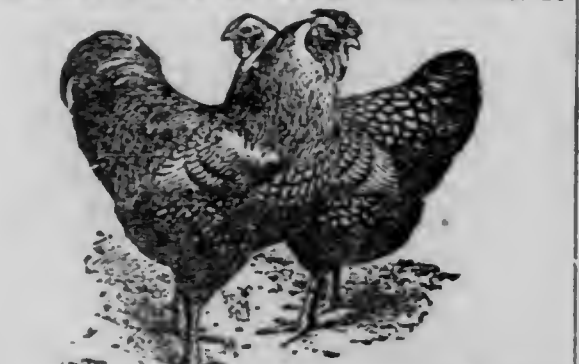

## Trial of Former Judge Hargis, for Murder, is On.

Louisville, Ky., Jan. 10.—A special to the Evening Post from Jackson, Ky., says: "This little city, which has been the scene of much turbulence and bloodshed in the past few years, is today intensely excited over the condition bordering on a reign of terror. It is a case of the same cause which has brought about all previous trouble—the feud being the Hargis faction and their opponents, the incident of last night and today revolving about the trial of Former County Judge James Hargis and Former Sheriff Edward Callahan on the charge of murdering Dr. Cox four years ago. Judge Hargis, specially assigned by Governor Beckham to try the case, fears for his life, and last night asked the governor for a detail of militia to protect him while in Jackson. The jury in the case has not been selected, as it has been found impossible to secure twelve men from Breathitt county who are not afraid to pass judgment upon their fellow townsman and most powerful citizen. The people of Jackson want the trial removed to a place as far as possible. Judge Hargis has, however, signified his intention of holding the trial in Jackson, but will appoint a special officer to go to another county and bring in a venire of men.

There was a conference between the attorneys for the community and other parties closely identified with the prosecution which lasted long after midnight. It was decided to ask the court of appeals for a writ of prohibition restraining Judge Hargis from continuing the present trial. At 6 o'clock this morning Attorney Joutet, with the petition in his possession, left for Lexington. Meanwhile he engaged an automobile to meet him at Lexington and the thirty miles between that city and Frankfort will be covered as rapidly as possible in order to reach the court of appeals. If this writ is granted, its issuance will, of course, stop the trial. The community's attorneys also sent with Mr. Joutet a

## NEWS OF BOYS' DEPARTMENT

## Members Planning to Raise \$100 for Missionary Purposes.

The Bible study committee of the boys' department held its regular monthly meeting for supper, last evening, at 6 o'clock, the following members being present: Sargent McGonagle, Lyman Taylor, Edward Nolte, George Speculus, Donald Hayden, David Wantless, W. A. Ferguson and N. D. McLeod.

The committee will try to raise \$100 among the boys for missionary purposes. The plan is to get 100 boys to pledge \$1 each, payable in cash, weekly. A committee was appointed to canvass the various clubs.

The High School Bible club will meet for organization Friday. The committee will serve dinner at 6 o'clock each Friday at a cost of 10 cents and the class will commence at 6:30, closing at 7, so as to enable the boys to fill any engagements they may have for the evening.

The committee hopes that this plan will enable a large number of high school students to take in the class who otherwise would not have the time. Mr. Bevis will conduct the class, and will take for his theme "Life Problems." The course should prove very interesting and profitable.

Friday evening, which has been set aside for social occasions, will be in charge of the Utopian club this evening and will take the form of a raffle party. During the evening the social committee will auction off the posters and calendars that have been on exhibition for the past week. The evening will close with a basket ball game between the Ensign school and the intermediates.

The Interscholastic Basketball league will meet this evening at 6 o'clock. The first game will be played between the Ensign and the High School league will be played tomorrow afternoon, at 3:30, when the seniors will play the freshmen.

## REPRESENTATIVES FROM DULUTH Must Appear Before Harbor Committee This Week.

Washington, Jan. 10.—(Special to The Herald)—The committee on rivers and harbors expect to report their bill next week, probably Wednesday. S. L. Perrin of Superior, a representative of the Commercial Club of Superior is in Washington to present to the committee the wishes of his city as to harbor improvements. He has not appeared before the committee as yet, waiting the arrival of representatives from Duluth. If the Duluth representatives who are to appear before the committee do not arrive this week, the probability is that they will not be given an opportunity to be heard as beginning Monday the session of the committee will be executive in character to receive reports of the several sub-committees and whip the general bill into shape to report to the house.

**BISHOP DUNCAN ILL.**  
Nashville, Tenn., Jan. 10.—Bishop Duncan of the M. E. Church South is critically ill at Spartanburg, S. C., following an operation for a carbuncle.

## TO PREVENT THE ESCAPE

Of Harriman From Jurisdiction of the Commission.

## Warrants May be Issued Compelling Him to Give Bail.

Chicago, Jan. 10.—The attorneys who are for the government conducting the investigation into the management of the Harriman lines announced today that they had determined to take steps to prevent E. H. Harriman, Henry C. Frick and H. H. Rogers from leaving the jurisdiction of the commission. In order to prevent this, steps will be taken to cause the issuance of writs of ne exeat directed against the men named, and they will be compelled to remain within the jurisdiction of the commission until they have testified before the board.

Chairman Knapp, at the commencement of today's hearing, announced that the present hearing would adjourn at noon today, and Mr. Kellogg, the government attorney, declared that he would be unable to get in all desired information by 1 o'clock.

James H. Hilland, traffic manager of the Chicago, Milwaukee & St. Paul, was the first witness summoned today. He said that the Union Pacific and Southern Pacific were formerly competitors against each other for Pacific coast business.

Mr. Hilland was asked if competition between railroads would still exist if all the lines in the country were brought under one management.

He declared that in all probability competition in such a case would resolve itself into a question of personal rivalry between the separate managements of the road. On the whole, he considered the edge would be taken off the competition, but it would, all things considered, be as seen as under individual ownership.

Mr. Hilland declared that since the consolidation of the Union Pacific and Southern Pacific, his road had experienced greater difficulty in handling certain classes of freight.

On cross-examination, he was asked by John G. Milburn, attorney for Mr. Harriman, if the consolidation itself was the cause of the increased difficulty. He replied, very emphatically: "Yes, sir."

"How does it work against your line?"

"The greater part of the business I have mentioned goes by the Southern Pacific, and is, I presume, detected in that direction in order to make a longer haul than would be the case if it went by the Union Pacific."

Julius Kruttschnitt, director of maintenance and operation on the Southern Pacific-Union Pacific system, followed Mr. Hilland.

Attorney Kellogg asked Mr. Kruttschnitt a long series of questions regarding his duties, the substance of his answer being that the witness is in charge of operation on all lines of the Union Pacific and Southern Pacific systems, except the lines in Texas. Concerning those lines he said, frequently consulted by Mr. Harriman and President Lovett of the Texas lines.

When asked who had originated the idea of placing one director in charge of operation on all the Harriman lines, except the Texas roads, the witness said he presumed, Mr. Harriman. He had received his appointment from Mr. Harriman.

E. O. McCormick, in charge of passenger traffic on the Southern Pacific-Union Pacific was the third witness.

New York, Jan. 10.—United States District Attorney Stinson, who will have direction of the proceedings taken here in behalf of the interstate commerce commission, would not say today whether or not the writ or warrants are to be issued to prevent E. H. Harriman, Henry C. Frick, H. H. Rogers and possibly William H. Rockefeller from leaving the country have been issued.

"That fact cannot be officially announced," he said, "until the warrants have been served and become a matter of public record."

Warrants of ne exeat may be issued either by a judge of the United States circuit court or a United States commissioner. The person against whom the warrants are issued must then appear, either in court or before the commissioner and give such bail as may be fixed by the judicial officer taking jurisdiction.

James Stillman, who had been mentioned during the interstate commerce commission's session in this city, and who was expected to be a witness, sailed for Europe on Tuesday on account of ill-health, it was announced.

## BRICKLAYERS, ATTENTION!

EDGAR DAY, President.  
WM. TOWNER, Sec. Sec.

## MANSFIELD IS MUCH WANTED MAN

Police in Omaha and Grand Rapids Are After Him.

Chief Troyer today received the letter he had been expecting from Chief of Police H. O. Carr of Grand Rapids, Mich., in connection with the alleged forger and confidence man, C. H. Mansfield, now in the toils here. According to the Michigan chief's story, Mansfield worked exactly the same game in Grand Rapids that he is claimed to have done here, advertising for a partner, getting an "easy mark" into the manufacture of his "albumen," demanding a deposit of \$500, and depositing a fake draft for his share of the finances.

He made a clear getaway there, however, as he doubtless would have done in Duluth had he confided his efforts to one man, and forgery is the crime with which he is charged in the Michigan town. He is claimed to have drawn out all the company's money on a check to which he forged the name of his "partner" just as he did here.

A list of nineteen names was found in Mansfield's office in the Burrows building, of men well known in and about Duluth, who, presumably had

**COLUMBIA CLOTHING COMPANY.**

**ARE OPPOSED TO LEATHER TRUST**

Stockholders Bring Suit to Prevent Merger of Companies.

Trenton, N. J., Jan. 10.—Two suits were started in the court of chancery today to restrain the proposed merger of the United States Leather company and the Central Leather company. The merger was scheduled to be carried out at Jersey City next Wednesday. A rule to show cause why the merger should not be enjoined was made returnable in Newark next Monday.

The complainants in the suits are holders of preferred stock of the United States Leather company who did not assent to the plan whereby the Central Leather company two years ago acquired control of \$125,000,000 out of \$127,000,000 capital stock of the United States Leather company.

Among the complainants are James B. Colgate and company, I. & S. Worsner, James C. Colgate, Robert A. Johnson and J. M. Tallmadge, the latter two of Wisconsin.

It is set out in the bill that the plan of merger provides for the continuation of the Central Leather company and the issue of \$50,000,000 of stock, half to be preferred and half common. The plan further provides that for each share of preferred stock of the United States Leather company the holder is to receive \$9 in 5 per cent gold bonds, \$9 in 5 per cent cumulative preferred stock and \$2.50 in common stock, of the United States Leather company, the holder is to receive three-tenths of a share of common stock. It is contended that this apportionment is detrimental to the interests of the holders of the preferred stock of the United States Leather company, which provides for 8 per cent cumulative dividends and upon which there is unpaid an accumulation of 4 1/2 per cent dividends. The bill asserts that with proper management the United States Leather company can be made to pay.

**MILLBURN HOME DAMAGED.**  
Buffalo, N. Y., Jan. 10.—The former residence of John G. Millburn on Delaware avenue, to which the late President McKinley was taken after he was shot at the Pan-American exposition and while he died, was badly damaged by fire today.

**COLLEGE GIRLS' EXCUSES.**  
Boston Herald: "These are the days when the average college girl finds it a hard task to keep constantly at her books," says one of the large staff of women at Wellesley, and she draws the long bow now and then when she wishes to get a few hours or a day of liberty for a ride, a drive, a football game, an attraction in the theaters, or for any of a thousand and one side issues. We had a girl here once who asked permission to go carriage riding one afternoon with a young man who was visiting in town.

"Are you engaged to him?" we asked her in a severe tone.

"Why, no," she replied, very thoughtfully, as if struck for the first time by that aspect of the question. Then she brightened up wonderfully and added: "But maybe if you will allow me to go riding I shall be when I return."

"There was another girl who requested leave to go riding with her brother, and the woman of whom she asked permission queried, looking at her with an eye loaded with no twinkle: 'And is your brother any relative of yours?'"

# UNDER THE NORTH STAR SKIES OF MINNESOTA

## Rich and Fertile Farming Lands of Pine County—Many Attractive Towns and the Special Advantages Enjoyed by Each—Paradise of the Poor Man and of Those Not Afraid of Honest Toil.

By J. A. MONGER.

No state has made grander strides along the most advanced lines, than has Minnesota, and no section has been more generously endowed by nature as to soil and climate than Pine county. In railroads it has the Great Northern and the Northern Pacific, while the "Soo Line" has surveyed, and is building a line to complete its system between Duluth and the Twin Cities, affording the choice of the high priced markets of Duluth-Superior and St. Paul-Minneapolis for everything produced on the farm or made in the workshop. This is a section so fertile of soil and so health giving in its climate, as to be almost an earthly paradise for those who are ambitious to win full success in re-establishing a home in a region where all the advantages are on the side of the man who is not afraid to toil. There never were so many opportunities to succeed in the pursuits of farming, dairying and stock raising as in Pine county. The soil is a rich brown loam, with subsoil of clay, fertilized for ages by crops of vegetation, making it equal for growing wheat, oats, barley, rye, timothy, clover, all root crops, apples, plums and small fruits. It is a soil that produces as much as two acres as can be raised on two in the prairie states of Illinois, Iowa, Kansas and Nebraska. There are no crop failures, no cyclones, no hail storms, no wet seasons, no drought or hot winds so disastrous to the farmer as in these conditions worthy of the closest investigation when selecting a new farm home. It takes no more labor or expense to produce three to four tons of timothy or clover to the acre on a Pine county farm, than it does to grow one and a half to two tons to the acre on the best prairie farm land that the sun ever shone upon. Nor is this all. There is 18 per cent more nutrition in the grasses grown in the Northland than in those of the prairie states, while the ruling market prices range from 10 to 15 per cent higher. The wonder-

to enter. The opportunity is a passing one that will be beyond your reach before the close of 1908. So do not let it slip by, but embrace it before the dawn of another spring.

### PINE CITY AND ITS ADVANTAGES

The map of Northern Minnesota is constantly undergoing changes which mark new railroads, towns and villages springing into existence. There is no accurate map or census that is three years old, so rapid is the development of this section of the Northland. A village that had 200 population in 1904 has 1,000 in 1906, if the spirit of progress has touched it in the way of agricultural development, and should it be timber or mining, it would jump from a forest wild, on a rock waste, to a city of 3,000 to 5,000 in a twelve-month. This is why fortunes are made while one waits in this vast region of undeveloped natural resources of soil, forest and mineral wealth. It is the only section of country where the poor man has equal advantages with his wealthy brother. It is a problem of brain and brawn, and not of dollars, that wins success in the Northland. The country is still in its virgin wilderness, almost untouched as to development in farming, dairying and stock raising, while the mercantile and industrial advantages still offer most inviting fields for investment. The cut-over timber lands must be cleared up into farms, new country roads must be built, new towns and villages need stores, grain elevators, factories, water and electric light plants in order to set the wheels of development in motion. This is why there are such grand openings awaiting the new comers locating in this city and county. Pine City, as the county seat of Pine, is the trading Mecca of a large and growing territory, the market place for the crops of the farmer,

Northland. Here is where Congressman J. Adam Bede has a palatial home and a 200-acre farm, where no doubt he has imbibed much of his artistic culture of speech and manner.

In another few years, with the substantial start in city building and the general prosperity of the merchants, bankers and manufacturers, this should be a city of 5,000 population, and if the present copper finds turn into a mine, it will have not less than 10,000 population. The development of the farming area tributary to Pine City has made it one

selling prices. It is the big store between Duluth and St. Paul on the Northern Pacific railroad. It has been a city builder for this section of the Northland, being fully abreast of the times. The Pine City Mercantile company store, under the management of E. W. Hart, vice president and general manager, has one much to advance the growth of not only Pine City, but this section of Pine county, owing to its liberal and progressive policy of reaching out for trade and the cordial manner it has of welcoming all new comers. In a word, it is

The Pine City State bank, through its cashier, Mr. Greeley, has some splendid farm land bargains to offer. Genuine snags, ranging in price from \$8 to \$15 per acre. There are some 3,000 acres to select from—on long time payments and low rates of interest—within one and a half miles of Pine City, the county seat of Pine county. If you are interested and want to make an investment that will pay \$2 for every \$1 invested, write to Douglas Greeley, farm land owner and dealer, Pine City, Minn., and he will do the rest. Pine City is so fully abreast of its day and generation as to need but a passing mention. In newspapers, it is two, the Pine Packer and the Pine County Pioneer, both well edited and patronized, reflecting at all times the spirit of progress and well being of their city and county. There is a Commercial club and a Pine County Agricultural Society, both of which are interested in the true interests of the city and county development. There are also churches, secret and benevolent societies, few excel Pine City, making it a most desirable place to live and do business in.

### HINCKLEY.

This is a promising town of 1,000 population on the great trunk lines of the Great Northern, Northern Pacific and Duluth & St. Paul railroads, thirteen miles north of Pine City, the county seat, seventy-six miles north of St. Paul. It is the center of a rich and fertile agricultural zone of land comprising some three townships, north and south, and five townships, east and west. The soil of the area varies from a heavy clay to a dark brown loam, with clay subsoil, while the contour of the country is gently rolling, and quite free from swamps and low lands. It is the most fertile section of Minnesota for mixed farming, and it is today the "Soo Line" of the products of the soil keep up the wonderful growth in population and wealth of the city. In business houses, banks, hotels, schools and churches, none excel Hinckley in the county of Pine. This is the home

that in and around Hinckley, Pine county, Minnesota. This land has been tested and found to be unequalled for mixed farming, root crops and small fruits. It is the greatest soil and climate for timothy and red clover that the sun ever shone upon, producing as it does from two to three tons to the acre, and with never a crop failure. This wild land is within the reach of all, only \$8 to \$15 per acre, while the choicest of improved farms are only \$50 to \$75 per acre, within from two to five miles of town, with the best of railroad facilities, good schools, country roads and all the environments

established in 1903 by the Standard Turpentine Manufacturing Co., which now has a capacity of six carloads per month and gives employment to thirty men in summer and fifteen in winter. The turpentine is extracted from Norway stumps, which are harvested from the cut over timber lands, being blown out by dynamite, pulled by horses or stump pulling machine. They pay \$3 per cord of 3,000 pounds. The plant consists of five retorts, four distilleries, eight storage tanks, boiler and engine rooms, and warehouse, while they have a tramway operated by steam. The products of the factory are turpentine,

STACKYARD, WHEAT AND OATS, NORTH OF HINCKLEY.

found in your home county. You who desire to re-locate should write J. M. Currie, who has had twenty years experience in Pine county, and who knows every foot of the land; they are at good prices, that would be improved and unimproved lands. J. M. Currie is an expert land estimator and will give you reliable information. There is no better outlook for making money in agriculture than in the Hinckley zone of Pine county, Minnesota. John T. Craig, one of the first settlers, coming here in 1886, has seen all of Hinckley's growth and decline, and gives it as his opinion that its future never was so bright as it is today. The "Soo Line" and the constant dropping in of the farmer settler makes the outlook certainly bright. It is for expanding Hinckley's resources and know of no better way than new-

pine tar, oil of tar and charcoal. It is not only a money maker for its stockholders, but it is a great boon to the farmer settler, as it gives them a market for all of the Norway stumps on their land at good prices, that would otherwise be a burden to them. This company makes an average yearly clearing of one square mile of stump, which shows the value of the plant as a land clearer. To those who would like to know something of the workings of the plant we will give the following illustration. Ten (10) loads of Norway stumps cost \$65. This includes a cord for stumps and \$1.25 a cord for five cords of refuse wood for fuel, such as settlers gather in clearing their land—and which they otherwise would burn to get rid of it—and expense of all labor in operating the plant during the process of extraction. The results were as follows: 100 gallons refined turpentine at 90c ..... \$90.00 400 gallons tar products at 10c ..... \$40.00 300 bushels charcoal at 5c ..... \$15.00 Total ..... \$145.00 The above at wholesale prices at the factory. One pair of retorts has a capacity of sixty tons of stumps per month.

### NOBLE & LYON CO., GENERAL STORE.

This business was established in 1898, and incorporated as the Noble & Lyon Co., in June, 1904, with a capital stock of \$25,000. The stock of goods carried by the company covers all kinds of dry goods, boots and shoes, general merchandise, 32x32 for groceries, with second floor and basement same size. Noble & Lyon Co. has a large business as many of the big city stores, as they draw trade for many miles into the country. They make a specialty of quoting the lowest selling price for every day in the year, and therefore have no dull seasons. The individual members of the company are public spirited men of affairs outside of the shop. Mr. W. H. Noble is a member of the city council, while H. B. Lyon is treasurer of the school board. Both are up and doing for the upbuilding of Hinckley.

### HENRY COPILOVICH, HARDWARE.

This firm makes a specialty of carrying the best in its line, building and repairing stoves, ranges and ranges, tinware, paints, oils, cutlery, sporting goods, farm implements, victrolas, hand saws and mowers, hayrakes, tedders, stackers, pumps and windmills, window glass and

### FRUIT EXHIBIT BY TWELVE FARMERS NEAR HINCKLEY.

of the Northern Creamery company, that produced 10,000 pounds of the celebrated Golden Medal butter in 1906, which sold for \$25,000. It is the meeting place of the Pine County Fair, which is held annually on the grounds of the Pine County Fair Association, organized in February, 1906, and that has a membership of forty progressive farmers. This organization is working along the same lines as the State Farmers' Institute, and has received more or less assistance from them. Regular meetings are held the third Saturday of each month. The officers are: President, J. H. Mullens; vice president, Charles T. Swann; treasurer, B. J. Rolfe; secretary, A. A. Christianson, and assistant secretary, I. L. Rye.

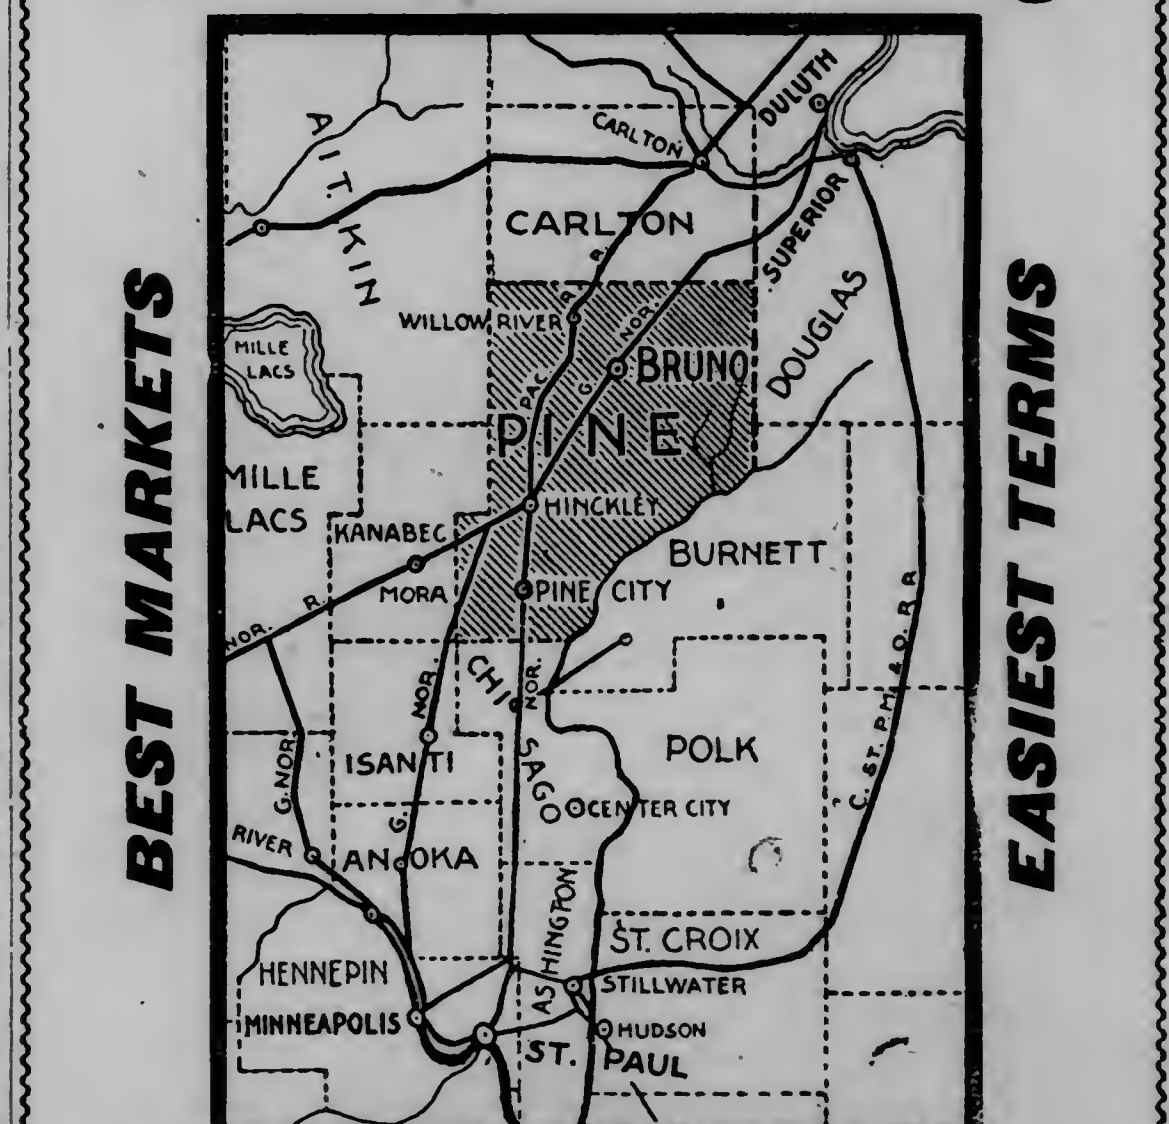

Blessing from an agricultural viewpoint was the forest fire that swept this whole Hinckley region, on Sept. 1, 1894, consuming as it did the slashings and refuse left by years of activities of the lumbermen, clearing up the country in a way that would have taken settlers ten to fifteen years to do. This is the real reason why the country around Hinckley is being cleared up so fast into improved farms, as the fire licked up clean the windfalls and refuse, making it an easy matter for the settlers to do the rest. The Hinckley district is known for its charm of scenery, beautiful spring fed lakes and streams, which abound in all kinds of fish, and the best of country roads. All farms are connected with telephone lines and enjoy the rural mail delivery system. There is bound to be a great revival in home values in town and farm property. The "Soo Line," that will be built this season, connecting Duluth with the Twin Cities, has Hinckley down as one of its stations, which will give it a wider and better field as to market, and a better tone to all land values in this section. Hinckley is a splendidly built town in business blocks, residences, schools and churches, while there are many rugged infant industries in sawmills, planing mills and roller feed mills that add to its prosperity and population.

The State Bank of Hinckley was established in 1904, with a capital of \$10,000, and has a surplus and undivided profits of \$1,200. It does a regular up-to-date banking business, pays interest on time deposits, and makes a specialty of farm mortgage loans. The officers are: E. H. Holbert, president; Fred Wendel, vice president, and P. A. Christianson, cashier.

In hotels Hinckley has two—the Coffin hotel and restaurant and the Hinckley house, both well furnished, and which spread the best of meals. The Hinckley Enterprise is doing its full share to advertise the wealth of Hinckley's resources and the development of Hinckley and its sister towns, that comprise the Hinckley district. The Enterprise is a well edited, very progressive newspaper, that is playing an important part in the upbuilding of this whole section.

**FARMS AND FARM LANDS.** Those of you who would like to settle in a new section of country where all the advantages are on the side of the experienced farmer can find no better soil or climate than

### "Location is the Thing"

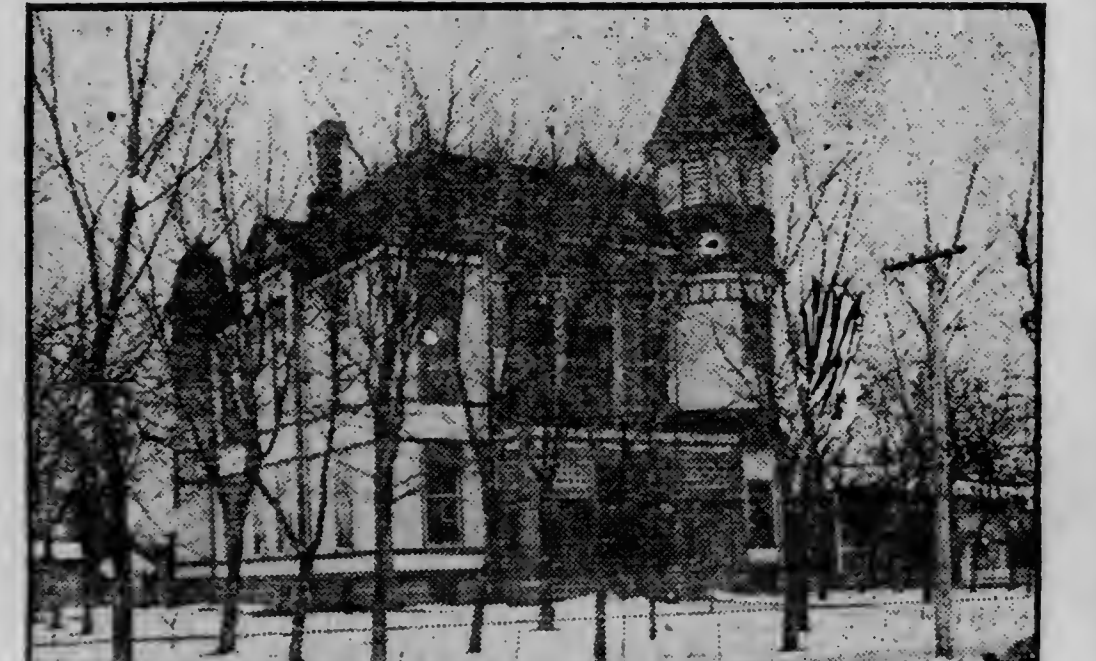

### IN BUYING A FARM

PINE COUNTY, MINNESOTA, HAS BOTH. Located, as per map above, about midway between St. Paul and Duluth, on Great Northern and Northern Pacific railroads. Soil a rich clay loam with clay subsoil, well watered with springs and streams, grass heavy growth, Blue Joint and Red Top five to six feet high. "The Land of Big Red Clover." "The Best Grass County in Minnesota," says Prof. Pine. The soil is rich and fertile. All kinds of fruits and vegetables can be grown to best advantage.

\$7.00 to \$15.00 Per Acre—\$2.00 to \$3.00 Per Acre Cash. Balance ten annual payments at 6 per cent. Half rates to see lands any day. For maps and further information, address

**Farmers Land and Cattle Company,**  
Globe Building, St. Paul, Minn.

PINE COUNTY COURTHOUSE, PINE CITY.

This is a very tasteful building, with all modern fittings as to vaults, electric light and steam heated, while the grounds show the skill of the landscape artist. The following county officials will serve the people during 1907: Register, W. H. Hamlin; treasurer, Nickerson Perkins;

register of deeds, James H. Wandel; sheriff, R. J. Hawley; clerk of court, Henry J. Ruth; superintendent, R. H. Blankenship; judge of probate, Robert Wilcox; attorney, Samuel C. Scott, Sandstrom; surveyor, John H. Mullen, Chelkey.

ful growth of this section in wealth and population. The most interesting feature to the economic revolution that has been going on in the art and science of agricultural development during the past decade, since the white pine forest has been cut and saved into lumber. The value of the yearly crop now almost equals that of the once standing forest. In another few years all the cut over timber lands of this section will be under the cultivating care of the plow, which means that Pine county will take its place as one of the foremost in the state as a grain producer. Farm lands that are now selling from \$8 to \$15 per acre will be selling from \$35 to \$50 per acre in another five years. The farm products of United States for 1906 reached the princely figures of \$6,800,000,000, which overstates the products of the mill, the factory and the workshop, and if real estate, domestic animals, other livestock, implements and machinery were included, the farmers' capital would approximate \$28,000,000,000. There is no class of men upon whom the country's prosperity is so dependent as upon the farmer. We quote the above figures in order to prove that all real wealth springs from the soil. That the tilling of the soil is the highest calling that man can follow and one of the most profitable, is conducted along scientific lines. You who are renters or who have been crowded out of the prairie states can secure in Pine county better farm lands on long time and small payments, land that will pay for itself in from three to four years, than anywhere else in the agricultural zone.

With its flour mills, creameries, sawmills, lumber yards, brewery, electric houses. There is no city of 1,200 of population possessing better business blocks, finer residences, more stately churches or better school buildings, from an architectural standpoint, than Pine City. It is located in the center of the Pine County, midway between St. Paul-Minneapolis on the south, and Duluth-Superior on the north, sixty-four and eighty-nine miles from either city. Pine City has long enjoyed a reputation as one of the all nature summer resorts, owing to the beauty and grandeur of

PINE CITY CO-OPERATIVE CREAMERY CO. One of Five in Pine County.

her lakes; Pokegama, two miles wide and four long, and Cross lake, one mile wide and six long. Both of these lakes teem with black bass, pickerel, perch and pike, making them the best of fishing waters. This is saying nothing of the numerous trout streams, so much sought after by fishermen from all parts of the East and South. On Pokegama lake are located the Lake Pokegama and Pritzen sanatoriums, popular health and pleasure resorts, and the Wilke hotel, while United States Senator Moses E. Clapp and Judge L. W. Collins each have summer homes here, as have many others. Cross lake should not be overlooked, as it is one of the beauty spots of the

the Northern, J. W. Kniekerbocker, had twenty-two years' experience as a buttermilk maker, and J. S. Drake, seven years, at Northfield, this state.

### A GREAT COPPER STRIKE.

Some two miles east of the city is located the Chengwenta Copper exploration, the property of J. Bennett Smith of Wilkesbarre, Pa., who owns some 550 acres, on which a 500-foot shaft has been put down, while considerable crosscut has been done. Much native and float copper has been taken out, while the shaft is down in good paying ore. The outlook is certainly bright for the Chengwenta exploration, developing into a great copper producing mine. It would not seem as though all that was needed to develop the property was mining skill.

### PINE CITY MERCANTILE COMPANY.

This is one of the leading department stores in Pine county, occupying a floor space of 60x124 feet, with a line of warehouses for reserve stock. The departments embrace dry goods, notions, dress goods, women's ready to wear goods, men's and boys' clothing, boots and shoes, groceries, farm produce, glassware and crockery. In fact, everything carried in an up-to-date general department store, at profit-sharing prices. It is a metropolitan store as to stock carried and as to

Means commercial supremacy. The up-to-date business firms on this page are making business history every day. "Modern Methods Pay"—the arguments that appeal to outside buyers are low prices, good qualities, prompt shipments.

These are the arguments of Duluth jobbers who demonstrate more and more each day that

## IT PAYS--TO BUY IN DULUTH.

### THE STAGE

#### TONIGHT'S ATTRACTIONS.

METROPOLITAN—Burlesque. BLOCH—Vaudeville.

#### COMING ATTRACTIONS.

LYCEUM—"Peggy From Paris," Friday and Saturday, with Saturday matinee.

#### COMPANY STRONGER.

"Peggy From Paris" Has Not Been Allowed to Deteriorate.

"You will find this 'Peggy From Paris' company fully the equal, if not the superior, of the company here last year," said J. R. Somers, agent of the company, who arrived in Duluth yesterday.

"I am telling you the truth when I say that we have been playing to S. R. G. business for a month, and wherever we have gone the business has exceeded that of last year. The part of the orchestra pit for this year is taken by William Cameron, who originated the rough character of the stage, and was the original 'Hilkey Bill' in the first 'Belle of New York' company. Miss Jensen was one of the original Peggies, and I assure you that those who saw the performance last year will not be disappointed in this year's company."

#### CATS WITH COMPANY.

No less than four real live cats travel regularly with the Metropolitan Glee company, which is at the Metropolitan this week. At the opening of the season one of the ladies requested Manager Fisher to give her permission to take her tabby on tour, provided she looked after the creature herself. Fisher finally consented, and in about another week another one

### IS FINALLY APPOINTED

#### Committee on Duluth Harbor Matter Leaves for Washington.

Acting under instructions given by the Public Affairs committee at its meeting nearly two weeks ago, Chairman T. W. Hugo last night completed his work of selecting three men to go to Washington as a committee representing Duluth on the harbor question. Those chosen were H. V. E. E. Secretary of the Commercial club; F. A. Clarkson of the Wright-Clarkson Mercantile company, and C. S. Mitchell, editorial writer of the News Tribune.

The committee left this afternoon for the national capital. It will present a written report and recommendation, and will, it is understood, declare its self for the maintenance and protection of the present Duluth canal. No recommendation will be made as to the kind of breakwater to be constructed, but protection of some kind for the harbor interests will be urged.

Superior will also have a committee on hand at the hearing before the

### GENERAL PENSION BILL

#### Will be Taken Up in the Senate on Friday.

Washington, Jan. 10.—After a general discussion tentative understanding was reached in the senate yesterday justifying the expectation that a vote on the general pension bill will be taken next Friday. The measure was debated at some length during the early part of the session and received no vital criticism, but many commendations. Senator McCumber spoke at length in support of the measure. The remainder of the day was devoted to a discussion of the bill limiting the hours of railway employees, which measure is to be voted on under agreement Thursday.

The Brownville matter was postponed at the suggestion of Senator Foraker, who gave as the reason that Senator Tillman, who is indisposed, desired to address the senate on the subject.

### FARMERS' MUTUALS

#### Have Saved the Farmers of Minnesota Over \$1,000,000.

St. Paul, Jan. 10.—The twelfth annual state convention of the Farmers' Mutual Fire Insurance companies was begun here yesterday with over 100 delegates present, representing 18 mutual companies, with a membership of 15,000. Insurance Commissioner F. D. O'Brien presided. He commended the members on the way they had conducted their business, and stated that they came nearest to following out the real mutual idea than any other companies he knew of. He stated that their methods of doing business could be well copied by other companies, and that if they continued their present methods they would always be successful and would need no supervision.

Mr. O'Brien called the attention of the members to the revised laws governing insurance companies, stating that if the law were literally interpreted the farmers' mutuals would have to pay taxes on their property. He stated that the farmers' mutuals had been classed in with other companies, and that this was done intentionally.

It was stated that the Minnesota companies represent an insurance business of \$25,000,000 on all classes of farm property, and that the number of members is over 125,000.

It was stated that the farmers' mutuals had saved the farmers of Minnesota over \$1,000,000 in the past year.

It is only one-third the amount of what it is in the old-line companies. It was stated that the average cost per year for insurance is 17 cents per \$100.00. Some of the companies charged as low as 8 cents while again it has gone as high as 21 cents. The first principle of these companies is economy of management.

Governor Gillett, in his inaugural address to the California legislature, requested the passage of a pure food bill, invited the consideration of a direct primary law and suggested amendments to the state's insurance laws affording better protection to policyholders and recommending a consolidation of the laws of New York and Massachusetts on this subject.

Gov. S. B. Brooks, in his message to the Wyoming legislature, Wednesday recommended a state depository law, a primary election law, reorganization of the new banking law and said that the railways are not paying their just share of taxes.

William Isaac, a truck driver, 24 years old, shot his 14-year-old wife, Mary, when he found her at her mother's home in New York City. He then shot his brother-in-law, William Weimer, aged 37 years, and himself. Isaac will die but his wife and her brother probably will recover.

An action against the professor was begun by Miss Anna L. Merrill of Boston. Prof. Marcou's property in Cambridge has been attached.

The professor declines to answer for admit that he knows a woman of that name and maintains that his only position should be one of dignified silence. Prof. Marcou has lived in Cambridge twenty-five years, and has long been known as a woman-hater and a man devoted passionately to his work. He reads and speaks many modern languages and has a library surpassed by few other private collections. He is wealthy.

Five hours after his arrival in Chicago from Winona, Minn., and one hour after he had obtained employment as a brakeman for the Chicago & Northwestern railway company, Emanuel Martin, was killed Wednesday night while coupling cars. Martin was so severely crushed that he died while being removed to hospital.

James A. Drain, New York state national guard, has been elected president of the National Rifle association of primary officers. Emanuel Martin, Gen. Bird W. Spencer of New Jersey, who declined reelection.

According to bulletins issued Wednesday by the physicians attending Adolphus Busch, the condition of the millionaire brewer is much improved. He rested quietly throughout the day and his doctors say that the symptoms of pneumonia have entirely disappeared.

### RED NOSES

#### A Simple Treatment That Effects a Cure in a Short Time.

A red nose causes unfavorable comment. Women suffer as much as men from this annoying skin trouble, but close attention to a few simple rules will soon restore the nose to its natural color. Tight clothing and ill-fitting shoes must be at once discarded. So much for the external causes. The blood and stomach are the next things to look after, as poor surface circulation and faulty digestion are responsible for most red noses.

Avoid rich food and take Beecham's Pills after meals and on retiring, and the nose will soon lose its red and angry look. This is because Beecham's Pills strengthen the stomach, carry off all impurities and quickly improve the circulation of the blood. These pills cure red noses by removing the conditions that are responsible for these unsightly facial blemishes.

### DEMAND IS SLACKENED

#### Comparatively Little Iron Purchased in Some Sections.

Cleveland, Ohio, Jan. 10.—The Iron Trade Review says: Well defined indications of easier conditions are noticeable this week. It was hardly to be expected that the astonishing demand for all iron and steel products, which has prevailed for many months, would be continued indefinitely. The change that seems to be setting in is not due to any exacting buyers, but merely to the fact that buyers have ordered far in advance, and see no necessity for adding to their obligations. There is nothing at all alarming in the situation.

Pig iron is very strong in Chicago, where all of the merchant furnaces have sold fully two-thirds of their product for this year. Prices of Southern pig iron continue firm, with a tendency to advance, especially as reflected in the Cincinnati market, but in New York, Pittsburgh and other centers comparatively little iron is being purchased.

Bar iron, which began to show in February of last year, is showing a similar tendency this year.

### WEDDING AT BEMIDJI.

#### W. R. Lowell of Idaho and Miss Clara Dittman Married.

Bemidji, Minn., Jan. 10.—(Special to The Herald)—W. R. Lowell and Miss Clara Dittman were married Tuesday evening at the home of John Hawkins, Rev. S. E. P. White performing the ceremony. Carl Arneson and Miss E. C. Lowell, a sister of the groom, acted as groom's best man and bridesmaid respectively.

The bride has resided in this city for several years and has many friends here. Mr. Lowell was formerly a resident of Wadena and visited Bemidji many times during the past three years. He is now employed by a lumber company at Abitibi.

Revival services will be held in the Baptist church next week, beginning on Monday evening. Rev. Mr. Bloomfield, pastor of the church, will be assisted by Rev. J. E. Jonart, Ph.D., pastor of the Chicago Avenue Baptist Church of Minneapolis.

### WOMAN HATER IS SUED.

#### Harvard Professor, Supposed Foe of Cupid, Accused of Jilting Girl.

### BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts of the aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of childbirth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed the great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address

BRADFIELD REGULATOR CO., Atlanta, Ga.

### MOTHER'S FRIEND

### TRAINMEN HELD BY THE CORONER GIVE BONDS.

Washington, Jan. 10.—Engineer Hildebrand and Conductor Hoffmales, of the crew of the equipment train, who were arrested last night after the coroner's jury inquiring into the Terra Cotta wreck had held them, with six others, responsible for that wreck, have been released, the former under \$10,000 bonds and the latter under \$5,000 bonds.

### First Rule of Health

Ask your doctor, "What is the first great rule of health?" Nine doctors out of ten will quickly reply, "Keep the bowels regular." While you are about it, ask him another question, "What do you think of Ayer's Pills for constipation?" We are willing to trust him. Are you?

We have no secrets. We publish the formulae of our preparations.

J. C. Ayer & Co., Lowell, Mass.

### JOHN COOPER DEAD.

#### St. Cloud Learns of Death of Former State Fair President.

St. Cloud, Minn., Jan. 10.—John Cooper, once president of the Minnesota State Fair association, a real estate and live stock dealer, well known in this section, died yesterday at Redland, Cal., where he had gone to spend the winter with his wife. It is expected his body will be brought back for burial. The particulars of his death are not yet known here.

How much of your life is spent trying to get well. It requires but a month or less to but the average man or woman on their feet with Hollister's Rocky Mountain Tea. 35 cents. Tea or Tablets. Ask your druggist.

which has been labelled by Hawley  
Brothers, of Chicago, as the  
"Northern Michigan ports."  
Hawley Bros. are seeking to  
secure a franchise for towing  
services done in a storm last  
fall. The case will be tried  
before the United States district  
court at Superior.

In the libel it was alleged that the  
Matanzas was running up the lake  
with a tow during the storm of the  
latter part of the season. The  
company is now connecting the steamer  
with the barge, parted and both  
boats were damaged. The  
company of the Matanzas has signs  
of distress, but as he was about sixty  
miles from shore, he was not  
able to get help.

• • •

the same time, the  
blackbird or a thrush  
storches its head  
at the intruder,  
trying with the electric  
lightning of its beak  
to catch the intruder.  
Then came the retreat  
weather, and they pre-  
pare to return.

## TWO-CENT FARE BILL IS ALMOST CERTAIN TO GO THROUGH LEGISLATURE

Anti-Pass Bill is Nearly as Sure to be Adopted.

St. Louis County Members Have Passes But Must Pay Fare.

Investigations of Alleged Coal Combines Will be Made.

(From a Staff Correspondent.)

St. Paul, Jan. 11.—(Special to The Herald.)—The members of the legislature are making up for the restraint that was put upon them by the agreement not to introduce any bills the first day, in order to head off the introduction of bills covering the principal subjects of public interest by Democrats before the Republican members were ready.

Feeling with impatience to launch upon their troubled career the measures over which they had spent many hours of toil and thought, the moment the bars were down the members began pouring the contents of their inside coat pockets into the legislative hopper, and the result was that the senate now has received thirty-two bills and the house seven.

Practically all of these bills have to do with the relations between the corporations and the people, and most of the principal subjects likely to come up have already been covered by one or more bills. There are half a dozen two-cent fare bills, and several anti-pass bills, and these will be the simplest issues of the session. With these two propositions it is merely a question of yes or no, of whether the members are for them or against them. Many other important matters, like taxation and the primary election law, will become involved by the competition of opposing plans. The two-passenger rate bill and the two-cent fare bill is simply a question of whether the legislature wants to reduce fares to 2 cents a mile and to do away with passes, or whether they do not.

(Continued on page 14, third column.)

### TO SUCCEED KEEP.

Statter Will be Assistant Secretary of Treasury for Present.

Washington, Jan. 11.—Arthur F. Statter, of Walla Walla, Wash., at present private secretary to Secretary of the Treasury Shaw, will be appointed assistant secretary of the treasury, to succeed Charles H. Allan Kepp, when the latter retires on Feb. 1 to become bank commissioner of the State of New York. In asking the president to make this appointment, Secretary Shaw said he understood that Postmaster General Cortelyou, who takes the treasury portfolio on March 4, should fill the office whenever he desired to do so, and First Assistant Postmaster General Hitchcock will later on be made assistant secretary. Mr. Hitchcock will not leave the postoffice department with Mr. Cortelyou, but will do so about July 1, or perhaps later.

DR. G. H. DAVIS DEAD.  
Fairbault, Minn., Jan. 11.—Rev. G. H. Davis, D.D., who died Wednesday night at 77, was a native of New York, and had been a resident of Fairbault, where he had lived in a semi-comatose condition till the end came.

## CREAMERY DESTROYED

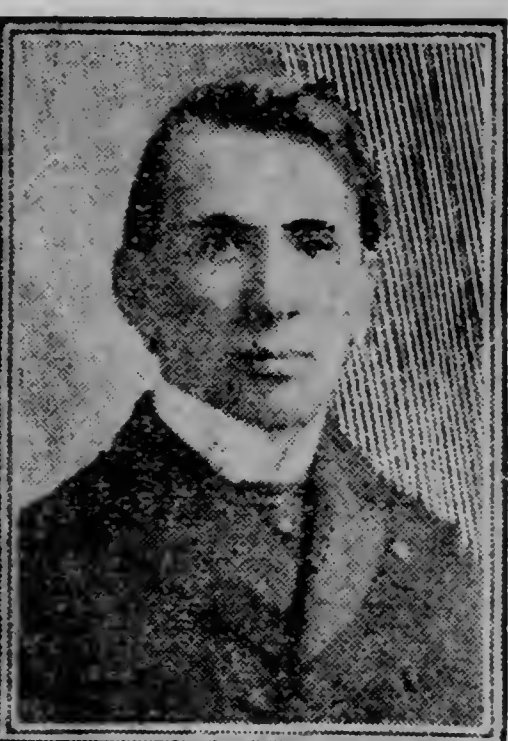

Northern Creamery Company's Plant at Hinckley Burned.

Rumors of Incendiarism Are Heard About the Town.

Hinckley, Minn., Jan. 11.—(Special to The Herald.)—The creamery at this place, operated by the Northern Creamery company, was burned to the ground at midnight, nothing being saved from the ruins. When the fire was discovered the building was a mass of flames, a large amount of butter in storage making a fierce conflagration, which it was impossible to subdue.

The fire may have caught from the stove, although there is some talk of incendiary origin, as threats have been known to have been made. Other creameries having been burned gives some ground for the suspicion.

The loss is estimated at about \$2,500, with \$800 insurance. The Northern Creamery company has been burning a thriving business, churning 1,000 pounds of butter per day and will resume business as soon as possible.

WILLIAM ALDEN SMITH, Who Will Succeed Senator Alger.

## IS WITHOUT PRECEDENT

Gates' Motion on County Option Question a Tactless One.

There is Small Probability That Resolution Will Pass.

(From a Staff Correspondent.)

St. Paul, Jan. 11.—(Special to The Herald.)—Members of the house are inclined to look upon the Gates resolution calling upon the governor for a special message on the county option question as something of a boomerang. For one thing, it will force many of them on record, if it comes to a vote, before they are ready. In the second place the governor has always showed an admirable ability to take care of himself, and it is altogether probable that he will meet up his end if the house goes after him. However, there is small probability that the resolution will pass. It is unprecedented, unparliamentary and tactless.

Asked about it this morning Governor Johnson said: "I have had no official communication from the house as yet, and it seems to me that it would be indecorous for me to discuss the matter. However, I don't mind saying

(Continued on page 9, first column.)

## WOMAN WINS A FIGHT IN IOWA

Polk County Jury Lists Knocked Out Because of Frauds.

Des Moines, Iowa, Jan. 11.—The district court, on application of the state league, yesterday knocked out every jury in Polk county on the ground that all were illegally drawn.

This action means that Polk county has no trials except law cases until after the legislature meets and enacts a new law. For at least a month there will be no grand jury. Litigation is all stopped and courthouses will be practically vacated.

The decision is a victory for Mrs. Frank Deason, county recorder, who for two years has been objecting to the method of drawing and seating jurors. Many veiled charges of tampering with the jury list in the interest of local corporations which are having trouble in courts have been heard. Many instances were found where committees named by law to select jurors had first selected themselves for the job.

Like conditions exist in several counties in the state. A new law on jury drawings is certain to be presented as soon as the legislature meets.

### SENATE LIMITS HOURS

Which Railway Employees May Work to Sixteen.

Washington, Jan. 11.—After more than five hours spent in a lively consideration of the subject of limiting the hours of service of railway employees, the senate yesterday passed a substitute for the pending bill and amendments on that subject of which Senator La Follette was the author, as he was of the original bill. The substitute limits the time of train employees to sixteen consecutive hours of service, to be followed by ten hours of rest. There was but one negative vote to this action, that of Senator Pettus of Alabama.

### FIFTY YEARS MARRIED.

Mayville, Wis., Jan. 11.—Mr. and Mrs. Charles Barwig are celebrating the fifty anniversary of their marriage. Mr. Barwig was a member of congress from this district for three terms, in 1885, 1887 and 1889. Mrs. Barwig was Eliza Schwartzburg of the town of Schwabau, now known as North Milwaukee, and was the first white child born there. She is now 65 years old and her husband is 70.

## STEAMSHIP GIVEN UP FOR LOST ARRIVES AT BERMUDA

The Ponce Arrives in Harbor of Hamilton in Tow.

Picked Up at Sea by a German Tramp Steamer.

Owners and Friends Had Practically Given Up All Hope.

Hamilton, Bermuda, Jan. 11.—The overdue steamer Ponce of the New York & Porto Rico Steamship company, which left Porto Rico Dec. 26 for New York, was towed in here today by a steamer which picked her up disabled.

New York, Jan. 11.—The missing steamer Ponce, eleven days overdue from Ponce, Porto Rico, to New York, was sighted today off Hamilton, Bermuda, in tow of another steamer, according to two cablegrams received by the New York & Porto Rico Steamship company of this city, the owners of the Ponce. The cablegrams were dated at Hamilton, Bermuda, and read as follows:

"Steamer Ponce in tow off Bermuda, 11 days overdue. Disabled. JOHN S. DARRELL."

"Ponce in tow of a German steamer, off Bermuda. MEYER."

New York, Jan. 11.—Hope that the long overdue steamer, Ponce, had been picked up by the steamer, Maracas, was dispelled early today, when the last named ship came into port and her officers reported that they had seen nothing of the Ponce. The Maracas, which was herself five days overdue, was delayed by a derangement of machinery. On New Year's morning about 4 o'clock a circulation pump gave out and the ship had to be stopped for thirty-six hours while repairs were effected.

## THREE HUNDRED PERSONS PERISH

Tidal Wave Devastates Some of Dutch East Indian Islands.

The Hague, Jan. 11.—A tidal wave has devastated some of the Dutch East Indian islands, south of Achin. The loss is very great. According to a brief official dispatch 300 persons perished on the island of Tana, while forty are known to have been drowned on the island of Simulu.

The great anxiety felt by the owners and friends of the passengers and crew of the steamer Ponce, eleven days overdue from Porto Rico, was relieved by the receipt of a cablegram Friday morning from Hamilton, Bermuda, announcing the safe arrival of the vessel there in tow of a tramp steamer. Several steamers had arrived in port which came over the same course usually followed by the Ponce, but none of them had seen anything of the missing ship. The arrival of the Maracas, which came in Friday morning, herself five days overdue, dashed the last hope of the anxious ones who had hoped that the delay to the Maracas was due to towing the Ponce. The vessel, however, was dispelled a short time later by the receipt of the good news by cable of the ship's arrival.

The steamer then, under reduced speed proceeded to this port. Fine weather prevailed so the steamer was never in danger.

The arrival of the Maracas without any news of the Ponce, has greatly increased the anxiety regarding that vessel. It was thought that the Maracas, which sailed from Trinidad for New York on Dec. 29 had to come along the same course pursued by the Ponce, which sailed from Porto Rico for New York three days earlier. When then the Maracas arrived on time and the Ponce failed to arrive, it was but a natural thought to couple the delay of the latter with that of the other. It was thought that the Maracas had fallen in with the disabled Ponce and was trying to tow her to port.

New York, Jan. 11.—The Ponce

## DEPOPULATION COMES TO AN END

Emigration From St. Pierre Has Suddenly Ceased.

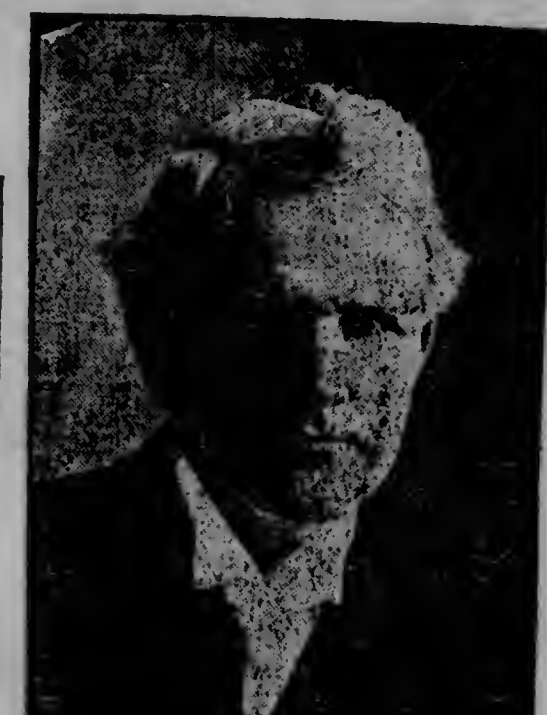

Hallfax, N. S., Jan. 11.—Emigration from St. Pierre, which has threatened to depopulate the last habitable possession of France in America, has ceased, according to a consular message, bishop of St. Pierre, who has arrived here from that island on his way to France by way of New York. The bishop said that in the past fortnight not only did further emigration cease, but that many of the inhabitants who had left had returned to their homes, and more are expected in two or three months. The reason for the halt in the migratory movement is believed to be due in a large measure to the action of the French government recently in reviving tariff schedules for the islands in order to attract American fishermen and traders to the port of St. Pierre. Business depression following the failure of the fisheries for the past two seasons had many of the inhabitants looking to the Canadian West and Northwest.

## LATEST WOLF STORY

Many bills are introduced in Legislature, aimed at Trusts.—News Item.

## THE ASSASSIN OF DR. COX CONFESSES, IMPLICATING JIM HARGIS AND OTHERS

JOHN WESLEY GAINES, Congressman From Tennessee, Who Attempted to Assault Congressman Mahon of Pennsylvania, for Calling Him a Liar.

Murderer and Two Others Were Given \$100 for Crime.

Three Shots Were Fired at Once Into the Victim.

Conditions at Jackson Easier on Postponement of Trial.

Jackson, Ky., Jan. 11.—John Smith, who is one of the men under indictment for the murder of Dr. R. D. Cox, has made a confession, which is now in the hands of Attorney Joubert, for the commonwealth. In this confession Smith names James Hargis and Ed Callahan as the moving spirits in the crime. He says Hargis and Callahan induced him to enter the conspiracy against Dr. Cox, making promises to see that he was acquitted, and to give him a job. He tells about the murder in detail, and says that Callahan gave him \$100 after the killing, saying Jim Hargis sent it to him.

According to the confession three men shot Dr. Cox. Smith's words in describing the murder, are:

"So Judge and Ed put us three, Spicer, Abner and myself under the barn shed, and sent Ed Hargis to stand on the corner, and when Dr. Cox left his office and started home, and got opposite where we were in hiding, Hargis said to call him, so we would know it

(Continued on page 9, first column.)

## FIRE LOSS OF \$1,000,000

Tobacco Warehouse and Cigar Factory at Lancaster, Pa., Burned.

Two Dwellings Also Completely Ruined by the Conflagration.

Lancaster, Pa., Jan. 11.—A fire which started in the tobacco warehouse of S. R. Moss & Co. here today spread to adjoining property and caused a loss estimated at \$1,000,000. The structure was a four-story brick and was well filled with tobacco. The flames communicated to the Moss Cigar factory adjoining, a five-story brick building, which was also destroyed. When the south wall of the cigar factory collapsed the only truck of the fire department was buried in debris and a number of firemen had narrow escapes from death or injury. The loss on the warehouse is placed at \$800,000 and on the cigar factory at \$200,000. The warehouse of the American Cigar company to the north of the Moss buildings caught fire, but was not greatly damaged. It is feared the loss on the contents will be very heavy from water and smoke. To the east of the cigar factory five dwellings were completely ruined. The fire department turned its entire attention to the warehouses of Morris Levy, Kramer & Goldberg and John Brimmer, which were better stocked by flames. None of them caught fire but their contents were damaged by the water and smoke, and with the Moss and American Cigar company's loss will run the damage up to a million dollars. The fire is ascribed to the falling of an electric line which pulled down a weak electric light wire pole. This in turn caused a crossing of wires.

JUST LOVE MULLIGAN.  
Omaha, Neb., Jan. 11.—Patrick Mulligan, an inmate of the poorhouse, who became suddenly rich through a bequest of a relative, is beset by letters from women who want to marry him. Several men have written him asking him to share his fortune with them. Mulligan says he neither yearns for marriage nor philanthropy.

REPAIRING DAMAGE RAPIDLY.  
Los Angeles, Jan. 11.—Rapid progress has been made in repairing damage by flood to the railroads north of this city. Trains will leave today at 12 a. m. and at 5 and 7 p. m. Salt Lake and Santa Fe trains, it is believed, will depart on schedule time today.

## TWO KILLED INSTANTLY

By Explosion of Gas Plant in Wilmington, Ill., Hall.

Card Party Was in Progress at Time of the Catastrophe.

Wilmington, Ill., Jan. 11.—Two persons were instantly killed and a dozen injured here last night by the explosion of a gas plant in Woodman hall. The killed:

F. H. POPE, grocer, aged 55.  
EDWARD SCHEIBNER, aged 65.

Seriously injured: Father Dwyer, Catholic priest; Miss Rose Peck, aged 23; Mrs. James Cavanaugh, arm broken in two places.

The accident happened while a card party was in progress in the hall. The gas plant was leaking, and the two men killed went into a rear room to make repairs. The explosion followed, and the two men were blown through a partition. The hall is a two-story brick structure. The rear of the building was completely wrecked.

St. Paul, Jan. 11.—(Special to The Herald.)—The supreme court today sustained the order of the St. Louis county court in the case of the State of Minnesota against the Tower Lumber company. The action was brought to recover the sum of \$20,000 damages alleged to have been sustained by the state game and fish commission, by obstruction of its work in gathering spawn in Pike river, St. Louis county, in April, 1906. The defendants, it was claimed, filled the river with logs making it necessary for the commission to suspend its operations. The court held that no person or corporation had the right to obstruct that work.

### LAKE CARRIERS ELECT OFFICERS

**A. B. Wolvin of Duluth  
Retires From the  
Directorate.**

Detroit, Mich., Jan. 11.—The Lake Carriers in executive session yesterday had an animated discussion of the issues between the carriers and the unions; of the movement of vessels in thick weather, and of government aids to navigation, but those questions were eventually referred to the legislative committee.

On the new board of directors chosen yesterday John E. Payne, of Philadelphia, succeeds J. E. Firth of the same city; J. Carey Evans, of Buffalo, succeeds E. T. Evans, of Buffalo, and W. Hawgood, of Cleveland, succeeds H. A. Hawgood, deceased.

John Criss, of Toledo, was added to the board.

The directors re-elected the following officers: President, William Livingston, of Detroit; vice-president, J. H. Shouder, of Cleveland; counsel, H. D. Goulder, of

Cleveland; treasurer, George P. McKay, of Cleveland; secretary, George Marr, of Cleveland.

There was only one change on the executive committee, J. H. Shouder, of Cleveland, succeeding A. B. Wolvin, of Duluth. Mr. Shouder was toastmaster at the banquet last night.

### MUSIC BRINGS MADNESS.

**Refined Tortures That Are Practised in  
Russian Prisons.**

Odesa, Jan. 11.—The refined tortures practiced in Russian prisons include driving prisoners mad by music and by unbearably strong light.

A "political" prisoner who spent six months in jail has returned a hopeless idiot. "To teach him patriotism," his ingenious jailers had placed in his cell an automatic musical box which ground unceasingly the Russian national anthem. The torture finally drove him mad.

Celia flooded constantly with a blinding blue light formed another species of torture, by which several convicts were deprived of their reason in a few months. Two convicts were flogged to death, and their bodies were afterward stamped upon by soldiers.

The police in Odesa have themselves become robbers. They often stop persons in the street, and under

the pretext of searching them for arms, appropriate their valuables.

### FRED RYAN'S REPORT

**On Scaling of Logs and Lumber in  
Duluth District.**

St. Paul, Minn., Jan. 11.—Fred L. Ryan, surveyor general of logs and lumber for the Duluth district has made his annual report to Governor Johnson. Supplementary to the report, Mr. Ryan states that only about half as much scaling will be done by him this year as last season.

The reason for the falling off in the output this season is due to the unfavorable weather conditions which prevail all through that section. For one thing, the lumbermen have very deep snow to contend with, but what seems to be a greater difficulty still is the lack of frost on the ground.

Mr. Ryan states that there will be very little contrast work done this year. Following is the report: Number of logs, 3,762,389; number of feet, 253,147; number of ties, 5,654; number of posts, 2,065; number of poles, 3,489.

"I had tried everything for my baby, sweet, I can truthfully say it is the best medicine I ever used for babies," said Taylor, Bedford, Va. "Caucas" sweet is sold at all drug stores.

### GAS COMPANY IS ENJOINED

**Mayor Linley of Superior  
Is Seeking Lower  
Gas Rates.**

Court Commissioner Philip Perkins of Superior has granted an order enjoining the Superior Water, Light & Power company from charging and collecting from the people of that city, any sum for gas furnished or to be furnished, in excess of \$1.10 per thousand feet, for illuminating gas, 90 cents for fuel, and 20 cents for gas for mechanical purposes.

The injunction was issued on the petition of Mayor Victor Linley, in the name of the city of Superior.

The water and light company is ordered to appear in the circuit court of Douglas county on or before Feb. 5, and show cause why a temporary injunction should not issue pending the outcome of the action.

Present gas prices in Superior are as follows: Illuminating gas, \$1.40; fuel gas, \$1; and gas for mechanical purposes, 75 cents.

Mayor Linley claims that the gas rates are exorbitant. He was authorized by the city council some time ago to make a demand for lower rates, it being held that any rate over \$1.20 for illuminating gas was unreasonable. Under the 25-year franchise granted the company about a year ago, the maximum rate to be charged was \$1.40. The franchise had, also, a provision that at all times the rates were to be reasonable. Under this provision, it is believed by the administration that the court has the right to determine and fix a reasonable rate.

It is alleged that the gas company, by collecting \$48,000 from the people of Superior for gas rates within the past two years, has made a profit of \$36,000. The company denies making any such profit. It claims that it has been making just about enough to cover the operating expenses, together with other incidental expenses in keeping up the gas supply.

### KILLS SWEETHEART AND THEN SHOOT HIMSELF.

Rigby, Idaho, Jan. 11.—Miss Irene Miller, a teacher in the public schools at Lewistown, near here, was shot and killed Wednesday night, by Prof. I. G. Couch, principal of the schools, who then committed suicide. The untimely cause of the tragedy was a broken marriage engagement. Miss Miller was a member of one of the old Mormon families of Utah.

### DAMAGES AWARDED

**John Trezona Gets \$5,000  
Verdict Against Capt.  
Arthur Penna.****Was Just Half of Amount  
Asked by Mining  
Captain.**

Damages in the amount of \$5,000 were awarded John J. Trezona against Capt. Arthur S. Penna by a jury in the district court, late yesterday afternoon.

The verdict represents the damage that the jury considers has been done Mr. Trezona by reason of the alleged alienation of his wife's affections.

Mr. Trezona sued for \$10,000, and Capt. Penna, through his counsel, Porter J. Neff, asked that the damages be fixed at 5 cents, or at the most not more than \$1.

The Trezona-Penna case was one of the most sensational suits of the character that has ever been tried in this county, much of the testimony, oral and documentary, being of a disgusting nature.

The principals in the action are well known in the ranges, where they were both engaged in mining operations. For the last six years Capt. Penna has been in charge of some mining work at Shoshone, Wis.

Mr. Trezona is said to be residing in St. Paul. She did not appear at the trial of the case.

Capt. Penna was accompanied by his wife, who heard some of the evidence and testified in behalf of her husband.

Mr. Trezona was represented by Theodore Hollister.

### IOWA COUPLE ELOPES.

**Millionaire's Son and Chicago Girl Marry  
and Start for Europe.**

Chicago, Ill., Jan. 11.—Outwitting parents and friends and eloping to New York, George Douglas, son of Walter Douglas, millionaire miner, tradesman and of Cedar Rapids, Iowa, and Miss Nathaniel Duell of Chicago sought out a preacher in the eastern metropolis and were married. They then took the steamer America for Europe. When on the ocean the bride sent a wireless message to Chicago relatives, advising them she was on her honeymoon. In France the couple expect to join the father and the mother of the bridegroom.

Ostenwald, when the young man left his home in Iowa, he was on his way to Princeton to resume his college studies. The bridegroom's father is well known.

## IT'S BEST TO HAVE A "STEWART"

WHEN THE MERCURY GOES DOWN

In fact every day is like a spring day in the home that has a "Stewart." The "Splendid Stewart" Base Burner, besides being the handsomest and best heater on the market, is also the most economical in the consumption of fuel, which so strongly recommends it to Duluth people. If you have never tried a "Stewart" Stove, ask your neighbors about them.

## A LIBERAL ALLOWANCE FOR YOUR OLD STOVE

Possibly, since the cold weather is here, you feel the need of a new "Stewart" Heater to carry you over the rest of the winter. If so, and you have an old stove to dispose of, we will make you a liberal allowance for it in exchange for a new "Stewart." The balance you can arrange to pay at

### MORE ARRESTS MAY BE MADE

**In Connection With In-  
vestigation of New  
York Life.**

New York, Jan. 11.—More arrests may be made in connection with the investigation of the affairs of the New York Life Insurance company, according to an announcement made by District Attorney Jerome.

The announcement was made while the district attorney was opposing an application of the counsel for George W. Perkins, now under indictment in the New York Life case, for inspection of the entire minutes of the December grand jury. Mr. Jerome said that it would be in defiance of public policy to grant such a request as there are persons mentioned in the evidence who have not yet been arrested, but who may be at some future time. No decision was reached in the matter yesterday, the court directing counsel for both sides to submit briefs in duplication of the verbal arguments.

### MISSION BOARD

**Of United Lutheran Church Concludes a  
Two Days' Session.**

La Crosse, Wis., Jan. 11.—The mission board of the United Lutheran Church of America, concluded an important two days' session yesterday. Appropriations were made for the year's mission work in foreign fields, the most important being \$40,000 voted for the work in Madagascar.

A number of students, men and women, who have completed courses in Norwegian Lutheran educational institutions, were detailed for work in foreign lands.

Rev. P. C. Havorsen, of Brookings, S. D., a retired foreign missionary, was elected president of the divinity school at St. Dauphin, Madagascar.

The following officers of the United Lutheran Church of America were elected: President, Rev. T. H. Dahl, Minneapolis; vice president, Rev. H. J. Eliestad, Kenyon, Minn.; secretary, Rev. J. C. Roseland, Austin, Minn.; treasurer, Eric R. Walleland, Minneapolis.

### LAUGHS AT DR. OSLER.

**Man of 90 Years Works Every Day for  
Fun.**

Port Huron, Mich., Jan. 11.—Ninety-eight years of age and as spry as a boy still in his teens, "Grandpa" Tumpman, an old gardener of this city, lays claim to being the oldest workman in the state. "Grandpa" is Henry Tumpman, father of Thomas Tumpman, keeper of the Port Huron driving park.

"Grandpa" works every day, winter and summer alike. He has considerable money laid away in an old trunk, but the cash is so fascinating that he prefers to toil with the other men. "I'm pretty old, but I can stick with any of 'em," he said to a Journal representative. "I can run, too, and if you have any person, half my age, I'll bet this old hat that I can beat him around that trunk."

Mr. Tumpman is of Irish birth. He has lived here over half a century. In his early days he was a carpenter and cabinetmaker. He made a record last summer, when he seeded the lawn and boulevard for the new Modern Macabee temple in Pine Grove avenue. The work had to be done in three weeks in order to have it ready for the biennial celebration and dedication of the new edifice. "Grandpa" was the man for the job. In less than two weeks the work was completed and "Grandpa" and his pay tucked away in his little old trunk.

You do not agree with Dr. Osler's theory that all men should be chloroformed at the age of 70?" was asked of "Grandpa."

"Well, I should say not. He is crazy if he says a man is no good after he reached that age. I am a better man now than I was 30 years ago," he retorted.

"Grandpa" has only been sick two weeks in his life, and then his illness was nothing serious.

When the cold winds dry and crack the skin get DeWitt's Witch Hazel Salve. Sold by all druggists.

**BAYHA & CO.****Scoffi and Caruso  
Saturday Evening at Bayha's.**  
All invited to attend.

## ASSOCIATION PROSPERING

**Firemen's Relief Fund Has Reached the \$100,000 Mark.**

The total cash assets of the Firemen's Relief association in Duluth aggregate \$100,761.24, the \$100,000 received from the state and the \$5,825.00 received from interest, dues and donations during 1906 having brought the total above the hundred thousand mark.

The expenditures for the year, for the aid of injured firemen, etc., amounted to \$85,000. This is a much smaller amount than will be necessary to spend in a few years, when a pension ruling will have to be made for old firemen. In order to be entitled to a pension a fireman must be 50 years old, and to have been in the service of the local department for ten consecutive years. As none of the Duluth men are as yet entitled to this honor, no pension ruling has been made as yet, but as soon as one of the men is entitled to a pension, arrangements will be made for it.

Of the \$100,761.24 in the treasury of the association \$1,725.38 is in the American Exchange bank here; \$6,057.50 is invested in United States bonds, and \$92,978.36 is in mortgage bonds.

## FEARS GHASTLY DISCLOSURES

**From Fuel Famine in Remote Parts of North Dakota.**

Washington, Jan. 11.—Senator Hansbrough of North Dakota takes a pessimistic view of the fuel famine situation in Western and Northern North Dakota. He called at the interstate commerce commission today and submitted to the commission many messages he had received concerning the deplorable conditions in his state. Through many towns of North Dakota, he is informed, not more than one freight car has passed since the beginning of the year. Fuel, either coal or wood, is not to be had, even in the towns of 2,500 inhabitants. The senator told the commission that the people living several miles from the railroads were certain to suffer incalculably as they were unable on account of the deep snow, to get fuel to their homes, even if it were available in the towns. He apprehends some ghastly disclosures when the spring opens in the remote parts of the state.

## SHIRLEY IN OHIO JAIL

**Cleveland Police Hold the Famous "Room Rent Swindler."**

**Is Said to Have Worked Game Twice in Duluth.**

Chief Troyer this morning received a telegram from the Cleveland police saying that they had got C. A. Shirley, badly wanted by the police here and elsewhere, and would hold him until some one was sent from here to bring him back to Duluth.

C. H. Shirley, C. A. Shirley, George Holly and E. B. Thomas are some of the aliases under which "The Room-Rent Swindler" has operated. He is wanted in Duluth for crimes alleged to have been committed during the summers of 1905-06, when he is charged with passing faked checks made out of the German American bank in St. Paul, on Mrs. Catherine M. Harris of 206 East First street, and on Mrs. Albert Olson in the West end.

Shirley's method of operating is said to have been this: He would advertise for a room and when he secured an answer, would arrange to take the room at perhaps \$10 a week. This he would pay in advance with a forged check for about \$20 receiving, of course, \$10 in change. This is the last the proprietors of the rooms would ever hear of him and he usually made a clear getaway after making a good haul in each of the towns he worked.

He was arrested in Kansas City and served a term in the penitentiary for the same game, so the police have acquired Bertillon measurements, and his identification is an easy matter. Chief Troyer is now making a special effort to find Mrs. Albert Olson, the second of the two women who were claimed to have been victims of the man in Duluth, and as he has not her address, and her name for some reason does not appear in the directory, is meeting with some difficulty in locating her.

## SEARCHING FOR MISSING SONS

**Wisconsin Man Trying to Trace His Boys at Menominee.**

Menominee, Mich., Jan. 11.—(Special to The Herald.)—Samuel McMahon, a wealthy farmer of Pond Du Lac, Wis., is in the city today trying to secure some trace of his sons, aged 16 and 18, who left home on November 19 to see the state and the \$5,000 received from interest, dues and donations during 1906 having brought the total above the hundred thousand mark.

The expenditures for the year, for the aid of injured firemen, etc., amounted to \$85,000. This is a much smaller amount than will be necessary to spend in a few years, when a pension ruling will have to be made for old firemen. In order to be entitled to a pension a fireman must be 50 years old, and to have been in the service of the local department for ten consecutive years. As none of the Duluth men are as yet entitled to this honor, no pension ruling has been made as yet, but as soon as one of the men is entitled to a pension, arrangements will be made for it.

## A Stirring Sale of Undermuslins.

The interest in our Great White Sale has been increasing in interest since the first day. The magnet that draws the crowds seems to be the high character of the goods shown as distinguished from the cheap grades shown elsewhere, bought expressly with the view of selling cheaper. Here you pay no more for Undermuslins with refined trimmings of simple fullness and workmanship, equal in every way to garments made at home, than some stores offer the inferior class of Underwear at. The S. & B. Co. White Sale keeps its reputation of "being different" and of "being better" and we believe you will feel this more than ever in the present sale.

**French Corset Covers, \$1.50—Nainsook, with hand scalloped edge—all seams are hand done.**

## GREAT WORK OF RESCUE

Gen. Booth Outlines Scheme for Betterment of the Poor.

Medical Officer Says Foreign Meat Inspection is Unreliable.

London, Jan. 11.—Said Gen. Booth in an interview: "As I compare London's streets and slums with what they were when I essayed the work of arousing the consciences of the masses with the work of relieving the miseries of the suffering, I say with deep thankfulness to God that the outlook for the people in whom I am most interested is brighter. "Common sense, not to mention the promptings of humanity and the claims of Christianity dictated to me the creation of moral, social and industrial centers and their adapted appliances for rescuing the victims from the storms of poverty and starvation and from the flames of vice. And the result of the experiment set in motion seventeen years ago is before the world. The scheme as was outlined then, and is being developed today, is no longer an experiment. Many thoughtful and experienced men count it to be an invaluable addition to the national social movements of our times. The streets and alleys of London and other large cities where the scheme has been introduced still contain, I sorrowfully admit, many, very many objects of degradation and semi-starvation. But notwithstanding the continuance of these miserable conditions, much has been done since the day when this effort was initiated. Other organizations, religious and municipal, have approved the soundness of my system of alleviation and have with such modifications—very much remains to be done. After all we are but at the beginning of the problem, looking at it as a whole. "Dr. Collingridge, medical officer of health for the city, in his report on meat inspection at the Central market, in his report just published, has something to say regarding the inspection of meats in America. "I regret to say," he reports, "that experience has shown that, although the label is an excellent specimen of steel plate engraving, it has hitherto been of little service to your officers in assisting them in the work of supervision, and certainly it is no guarantee as to the condition of the meat. "Salesmen claim that they cannot rely on the label as they have learned to do on the label of the Dutch, Danish and New Zealand authorities. The Belgian label, it is also noted, is comparatively few, but Dr. Collingridge adds that whatever system of inspection and labeling be adopted it will still be necessary to check its value by constant supervision. "From 1900 to 1905 the reports show the percentage of meat grown from 207 to 512. This marked increase in the quantity of the meat, Dr. Collingridge says, is due in great measure to the bad condition of many of the consignments of imported meat. "The boneless meat, packed in boxes and frozen solid, which comes from America, is a source of much trouble. "No one," he says, "can be in dealing with this particular form of meat, and the only safe plan is to entirely exclude it from the country. If Mr. Burns' bill should become a law the local government board will be empowered to make regulations to this effect. "As the subject for the Bradshaw lecture, delivered at the Royal College of Surgeons, Edmund Owen, the vice president, chose "Cancer," and the burden of his address was the effect that even at the present time no cancer cure is known. His light, radiant and electricity, Roentgen's rays have all been tried and have proved fish-tail results. He said that Mr. Owen dismisses hope that some day a remedy may be found, but at this moment none is known to those most likely to know. "An interesting adventure of the king while motoring is just being told in London circles. The car broke down, and his majesty got out and strolled up and down with Mr. Storer while the car was being put right. The car had come to a standstill just outside a tiny cottage, from which a neat old gentleman emerged and begged that the motorists would come inside and sit down. "We are just about to take tea," he assured them. "The king, realizing that she was quite unconscious of his identity, accepted the invitation. On entering the tiny parlor, furnished with what was evidently relics of better days, he found a young lady there who was obviously startled by the appearance. "After an animated discussion upon the subject of the drama, his majesty thanked the ladies for their hospitality and retired. That his identity was no secret to the girl he realized as she dropped the merest courtesy and whispered "Goodby, sir." "Not long afterwards his majesty saw the lady and inquired who she was. He received the reply that she was employed on a weekly paper. The day or two later the feminine journalist received a charming golden motor car, studded with diamonds. "With thanks for a welcome cup of tea," accompanied the golden diamond-studded motor car.

**Hood's Pills** The best laxative. After-dinner pills. Pleasant, easy to take and easy to operate. **Peptonin Pills** Promote the blood, feed the brain and train the stomach, and give relief. 50¢ or \$1.00. Prepared by Hood's Food Co., Lowell, Mass. Made by Hood's Food Co.

# Business-Building Bargains for Saturday

## JAPANESE OBSTINATE

Japan is Crowding Russia in the Present Negotiations.

Disposition on Part of the Japs to be Hoggish.

St. Petersburg, Jan. 11.—The dispute between Russia and Japan is everywhere discussed with a measure of anxiety. The Russo-Japanese negotiations began at St. Petersburg apparently under favorable auspices, each party professing a desire to deal with outstanding questions in the spirit of give and take. Most questions were referred to the good sense and good will of both governments, more particularly the conclusion of a commercial treaty and the definition of the fishing rights to be conferred upon Japanese subjects on the Pacific coast of Russia. "The Russian government tackled the unpleasant task in the spirit of a self-respecting sportsman who having lost a certain sum regards it as a debt of honor, and proceeds to pay every penny, but naturally expects his obligations to extend no further than the debt incurred. Hence the negotiators opened well. Korea's international status being among the first topics dealt with, Russia evinced a most liberal attitude, foregoing her right to question Japan's interpretations, the most liberal attitude, still less as irreducible demands. This spirit it is claimed has not been appreciated. It is claimed that Japan insists upon inacceptable terms, the refusal of which by Russia may be arbitrarily interpreted as a refusal to observe the Portsmouth treaty while their acceptance would transform the peace between the Amur and the Sunghari rivers is not. That is the present position and it is claimed that it deserves the attention of all of the sincere friends of peace. In the first place then it appears that all of the sincere friends of peace and Amur to be opened to international navigation. Russia asking whether the Amur is to be a free river, and the Japanese answering: "Because the third clause of the Portsmouth treaty involves a right of self-defense and the Amur is a fact of the Amur treaty by which China in 1858 deferred upon the right of navigating those rivers, and also because last year Japan concluded a treaty with Russia, which the latter state throws open to her trade all commercial centers in the Amur and Sunghari basin." Here the czar's jurists come into issue with the Japanese, pointing out that the Portsmouth treaty neither implies nor involves Russia's renunciation of special rights on the Amur and Sunghari rivers, but that it is not possible to take to abrogate the treaty concluded by China and Russia because international treaties are annulled in a different way. In the third clause of the Portsmouth treaty involves a right of self-defense and the Amur is a fact of the Amur treaty by which China in 1858 deferred upon the right of navigating those rivers, and also because last year Japan concluded a treaty with Russia, which the latter state throws open to her trade all commercial centers in the Amur and Sunghari basin." ## ELECTRIZE RAILROADS

Practical Application in the Great Field of Electricity.

Exhaustive Trials in Germany of the Ostram Lamp.

Boston, Jan. 11.—The Boston Transcript says:

The Pennsylvania and the Baltimore & Ohio railroads have declined to accede to the request of the commissioners of the District of Columbia that they substitute electric motors for steam locomotives within the district.

The inconvenience of making the change is the ground on which the refusal is based, the president of the former road saying it would be "seriously objectionable in view of the high speed service which we propose to establish between Washington and the North."

The commissioners, not satisfied with the answer, purpose to appeal to congress to compel by law what the roads are not ready voluntarily to grant.

A few evenings ago in an address before a gathering of men on "Railroads and Early Transportation," Col. J. H. Buntin, Jr., for many years counsel for the New York, New Haven & Hartford road, ventured the prediction that in the future, not so distant but that it would fall within the experience of these three present railroad development would reach a point that would make all that has now been achieved seem as comparatively primitive as the gropings of two generations ago in this new field now appear to us; and he intimated that electricity would be the medium through which this transformation would be brought about.

Two or three years ago, when his words carried further than they do now, Chauncey M. Depew made this statement before a meeting of the Transportation club of New York: "I predict that ten years from tonight locomotives will be in the museums, while we shall be carried along, clipping the seconds off seventy-five miles an hour, by electric motors."

Without attempting to fix the rating of these gentlemen as prophets they doubtless knew what the trend of discussion was in the large railroad councils on this question. The progress made by the New York, New Haven & Hartford in the application of electric forces in its business is more convincing evidence of the general tendency in this direction than any amount of prophecy.

To electrify the main systems of steam roads in this country within the next decade would be less of a radical advance than it has been to change from horse and cable cars in all the cities in the period not much longer than that, and it would not surprise us to see the Pennsylvania road going not only into and out of Washington under that power, but employing it for the whole distance.

A high speed service between Washington and the North would then have a larger significance than the same terms carry now. The big lines do not like to be hurried, but they are quietly adjusting their business in many quarters to the new conditions.

Prof. Ferdinando Lodi of the school of engineering, Padua, Italy, is the inventor of a new arrangement or system of wireless signaling in which a phenomenon of electro-magnetic resonance is utilized for obtaining a separation of the radio telegraphic signals.

A non-magnetic metallic wire is extended between two points, having the north and south poles of the magnet on each side of the wire near its center. The wire is joined up to a detector of electric waves and a battery. The tension of the wire is so controlled that when vibrating freely it performs a predetermined number of vibrations every second.

If the detector is reached by electric waves emitted from a radiator with the same frequency, viz: by oscillatory sparks produced with a speed  $n$  per second—the electric wave detector will be influenced  $n$  times per second, and the current passing through the wire is a pulsating or alternate current having the same frequency  $n$ . The wire is in this way enabled to act as the receiver of wireless signals only if they are emitted by a series of sparks at a rate of  $n$  per second. The apparatus is therefore selective of the message received.

According to L'Eclaireur some exhaustive trials recently made in Germany of the Ostram lamp have given the following results:

The lamps were of thirty-two and fifty Hefner candlepower, respectively, and were tested at from 100 to 150 volts, with a consumption equivalent to one watt per candlepower.

The duration of the test was 1,000 hours and the diminution in candlepower at the end of the test is stated to have been almost negligible—about 3 per cent. From the tabulated results it appears that a thirty-two candlepower Ostram lamp shows a saving of current charged at 6 pence per kw., amounting to 9 shillings per 1,000 hours over a carbon filament lamp rated at the same candlepower. With a fifty candlepower Ostram lamp, the equivalent saving in current to obtain an equal amount of light per 1,000 hours is approximately 60 shillings. It is stated that this new lamp burns also at much less cost than the incandescent or the Nernst lamps and radiates 70 per cent less heat than the ordinary carbon filament lamp.

What appears to be a discovery of some significance in relation to electric incandescent lamps has been made by John W. Howell of the American Institute of Electrical Engineers. It was described by him in a paper read recently before the institute, and "flashing" the current, carbon filament is well known; but the author has succeeded, as he states, in producing a carbon which, in his own words, "has characteristics so different from those of any previously known filament as to seem to indicate that it is a new form of carbon."

Besides being very interesting on account of its physical characteristics this filament is of considerable value on account of its carbon better life or efficiency than the carbon filaments heretofore known.

The author obtained the filaments he described by submitting treated filaments to the excessively high temperature of an electric resistance furnace. The treatment is thus described:

## Two Important Events

The White Sale

Garment Clearance

WITHOUT DOUBT the most successful sales of their kind ever in Duluth. Not alone successful from our point of view—but from yours. Because we've succeeded in presenting unquestionably the largest stocks—because people have found from the start that prices here, were the lowest for equal values. That's the reason the crowds are here—at the Big Store. That's the reason Glass Block Sales are waited for and participated in by the public in such hearty manner. And you can "set it down" that people get what they expect or their confidence and support wouldn't have put us where we are today. New lots have arrived for the White Sale.

Visit Both These Splendid Sales Saturday and Save.

Below you'll find some special features of both sales—and some extra bargains for Saturday.

25c Gloves 10c.

200 dozen women's warm, black fleece-lined, cashmerette Gloves—and not a pair in the lot worth less than 25c—go Saturday at a price that ought to clean them up. A "snap," sure as you live, at—

10c

35c Gloves 15c.

100 dozen women's fancy Ringwood Golf Gloves—in browns and grays—a good looking glove that's also made for warmth. These are regular 35c gloves, but Saturday only we'll offer them at just—

15c

Store opens at 8:30 a. m. Open Saturday Night till 10:30.

**PANTON & WHITE COMPANY**  
THE BIG GLASS BLOCK STORE  
WHERE QUALITY IS PARAMOUNT

Mail Orders are given our prompt and careful attention.

\$1.00 Corsets 79c.

Take your choice of these fine quality Corsets—lace and ribbon trimmed—with strong hose supporters—new shapes and styles—in white and drab—regular \$1 kinds, Saturday—

79c

Girls' Tams 25c.

We'll offer 100 dozen Mohair and Angora Wool Tams (see window display) in red, white and a few brown and navy—a few were originally 75c—most of them were 48c—every one cheap at—

25c

### Damask Specials

Here are four splendid big bargains in table damask—from the white sale. "A word to the wise," etc.

70-inch

All linen cream damask, regular price 75c, for—

59c yd

72-inch

All linen cream damask, sells regularly at 85c—for only—

65c yd

All "John S. Brown's" pattern cloths at cost—with napkins to match.

72-inch

Full bleach satin damask, regular \$1.50 a yard—for only—

98c yd

72-inch

Full bleach satin damask, regular price \$1—for only—

75c yd

### A Veritable Feast of Silks

Here's the best snap in Silks you've had in months. Silks have been a little quiet lately? Well this is good enough to make up for it. Plainly, squarely—we never made a better offer in Silks. The values are not based on cost—we don't care for cost Saturday—We want you to buy Silks. Here they are:

#### A Grand Clearance of Fancy Silks at 49c

Now, see here! These silks are regular \$1; \$1.25, \$1.50 and \$2 silks—fancy waisting taffetas, black and white shepherd checks, fancy figured taffetas, beautiful effects in striped, figured and dotted waistings—mostly medium and dark (but a few light) patterns. There are some short pieces—but we want to sell them all Saturday. Hence the price:

Remnants

One lot of remnants of all lengths, 27-inch chinases—were 50c; regular 25c 75c plain taffetas; 75c and \$1 fancy taffetas 25c yard.

49c  
Per Yard

Remnants

A splendid lot of remnants of fine silks—all lengths—that sold for \$1.25 and up. But they're remnant lengths—so, as long 39c as they last, they're, yard.

### Men's Bargains

And—our word for it—and the goods to back it up! they're of the kind that are "few and far between." Don't miss them.

Gloves

200 pairs of small lots of regular \$1, \$1.50 and \$1.85 Gloves, "Fownes," "Adlers," etc.—

50c pr.

Underwear

Sanitary fleeced shirts and drawers, in Jaeger or blue mixed—at—

39c piece

The white sale offers unlaundered white shirts, linen bosoms, at, each—

48c

Shirts

Negligee and stiff bosoms—broken lots of regular \$1 and \$1.50 shirts—

69c each

Caps

Cloth and fur lined, inside or outside band—all styles—for Saturday only—

1/2 Off

### Winter Furs Sacrificed.

Not a partial clearance movement, by any means, for it embraces the entire fur stock, including—

Beautiful Fur Pillows and Sets, Handsome Fur Pieces and Muffs, Luxurious Fur Coats and Jackets.

The largest, most enticing and delightful selection of high-class furs to be found in the city at reductions of fully

1-4 and 1-3 off

Women's and Children's

Mixture Coats—All at Half Price.

Nothing held from you. Choose from the season's entire showing—all the beautiful novelties—without regard to former price—half off.

All High Grade Tailored Suits Half and Less.

In the less expensive grades—prices are less than half—

\$14 Suits for \$4.98 and \$34.50 Suits for \$14.98.

All the better suits at exactly half price—including all imported novelties and velvet suits.

### 1907 Calendars—Look!

This is a well-nigh ridiculous price for work of such high standard of art as some of these Calendars.

Some of them bear the original mark \$2.69—indeed beautiful pieces they are, too—while others are \$1.98, \$1.48 and so on.

Saturday you may take your choice of the entire remaining lot for—

25c

### The Bargain Counter of White Goods.

40-in. Lawn 13c.

A fine sheer India Linen Lawn, 40 inches wide—sold regularly at 10c—these are "mill ends," 3 to 15 yards—go for—

13c

Fine Cambrics 9c

Short lengths of very fine Cambric—never less than 15c a yard. A big quantity of them at this price—only—

9c

Silk Mulls 19c

How dainty for coming summer dresses—Silk Mull, regularly 39c—lengths 3 to 15 yards—on the bargain counter for—

19c

White Pique 19c

For Summer Suits and Outing Skirts—get these 35c Piques—all size cords—and beautiful goods. On the bargain counter their price is—

19c

### ENCYCLICAL TO FRENCH CATHOLICS

Pope Comforts the Faithful Suffering From Government's Acts.

Rome, Jan. 11.—The Osservatore Romano today published the text of an encyclical addressed by the pope to the French Catholics. In this document that pontiff said that his chief object in addressing the faithful in France was to comfort them in their sufferings, which he felt deeply. There was, however, great consolation in the fact that the Catholics of France were united. The French government's declaration of war was not only against the Chris-

tian faith but against all spiritual ideas. The French Catholics must be prepared for all sorts of trials, but they were certain of final victory. This meant the maintenance of their union with the Holy See, which was of the greatest importance, as shown by the efforts of the enemies of the church to dissolve this union. Contrary to the statements made on the subject, the church did not desire a religious war, involving violent persecutions. Being a messenger of peace and carrying out her mission loyally, the church did not willingly expose herself to war and persecutions, as she did not desire to see her children suffer.

Regarding the ecclesiastical properties, the encyclical said the pope had not abandoned them. The French government had imposed upon the Catholics of France an organization which the church was absolutely unable to accept without imperiling her existence as a divine institution. The church could not prevent the unjust spoliation in progress, for as the proposed cultural associations were opposed to the hierarchy established by Christ, the pope condemned them, in spite of the

consequent material injuries involved at the hands of the government. The statement that the latter disposed of the "abandoned" properties of the church was adding derision to spoliation. It was false to state that the pope had approved in France what he approved in Germany, as the German cultural associations were merely tolerated, although they recognized the church's right to the exercise of public worship. The pope had tolerated an annual declaration for the exercise of public worship, although it did not offer a legal guarantee that the exercise of public worship would be permitted, had it not been for the impossible position in which Mr. Briand's circular placed the parish priests.

ACCIDENTALLY KILLED.  
Appleton, Wis., Jan. 11.—An inquest is being held to determine the manner of death of the 14-year-old son, Frank, of Mr. and Mrs. George McDermott, of Horton, Frank and a brother went to the woods for a load of fuel, and took along a gun. In some manner it was discharged, killing the elder brother.

### WAS NOT INDICTED

And Hollenhorst May Sue Railroad for Heavy Damages.

Marshalltown, Iowa, Jan. 11.—John E. Hollenhorst, late division roadmaster of the Great Western, threatens to bring a \$20,000 damage suit against the company for false imprisonment in connection with his recent arrest for alleged conspiracy to pad payroll. The grand jury indicted him for the crime of conspiracy in Blackhawk and Grundy counties and not here.

One indictment decidedly out of the ordinary was reported in the case of "Curly" Henderson, a negro, for "stealing and running a locomotive" on Dec. 20. Henderson took a Great Western switch engine set aside for the night and ran it off a switch, damaging the engine. The maximum penalty is ten years in the penitentiary.

"I had tried everything for my baby, sweet. I can't remember Cascasweet is sold by all druggists."

## USE STEEL IN FUTURE

County Board is Opposed  
to Any More Wooden  
Bridges.

Chairman Patterson  
Bases Opinion on Past  
Experience.

The county board of St. Louis county is strongly in favor of steel bridges, when it becomes necessary hereafter to construct new bridges over the numerous streams within the county limits, or when it becomes necessary to replace some of the old wooden structures that were constructed over streams crossed by county roads, in years gone by.

This sentiment of the commissioners was given expression to at the last meeting of the board, when it was proposed to investigate the necessity of a new bridge over the St. Louis river at Aurora, one of the comparatively new towns in the northern part of the county.

Chairman E. M. Patterson, who represents the first commissioner district, and who has had years of experience on the board along the line of bridge building and maintenance, urged that if the bridge is found necessary it be constructed of steel instead of timber.

"There is no use beating about the bush," declared Chairman Patterson, "we all know from the experience of this county that it is more economical in the long run to build steel bridges in the first place than to put in a wooden structure that will either be carried out by the first frost, be weakened or displaced by heavy traffic over it, or which will, in the course of a few years, rot out so as to be a menace to the public and a constant source of expense to the county to maintain it in good repair."

"The steel bridges cost more, it is true, but they are put up to stay. They will outlast our lifetime. At least, we need never have a damage suit on our hands because of some team breaking through and getting injured. The cost of maintenance is a minimum. All that is needed, practically, is to have the steel painted every few years to prevent its rusting out. With proper care the steel bridges will certainly outlast a dozen wooden bridges."

"This board can point with no small degree of pride to the several splendid steel structures that already span the larger rivers of the county, the public highways, the big bridges over the St. Louis river at Floodwood, another over the same river at Aurora, and still others, though smaller, over one of the lesser streams on the north shore road. We have yet to hear of any complaint concerning these bridges. I believe that they have been a great investment, and that they were purchased for reasonable prices considering the high price of steel in late years."

The board has been importuned by the residents of Aurora for a bridge across the St. Louis river. They claim that such a structure is absolutely necessary to open the territory tributary to the town and provide a way for the farmers to bring in their farm products and do their trading.

Although no official survey has yet been made it is estimated that the bridge, about ninety feet long would fill the bill. It is quite probable that the committee which will visit Aurora Jan. 22, will, if it considers the necessities of the people, recommend the building of a steel bridge across the river at that point.

**BOYS TACKLE WILDCAT,  
THINKING IT WAS A COON.**

Lafayette, Ind., Jan. 11.—Walter Adams and Frank Fraser, the latter a son of Sheriff Eliot, of this city, were hunting in a thicket for rabbits along the bank of the Wabash river, seven miles north of Lafayette, when they were attacked by a huge wildcat which they killed after a hard struggle.

While passing through the woods a large rotten limb fell from a big tree, alighting near them. They saw a large animal coming out of a hole in the trunk of the tree where the limb had been broken off. Thinking it was an overgrown raccoon, they fired at the animal, which sprang from the hole and began to circle around them, all the while drawing nearer. The boys shot several times, and the cat then crawled into a hole under a fallen tree.

Leaving Adams to guard the animal's den, Fraser went to the farm house of Adams and secured a pick and shovel, and the two then started to dig the creature out. Before they had proceeded far, the enraged cat sprang from the entrance and made for Fraser. Dropping his pick, the boy seized his gun and fired, the lead striking the animal in the head, but not killing it. The dog had been attracted by the shooting, however, and after a fierce fight, killed the creature.

The cat weighed forty-seven pounds.

## YOUNG MEN'S GARMENTS REDUCED

Our display of Suits and Overcoats for young men will simply take them off their feet. Every suit in the house, including those lively, stunning styles that get so close to a young man's heart

### Reduced One-Fourth

## FITWELL METHODS ARE DIFFERENT

We press and keep in repair all garments bought here two years free of charge—a big saving in itself.

Several wildcats have been seen in the locality where they are supposed to have escaped from menageries during the summer. The pet of the animal is one of remarkable beauty, and will be made into a rug for the Fraser home.

### PHOTOGRAPHS THE VOICE.

Process That Has Been Discovered by a French Scientist.

Paris, Jan. 11.—Incredible as it may seem, it is yet true that a French scientist has invented a method for photographing the voice. The apparatus, which is called "photophone," or "photophone," or something like that, and is sold in the shops of an article of ordinary or extraordinary consumption like the gramophone. It is well known to the general public that appliances were constructed long ago by which the number of vibrations composing a certain musical note were registered by means of great words in an hour. The message on a Polak-Virag apparatus are recorded by means of a special mechanism which makes a certain number of perforations on a band of paper. These perforations are reproduced at the other end by an inverse process come out in ordinary writing. Dr. Moraga has devised a method by which a microphone would replace the manipulator. When speaking into the microphone the voice is registered as resembling a sort of shorthand, and which is photographed at the other end of the light to use such a title. The baron de Castelnau said that he never used his title, but he was curious to know how the tax collector was to distinguish between the real titles and the self-made titles which are now so common.

### MAY LEVY TAX ON TITLES.

French Chamber Has Scheme to Increase the Revenue.

Paris, Jan. 11.—The chamber has been busy discussing and voting new taxes in connection with the budget. After voting a tax upon upright and grand pianos as well as tax on all kinds of hand organs the chamber discussed a proposition to tax the transmission of titles of nobility when inherited as well as a tax on all persons now using title in France.

A member brought forward an amendment to the effect that all persons bearing titles of nobility and who in five years should not have paid the tax should be deprived of their right to use such a title. The baron de Castelnau said that he never used his title, but he was curious to know how the tax collector was to distinguish between the real titles and the self-made titles which are now so common.

The president, speaking for the government, said that the tax would be levied on all the old monarchical nobility that were still in use, and also on the title conferred by Napoleon III. Present users of titles would be required to prove their rights to the use of such titles. It was explained that the tax would only be levied on those

titles which were known to be genuine. The proposal was adopted and circulars are to be sent to all the mayors of France requesting them to send in a list of persons in their district bearing titles.

### ANNUAL BANK MEETING.

First State Bank of Two Harbors in Prosperous Condition.

Two Harbors, Minn., Jan. 11.—(Special to The Herald.)—The annual meeting of the board of directors of the First State bank was held in the bank parlors Wednesday morning. The affairs of the bank were gone over and found to be in first class condition, and the directors declared a dividend of 7 per cent. The present board of directors was reelected as follows: James H. Lund, president; John A. Barton, cashier; C. M. Floatho, H. O. Olson, and Dr. Welcome of St. Paul, directors.

John A. Barton, cashier, who has been ill for some time, was carried from the hospital to the bank to attend the meeting, after which he was taken back to the hospital.

R. B. Elliott, who acts as assistant book agent for the Duluth & Iron Range during the season of navigation, returned to the dispatcher's office yesterday and takes his place once more in the telegraph department as train dispatcher.

Sam Main returned Wednesday from a two weeks' visit with his parents in Galesburg, Ill. William Main returned yesterday.

Mrs. L. C. Grant has returned from a two weeks' visit with friends and relatives at points in Michigan. She was accompanied by her daughter, Miss Helen Grant, who has spent the last year and a half with her grandparents in Negaunee, Mich.

### SHE POSED AS MODEL SERVANT TO ROB RICH.

New York, Jan. 11.—Posing as a model servant so as to rob wealthy employers at her ease, Ethel Stein, regarded by the police as one of the most remarkable criminals in New York, has been arrested and identified by a number of her victims. More strange still is the fact that the woman seems to have played her trade in order to furnish her own home with handsome and expensive appointments.

The woman, who posed at the homes that she robbed as a model servant, is a distinctly intellectual face, and there is little wonder that the women who employed her considered they had

a "jewel" until the unpleasant realization came to them that their valuables were missing. She had been known as "Martha Clark," "Martha Robinson," "Edna May," "Emile Kent," "Emma Burke," and by a dozen other names. The police say the case against the woman is unique in that she was traced by means of burglar insurance. A number of the thefts with which the woman was charged were reported by people who were insured against just such possibilities, and in each case the thief was described as a pale, thin faced intellectual looking woman, who wore heavy lensed eyeglasses.

In this way the Fidelity & Casualty company has been able to follow the movements of the woman practically since Sept. 21, when she is supposed to have been operating in New York.

Any skin itching is a temper-tester. The more you scratch the worse it itches. Doan's Ointment cures piles, eczema, any skin itching. At all drug stores.

### MACHINERY RUN BY AIR IN WELL

Bottomless Pit That is  
Boom to Big Idaho  
Farm.

Boise City, Idaho, Jan. 11.—Three years ago, wild Albert Kildrake of New Ghent was filling up a dry well that he had dug on his place, he knocked the bottom of it out.

It was being dug down four feet square then, with a hand and a hoe. When at a depth of 50 feet stone was unexpectedly encountered, and the assurance of the man doing the work that the layer of stone could not be very thick and it was not wishing to put up with a bored well unless it was necessary, Mr. Kildrake told the man to go ahead and dig down four feet square in the rock a foot further anyhow before he gave up the job.

The next day Mr. Kildrake was called away from home on important business and did not return for a month, and no thought of the well crossed his mind in the interval.

Well pleased to have a steady job, and having received no orders to the contrary, the well digger kept at his work, and when Mr. Kildrake finally came home and took charge of affairs again, the man had dug down twenty feet into the solid rock, but had found no signs of water. Mr. Kildrake was angry at this waste of time and money, and ordered the digging stopped and the well filled up.

The first move made to fill it was to pitch down into its 100-foot depth a great boulder as large as a flour barrel. It was the bottom of the well and the boulder, smothered sound, and instantly a powerful current of water swept down into the well with a roar, taking down a wheelbarrow and two dogs and nearly filling the bottom of the well and the boulder, and the shaft about seventeen feet in depth, and showed, furthermore, nothing beyond the lower end of the shaft, but a black and apparently bottomless void which the light was unable to penetrate.

The event produced much excitement in the scientific circles of New Ghent to investi-

gate the remarkable phenomenon, but all in vain, for the very next day after the boulder had been pitched down, Kildrake laid a crossbeam over the opening, built a circular wall around it and put a wheel in place to revolve and use the constant current of air, laid flat and properly secured the fan which had been previously been running with a gasoline engine, and since that time three years the wheel has never ceased running a moment, day or night, with a strong and perfectly steady wind, which has been the means of the farm.

### BIRD STORE MONKEY COLLECTS ODD FAMILY.

Columbus, Ohio, Jan. 11.—In a little, dingy bird store at Third and Town streets, there is a monkey. He is a pet, so all claim. This "monkey," that those who know him call "Pete," finds new stunts every day. Pete is becoming famous.

His greatest feat came when he took unto himself a small white rat, which has become his constant pet and companion.

Pete is a South American "hang-tail." He is only 10 months old, but has the knowledge and general ability of an animal twice his age.

When Pete arrived in New York a few months ago, from South America, he was sent to Ben Adell, the owner of the bird store, where he now is.

### NEW PALACE TO BE BUILT BY THE CZAR OF RUSSIA.

St. Petersburg, Jan. 11.—The czar is taking measures to turn the Tsarsko-Selo smaller palace into a permanent abode. The decision has evidently been taken in the conviction that St. Petersburg will not for many years be a safe place of residence.

The palace of Tsarsko-Selo is small, damp and badly drained. Its only recreation is now at the Tsarsko-Selo, submitting plans to the emperor.

The new palace is to be of stone, with foundations of French granite. It will cost \$1,200,000, and will be used only by the czar's family. The emperor's suite will continue to lodge in the big palace.

Meantime Nicholas II is taking

steps to make his present temporary abode more comfortable. Ten thousand volumes from the winter palace already have been taken to him, including a vast quantity of fiction, which the czar reads incessantly. His favorite authors being Balzac and Thackeray.

### Notice of Annual Meeting.

NOTICE IS HEREBY GIVEN, That the annual meeting of the stockholders of the Duluth, Rainy Lake & Winnetonka Railway Company will be held at the company's offices in the Lyceum Building in the City of Duluth, Minnesota, on Wednesday, the 6th day of February, 1907, at ten o'clock in the forenoon, for the purpose of electing directors for said company and transacting such other business that may come before the meeting.

Dated January 3rd, 1907.  
DAVID O. ANDERSON,  
Secretary Duluth, Rainy Lake & Winnetonka Railway Company.  
Duluth Evening Herald—Jan. 4-11-15-25.

### BILLY MADDEN IS GREAT SURPRISE

Chicago Congressman is  
Not Leading a Public  
Service Crusade.

Washington, Jan. 11.—Representative "Billy" Madden of Chicago, in his attitude toward the public service corporations of the District of Columbia is a delightful surprise to the people of Washington. When Mr. Madden came to congress he was not preceded by the best reputation. He was charged with being a machine politician and the papers of Chicago opposed his nomination and election on account of his record in the Chicago city council, where it was claimed he was virtually the representative of the service corporations.

The good people of Washington became alarmed when Mr. Madden was put on the district committee, and their belief that he would be a champion of all corporations. But "Billy" Madden sprung a very agreeable surprise upon the people in Washington as well as Chicago.

He scarcely had taken his seat in the district committee before he began an investigation of the municipal affairs of Washington. Without making any promises, he took up the cause of the people of the district against the street car companies, the gas company and the electric light company.

Mr. Madden is proving a real thorn in the side of the public service corporations. His long service in the city council of Chicago has especially equipped him for the work on the district committee. He knows what the people ought to expect from the public service corporations, and all of the questions which are now coming up in connection with the franchises of the District of Columbia are owed to him.

He is a forceful speaker and is ever ready on the floor of the house to defend the demands for 75-cent gas in the district, and universal transfers on the street car lines.

The reports of Mr. Madden's good work in the last session of congress reached Chicago last fall in time for the election. When he was a candidate for re-election, all of the

reform papers which had fought him in previous years supported him. "Billy" Madden, who was formerly recognized as a corporation politician, is now looked upon as one of the leaders in the reform movement of Chicago.

### CAPTAIN FILES WRECK REPORT

Tells of Disaster to the  
Ireland on Gull  
Island.

Capt. J. P. Minsky of the steamer Ireland has filed a wreck report at the Duluth customs office of the disaster which occurred on Gull Island Dec. 3 last. During the north-west storm which was blowing down Lake Superior at that time, the Ireland was wrecked on the reef and the wrecking companies were unable to release her for several days.

In the report the captain states that the wreck was caused by an error in judgment on the part of the steersman in charge at the time. The estimated loss on the vessel itself is \$30,000, and on the cargo \$4,000. There were 7,000 tons of coal aboard the vessel, and several tons of which was lighted in order to release the steamer. The report stated that the Ireland was wrecked on the reef and the Great Lakes Wrecking & Towing company rescued the boat.

The name of the sailor who was drowned during the second disaster to the Ireland, after she had started back to Duluth from Bayfield was given as Andrew Daniels. He attempted to leap from the deck of the big boat to the tug Crosby, but could not quite make the distance and fell into the lake.

The Ireland is owned by the J. C. Gleichrist company of Cleveland, and was making her final trip to Duluth at the time the disaster occurred. After the wreck she was laid up at Bayfield, Wis., for several weeks, and temporary repairs were made before she started on her trip to Duluth, arriving here Dec. 25.

After the cargo of coal had been unloaded here last week, the Ireland was removed to the shipyard at Superior. As there was about a foot of ice in the channel, it was a slow trip, and it is said that the Ireland suffered still more damage. Nearly every one of the buckets or blades on her wheel were broken off by the ice, and the temporary rudder which had been placed on her at Bayfield was also torn off.

## Women's \$38 Fur Coats Tomorrow—\$25

Here is a grand clearance special in Fur Coats. There are just nine coats in this lot, some nearseal, some brown French coney and some curly Astrakhan; all well lined with fine brocade silk or Skinner's guaranteed black satin. The regular selling price is \$35 and \$38 per garment. We will let you pick any coat in the lot for—tomorrow—**\$25.00** only.

Now this is certainly the greatest Fur Coat snap we have ever held out, and there should be a ready buyer for every one of these coats Saturday morning when the sale opens.

**\$62.50 FUR COATS FOR \$39.50.**

If you wish to add a few dollars for something extra good, buy one of these \$62.50 Nearseal Coats for **\$39.50**. There are just a few to be had at this price, and they are all made of select furs, with lining of Skinner's best satin. It's a rare opportunity.

**FUR NECK PIECES AND MUFFS, 1/4 OFF.**

We haven't sold out all the nice Furs by any means. Wish we had. There would have been more money in it for us. As it is, we still have a large line of beautiful Fur Neck Pieces and are offering them now at **One-Fourth Off**. That spoils our profit, but we are anxious to make a complete clearance, preferring to count the cash rather than merchandise when we take stock Feb. 1st. If you want a nice Neck Piece, Scarf or Muff, come and make your selections, with as little delay as possible—it's to your interest.

**CHILDREN'S FUR SETS 1/4 OFF.**

These cute little Children's Furs are all included in this week's Fur Sale. Most of them are white and are priced from \$1.25 up to \$10.00. Imagine how pleased any little girl would be to be toggled up in one of these pretty sets. All going at **One-Fourth Off**.

## The Half Price Sale of Women's and Children's Coats Will Be a Hummer

The stock of Women's and Children's Novelty Mixed and Plaid has dwindled remarkably fast under pressure of our Great Half Price Sale. There is still an ample selection left for those who wish to avail of the Half Price offer very soon. But don't delay too long, please.

The Women's Coats were priced from \$12.50 to \$22.50—Choose at Just Half.

Women's Black Kersey and Broadcloth Coats are greatly reduced during this sale. They are handsome 50-inch garments, beautifully tailored and lined with satin.

\$10.00 to \$14.50 Black Coats at.....\$7.50  
\$15.00 to \$18.00 Black Coats at.....\$12.50  
\$20.00 to \$25.00 Black Coats at.....\$16.50

**EDWIN BRADLEY DEAD.**  
Mankato, Minn., Jan. 11.—Edwin Bradley died in this city of tuberculosis of the throat. He was born in Ohio, N. Y., in 1856 and located in Mankato in 1879. He was mayor of the city from 1879 to 1887, and also served several terms in the city council and one term on the county board during the Sioux Indian outbreak in 1892. He was appointed by General Sibley marshal for several counties in southwestern Minnesota.

Was it YOU who asked a friend the other day if he knew of a good boarding house? If you are the man there on the county board during the Sioux Indian outbreak in 1892. He was appointed by General Sibley marshal for several counties in southwestern Minnesota.

## STILL ON JURY CASES

District Court Announces Cases Set for Monday and Tuesday.

Verdict Rendered for Defendants in Esmond Hotel Suit.

The district court is still working on the jury cases for trial this term, Judge Dibel announcing this morning the setting for next Monday and Tuesday.

In Judge Ensign's room a jury in the action of Irwin & Sloan against Stitt & Howe returned a verdict in favor of the latter firm, after deliberating a few minutes over the evidence. The case is one in which Irwin & Sloan, proprietors of the Esmond hotel, at the corner of Twentieth avenue west and Michigan street, for alleged arrears in the rent of the hotel building. Stitt & Howe opposed the claim, and filed a counter claim of something over \$40, which sum they claimed represented the expense that they had been put to in necessary repairs on the building. The jury, by its verdict, allowed the full amount of the counter claim.

Irwin & Sloan were represented by W. E. Whipple, and Stitt & Howe by H. B. Fryberger.

In Judge Cant's room the jury is listening to the testimony in behalf of Ambrose Kunder and Joseph Roberts against the Shenango Furnace company. Both men claim to have sustained permanent injuries in one of the company's shafts owing to their fall in a bucket to the bottom of the shaft. They claim that the accident was due to the negligence of the company in the employment of an unlicensed engineer. Each man asks for damages in the amount of \$2,000.

The action is one that was begun during the November term of district court. Theodore Hollister represents the miners and E. C. Kennedy the defendant company.

It was expected that the civil action of the Duluth Log company against the Marshall H. Coolidge company would be tried in Judge Ensign's room this afternoon. The action is one involving damages for the alleged conversion of some timber.

Following is the new setting of jury cases for trial next week:

Monday—Nos. 15, 43, 46, 50, 52, 53, 54, 57, 58, 59, 60, 61, 62, 63.

Tuesday—Nos. 65, 66, 67, 68, 69, 70, 47, 72, 74, 75 and 46.

I. T. Burnside has begun an action against Harriet H. Norris to clear the title to some property located in section 31, 59-18.

## THE PRIZE FAT BOY.

Koran, a Negro, Only 18 Years Old, Weighs 625 Pounds.

Appleton, Wis., Jan. 11.—Frankney Koran, an 18-year-old negro, born in Chicago, who is spending the winter in this city, is believed to be the heaviest man in Wisconsin, if not in the Northwest, balancing the scales at 625 pounds.

He can walk only by shifting the weight of the upper part of his body from side to side as a lift to that limb. Five feet six inches in height, he is well proportioned and has a broad chest and shoulders. His girl reminds one of a great hoghead barrel.

## RAILROADS MOVEMENT UNDER WAY

Pulpwood Shipments Make Car Shortage More Pronounced.

Northwestern Agents Will Visit This City Next July.

The movement of pulpwood and other timber products out of Northern Minnesota is now well under way, adding to the difficulties of the railroads so far as the car shortage is concerned. The movement is an important factor in the calculations of the roads, and this winter will probably amount to about 5,000 cars.

As these shipments begin just at the time when the heaviest movement of certain other classes of freight begin to show a falling off, the roads have no opportunity to recover from the fall rush before this winter business results in a further congestion of the terminals, taking all available cars, and causing a continuance of the car shortage.

One thing for which the roads entering Duluth are very grateful is the fact that the weather thus far this season has been of the sort to make traffic easier. Cold weather and snow would have made the congestion much worse than it has been at any time this winter. A big storm now would seriously interfere with all lines of business on the railroads, and would result in a temporary blockade that would make the situation much more disagreeable from the shippers' standpoint than it now is.

Severely cold weather makes the operation of trains more difficult, and means that each locomotive must haul a shorter string of cars. An engine can haul a much larger load on a warm day than on a cold one. Northern Minnesota has been peculiarly fortunate in this respect, for the weather this winter, for the region farther to the West has been troubled with quite a number of heavy storms, which delayed traffic on the main lines and completely blocked some of the branches.

In the mountains there has been so much snow that shipments east have been delayed to an alarming extent, and Duluth contractors who have been waiting for shipments of lumber and other timber products from the Pacific coast country have felt the effects of the delays. All during the fall there was so much business on the Western line that lumber shipments to the East were badly delayed, but since winter set in in earnest these delays have become all the worse. Double tracks along all the railroad systems clear to the coast, with more motive power, seems to be about the only solution of the problem of how to get freight back and forth within a reasonable length of time.

Another reason for the coal famine in the Northwest has just been advanced. It is that the interior dealers expected a drop in freight rates late in the fall, and therefore delayed placing orders with Duluth docks in the hope that they would be able to get better freight rates by waiting.

## COMING TO DULUTH.

Next Meeting of Northwestern Agents Includes Jaunt to Duluth.

A. M. Fenton and G. A. Smith, representatives of the Northwestern line in Duluth, have returned from Chicago, where they attended a meeting of all the general agents of the company. The meeting was a very successful one, and showed that the business of the road increased in almost all districts last year.

The next meeting will be held in St. Paul, and a feature will be a side trip to Duluth. The agents will probably spend a day here. As there will be between eighty and ninety of them, their business will be of considerable consequence.

R. H. Hall Chief Clerk.

Ray H. Hall has been appointed

chief clerk to W. J. Power, general freight agent in Duluth for the Great Northern. Mr. Power succeeds John Fogarty, who has been made contracting freight agent of the road in Duluth.

## SUPERIORITE LOSES HIS COIN

Light Fingered Octoroon Neatly Abstracts Roll of Bills.

George Kalschnig of Superior is claimed to have been done in fine style, yesterday afternoon, by a diminutive and dainty little Octoroon named Mamie Brown. George had just come over from across the bay to see the sights, and with all the rural greenness of his rustic home in Superior still clinging to him, looked like easy meat to Mamie and her pal, Walter Griffith.

George was leaning against a post in front of the Lenox hotel, gazing, ruminatingly, at a poster, setting forth the beauties of the "London Gaiety Girls," when, according to his story, he felt a pair of loving arms around him and a voice whispered in his ear.

took the whole outfit to the station. Kalschnig was released upon telling his story. Mamie and her colored friend, Walter Griffith, were kept over night, and when arraigned before Judge Windom, pleaded not guilty. Griffith is charged with disorderly conduct, and will be tried this afternoon. Mamie is charged with grand larceny in the second degree, and will have her hearing tomorrow morning at 10 o'clock.

## WILL ENLARGE THEIR STORE

French & Bassett to Make Many Improvements at Once.

Plans are out and work will be started at once for a complete remodeling of French & Bassett's store, at First street and Third avenue west.

A new fourth story will be added, and the present basement, which is used for storage and shipping, will be transformed into a handsome display room, with an attractive and convenient entrance at the corner nearest Superior street. The crockery, china, stove and house furnishing departments will occupy this new "Avenue Floor," giving them the increased space needed.

new warehouse at 314 and 316 West Michigan street, for the storage of duplicate stock, and for increased handling and shipping facilities. This warehouse is so located on the railway tracks that cars can be placed at the rear door and goods unloaded directly into the warehouse.

In an interview this morning, Mr. Bassett stated that it is the purpose of the firm to make the enlarged store as convenient and attractive as possible in every way, and to give the people of Duluth and vicinity a store equal to any in America. Our house was established in the city in the spring of 1887, almost twenty years ago, and in that time we have made many changes and enlargements. We have unbounded confidence in the present and future of Duluth from every standpoint, and this present enlargement and improvement by us speaks louder than words possibly can.

## ASKS CONGRESS TO SET ASIDE RULING.

## RELIEVES MANY CASES

Prescription for Rheumatism and Kidney Troubles.

Get the Ingredients From the Drug Store and Mix Them Yourself.

A large Eastern publication tells its readers of a number of simple and safe prescriptions that can be made at home. The following, however, for the cure of rheumatism and kidney and bladder troubles receives the greatest praise, viz., Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple vegetable ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumblerful of water after each dose. It is further stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic affections relieving the aches and pains and reducing swellings in just a short while.

A well-known local druggist states that the Compound Kargon is the drug which acts directly upon the eliminative tissues of the kidneys, cleanses the spongylike organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

Cut this out and hand to some sufferer which would certainly be an act of humanity.

## HAPPENINGS IN THE DAKOTAS

Family Burned Out and Then Nearly Frozen to Death.

**NORTH DAKOTA.**  
Minot.—The coal situation in the country is serious. A traveler going through the country reports that it is impossible for all the claim holders to live through the cold spell. They have no way to get out and no way to secure coal. The situation is especially serious to women claim holders who are alone. While John Benton, wife and child were asleep in their home, eight miles north-east of Minot, a fire broke out in the barn. The family escaped in their night clothes to the barn. The woman returned to the house for clothing and burned her face and hands severely. Her hair was burned off. He got a part of a blanket and the three stayed in the barn until 10 o'clock the next morning. It was 33 below zero.

Mrs. Benton tore the blanket into four pieces and wrapped it around her husband's feet and hands, which were frozen. She then tied the horse and headed it towards Benton's father's house, a mile away. He was taken to the latter house and is in a precarious condition. Mystery surrounds the disappearance of Howard Harvey, who left home, seven miles south of Minot, for the coal mines, fifteen miles away. He has not been heard of since. The mines are closed three days and it is feared he is frozen. His team has not been found.

Search parties are being organized. Pursuant to the orders of Judge Goss of the district court, the grand jury, recently called, is making a searching investigation of the county officers of Ward county. In his charge to the jury Judge Goss instructed them to probe deeply into all charges and to analyze the motives of the witnesses.

Harvey—Burt McIlwain, 20 years old, remembered as having played with Harvey football team against Minot was killed by the accidental discharge of a rifle. He was helping to slaughter hogs. He struck a hog with the butt of the gun, which exploded and he died in thirty minutes.

Bismarck—A court-martial composed of Lieut. Col. Kove, Maj. Purdon and Capt. Henry, Boyd, Mather, Knapp and H. J. Joy, convened yesterday to try Capt. Ross of Lancaster, for an alleged shortage. Ross was captain of Company E, which was disbanded in November.

**SOUTH DAKOTA.**  
Miller—Mrs. Moynihan and her two sons, living southwest, had a narrow escape from suffocation by soft coal gas. One of the sons in falling out of bed rolled so as to turn on the telephone and call the neighbors. The mother lay for some time as dead and has not fully recovered yet.

### PASS A BAD NIGHT.

Condition of Furnace Victims is Reported as Unfavorable.

Pittsburg, Kan., Jan. 11.—The victims of the Eliza Furnace disaster were reported to have passed an unfavorable night and two more deaths are expected during the day. Assistant Fire Chief Peter Snyder, who fell into an ore hopper the night of the explosion, is in a serious condition, as a result of his exposure on the cold night pneumonia has developed. The search for additional bodies is still in progress but none have been found since last evening.

For those who live by brain work Grape-Nuts food exists.

"There's a Reason."

## BUILDING OPERATIONS

Three Million Dollars is Conservative Estimate for 1907.

New Eight-Story Office Building Reported Under Consideration.

Building Inspector Kelley expects that building operations in Duluth during the year 1907 will aggregate at least three million dollars. This is in figures as received at the building inspector's office, where costs are naturally placed at a minimum in order to reduce fees, and the actual cost of buildings to be erected in Duluth during the coming year will probably total nearer four million than three. Work on the new courthouse will be begun as soon as the frost is out of the ground this summer, and in fact the auditor has already been instructed to call for bids for clearing the ground for the new structures, the courthouse proper and the jail. This, including the cost of the site is expected to total over \$500,000, and will go a long way towards making up the three million.

While the site for the new postoffice, just across the street from the present postoffice and federal building, has not yet been actually purchased, its selection was stamped as highly satisfactory by Supervising Architect Tabor and Secretary of the Treasury Shaw, and this practically assures its final selection for the location for the new building. No details as to the cost or plans for this new structure are known, but work on it will probably be well under way before the close of 1907 and its cost, in addition to that of remodeling the lower floor of the present federal building for the use of the various offices will amount to a handsome figure.

The Peavey Elevator, now under construction will not be finished until the year is pretty well advanced, and is one of the most pretentious structures in the city.

In addition to these it is persistently rumored that one of Duluth's wealthy men is considering the construction of an eight-story office building on Superior street on the site of the Trust company building where the City National Bank is located.

This would necessitate the tearing down of the present building as the walls are not built heavy enough to satisfy the requirements of the law in an eight-story structure, though the foundation is said to be heavy enough for an even higher building.

The same gentleman is also said to be about to build a \$200,000 residence in the East end, but no confirmation could be secured either of these reports.

These, in addition to a large number of less pretentious residences and store buildings throughout the city, with the possibility, of course, of the Wisconsin Central beginning their depot on the Bowers during the year, bring the grand total up to an imposing figure, and it would not be at all surprising if Mr. Kelley's conservative three million were greatly exceeded.

**LATE DOINGS IN UPPER MICHIGAN**

Man Caught by Falling Tree Near Daggett and Killed.

Menominee—Edward Swanson of Marquette, Wis., met a horrible death when a large tree near Daggett, Mich., which he was cutting fell, crushing his body between the trunk and the stump, leaving every rib and vertebra of his body in a mass of splinters. He was a single man, in his thirties, and was employed as a logger. He was killed by a falling tree near Daggett, Mich., which he was cutting.

Sault Ste. Marie—John George Johnson, aged 30 years, died at Bay Mills. He was a logger in the upper peninsula, and spent nearly all his life with the Indians, although none of them. He was an interpreter and took part in many important councils with the whites.

Hancock—News of the death of Michael Shukero, who passed away recently in Chicago, has just been received here. He was a surprise to his friends, who thought he was either in the Soldiers' Home at Grand Rapids, Mich., or with friends at Putte, Montana. Mike was one of the best characters that ever lived in the copper country. He was a runner, making his home at no place any great length of time. When in Hancock he lived with friends on any one place very long. His great desire in life was to travel and see the world. He was a very good whistler and dancer, he also had a pipe organ, one of which was the building of a bridge across the Atlantic ocean.

Calumet—There has been organized among the male members of First Presbyterian church a new society to be known as the Presbyterian Brotherhood. While the officers for the officers for the new society have not yet been chosen, it is expected that this will be done in a short time. The local society will take steps to become affiliated with the national organization as soon as the latter announces its plans.

Mrs. Peter L. Matheson of Laurium, Mich., left for Hot Springs, Ark., where she will spend the next few weeks for the benefit of her health. She was accompanied by her brother Ross McLennan, who will visit there with her.

The Bigelow group of mines are to have their own telephone exchange along lines similar to that in use by the Calumet & Hecla company. The new exchange is to be located at the Tamarack location in the abandoned mine office completed several months ago for this purpose. The exchange was ordered some time ago and should have been entirely installed by this time, but it seems that too busy with other work to complete this and for this reason the delay followed. It is expected that the new exchange will be in use within the next month or two.

### TO PLAY TWO HARBORS.

Northern Hardware Seven in Training for St. Paul Game.

The Northern Hardware hockey team will go to Two Harbors tonight for a series of two games with the city team of that town. The first game to be played this evening and the second tomorrow afternoon. The game will be a practice game to get the locals in shape for their contest with the St. Paul Victorias next week when anything else, as they anticipate a very easy time with the Lake county boys. The only possible hitch in the arrangements for the game with the

All Underwear in the House ONE-FOURTH OFF.

# THE COLUMBIA'S YEARLY REBATE SALE

holds the center of the stage and attracts the masses. This is no surprise to those who have watched the course of the Columbia Clothing Co. since it succeeded the old Great Eastern and boldly broke away from the old-fashioned "make 'em pay in-the-first-place" and "stick-'em-at-sales" methods to which many of the local stores still adhere. People submitted to these things partly because they did not know better, and principally because they could not help themselves and did not believe that those who pretended friendship were handing them "lemons" regularly. The Columbia is after the bulk of the splendid business of Duluth and vicinity and is getting it as fast as the big majority find out that the very best goods are sold here all the time at prices seven to ten per cent less than other stores add in fixing their regular rates. This policy excludes the corrupt practice of giving secret rebates all the year round and must be taken into serious consideration by every man and mother who is looking for genuine, unadulterated and unmagnified

## January Clearing Bargains.

## IS FALLING BEHIND

Germany Has Lost Position of Relative Importance in World.

Dependent More Than Ever on Other Countries for Supplies.

Berlin, Jan. 11.—Colonial Director Dernburg explained the foundation of Emperor William's so-called "Weltpolitik" (world policy) this evening at the commercial convention of the German chamber of commerce. Laying great stress upon the economic enterprise of Germany and the development of her colonies, Herr Dernburg said:

"The German colonial question is the question of the future of national labor, the question of the bread of millions of industrial workers and the question of the employment of German capital in trade, production and navigation."

In the presentation of the facts leading up to these conclusions, Herr Dernburg said that the English speaking nations of the world in the middle of the eighteenth century numbered 5,000,000 and the German speaking nations at the same period numbered 20,000,000. Today 120,000,000 speak English and only 70,000,000 speak German. Germany had lost a position of relative importance in the world because she had no colonies and was dependent more than ever on other countries for raw materials and for food supplies.

Herr Dernburg described the rapid development of the United States and its increasing economic importance and commercial influence throughout the Western hemisphere, to the detriment of European nations. Light and electrical power plants in Brazil had passed from German into American hands; great mining undertakings on the Pacific coast of the United States; Japan and the United States were favored by short-cut freight routes and were thus gaining on Germany in supplying the Chinese market, and the plan was being made to control the price of cotton, the advance of one cent per pound meaning an added cost of eighty million marks to the world's manufacturers.

East Africa, he said, can send Germany cotton of the American grades, while East Africa produces the Egyptian grades. The great cotton growers of the Nile valley already are studying the cotton possibilities of East Africa, because the quality of the Egyptian product had deteriorated owing to the construction of

the Assuan dam. Cotton land cost \$1 to \$15 for two and a half acres in East Africa, compared with \$50 to \$100 in Egypt, and \$200 in Texas. Professor De-warburg estimated that the German colonies were able to produce 250,000 bales of cotton. The cotton raised in Togoland already sold for 2 cents a pound more than American cotton. On the subject of the production of copper, Colonial Director Dernburg said that Germany imported \$27,500,000 worth of copper yearly. Copper mines were now being opened at Otavi, German Southwest Africa, and other deposits were under investigation. Director Dernburg then touched upon wool. He said that Germany imported 165,000 tons of wool, which can partly be supplied in German Southwest Africa.

**ALLEGED THIEF BOUND OVER.**  
Washington, Jan. 11.—Edwin Lechmore, alias Clarence Henri, charged with the theft of valuable gems and coins and gold dust from the National museum, to the value of \$100,000, was bound over to await the action of the grand jury in the sum of \$3,000. He is in jail.

### PREPARING SUIT

To Be Brought Against Illinois Central for Back Taxes.

Springfield, Ill., Jan. 11.—Anticipating prompt and favorable action by the legislature on Governor Denen's request for an appropriation of \$150,000 for further investigation and the prosecution of suits against the Illinois Central railroad for the collection of back taxes, Attorney General W. H. H. Boys, who has been engaged by the state to conduct the suit, was busy with Governor Denen and Attorney General Stead today preparing the suit, which probably will be filed early next week. The bill to be filed will be a very lengthy document, and the utmost care is being taken in its preparation. It is expected that the suit will be accompanied by a stenographer and, taking with him a huge pile of correspondence, he will accompany the attorney to Chicago. He will return to Springfield tomorrow night.

**EARTHQUAKE IN KANSAS.**  
Arkansas City, Kan., Jan. 11.—What is believed to have been an earthquake shock was felt here at 1:46 this morning. The shock lasted a few seconds. Persons were awakened and dishes rattled, but no damage is reported.

## Surprising Reductions on Suits and Overcoats

WHAT is left of our Winter Coats must go, and never before have we offered such Great Inducements. This is our regular high grade Clothing. Every garment this season's make.

**59c \$1.19 \$1.29 98c**

The time for buying is now—all stocks are entirely too large. We inventory Feb. 1. It's a clean sweep of everything till then.

## WILLIAM ALDEN SMITH CHOSEN

To be Senator From Michigan to Succeed R. A. Alger.

Lansing, Mich., Jan. 11.—Congressmen William Alden Smith of Grand Rapids was last night nominated to succeed United States Senator R. A. Alger. As there are only half a dozen Democrats in the state legislature the nomination by the Republican caucus is equivalent to an election. When the caucus adjourned

Wednesday night after the fifth ballot, Congressman Smith was the leading candidate having 48 votes, but 64 were necessary for a choice. Last night, before the 48th vote was counted, it was evident that the Grand Rapids congressman had won. Mr. Smith received 88 votes; Congressman Townsend had 26, a loss of one since Wednesday night; Arthur Hill of Saginaw, whom Governor Warner has charged with using improper campaign methods, had one vote; Charles Smith of Hubbell had two and William C. McMillan of Detroit, son of the late Senator James McMillan, who had 24 votes Wednesday night, withdrew yesterday. Congressman Smith's nomination was made unanimous, amid great cheering.

Upon reconvening of the legislature yesterday bills were introduced to establish 2 cents per mile as the maximum passenger rate in the lower peninsula, and 3 cents per mile in the northern peninsula over all

railroads where the regular annual earnings exceed over \$100,000 per mile. These measures were recommended by Governor Warner in his message to the legislature.

**LIGHT ON KNIFE ISLAND.**  
Congressman Bede introduces Bill Appropriating \$25,000 for Purpose.

Washington, Jan. 11.—(Special to The Herald.)—Representative Bede yesterday introduced a bill carrying an appropriation of \$25,000 for the erection of a lighthouse on Knife Island, on the north shore of Lake Superior, within the State of Minnesota.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably endorse it. Contains Honey and Tar. Conforms to the National Pure Food and Drug Law. Sold by all druggists.

# SPORTING NEWS OF THE DAY

## TO FINISH THE EVENT

Smith Squad Winners Will be Known Before Bonspiel.

Prospects for Good Attendance at Spiel Very Encouraging.

Before the bonspiel begins next week, it is the aim to get the Smith trophy event out of the way.

This evening and tomorrow the last games will be played, and the four squad winners should be known by Saturday night.

Only eight or ten games remain to be played in this event. The standings of the four squads are as follows:

SQUAD 1.	
Brewer	1
Macrae	3
Ron Smith	3
Jones	3
Frick	3
Hurdon	3
Fred Smith	4
MacLeod	1
Jacob	2
Myron	2
Wood	2
Milne	2

SQUAD 2.	
A. H. Smith	1
Dunlop	3
Magner	3
Anneke	2
Stillman	2
Duncan	3
Nichols	3
Calin	3
McGillivray	3

The outlook for the bonspiel is very encouraging, and the prospects now are that between fifty and sixty rinks will be in attendance.

Three more rinks were heard from last evening, which were not counted on. Two rinks are coming from Laurium and Phillips, Wis., will send two rinks instead of one.

The curlers should begin to drop in Sunday, and by Sunday night most of them will have arrived. The first event will be played early Monday morning, and the first ten games will be played before noon.

The extra five sheets of ice are being put in shape at the present time, and will be ready by Monday.

## RANKIN IS COMING HERE

He and Alroth May Race at the Central Rink.

Charles Rankin, the Copper Country skater, formerly of Duluth, is expected to arrive in this city Sunday, and while he is not coming up solely for the racing, it is probable that during his stay he and Carl Alroth, the local boy, may get together for a series of races at the Central rink which would be of considerable interest in Duluth skating circles.

Alroth has been trying to arrange a match with Rankin for some time, but Rankin is a distance runner, and Rankin's strong point is on short dashes, they have not been able to agree on the distance they will race. Local enthusiasts are hoping that they will be able to patch up some sort of agreement during Rankin's stay in Duluth, and as both men are more than anxious for a race it is probable that they will be brought together.

Rankin won the championship of the Head of the Lakes last year from Alroth in three one mile heats, and the latter has been trying to arrange a match with Rankin for some time, but Rankin is a distance runner, and Rankin's strong point is on short dashes, they have not been able to agree on the distance they will race. Local enthusiasts are hoping that they will be able to patch up some sort of agreement during Rankin's stay in Duluth, and as both men are more than anxious for a race it is probable that they will be brought together.

## CORNER IN SPORTS

Here's the way a cruel Buffalo critic slams Duluth's attempt to get into the wrestling game with towns like Kansas City, Chicago and St. Louis:

"That Duluth man who is stated, has offered a purse of \$15,000 for a finish wrestling match between Frank Gotch and Hackenschmidt, the Russian, is evidently in what Philadelphia Jack O'Brien calls the 'frenzied finance of fighting' class, although in this instance it is in the 'frenzied finance of wrestling.' Just think of a purse of \$15,000 being offered for two men to meet in the gripping game. It doesn't appear as if there was such hard times in America after all, although at the same time I didn't personally think there was that much money in the world. Fifteen thousand dollars for a wrestling match. Let me go back to sleep."

Young Corbett is the latest member of the Down and Out club. He had his last chance against Tommy Murphy, and failed. Had the Denver boy showed any of his old-time form, and had he won a decision over Murphy, he might have jumped back into prominence again, and have been given an opportunity to meet some of the top-notchers once more.

But he was heavy, slow and out of condition, and Murphy had him beaten from the start.

Corbett will probably never have another chance, and he might as well retire from the ring, for he will never be anything but a third or fourth-rate fighter from this time on.

He was on the down grade before he met Murphy, and the defeat simply gives him a kick to the bottom of the trough.

It is rather odd that his finish should come so soon after that of the other two, who were pulled from the highest rung of the pugilistic ladder.

## BEELL IN ST. PAUL.

Wisconsin Wonder Will Wrestle Jim McAuley Next Monday.

St. Paul, Jan. 11.—St. Paul wrestling fans are finally to be given an opportunity to see Fred Beell, the wonderful little wrestling freak, who has been the sensation of the athletic world for the past three months.

After two weeks' negotiations between the manager of Jim McAuley and the little Wisconsin man's representative, a contract was closed yesterday which assures Beell's presence at the local hall, next Monday night, in a handicap bout with Jim McAuley, the local champion, who took Frank Gotch busy during his stay in St. Paul last week.

Beell agrees to throw the St. Paul champion three times in one hour or forfeit the long end of the gate receipts, no side bet having been made.

**Won't Reinstatement.**  
Cincinnati, Jan. 11.—In decisions handed down today the National Baseball commission refused to reinstate I. D. Wiltz, Matthew Broderick and James A. Wiggs, suspended for having violated their contracts.

**No Early Practice.**  
A decision has just been made by the Boston Braves, the Harvard Athletic committee forbidding any baseball practice before Feb. 15. The ruling is contrary to a long established custom of starting in to hibernate for the season right after New Year's. Reason given was that the men who spend every afternoon in the cages, neglect their studies, and that the early practice did not benefit the nine to any material degree.

**Memsic May Meet Ryan.**  
Los Angeles, Calif., Jan. 11.—Efforts are being made here to match Adam Ryan and George Memsic in a twenty-round bout some time in February.

Memsic holds two victories over Ryan, but Adam claims he was sick both times. He stands ready to wager any part of \$500 that he can beat George. Both men have improved greatly and should furnish an interesting bout.

Adam Ryan fought the ten-round draw with Powell in the preliminaries of the Gans-Herman fight, New Years.

**Ten Eyck Begins Work.**  
Madison, Wis., Jan. 11.—Edward H. Ten Eyck, champion single scull oarsman, recently elected coach of the Wisconsin university crews, has arrived in Madison and will take up work at once.

**CONSUL MICHAEL AT CALCUTTA COMING HOME.**  
Washington, Jan. 11.—William H. Michael, consul general at Calcutta, India, is on his way home on leave, and according to rumor in the Nebraska congressional delegation, will not return to his post of duty. This is the position that was offered to Stanley Stoner of St. Louis, but he resigned after looking the ground over. It seems certain that the war veteran, formerly an important figure in Nebraska politics, will not return to India.

It is stated by those best in a position to know that there is no intention of the president or the state department and Col. Michael, and that he is being compelled to relinquish his duties because of failing health. Col. Michael's health was bad when he was forced to abandon journalism in Nebraska, twenty years ago. He came to Washington and had been an office-holder practically ever since. Here he gradually regained his health. Col. Michael's unreliable physical condition is due, primarily, to a wound he received in the battle of Shiloh.

## SOO SEVEN IS SHUT OUT

Portage Lake Team Wins by Score of 7 to 0.

**Copper Country Men Show Great Form on Good Ice.**

Houghton, Jan. 11.—In the fastest and best played game of the season, Portage Lake blanked the Canadian Soo seven here last evening, the final score being 7-0. This is the first shut-out which the Portage Lake men have to their credit this season, and it was fairly earned, their being marked by the finest stick work and the best generalship seen on the local ice this year.

The first half was somewhat slow, the Canadian players lacking ginger, and giving the Portage Lake defense very little trouble in keeping their goal in safety, but in the second half both teams got down to work, and the play was fast and furious. Penalties were frequent and the stands were time and again brought to a halt by the brilliant play of both Canadian and Copper country men.

La Londe, rover for the Canadians, was easily their star man, but Portage Lake honors were very evenly divided. The forwards, however, though the defense allowed nothing to escape them in the few opportunities they had to distinguish themselves, had a much better chance to win laurels than their backfield teammates, and they were not slow to avail themselves of it.

Portage Lake scored three of their seven points in the first half of the game, and the remaining four during the first twelve minutes of play in the second. Barney Holden scoring the final goal on a pretty left from the middle of the rink.

Rogan, Taylor, Holden and Stuart all distinguished themselves, and the team worked together in almost perfect form. The ice was in fine condition.

Canadian Soo. Position. Portage Lake. Lohman.....goal.....F. Taylor. Brown.....point.....F. Taylor. McBride.....cover point.....Holden. La Londe.....left wing.....Cochran. W. Taylor.....center.....B. Stuart. McNamara.....right wing.....Forrester. Shaffer.....right wing.....Forrester.

## IS KNOCKED OUT AND ARRESTED

Defeated Pugilist Was Deserter From United States Army.

New York, Jan. 11.—Just after he received a knockout blow in a boxing bout here last night, Charles Sinclair was arrested by the police as the instance of the federal authorities, on a charge of being a deserter from Company M, Third United Infantry, U. S. A. The boxer is now stationed at Fort Cook, Neb., but was in the Philippines when Sinclair is alleged to have deserted in 1902.

The police learned that the alleged deserter was held for a "go" with J. J. Gerry, a local heavyweight, last night and several detectives accompanied him to the arena during the second round of the contest. While the officers were deliberating as to which of the pugilists was the man wanted, Gerry gave Sinclair an uppercut that put him out of the fight, and when Sinclair opened his eyes, he was under arrest.

**CANNING INDUSTRY**  
In Minnesota Has Grown Greatly During Past Six Years.

St. Paul, Jan. 11.—J. Moersch of the state labor department, has compiled statistics secured from a recent bulletin of the census bureau, department of commerce and labor, showing the growth of the canning industry in this state. This industry is shown to be still in its infancy. It has increased greatly within the past six years, and bids fair to be one of the important industries of the state in the not far distant future.

In 1900 there were four canning and preserving establishments in operation in Minnesota. The aggregate of the invested capital was \$43,850, and the value of products amounted to \$49,200. The expenditure for material, cost of operation, etc., was \$17,929, and for salaries and wages \$14,452 was expended.

In 1905 there were seventeen canning and preserving establishments located within the state. Sixteen of these were engaged in canning vegetables and fruits, while one establishment exclusively preserved and canned fish. The combined seventeen establishments had \$238,920 capital invested. The cost of material was \$160,004, operating expenses were \$14,555, and for salaries \$53,632 was paid out. The total year's production, consisting of canned vegetables, fruit and smoked and salted fish, was valued at \$775,200.

**TOBACCO COMPANIES ARE FOUND GUILTY.**

New York, Jan. 11.—A jury in the United States circuit court, yesterday, returned a verdict in the so-called "tobacco" trust trial, which had been on hearing before Judge Hough for the past three weeks. The jury acquitted Karl Jungbluth and Howard Young of all the counts charging conspiracy in restraint of trade, and combining to control the tobacco trade industry, but finds the McAndrews and Torbert company and the J. S. Young company guilty on two counts, one of forming a legal combination, and the other of being a monopoly. The corporations named, which were joint defendants with Jungbluth and Young, were acquitted of the charge of conspiracy.

Counsel for the defendant companies at once moved for an arrest of judgment, and Judge Hough will hear arguments on the motion next Monday.

## WOULD RACE

Barney Oldfield Wants to Give an Exhibition Here.

**Stretch on London Road Is the Only Available Course.**

Barney Oldfield, the noted driver of racing automobiles, is anxious to race in Duluth next summer, and it is possible that he will be brought to this city to give an exhibition of the work of a high-speed car.

Oldfield is now in California, racing on the tracks in Los Angeles, San Francisco, Oakland and other Western cities. He will return East in the spring, and his manager, E. M. Morrow, in a letter to E. J. Filiault of the Mutual Electric company of this city, writes asking if a race can be arranged for an exhibition race in Duluth.

Oldfield carries two racing cars and a racing-touring car with him, and also an expert assistant driver. He would give an exhibition race between himself and his assistant, or would meet any local automobilist in a race. He would also attempt to lower the record here, and would race against time on any suitable track.

"I don't know how it could be arranged," said Mr. Filiault, "unless we went ahead and got up a purse for Oldfield to give an exhibition race, or a race against time on London road. There is no suitable track where admission could be charged, but there is a beautiful stretch on London road, about two miles in length, where an exhibition race could be held, although, of course, no admission price could be charged, and there would be quite a large expense connected with the race."

Duluth has never seen any two-mile-a-minute racing machine, and it would be a great novelty to bring a man like Oldfield here.

## WILL PLAY VICTORIAS

Northern Hardware Seven to Go to St. Paul Next Week.

The Northern Hardware Hockey team is expected to go to the Twin Cities next week for a game with the Victorias, champions of Southern Minnesota. All arrangements for the contest are not closed, but the St. Paul men have practically agreed to bring the locals down for the game, and Manager Funn has come to the conclusion that he will receive a confirmation of acceptance of the Duluth team's terms in the near future.

While nothing definite is known on this point it is thought that the Victorias will be brought here for a game the week ending Monday, and it is probable that the Duluth team will be in Duluth and the boost it would give the game would be invaluable.

**Cubs Will Lose Sebring.**  
Cincinnati, Jan. 11.—Chairman Herrmann of the National Baseball commission, yesterday stated that the petition of player James Sebring for reinstatement to good standing in baseball will be refused.

That means that Sebring will be unable to play with an organized baseball team outside of the Tri-state league of Pennsylvania, said Mr. Herrmann. Sebring is under contract to the Chicago National league club for the next two years, but will not be allowed to play with that club. Sebring played with the Williamsport, Pa., team last season while under contract with the Chicago club.

Chairman Herrmann stated that the official finding by the commission in the Sebring case would be given out some time next week.

## BRIEF TELEGRAMS.

Commissioner Nell announces that the rate of wages paid to the miners for the month of January will be 6 per cent above the basis. This is the same as the December rate.

John McCane of Algonia, Iowa, Thursday induced the 12-year-old baseball team outside of the Tri-state league of Pennsylvania, said Mr. Herrmann. Sebring is under contract to the Chicago National league club for the next two years, but will not be allowed to play with that club. Sebring played with the Williamsport, Pa., team last season while under contract with the Chicago club.

Chairman Herrmann stated that the official finding by the commission in the Sebring case would be given out some time next week.

# THE NORTHWESTERN

228 CENTRAL AVENUE, WEST DULUTH.

## WEST END

## FAST NAGS IN WEST END

Residents of That Section of City Planning Some Races.

Runaways No Longer Cause Much Interest—Other Live News.

The West end is evincing a great interest in fast horses these days, and many a resident of that section of the city has disposed of an animal thought to be slow, with the hope of securing in its place a nag that will make those of his neighbors look like sulking platers.

That this desire to outshine neighbors in the matter of the possession of horse flesh has resulted in some excitement, one or two little wagers, many little arguments and two or three runaways, cannot be denied.

Some of the animals which have been secured by West enders have been so spirited that they have run away, spilling owners and demolishing \$100 cutters. Cutters are light things, anyway, and on the smooth streets in the West end a horse gets frisky and wants to bolt. Runaways do not in any measure display your West ender's horse to be a resident of that section of the city have

seen so many of them during the past few weeks that it occasions only a mild interest when a horse comes tearing down the pike without driver, without cutter and without most anything else. People casually wonder whether the driver was injured or not, and then they calmly return to business.

However, all of this is merely to say that there is talk of some fast races on the ice between swift horses owned in the West end, and that the interest in the proposed events is marked and general.

## SERVICES AT ST. LUKE'S.

Special Musical Program Will be Given There Sunday Evening.

Evening services will be held Sunday at St. Luke's Episcopal church. Ordinarily, only morning service is held at St. Luke's, but it has been decided to do away with the morning service once a month and hold it in the evening instead. The first of the series was given last month. Sunday, the pastor, Rev. R. J. Mooney, will preach, and the choir will give the following musical program:

Professional—Roland . . . . .Singer  
"Magnificat" . . . . .Choir  
"Nunc Dimittis" . . . . .Choir  
Hymn—"St. Anselm" . . . . .Choir  
Carol—"Sweet Song of David" . . . . .Williamson  
Carol—"Hail to the Savior" . . . . .Pierce  
Carol—"Hail, Holy Babe" . . . . .Gustafson  
Charlotte Dunning, Miss Emily Calverley and Choir.

Orison—"Pax Te Deum" . . . . .Caldbeck  
Recessional—"St. Helena" . . . . .Choir  
Organist, Miss Eleanor Pineo; choir leader, Miss Evelyn T. Abbott.

## CONSIDERABLE INTEREST

In Week of Prayer Services in the West End.

The prayer week services which have been held every evening this week in many of the churches in the West end have been very well attended. At the First Swedish Methodist church, no services will be held tomorrow evening. The services at Anderson are conducting church and Rev. H. K. Madison and Rev. F. O. Kling are in charge of the services at the First Norwegian-Danish church, and the Swedish Mission churches. At the First Swedish Baptist

church, a member of the congregation is conducting the exercises each evening. Tonight, the services will be in charge of Carl Peterson and tomorrow evening, Ed Anderson will be in charge.

## Officers Are Installed.

Duluth camp, No. 234, Modern Woodmen of America, held their annual installation of officers at Columbia hall Wednesday with State Deputy Reilly of St. Paul in charge. After the exercises, a musical program was given. The retiring consul, L. A. Larsen, was presented with a handsome bookcase. Advisor J. Thorson was presented with a watch and banker Alexander Kennedy with a box of cigars. Following the officers installed, N. N. Ole, Charles Shogren, clerk; C. B. Dice, assistant clerk; C. H. Eppens, escort; J. Imbleau, watchman; J. D. Coning, secretary; M. L. Fraser, manager; Drs. L. Q. Greeley and W. A. Coventry, physicians.

## Banquet Is Held.

Ladies' Auxiliary lodge, No. 3, I. O. O. F., held its annual installation of officers Wednesday evening at Sloan's hall. The banquet was held in charge of the ceremonies. Incidental to the installation, a banquet was held, followed by dancing. Following were the officers installed: President, Mrs. Lucy Erickson; vice president, Mrs. Rose Peterson; instructor, Miss Emma Anderson; secretary, Miss Inga Anderson; treasurer, Mrs. Sarah Hanson; Steward, Mrs. Lena Anderson; inside guard, Mrs. Inga Swanson; outside guard, Mrs. C. Anderson; trustee, Mrs. Andrew Thompson and Mrs. Andrew Hoverson.

## West End Shortfalls.

The Ladies' Aid society of the First Norwegian-Danish M. E. church met yesterday afternoon at the home of Mrs. J. P. Mo, 237 West Third street. A number of interesting matters were brought up for discussion, including the plans for the new church.

Miss Lou Potter of the United States block has returned from Glyndon, N. D., where she has been visiting friends and relatives. Rev. H. K. Madison is recovering from an attack of la grippe. Your prescriptions will be properly filled at the Lion Drug store. The annual dinner given at the Elk's hall up-town yesterday by the Elk's society of St. Luke's Episcopal church was a great success and a neat sum will be realized by the society. Mrs. C. S. Pierce of 247 West Third

street, entertained the Home Culture club on Tuesday evening.

Miss Milla Olson of 220 Nineteenth avenue west, entertained a number of her friends Tuesday evening.

"For weak lungs or lingering cough, nothing equals the Norwegian Cod Liver oil sold at the Lion Drug store."

The funeral of Ethel Peterson, the 2-year-old daughter of Mr. and Mrs. Charles Peterson of 22 North Fifteenth avenue west, was held Wednesday afternoon at the residence. The interment took place at Union cemetery.

Get Eckman's library habit. Latest novel 10 cents a week. Good cigars. Mr. and Mrs. Victor Juten of 2013 West Superior street, entertained at dinner for a number of their friends, Tuesday evening.

A number of young people in the West end are planning a big sleigh ride for Jan. 12. A trip to Lakeside will be taken and there it is expected that a dance will be held.

West enders are fathers of a scheme in which they have interested Alderman Mark. It is to the efforts of the collection and disposal of garbage. It is planned to have the garbage collected at certain intervals and the collection of the same to be made by the city.

Several of the officers of the Alderman Mark is said to be conferring with the health department officials on the proposition and he may bring it before the city council.

West enders have received here of the death of Karl August Olson, on the liner "Vestris" on a trip to Lakeland, Norway, whither Mr. Olson was going to spend the rest of his days with his mother. He had been suffering from consumption and that dread disease caused his death.

Rev. H. K. Madison, pastor of the First Norwegian-Danish M. E. church, a purse was given to the Oskio home. The Gospel Social club held an interesting session, a social time was enjoyed. Several lectures were given. Stranmark quartet. Among those present were: Carl, Arthur, Fred, Alf, Swanson, Oliver Stranmark, Fred Hoff, Walter, George Hawkins, William Adams, Walter Matheson, Nelson, Marcus Skomars, Grover Klem, Llewellyn Pritchard, and others.

Mrs. O. B. Johnson of 219 Nineteenth avenue west, entertained a number of her friends Thursday afternoon, in honor of her birthday.

**PILES CURED IN 6 TO 14 DAYS.** PAZOMENT is guaranteed to cure any piles, itching or protruding. Piles in 6 to 14 days or money refunded. 50c.

## DEATH WAS ACCIDENTAL.

Coroners Jury Returns Verdict in Case of John Burns.

St. Paul, Jan. 11.—(Special to The Herald).—The coroners jury empaneled to investigate the cause of death of John Burns, who died in the city hospital Tuesday morning, returned a verdict of accidental death.

Englen Hall and Louis Swanson of the Salvation Army were arrested by the police pending an official inquiry into the injuries received by Burns, he having declared to the police that he had been ejected from a Salvation Army hall where he had created a disturbance.

Witnesses testified that he had received his injuries by being thrown down stairs in a private house, where he attempted to secure lodging Sunday night.

## Seaton-Day Electric Co.

Will blot out your troubles. If you have them, let our electrical work—Try them.

## HEINZE TO OUST GOULD.

Gets Control of Mercantile National Bank in New York.

New York, Jan. 11.—Wall street has learned with astonishment that F. Augustus Heinze and his associates, who were with him in Montana, Cooper, have acquired so great an interest in the Mercantile National bank, a Gould institution, that they expect in the annual meeting to place their representative on the board of directors.

Mr. Heinze says there will be "several changes of importance" in the directing force of the bank, and he would not deny that there would be complete reorganization. He has obtained control of most of the Mercantile holders of E. R. Thomas and Charles W. Morse, and it is reported, will thus be able to supplant Edwin Gould.

Financial circles were stirred by a rumor that Mr. Heinze planned to merge the Mercantile National bank with the Consolidated National bank with the Mercantile. While it is believed this is his aim, it is not his intention to consolidate them at present.

## WEST DULUTH ARE AFTER TOUGH BOYS

Police Will Check Petty Thefts of a Bad Gang.

Irving School Alumni Holds First Meeting of Year.

Complaint has been made to the West Duluth police officers by merchants and delivery men that there is a gang of boys and young men in the vicinity of Fifty-sixth avenue and Raleigh street who are causing a good deal of trouble by lugging off small articles from the stores and delivery carts when they are not being watched.

The bakery carts are the favorites with the boys, and fancy eatables are often taken while the driver is inside a store and unable to watch his cart. These depredations have been going on for several weeks, but have been getting more frequent within the last week or two, and those who missed merchandise at different times have decided to put a stop to the practice as soon as possible and have reported to the police.

The boys have never been actually caught in stealing any of the articles, but the police have the names of a number who are suspected of being in the gang. The authorities will first try to persuade the parents to keep the boys at home, or under restraint, but if this fails, active measures against them will be adopted.

## IRVING ALUMNI MEETS.

Many Special Committees Appointed at the First Meeting.

The members of the Irving school alumni held their first meeting of the year at the school building last evening, and several committees were appointed to arrange for coming entertainments and parties.

The president of the club, Ray Abbott, called the meeting to order, and was in charge of the committee appointments. There were about thirty-five members in attendance, the majority of whom are West Duluth young people, although a few came out from Duluth.

A new committee was appointed to make plans for the annual banquet, which will be held at the close of the school year, in June. The committee will seek to secure bids from different restaurant proprietors and ladies' societies to see how cheaply the banquet can be arranged. Another committee was appointed to arrange for a sleighride, to be given for the members in a couple of weeks.

As there are a number of former

## WEST DULUTH

members of the club who have moved away from Duluth, a committee was appointed to collect their names, so that invitations to the alumni banquet can be sent to them. A special meeting of the club will be held next Thursday evening, and the several committees will report.

## Little Boy Dies.

Earl Lacey, the 11-year-old son of Mr. and Mrs. A. P. Lacey, 4505 Halifax street, died Wednesday afternoon after having been ill for the past three weeks. Monogitis was the cause of death. The funeral will be held this afternoon at 2 o'clock at the residence and the remains will be buried in Oneida cemetery.

## West Duluth Briefs.

Frank Bushnell left for Brainerd, Minn., yesterday and will be employed there by the Northern Pacific road.

Mrs. R. B. Gimon, 1208 Fifty-seventh avenue west, has been called to Montreal on account of the death of her sister, Mrs. James A. Young.

Rev. and Mrs. J. C. Hartley of Mantoloking, who have been spending a couple of weeks visiting friends in West Duluth, left yesterday for Ontario to visit relatives.

A meeting of the Women's Foreign Missionary society of the Ashbury M. E. church will be held this afternoon at the home of Mrs. B. H. Smith, Fifty-third avenue west and Main street.

All members of the West Duluth Commercial club are requested to attend the annual meeting tonight. Dues must be paid before and members are entitled to vote at the election of officers.

The Queen Esther circle will hold its annual election of officers this afternoon at a meeting at the home of Mrs. Otto Erickson, 613 North Fifty-sixth avenue west.

A meeting of the Scandinavian Good Templar lodges of West Duluth will be held at Victor hall this evening. J. O. Johnson of Chicago will be the principal speaker and an excellent program has been prepared.

P. H. Martin, state chief ranger of the Catholic Order of Foresters, returned to West Duluth last night from St. Paul, where he had attended a meeting of the state court.

Archib. Person has resigned his position with the Great Northern at Superior and has returned to West Duluth.

"Don't take a musket to kill a fly." A very small ad. is for a very small service.

## WOMAN POISONED.

Stranger Found Dead in Room in a Chicago Hotel.

Chicago, Jan. 11.—Yesterday the body of a woman was found in a room in the Hotel Whitcomb, 218 West Madison street, and it was supposed at first that she had died of heart disease. Today it was definitely determined that her death was caused by the administration of an irritant poison. She came to the hotel in company with a man who signed the register "M. Friedman and wife." He disappeared before the death of the woman was discovered and has not been found. It is believed that the couple came to Chicago from some other place, but there is nothing in the effects of the woman to give the slightest indication of her former residence.

**French & Bussell**

**DULUTH, MINN.**

**Doctors Admit**

That They Can Do Nothing More For Your Stomach Than Stuart's Dyspepsia Tablets are Doing Every Day.

**COSTS NOTHING TO TRY.**

According to the expert analysis of government authorities in the United States and Great Britain, Stuart's Dyspepsia Tablets contain the exact elements provided by nature for digesting food in the healthy stomach. Stuart's Dyspepsia Tablets have saved sufferers from stomach disorders millions of dollars by giving them, in one small 50 cent package, more relief than countless treatments by physicians would bring about at \$5.00 per visit.

Perhaps you are afflicted with dyspepsia or some kindred disease arising from a disordered digestion. It may be headaches, heartburn, palpitation, liver trouble, insomnia, nervous debility. They all have their beginning in a stomach which does not secrete the juices or grind the food which is taken into it.

If so, we urge you to send for a free trial package of Stuart's Dyspepsia Tablets. It will cost you nothing and surely will bring us to gain unless you find, after using it, that you are benefited and feel that you need a full-sized package.

There is absolutely no danger in using Stuart's Dyspepsia Tablets. Nothing is contained in them that has not been subjected to the closest scrutiny by the government officials.

Stuart's Dyspepsia Tablets will digest your food without demanding a careful diet. One grain of these Tablets has power to digest 3,000 grains of ordinary food. You can be sure therefore that no matter what your condition, these little tablets taken after each meal will shortly restore your stomach to its normal condition and render it capable of doing its work unassisted.

We withhold the names of hundreds who have written us voluntarily expressing their gratitude to this simple substitute for nature.

Send for trial package today. F. A. Stuart Co., 70 Stuart Bldg., Marshall, Mich.

50 cent size package for sale by druggists everywhere.

**A SPECIAL PANEL FOR THAW TRIAL**

Two Hundred Talesmen Ordered to Appear on Jan. 21.

New York, Jan. 11.—An order for a special panel in the case of Harry K. Thaw, charged with the murder of Justice Fitzgerald in the supreme court, yesterday. The order calls for a special panel of 200 talesmen for a special jury to appear in court on Monday, Jan. 21.

This action on the part of Justice Fitzgerald appears to dispose of rumors that differences of opinion between the justice and the district attorney might result in delay of the beginning of the Thaw trial. Evidence of this feeling was shown only a few hours before the order was signed, when the justice had an application made for such an order by the district attorney.

Mr. Jerome was told at that time that a proceeding looking to the procurement of such an order had been begun by Mr. Garvin of the district attorney's staff, and that it should be completed before any further action was taken. The trouble was adjusted later, however, and the necessary signature was affixed to the order.

**How to Cure Chills.**—To enjoy freedom from chills, writes John Kemp, East Orange, Mo., "I apply Bucklen's Arnica Salve. It has also been used for salt rheum with excellent results." Guarantee to cure fever, chills, indolent ulcers, skin, burns, wounds, frost bites and skin diseases. Get it at druggists.

**PRICES ARE UNCHANGED**

Produce Market Offers No Special Inducements This Week.

Butter and Eggs Slightly Lower—Staple Vegetables Firm.

This is the season of the year when there are few changes in the produce market. The scale of prices remains about the same. The interest of the housewife centers for the most part in butter and eggs, and every reduction of a cent brings an additional throb of pleasure to her hopeful heart. Butter and eggs are a little cheaper than they have been, despite the fact that cold weather is popularly supposed to have a tendency to put a damper on the industry of hens. Some enterprising dealers paper the other day unearthed the fact that a common, every day sort of a hen which makes its home at Harvard university laid something like 210 eggs in 21 days, and remarked that still there were people who did not believe in higher education. Long distance telephone friends in St. Paul and Minneapolis, to learn where these children used to be almost at the foot of their classes in school, they now invariably stand at the head.

Poultry of all kinds is in good demand, and prices are considered quite reasonable for this season of the year. They are the same as last week. The supply is very large, but there appears to be enough birds to answer the wants of Duluth. The poultry houses report a very good business.

Fresh fish is rather scarce. The head of the Lakes lobsters are now getting in supplies of frozen herring, which are going out rapidly at fair prices. A lot of salt fish is being sold. The full catch of mackerel on the Irish coast is reported to have been almost a failure. The French sardine catch is reported the smallest on record.

Sardines and oysters are both rather scarce now. It is claimed the Maine sardine pack is about a million cases short now. It is claimed oyster canners are wondering where they are going to get off with their contracts for oysters, as they, up to the present time, have been unable to get enough stock for canning purposes to relieve the scarcity.

This isn't the best possible time of the year for the boarding-house landladies to lay in their annual supply of primes. A few packers are said to control the bulk of the unsold primes and the situation is very firm. There has been some talk among the boarders of taking up a collection with which to purchase some little token of appreciation to present these same packers, but as yet the plan has assumed no definite form. Duluth, Frunes, because they usually follow evaporated apples up or down in price, are called the "running mate" of apples, according to the Duluth Trade News. The tendency on both at present seems decidedly upward. Oregon Trade News reports that the market for apples is a little higher on account of storage prices. The best quality cranberries are in the market, and Michigan grapes are a feature. The movement of oranges from California has been slow on account of the car shortage, but prices are very reasonable. The lemon shortage has long since passed the stage of the past. The fruit is now plentiful, and the prices reasonable. Bananas are getting firmer in price.

Business along the street has been dull during the week, except with the meat

**TWO-CENT FARE BILL**

(Continued from page 1.)

At this stage of the game, it seems very likely that both of these measures will pass. The 2-cent fare bill is almost certain to go through, because few members will dare vote against it. The anti-pass bill is almost as sure, but there are quite a number of members who love their free fares too much to give them up without a struggle.

Under the rulings of the railroad, the St. Louis county members have, as The Herald has heretofore shown, been visited by the embarrassment of paying fare with their pockets full of passes.

One member from Duluth, and one only, got through without paying his fare, the conductor having honored his pass. Yesterday, however, this lucky member received a letter from the conductor politely requesting him to remit \$4.30, as he had been called upon by the company to make good. Members who have the general passes are pondering various propositions looking toward the realization of the hope afforded by the general passes, particularly those in the cities, favor another committee to investigate the claim that there are some members who work in the summer time when the coal combines are resting.

The other two resolutions are certain to go through. There will be little opposition to either of them, and the only discussion in opposition to the resolutions in their present form is that some members do not think they propose large enough committees. They would like to see three or four representatives on each committee, and some of the members would like to see a committee of five or six senators and four representatives, or even of six senators and seven representatives.

Senator Nelson of Minnesota thinks they ought both to go to the same committee, as to separate the two investigations would take too many members away from their regular duties. However, the two proposals are so widely separated that they are not likely to be submitted to the same committee.

Capt. Anton Schaefer of Rushmore has been offered the position of public examiner, to succeed P. M. Kerst, who has resigned to become examiner of the Minneapolis banks. Capt. Schaefer was the Democratic candidate for the position of public examiner, but was not elected. He is a traveling man, but is now a banker, and the appointment would be popular.

It will be pretty quiet about the capitol until Tuesday. Most of the members have left last evening for home, although a few will remain over through the recess.

The other day The Herald, commenting in an editorial paragraph on the fact that the Representative Howard of Sauk Center had returned his passes, wondered if there were others.

There are, but there are not numerous. Senator Works of Mankato handed his back, and Senator Ole O. Sagen of Fair county, the lone Populist in the legislature, has politely mailed his back to the railroad. Senator Sagen acquired a unique distinction when he was a member of the legislature of 1901, by returning his passes at a time when nobody else thought of doing such an extraordinary thing.

The reciprocal demurrage bill offered in the house yesterday by Mr. A. Nolan of Grand Meadow is very much the same as that of two years ago, on which he lost out in the senate after passing it through the house. Two changes of importance have been made, however. One is the use of the term "weights" instead of "net weights." Two years ago the latter term was bitterly opposed by the railroads on the ground that it would require them to spend much money for track scales along their entire systems. The amendment does not materially affect the shipper, and may make the bill seem less objectionable to the railroad companies.

The amendment requires the railroads to move trains at least seventy-five miles a day instead of fifty miles a day.

Otherwise, as it did two years ago, it proposes a little reciprocity between the railroad and the shipper in place of the old one-sided deal whereby the patron paid demurrage if he held cars for more than twenty-four hours, while if the railroads did not provide him with cars when he needed them, the railroad paid demurrage. The bill provides that if the railroads do not provide him with cars when he needed them, the railroad paid demurrage. The bill provides that if the railroads do not provide him with cars when he needed them, the railroad paid demurrage.

The bill will stand much better this year than it did two years ago. Since then the Northwest has been damaged by the great war, and the shipping business has been suffering for want of the necessities of life because the railroads have been so full of coal and lumber. The bill will stand much better this year than it did two years ago.

The proposal to have a plant at the state prison for the manufacture of trust will be opposed by the farm interest.

plement dealers of the state, or by some of them, in spite of the fact that it is said that they are pretty tightly and rather uncomfortably held in the grasp of the trust. The implement dealers of the state are in convention in Minneapolis, and they are organizing a fight against the bill which has been introduced in the senate by Senator Sullivan of Stillwater, and in the house by Representative Nelson of Cottage Grove. Representative Nelson introduced the same bill two years ago, and it passed the house, but stopped there. At that time not only the implement dealers and the harvesters trust opposed it, but labor interests did not take kindly to it.

In connection with the resolutions providing for investigations of alleged coal combines in this state and the charge that the farm machinery trust is doing an illegal business in Minnesota, it is said that some members, particularly those in the cities, favor another committee to investigate the claim that there are some members who work in the summer time when the coal combines are resting.

The other two resolutions are certain to go through. There will be little opposition to either of them, and the only discussion in opposition to the resolutions in their present form is that some members do not think they propose large enough committees. They would like to see three or four representatives on each committee, and some of the members would like to see a committee of five or six senators and four representatives, or even of six senators and seven representatives.

## PURE HONEY AND MAPLE SYRUP

Are Discussed by Dairy and Food Commissioner Slater.

St. Paul, Jan. 11.—Dairy and Food Commissioner Slater has issued a bulletin in which he says:

Numerous complaints have come to this office regarding the quality of honey on the market. Many people entertain the idea that when a sample of honey "sugar" evidence is in hand that the honey is adulterated. This is more an evidence of absolute purity than otherwise. Sensational articles have also appeared from time to time in the public press giving details of the process of manufacturing artificial comb honey. This story, warmed over at intervals, serves as an effective weapon with which to excite the prejudice of the pure food crank. It is a myth, pure and simple. Every sample of honey submitted to our laboratory during the past year has been pronounced absolutely pure. The blended syrup is perfectly wholesome, but is cheaper than the genuine maple syrup. The purchaser can be guided to some extent by the price of the article. The pure article can be sold at retail for twenty-five or thirty cents per quart.

DeWitt's Kidney and Bladder Pills drive the poison from the body. A 2-cent box holds a week's treatment. Sold by all druggists.

## JAPS WILL NOT VISIT FRISCO

Training Squadron Will Come No Farther Than Honolulu.

Tokio, Jan. 11.—The Japanese government has decided that on account of anti-Japanese agitation on the Pacific coast, that the training squadron will not visit the Pacific coast.

but will go as far as Honolulu only.

Washington, Jan. 11.—Members of the California delegation in congress in discussing the decision of the Japanese government to abandon the proposed trip of the training squadron to the Pacific coast, on account of the anti-Japanese agitation, expressed the opinion that San Francisco would have been a welcome to the fleet. Representative Kahn suggested the action of the Tokyo government may have been on advice of the Japanese consul general at San Francisco.

"I think," said Mr. Kahn, "that I know the people of California well enough to say that the great masses of the population would resent any harm that might be done by the Japanese fleet. They would not allow the Japanese fleet to visit San Francisco."

"While the people of California are opposed to the wholesale importation of Japanese coolies, we respect the rights of the Japanese who are now here, and the training squadron would certainly be as safe in the bay of San Francisco as it would be in a home port."

Masanao Hanahara, second secretary of the Japanese embassy, said that Viscount Goro, the Japanese ambassador to the United States, has not been officially notified of the Tokyo government's decision not to allow the training squadron to proceed to San Francisco.

"The visit of a Japanese fleet to the Pacific coast," said Mr. Hanahara, "might occasion a renewal of the controversy, and may further excite the prejudice of the pure food crank. It is a myth, pure and simple. Every sample of honey submitted to our laboratory during the past year has been pronounced absolutely pure. The blended syrup is perfectly wholesome, but is cheaper than the genuine maple syrup. The purchaser can be guided to some extent by the price of the article. ## PERMISSION TO CONSTRUCT DAM.

Washington, Jan. 11.—(Special to The Herald.)—Senator Clapp today introduced the following bill: To authorize the Western Power company to construct a dam across the Rainy Lake river at any part of, or below, the Sauk rapids in Itasca county, to a point on the opposite side of the river, in the province of Ontario; also a bill directing the secretary of the interior to cancel proceedings instituted by the commissioner general of the land office for the recovery of \$6,276 alleged to be due the United States by the Minnesota & Ontario Bridge company on account of timber used in the construction of the Minnesota and Ontario bridge across Rainy Lake river at Beaudette.

## DENN MAKES AN ADVANCE

Stock Is the Feature of Weak Copper Stock Market.

## Development Company To Be Reorganized In- to Mining Concern.

The copper stock market was weak today, with the exception of Denn-Arizona, from which good reports are coming all the time and which is so far advanced in its development from a development to a mining company. This stock was \$30 bid at the opening, sold as high as \$35 and closed at \$33 bid and \$35 asked. The new stock, Denn Mining, was quoted today, for the first time, at \$17 bid.

North Butte and the Cananea stocks were weak. North Butte opened at \$11 bid and \$13 asked, sold as high as \$11.75, declined to \$11.25 and closed at \$11.25 bid and \$11.75 asked. Cananea opened at \$23.75, fell off to \$23 and closed at \$23 bid and \$23.75 asked. Greene Consolidated opened at \$31.50, fell off to \$30.75 and closed at \$31 bid and \$31.50 asked. Cananea Central sold at \$31 and closed at \$30.75 bid and \$31 asked.

Amalgamated opened at \$18 bid and \$18.50 asked, sold at \$17.75, advanced to \$19.25 and closed at \$19.25 bid and \$19.75 asked. Anaconda opened at \$28, advanced to \$28.75, fell off to \$28 and closed at \$28 bid and \$28.75 asked. Globe Consolidated sold at \$2.75 and \$2.80 and closed at \$2.75 bid and \$2.80 asked. Copper Queen of Warren at \$15 and closed at \$15 asked; Keweenaw at \$14 and \$14.50 and closed at \$14 bid and \$14.50 asked; Hancock Consolidated at \$18 and closed at \$17 bid and \$18 asked; Copper Queen of Idaho at \$3.25 and closed at \$3 bid and \$3.25 asked; Calumet & Montana at \$6 and closed at \$6 bid and \$6.50 asked and \$6.50 bid and \$7 asked; Black Mountain sold at \$7.75 and closed at \$7.75 bid and \$8 asked.

When the Denn-Arizona Development company is reorganized into a mining company, it will have a capitalization of \$5,000,000, according to a statement attributed to Martin Pattison, president of the company.

Mr. Pattison says that the reorganization will be accomplished within a very short time, but is unwilling at this time to discuss the basis of change. He declares that there will be no further calls on Denn development stock.

It is well known that a mining company is soon to be organized to take over the Denn-Arizona property and that it will be merely a reorganization of the development concern, with practically the same men at the helm as in charge of Shattuck-Arizona.

While no definite announcements have been made, it is said that holders of development stock will secure three or four shares of mining stock for each one of their development shares, and may have the privilege of buying at par one and one-third mining shares for every development share held.

A telegram received last evening was to the effect that the work at the proposition bill, the bill to amend as was progressing on the 100-foot level.

## JURY SAYS NOT GUILTY

Decides That Juniper Ale Does Not Contain a "Stick."

A verdict of not guilty was returned by the jury in the case of the government against the Charles J. Johnson after it had deliberated about thirty minutes. The government attempted to prove that Johnson was selling a malt liquor at his establishment in the West and without a license. The liquor was sold under the name of "Juniper ale" and as the trial proceeded the case sifted down to a question as to whether or not the commodity is a malt liquor.

The trial of the case began on Tuesday and the examination of the witnesses was not completed until 4 o'clock yesterday afternoon when the attorneys began their arguments. It was shown that Johnson had been manufacturing "Juniper ale" for the last ten years and that during the years 1887 to 1899 he had paid a brewery tax, but that since that time he had refused to pay it. The government contended that he has been manufacturing the same beverage since 1899.

Johnson claimed that the malt liquor can only be manufactured by a process in which malt, made from any grain, is used, and that in the making of "Juniper ale" sugar and syrup were used and yeast afterwards added. The government maintains, however, that in using the ingredients named by Johnson a fermentation is caused which produces a malt liquor containing from 3 to 4 per cent alcohol. Several samples of the "Juniper ale" were shown in court after having been secured by the United States revenue agents in the different processes of manufacture.

The civil case of Charles T. Bunch against A. Booth & Co. was taken up this morning after the Johnson case was completed. Bunch is suing the boat company for damages for an alleged assault upon him which occurred on the steamer America, owned by the Booth company, last summer. Jens Jensen is representing Bunch while A. Booth & Co. are being defended by the firm of Davis & Hollister.

## WRECKING TUG VIOLATED RULES

L. M. Willcutts, collector of customs for the Duluth harbor, has fined the tug Manistique the sum of \$200 for violating the rules of the government by running without lights on the night of Dec. 27.

The rule which was violated was one adopted by congress Feb. 8, 1887, for the safety of passing ships and to avoid collisions after dark.

The complaint against the Manistique was made by Robert Burns, operator of the aerial bridge, who stated that the Manistique ran out of the harbor through the canal without lights on the evening of Dec. 27, and that a collision was narrowly averted.

Chap. Charles D. Brown was in charge of the Manistique at the time. The tug is owned by the Reid Wrecking company.

IN THE SENATE.

Immediately after convening, the senate entered upon the consideration of Senator McCumber's service pension bill. The bill was amended as to make it applicable to the sur-

## BALK ON SCHEDULE

St. Paul, Jan. 11.—(Special to The Herald.)—Republican members of the senate who were not satisfied with the committee assignments being made by Lieutenant Governor Eberhart, are trying to arrange a combination with the twenty Democrats in the senate to overthrow the schedule. If the combination is made it will furnish material for a lively scrap in the senate next week. Duluth members today received copies of a bill providing for a recount of the vote on the constitutional amendments relating to taxation and good roads. The bill provides for a recount at the expense of the counties on the theory that the counties failed to make a proper report of the votes.

Another bill was received from Duluth providing for the increase of the St. Louis county attorney's salary from \$2,600 to \$3,600 and that of his assistant from \$1,500 to \$2,600.

STILLMAN H. BINGHAM.

Corner First Avenue East and Superior Street.

## CITY BRIEFS

**Band Concert Postponed.**  
No band concert will be given Sunday afternoon at the Armory by the Third Regiment Band because of the death of George Buse, one of the members of the organization.

**Danced Highland Fling.**  
With the breath of the Highlands still hovering about him, and a good heavy load of "old Scotch" stirring within him, James Brown's emotions became so strong for him yesterday afternoon and he finally tore loose with a genuine Highland fling in front of the Spaulding hotel. The crowd was watching the program with a good deal of interest when Patrick Bradley appeared on the scene and piloted Brown gently eastward toward the lock-up.

**Will Wear Drab Coats.**  
The recruiting men attached to the army station in Duluth will hereafter wear drab overcoats instead of the blue, which has been worn for years. A consignment of new goods was received yesterday at the office and the blue overcoats will be sent back to the commissary department. The officers in charge of the local station have also been ordered to return all goods on hand which were sent here to be distributed to the recruits as they enlist. The stock will be sent to Philadelphia in a few days.

**To Address Men's Meeting.**  
Dr. P. H. Cleland, former pastor of the American Tract society, will address the men's meeting at the Y. M. C. A. auditorium Sunday afternoon. Dr. Cleland's subject has not been announced, but it will probably be about the work that he is now engaged in. The next meeting at the Y. M. C. A. will be held January 20 and Dr. Sylvester A. Long of Dayton, Ohio, will be the speaker.

**Request More Help.**  
A request has been made to the Washington authorities by Register J. C. H. Engel and Receiver N. B. Morrison of the local United States land office, for more help in the office. The present force has been very busy since the merger of the Duluth and St. Cloud offices during the last two weeks have been further handicapped by the absence of

**Range Men Jailed.**  
Two range men convicted for minor offenses were brought to the county jail yesterday to serve the terms of imprisonment. Gust Hill of Bismarck drew ninety days for assaulting Jack Hauvainen with a knife. Stone was to serve thirty days for being drunk and for begging on the streets at Duluth.

**Will Not Climb Stairs.**  
A communication was received by Postmaster Eaton yesterday from the authorities at Washington stating that the mail carriers are not expected to go to the third story of any building where there is no elevator, but may leave the mail in a box furnished by the families of the flat or owners of the building. This rule has never been enforced in Duluth, but will be in the future.

**Billiard Tournament.**  
Beginning tomorrow, members of the Kitchi Gami club will hold a billiard pool and one, two, three handicap tournament. Suitable prizes will be awarded to the winners and the contests will undoubtedly arouse great interest among the members of the club. A. W. Tausig, Ward Ames, Jr., and M. H. Cullum comprise the committee in charge.

**Coroner Investigated.**  
Earl Lacey, a 6-year-old boy, died yesterday in the West end, and his case was made the subject of an investigation by the coroner. The patient had been treated by a Christian Science healer. The coroner's finding was meningitis.

**Prisoner Discharged.**  
John Smith, one of the men who was shot by a man named Mitchell at the Union depot last fall, was tried before Judge Windom this afternoon for stealing a coat from one of the clothing stores on the Bowery. Smith told a consistent story, and Judge Windom decided that the evidence was insufficient, discharging the prisoner. He had the coat in his possession, but claimed that he had gotten it honestly. The coat was returned to its rightful owner.

**Draws Up Schedule.**  
The delegates of the Interscholastic Basketball league met at the boys' department last evening and elected

Miss Webster, a stenographer, who is seriously ill at St. Paul.

David Hayden of the Endlon school president of the league and Tom Horneman secretary. The committee decided to give a pennant to the winning school and medals to the boys of the team. The league will close with a banquet at which time the pennant will be awarded. The following schedule was drawn up:

Jefferson vs. Washington, Jan. 14.  
Endlon vs. Jackson, Jan. 16.  
Adams vs. Emerson, Jan. 19.  
Washington vs. Lincoln, Jan. 21.  
Jefferson vs. Endlon, Jan. 23.  
Jackson vs. Adams, Jan. 25.  
Washington vs. Emerson, Jan. 28.  
Endlon vs. Lincoln, Feb. 2.  
Jefferson vs. Endlon, Feb. 4.  
Jackson vs. Lincoln, Feb. 6.  
Adams vs. Lincoln, Feb. 9.  
Endlon vs. Emerson, Feb. 11.  
Washington vs. Adams, Feb. 13.  
Jefferson vs. Lincoln, Feb. 16.  
Endlon vs. Adams, Feb. 18.  
Jackson vs. Emerson, Feb. 20.  
Emerson vs. Lincoln, Feb. 23.  
Jefferson vs. Adams, Feb. 25.  
Washington vs. Jackson, March 2.  
The two teams having the highest percentage will play off the pennant, Monday, March 4.

## PERSONALS

## ELECTS ITS OFFICERS

Park Point Civic Club Holds Meeting in Power House.

Appoints Committee to Consider Proposed Harbor Improvements.

The annual meeting of the Park Point Civic club was held last evening at the power house of the Interstate Traction company, and the reports of committees and officers were heard and the new officers were elected. The officers chosen were: Frank Hicks, president; Dr. F. H. Burnett, vice president; D. D. McInnis, treasurer.

The reports for last year showed that the club had a very active period, and accomplished a good deal in the way of public improvements on the Point. The club is at present in a flourishing condition, both as regards the membership and the finances. There is a good safe sum of money on hand, and the club is under no indebtedness, while the total membership is eighty.

The permanent committees for the year have not yet been appointed, but these appointments will probably be made at the next regular meeting. The club expects another year of activity and is planning a number of public improvements for the good of the residents of Park Point.

The principal topic of discussion at the meeting, last evening, was the question of the harbor improvement, and whether or not the Civic club was in favor of the central canal or the breakwater plan for the protection of the Duluth canal and harbor. Several of the members made short addresses on the merits of both these plans, but the club took no action on the matter, and referred it to the committee.

The committee was composed of L. C. Harris, Dr. F. H. Burnett and D. D. McInnis.

The committee on fire protection for Park Point made its report, in which the club was informed that a special fire car will be fitted out with fire apparatus for the benefit of the Park Point residents. This car will be fitted out by the city, but will be operated by the Interstate Traction company, free of charge, and will be available within a few weeks for the purpose of organizing a volunteer fire company for Park Point.

The president of the club appointed a committee, whose duty it will be to attempt to persuade the traction company to contribute to the school children in amounts of twenty for 50 cents, instead of requiring them to procure 100 tickets at a time.

## ORDERED TO LEAVE TOWN

Vagrants of Dangerous Variety Given Till Noon to Depart.

Tried to Force an Old Man to "Loan" Them \$5.

Charged with vagrancy, Robert Dalley and James Smith were hauled before Judge Windom this morning, after spending the night in the lock-up. They were the toughest-looking specimens that have been arraigned for some time, and they are claimed to be vagrants of the worst type. The chief witness against them was Tommy Dowd, a somewhat timeworn lumber jack, whom Smith and Dalley had waylaid last evening on the Bowery and threatened to "put the life out of him" if he did not loan them \$5 without security. Dowd escaped and made his way to the nearest policeman, who at once took the men in charge and plotted them to the station.

The prisoners testified that they had been working on the lakes all summer, and that their last job was on the steamers in Ireland on their disastrous trip up the lakes. They had been shooting lumber and doing odd jobs before.

"You fellows will be holding somebody up before the winter is over if you stay around here. I am going to impose a 30-day sentence on you, but if you are outside the limits by noon today, and stay out, I'll suspend sentence. Now hike, it's six miles to the limits, and you have got two miles and Judge Windom, and the vags 'hiked'."

## GEORGE A. HUSE PASSES AWAY

Well Known Musician Dies of Pneumonia Following Operation.

Acute pneumonia following an operation caused the death of George A. Huse, early this morning.

Mr. Huse, who was 41 years of age, was a musician, being connected with Flaxen's orchestra and the Third Regiment band, as a trombone player. He was operated on last Monday at St. Mary's hospital for an obstruction of the bowels.

A full military funeral is being arranged for Mr. Huse by the musicians and members of the militia companies in Duluth.

A short service will be held at the house early Sunday afternoon, for the relatives, and the body will then be taken to the cemetery. A grand sacred concert will be given there at 1:45 p. m. by all the members of the Musicians' union in Duluth. The orchestra will comprise fully seventy-five pieces. The band and members of the two militia companies and the naval reserves will then parade to the cemetery, escorting the body.

## ANTON SCHAEFER

Of Rushmore Likely to Succeed Public Examiner Kerst.

St. Paul, Jan. 11.—Capt. Anton Schaefer of Rushmore will probably be appointed public examiner to succeed P. M. Kerst. The place was tendered him yesterday, and it is considered likely that he will accept. He was the Democratic candidate for railroad commissioner last fall. He is a traveling salesman, but is interested in a bank and has had experience in the banking business.

Mr. Kerst's term has another year to run. At the end of that time Governor Johnson will have an appointment to make for a three-year term, so if he goes in, Capt. Schaefer will be good for four years in the office.

Hugh H. Gillen was appointed municipal judge at Stillwater yesterday, succeeding A. E. Doe, resigned to become probate judge. This ends a hard three-cornered fight.

## APPLEHARD SAYS HE IS NOT GUILTY.

Buffalo, N. Y., Jan. 11.—Arthur E. Applehard of Boston, arrived in Buffalo today to be arraigned before Justice John Woodward in criminal court under an indictment charging grand larceny in the first degree for defrauding the German bank out of \$48,000 by getting worthless securities for a loan of that amount. Applehard pleaded not guilty and was admitted to bail of \$10,000.

## ASPHYXIATED BY GAS.

Alpha, N. J., Jan. 11.—Two Hungarians who had been on a spree, fell asleep on the elder dump of the Alpha Portland Cement company's plant here last night and were asphyxiated from the gas emitted from the smoldering slag.

## CHARGE OF THE NEGRO SOLDIERS AT BROWNSVILLE, TEXAS.

The house adopted the same resolution yesterday.

## COMMITTEE AFTER CASH

Raise Funds by Popular Subscription to Secure Recount.

Project Should Have Hearty Support of All Citizens.

The following communication from the Real Estate Exchange setting forth as it does, the situation regarding the passage or defeat of the goods road amendment and the tax amendment, and the

resulting effect upon the taxes and finances of St. Louis county will be of interest to every business man in Duluth. The Exchange is appealing for financial help in bearing the expenses incident to the contest of the election, and its appeal will doubtless meet with the earnest support of every public-spirited business man.

The communication is as follows: "To the Tax Payers and Business Men of Duluth: Your attention has probably been called to the fact that, at the election in November last, an amendment was submitted to the vote of the people, which amendment, if carried, will give the state legislature authority to make laws that will result in dividing the amount received from the taxes on the iron lands in St. Louis county from the municipalities therein, to the state treasury.

"At the same time was submitted an amendment, known as the 'good roads amendment.' On the face of the return it appears that the 'good roads amendment' has been defeated, and that the 'tax amendment' has been carried. A careful investigation by a committee, appointed by the Duluth Real Estate Exchange, has convinced the members of this exchange that the 'good roads amendment' was carried and the 'tax amendment' was defeated. It is of vital importance to every taxpayer and every business man in Duluth and in St. Louis county, that a re-count should be had, so that it may be known whether or not this 'tax amendment' has been defeated. A tonnage tax on the mines, payable to the state, would increase Duluth's proportion of the county expenses from 25

to 65 per cent of the whole amount raised, or, on this year's levy \$151,055. This would be equal to increasing all taxes, both real and personal, in the city of Duluth, 15 per cent.

"The effect on the range towns would be fatal. To illustrate, from official figures, Virginia, under a diverted tonnage tax, to raise the same amount of money for city expenses, as now raised, would have to pay over three times the amount of the present taxes. In Hibbing, to raise the same amount as at present, real and personal property would have to pay thirteen times the amount that they pay at present. Every range town would be affected in the same way to a more or less extent, depending upon the amount of iron properties within its corporate limits. All of these facts are of vital importance to the business interests in this city.

"In order to prosecute this contest it is necessary that certain funds shall be raised to defray the necessary expenses. The Duluth real estate exchange has, up to this time, done all the work in connection with this contest and borne all the expenses. It is fair and proper that the expenses incidental to this contest should be shared by the business men and property owners, who are just as much interested in defeating this amendment as the taxpayers and business men.

"A committee, consisting of W. Prindle, J. D. Stryker and J. A. Stephenson, has been appointed to solicit funds for this purpose, to which committee subscriptions may be sent.

"The earnest co-operation and the financial support of every taxpayer and business man is needed to carry this action to a successful termination.

## To All Members of Musicians' Union

Local No. 18, A. F. of M., City.

The funeral services of our brother, George Huse, will take place at the Armory Sunday afternoon at 2 o'clock. You are requested to bring your instrument and participate in the Grand Sacred Concert and Parade, to the memory of our deceased brother. Uniforms will be furnished at the Armory. A band of at least 25 pieces should be present, as every member of the Musicians' Union is expected to do his duty.

INGVALD WESTGAARD, ARTHUR HOWELL, President.

## NEW STORE IN CINCINNATI

Ohio Paper Describes the Establishment of J. M. Gidding &amp; Co.

The Cincinnati Times has the following to say of the new store of J. M. Gidding &amp; Co.:

"What will be one of the finest stores in America for the sale of women's apparel, is to be opened at 10-12 West Fourth street, by J. M. Gidding &amp; Co. of New York and Duluth. There will be six floors. The exterior is to be in rockwood; the interior in mahogany for the first and second floors, and the others are to be elaborately decorated by Ebbens. The entire structure is to be remodeled by Architect Andrews.

"The splendid new store is to be the home of all that is correct and elegant in apparel for women. The company keeps in closest touch with Eastern and European fashion centers, and nothing will be left undone that will please the buyer. The store will have a frontage of fifty feet and a depth of 125, affording generous area. The lighting effects will be both novel and intense.

"This newest acquisition to retail Cincinnati, will be in the very heart of the fashionable shopping district, and the management proposes to have it adorn Fourth street. There will be no store in Cincinnati covering exclusively the same ground and no effort is to be spared to make it the finest of its kind anywhere.

"The Gidding specialty store in Duluth is known throughout all the great Northwest, and the company plans to have the Cincinnati store mean as much to the Middle states and to the thousands of shoppers who come from the country beyond the Ohio river.

"J. M. Gidding, of the firm, is recognized as an authority on fashion and it is he who will pay particular attention to placing the Cincinnati store on a footing that will at once make it popular."

TRY OUR DAINY LUNCHES

for followers of the skiing sport. A grand tournament has been prepared for that day, to take place at Chester creek hill, and representatives of skiing clubs will be in attendance from many cities of the Northwest.

A committee from the Duluth Ski Club is in charge of the affair, and is making plans for an interesting program of events. There will be contests of all kinds, and liberal prizes will be offered to those who wish to compete. There is a total of \$300, which has been subscribed by business men of Duluth for the contests. The first prize will consist of \$75, contributed by the public affairs committee of the Commercial club, while other prizes will be given by the management of the St. Louis hotel, Marshall-Wells company, Kelly-Haw-Thomson company and others.

Word has already been received from several of the best ski skiers in the country that they will compete in the contests. The Chester creek hill is a new one, never having been used by the club before this year, but great improvements have been made on it, so that the hill is now one of the best in the Northwest. The hill is in such shape that some unusually skillful skiing may be witnessed every day and especially will this be so on the day of the tournament, Jan. 20.

The Sons of Norway lodges of Duluth have contributed \$10 as a special prize for the longest standing jump made at the tournament. It is expected that there will be keen competition for all of the prizes.

There will be cheap rates to Duluth for the tournament on all of the roads and large crowds are expected from the Twin Cities and Northern Minnesota, Wisconsin and Michigan points. The committee which is in charge of the preparations for the affair is composed of the following members: H. B. Knudsen, H. H. Borgen, Wallace Wells, Dr. Lyman, H. Wannabe and John Wold.

"All is soon ready in an orderly house," and the ad. you are looking for is soon found in The Herald want column.

**SPEAKS TO HIGH SCHOOL PUPILS**

Rev. E. M. Noyes Give Talk on "Life As An Investment."

Rev. E. M. Noyes, formerly pastor of the Pilgrim congregational church of this city, and now a resident of Newton Center, Mass., spoke to the students of the high school this morning.

Mr. Noyes recalled the night when the big school was opened. He was the speaker on that occasion and was the first one to deliver a lecture in the high school building.

He said that he recognized several of the pupils and had baptized some of them as a minister of their church, but notice that they had changed considerably since he performed that function.

He expressed his pleasure at being able to address this new and rising generation of boys and girls, and spoke to them on the subject of "Life as an Investment."

"I asked a young man who graduated from an Eastern university, not long ago," he said, "what he intended to do with himself now that he had completed his education, and he replied that he was looking for a job with a good salary and as little work as possible. There are not many such men in the West, although there are many of them in the East. Now that is not the highest ideal in life. Every life represents an investment."

"The question is, what return is your life going to make on that investment? Your parents, who have made innumerable sacrifices for your sake, your city and state, which have benefited you in many ways, your country and your God, all have a share in the returns from your life. What are you going to do with it? The life that is hidden away or buried does not pay interest. The best man is the one who recognizes his life as an investment and pays the best possible returns on it."

"There are two theories of life at the present day. One is self-development for one's own sake. The other, and true theory, is to make the most of your life, not only for yourself, but for your family, your country, and your God."

"You are to decide the question of what you are going to make of your life? How are you going to settle it?"

"Young people, look at it as an investment. Put it where it will make

the biggest gain, and, above all, do not bury it."

**NIXON GETS JUDGMENT.**

Sued W. G. Close of Hibbing for an Alleged Assault.

Judgment for damages in the amount of \$150 in favor of C. S. Nixon of this city against William G. Close of Hibbing has been rendered by the clerk of the district court. The amount stated represents the verdict returned by a jury in Judge Ensign's room.

Mr. Nixon, who is the traveling representative on the range for the local firm of Paine &amp; Nixon, brought the suit to recover \$2,000 damages for an assault claimed to have been made on him by Mr. Close, in the latter's place of business a year ago this month.

The suit is the outcome of a crim-

inal action that was started on Mr. Nixon's complaint, the charge of assault and battery being made against Mr. Close. The case was started in the municipal court of this city, but Mr. Close, through his attorney, raised the question of jurisdiction, claiming that the case should have been tried in the municipal court at Hibbing.

The local municipal court overruled him and he appealed to the district court, where the case is still pending.

**SUMMONS IN APPLICATION FOR  
REGISTRATION OF LAND.**  
State of Minnesota, County of St. Louis,  
District Court, Eleventh Judicial District.

In the matter of the application of  
Martin L. Olander to register the  
title to the following described land,  
situated in St. Louis County, Minnesota,  
namely: Lots 25, 26, 27, 28, 29, 30, 31,  
and 32, in Block 190, West of  
Division, according to the record-  
ed plat thereof in the office of the  
Register of Deeds in and for said county.

vs. Applicant.

Mary W. Wallace, Nellie W. Cave,  
Leila Winslow, H. W. Winslow and  
the unknown heirs of Benjamin H.  
Winslow, deceased, and all other  
persons or parties unknown, claiming any right, title,  
estate, lien or interest in the real  
estate described in the applica-  
tion herein.

The State of Minnesota to the above  
named defendants:

You are hereby summoned and required  
to answer the application of the applicant  
in the above entitled proceeding and to  
file your answer to the said application in  
the office of the clerk of said court, in  
said county, within twenty (20) days after  
the service of this summons upon you,  
exclusive of the day of such service, and  
if you fail to answer the said applica-  
tion within the time aforesaid, the applica-  
tion in this proceeding will apply to the court  
for the relief demanded therein.

Witness, J. P. Johnson, clerk of said  
court, and the seal thereof, at Duluth, in  
said county, this 27th day of December,  
A. D. 1906.

**ORDER FOR HEARING ON CLAIMS—**  
State of Minnesota, County of St. Louis  
—  
In Probate Court, Special Term, Decem-  
ber 25th, 1906.

In the matter of the Estate of Benjamin  
Sharpless, deceased.

Letters Testamentary on the estate of  
Benjamin Sharpless, deceased, late of the  
County of Bucke, State of Pennsylvania,  
being granted to Charles Henry Moon and  
Charles Comfort.

IT IS ORDERED, That three months  
be and the same is hereby allowed from  
after the date of this order, in which  
all persons having claims or demands  
against the said deceased are required to  
file the same in the Probate Court of  
said County, for examination and allow-  
ance, or be forever barred.

IT IS FURTHER ORDERED, That Mon-  
day, the First day of April, 1907, at  
10 o'clock A. M., at a General Term of  
said Probate Court to be held at the  
City of Duluth, in said County, be and  
the same hereby is appointed as the time  
and place when and where the said Pro-  
bate Court will examine and adjust said  
claims and demands.

AND IT IS FURTHER ORDERED,  
That notice of such hearing be given to  
all creditors and persons interested in  
said estate by publishing the order  
in each week for three successive weeks  
in The Duluth Evening Herald, a daily  
newspaper printed and published at Du-  
luth, in said County.

Dated at Duluth, Minnesota, this 25th  
day of December, A. D. 1906.

By the Court,  
J. H. MIDDLECOFF,  
Judge of Probate,  
Duluth, Minn.

(Seal, Probate Court, St. Louis Co.,  
Minn.)  
Duluth Evening Herald—Dec. 28, 1906, Jan.  
1-11, 1907.

"The getting out of doors is the  
greatest part of the journey," so put  
on your hat and go out and answer the  
Herald want ad, which aroused your  
interest today.

## NO CHANCE FOR CHURCH TO BE VICTORIOUS IN THE STRUGGLE WITH FRANCE

Pope's Encyclical Blasts  
the Hopes of the  
Moderates.

Consequences Likely to  
be Deplorable in  
Every Way.

Objects of the Vatican  
Not Comprehended  
by Many.

Paris, Jan. 12.—The encyclical issued yesterday by Pope Pius seemingly puts an end to the hopes of the moderates of all shades of opinion that the church eventually would accommodate itself to the new conditions in France. There is not the faintest suggestion that the French bishops will not obey the orders from Rome. Although many of them unquestionably would prefer an immediate solution of the difficulties, confronted as they are now by the choice between obedience or schism, it is a foregone conclusion that at the meeting of the episcopacy here, Jan. 15, they will simply register the pope's decision. The consequences are likely to be deplorable from every point of view. The majority of the clergy and Catholics generally recognize that practically there is no chance of the church emerging victorious from the struggle. On the contrary, the lot of the church will be only harder. If it is the Vatican's purpose to "drive" France to Catholicism, it must fail, as no matter how desirable negotiations might have been at the beginning, the mere suggestion now of negotiating would mean the instant downfall of the cabinet. If the object of the Vatican is to arouse the Catholics to seek redress at the polls, the first attempt at organization for that purpose will be met by a measure authorizing the government to regard all priests as being subjects of a foreign power. This step, however, as Premier Clemenceau has announced, will only be taken as a last resort.

Eugen M. Jaures, the Socialist leader, refers regretfully to the consequences which the papal encyclical will entail. He says:

"The pope desires to save the dogma and the hierarchy. In reality he is preparing their ruin. Attila was the scourge of Christ; Pius X is the scourge of the church."

## FOR BENEFIT OF LEGISLATORS

Bureau of Education  
Prepares Statistics on  
School Legislation.

Washington, Jan. 12.—Members of the various state legislatures need not in the future ransack library shelves filled with dusty volumes on looking for precedents in framing new school legislation. The bureau of education has prepared a publication that is calculated to do away with all unnecessary labor on the part of state legislatures. It is entitled "State School Systems" and is the third of that bureau's series of bulletins. The work, which is of particular interest to the educational world, was prepared by Prof. Edward C. Elliott of the University of Wisconsin, and contains a summary of all the state legislation of the past two years in each of the states and is classified by states, together with critical notes under the several heads. Its object is thus set out: "The legislatures of forty states will convene on or soon after the first day of January, 1907. In the most of these states bills will undoubtedly be introduced looking to improvements in the several state systems of education. It frequently happens that the framers and promoters of such bills, and members of the legislature who are called to vote on them, are desirous of acquainting themselves with precedents set in the recent school legislation of other states and may in fact derive many valuable suggestions from such legislation. It is hoped that the publication here offered will in a large measure meet this need and will accordingly prove of ready service in the spread of improvements in our educational systems."

## CLAIMS OF INDIANS

Considered in a Bill Introduced by Congressman Bode.

Washington, Jan. 12.—(Special to The Herald.)—Representative Bode has introduced a bill conferring jurisdiction on the court of claims to hear, determine and render final judgment upon the claims of the Mille Lacs band of Chippewa Indians of Minnesota, growing out of the opening of the Mille Lacs reservation, also a bill to authorize the Western Power company to construct a dam across Itany Lake river.

KING STEADILY IMPROVES.  
Stockholm, Jan. 12.—King Oscar is steadily improving, although he has not yet been able to leave the palace, he walks about his apartment and his appetite and strength are increasing.

## REFORMS IN CHINA

Are Making a Remarkable  
Change in Flowery  
Kingdom.

New Edicts Mark Most  
Important Epoch in  
Its History.

Washington, Jan. 12.—A comprehensive review of the remarkable change that is taking place in China as a result of the promulgation of the recent decree of organizing the Chinese government is supplied to the state department by Edwin T. Williams, Chinese secretary to the American legation at Peking. Redding the orders for the formation of the two commissions which were to deal with reform projects, Mr. Williams says that for over a month past, these commissions have been holding daily sessions, wherein the strong parties have been struggling for leadership; one bent on securing a liberal government on modern lines and the other determined that there shall be no departure from the traditions of their fathers. As far as it has gone, their report is a compromise, and many valuable features are retained. Particularly worthy of note is the abandonment of the scheme for a cabinet and of the proposed consolidation of the council of custom affairs with the new board of finance, probably because of foreign opposition.

## SHOULD EXCLUDE THE JAPANESE

Idaho Representatives  
Place Themselves on  
Record.

Boise, Idaho, Jan. 12.—In the house yesterday Representative Seawell, Democrat, offered a joint resolution reading:

"Whereas, the president of the United States, taking advantage of his high office, has through his official message, and in threatening language, declared his antagonism to the citizens of California on the Oriental school question; and

"Resolved, that we express our confidence in the judgment, fairness and patriotism of our fellow American citizens of the State of California and that for the best interests of both Japanese and Americans, it is desirable that the Japanese be excluded from this country in the same way and to the same extent that the Chinese are now excluded."

## BONDSMEN ARE ALARMED

John Smith Disappears  
While Under Bonds  
for \$30,000.

Jackson, Ky., Jan. 12.—It develops that, simultaneously with the publication of John Smith's confession of the Cox murder, Smith has left the country. Last night he was seen to pass the head of Long creek, going into Perry county. Telephone messages to his home established the fact that he is not and has not been there.

Judge James Hargis and Alex Hargis are alarmed over his disappearance, as they are on his bond to the extent of \$30,000.

## BIG FORTUNE AWAITED HIM

Mystery in Death of Aged  
Man Has Been  
Solved.

Findlay, Ohio, Jan. 12.—The mystery surrounding an aged man found dead several months ago in this city has been revealed by the visit of Judge Costa Hutellus of Stockholm, Sweden. He has, from the description and incidents, identified the dead man to be Albert Cronhjelm, a poleman and only heir to a large fortune in his native land. Cronhjelm left Sweden years ago, and it is said wandered over the United States as a common tramp, while a vast fortune and title awaited him in the old country.

Judge Hutellus says that an attempt will be made to have the Swedish government take the body back to Stockholm. It now lies buried in the cemetery in this city.

## BIDS ARE OPENED FOR COMPLETION OF PANAMA CANAL BY CONTRACTORS

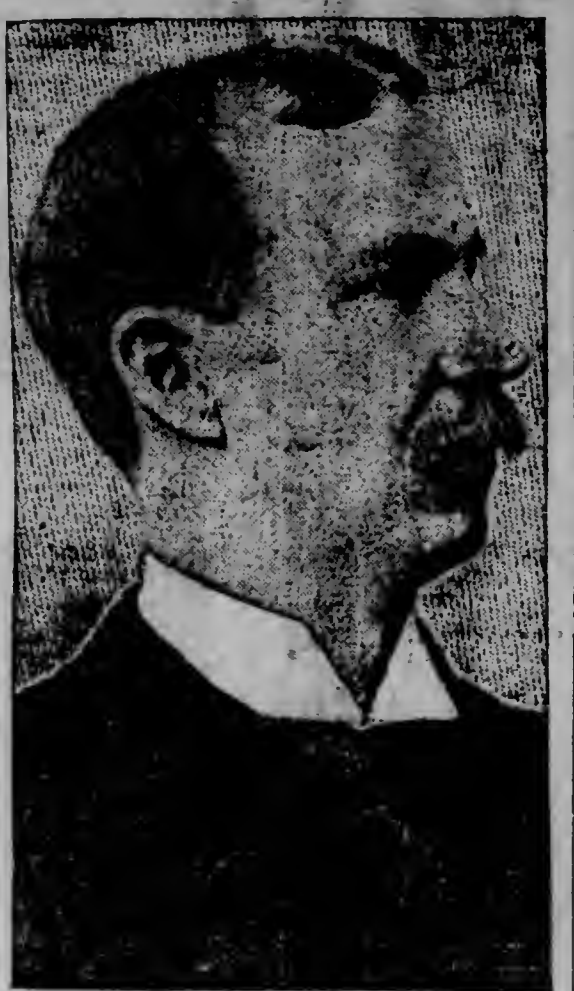

Said to be the Greatest  
Task of Modern  
Times.

Successful Bidder Must  
Give a Bond of  
\$2,000,000.

The Government Retains  
Control of Important  
Departments.

Washington, Jan. 12.—The Isthmian canal commission today will open bids from private contractors for the completion of the Panama canal. In the opinion of Chairman Shonts, it is the greatest task of modern times, and is in the highest degree exceptional in magnitude and complexity. The basis on which the contract will be awarded is a percentage of the cost of completing the work. Bidders are required to accompany their proposals with a certified check of \$200,000, and the successful bidder is required to give bond in the sum of \$2,000,000 to protect the government from any loss.

The government expressly reserved to itself the control of sanitation, of engineering, and in the matter of quarters and the subsistence department, so directly connected with the health and well-being of canal employees, the right of rigid supervision is retained. "In no event," says Chairman Shonts, "can the contractor be allowed to make these decisions."

CHAIRMAN SHONTS,  
Who Is Opening Bids for the Completion of the Panama Canal.

## SOUND STEAMER STRIKES REEF

The Alice Gertrude Badly  
Wrecked—The Crew  
Saved.

Seattle, Wash., Jan. 12.—The sound steamer Alice Gertrude owned by the Puget Sound Navigation company, struck on the reef at the entrance at Clallam bay last night. She is lying 30 yards from the beach and the heavy swells are pounding her to pieces. Lines were shot ashore from the guns and the crew saved. The vessel was built in 1889. She has been used as a mail boat on tri-weekly runs to Clallam bay and other points up the sound.

## ROLLING UP A PRETTY BIG BALL.

## DEADLOCK CONTINUES

Itasca County's Board is  
Still Divided, Two  
Against Two.

Split Came Over the  
Leasing of the  
Poor Farm.

Grand Rapids, Minn., Jan. 12.—The county commissioners are still deadlocked over the chairmanship. It is everywhere recognized that the office as such holds out small attractions, but with it there goes certain influence in shaping the policy of the board and this has led to its bitter and determined struggle as has ever been witnessed in local politics.

The bone of contention is in a way the leasing of the county poor farm. It is known that there is one on the property and two of the members of the board are supposed to favor an option at a flat price, while the two remaining members insist that the county realize out of the property all that can be obtained. These

## R. E. DENFELD IS APPOINTED

By Governor as Member  
of State High School  
Board.

St. Paul, Jan. 12.—(Special to The Herald.)—Governor Johnson today announced the appointment of Prof. Robert E. Denfeld of Duluth to be a member of the state high school board, succeeding Prof. Jordan of Minneapolis, whose term has expired.

Judge Tift of Long Prairie has been appointed by the governor to the state normal school board, in place of W. S. Hammond of St. James. Judge Tift was the defeated Democratic candidate for congress in the Sixth district, and Hammond is the successful Democratic candidate in the Second district.

## ROOT IS TO BE THE GUEST OF EARL GREY.

Washington, Jan. 12.—Secretary Root announced today that he will leave Washington on Jan. 17 for Ottawa, Can., where he will be the guest of Earl Grey, governor general of Canada. Mr. Root will be accompanied by Mrs. Root, and will arrive in Ottawa on Saturday, Jan. 13, and remain over Sunday. Secretary Root said that his visit is purely social and has nothing whatever to do with the international treaty now pending between Great Britain and the United States.

## RACE QUESTION LIES AT BOTTOM OF BROWNSVILLE AFFAIR, SAYS TILLMAN

## THE SINGS AND HUNGES

Break Loose in Bloody  
Quarrel at Oakland,  
Cal.

Lee Dong First Killed  
and Four Others  
Wounded.

Oakland, Cal., Jan. 12.—One Chinaman was killed and four wounded in a highlander outbreak in Chinatown last night. The trouble opened with the assassination of Lee Book Dong, a capitalist. Dong was shot while he was seated at the supper table in his home.

Two Chinese were admitted to the room where Dong was eating and each fired one shot from a revolver and disappeared. A short time later the fusillade commenced in the Chinese quarter. "The killing of Dong seemed to have been the signal for a general fight. Before the shooting ceased four Chinese had been shot and more or less seriously injured.

Hop Sings and Ping Hungs were involved in the outbreak, which the police say was due to a quarrel among the Chinese over Ah Kee, a girl who lives at Dong's home. Dong is said to have been heavily interested in gambling games in the Chinese quarter.

A number of Chinese were placed under arrest by the police.

## BRUTALLY MURDERED

Head of Shoshone Council  
Killed by Unknown  
Redskins.

Was the Half Breed Son  
of Mormon Bishop  
Terry.

Denver, Jan. 12.—A dispatch to the News from Lander, Wyo., says: George Terry, head of the Shoshone Indian council, was murdered Thursday night as he came out of the council lodge on the Indian reservation. He was first knocked down with a war club and his body was then cut to pieces with knives. The murder is supposed to be the outcome of a family feud. No arrests have been made, but suspicion points strongly to several prominent Indians.

Terry was a half breed son of the formerly famous Mormon Bishop Terry of Utah. He was squawman and had lived on the Shoshone reservation for more than twenty-five years.

There are several factions among the Indians, and as Terry's quarrel and horses were recently burned by a mysterious fire, evidently of incendiary origin, it is believed that the crime was committed by some of them.

The proposed abandonment of Fort Washakie, will, it is believed, by leading citizens, result in grave disturbances among the Indians, who have been held in restraint by awe of the soldiers. The Shoshones and Arapahoes are sworn enemies and there are factions in both tribes ready to fight at any time.

Rev. John Roberts, for thirty years a missionary among the Shoshones, fears for the worst when the troops are removed and the post abandoned. The Shoshones greatly outnumber the Arapahoes, and that the law was no good, because it compelled the distillery to produce at least 500 gallons a day.

In his report to the president Mr. Yerkes contradicts both these points flatly. He declares there is absolutely no limit, that a still may produce five gallons or 5,000, that the small distiller is placed under no special restrictions under the law. He declares that he has never attempted to head off legislation in this respect, but that on the other hand, he has been supporting the move for four years past.

Mr. Yerkes says that his department has not hedged the law around with regulations that are prohibitive to the farmers, and furthermore, pledges the support of the department for the obtaining of any further legislation that experience may show to be necessary in the interest of the small distillers.

## SCAFFOLD BREAKS.

Two Men Fall Eighty Feet—One Is Instantly Killed.

Charleston, Va., Jan. 12.—By the breaking of a scaffold on an addition to the Kanawha hotel, John Hower and Harvey Stewart, working on the cornice, were precipitated eighty feet to the ground. Stewart was killed outright and Hower so fearfully mangled that he will die.

## ST. PETERSBURG POLICE HAVE DESPERATE FIGHT.

St. Petersburg, Jan. 12.—Desperate fighting between police and workmen occurred in the Okhta district of this city last night, during a domiciliary search. When the police appeared three workmen, who were in the building extinguished all the lights and opened fire on the police. The latter responded in kind, the fusillade was continued for some time in total darkness. The workmen finally retreated, after killing two district inspectors and two policemen and wounding three policemen. A quantity of firearms was discovered in the house.

Action of President is  
Nothing More Nor Less  
Than Lynching.

The Troops Were Dis-  
charged Because They  
Were Negroes.

No Regulations Can be  
Found Authorizing  
Their Dismissal.

Washington, Jan. 12.—Senator Tillman spoke on the Brownsville incident in the senate today. He charged the president's action in authorizing the troops to be discharged as "nothing more nor less than lynching." He challenged any one to produce, in the army regulations or articles of war, any foundation for the charge of conspiracy of silence, mutiny and treason made against the soldiers, although he declared there was no doubt that the soldiers were responsible for the outrage at Brownsville.

Mr. Tillman held that it was contrary to the fundamental principles of liberty of English and American law that the innocent should suffer because of the sins of the guilty, also he declared that a man shall be considered innocent until he is proved guilty. "In this case," he said, "if men have been punished, while not more than twenty have been charged with participation in the crime."

Mr. Tillman maintained that the negro troops should not have been sent to Texas. They were sent there, he said, against the protests of one of the Texas senators and the congressman from that district.

Mr. Tillman declared that Senator Foraker had belittled himself by attacking Maj. Blockson, as a man whose father was a copperhead.

"Are we never to have an end of the war and its bitterness?" he exclaimed. "Are the people of the North and the South never to under-

## PERIOD OF REST IN BREATHITT

Feudists Leave Jackson  
to Await Hargis' Trial  
Next Week.

Lexington, Ky., Jan. 12.—The situation at Jackson, Breathitt county, today is quiet. Many of the feudists have left town to remain until next Tuesday, when the case of Judge James Hargis will be reopened, unless Judge Carnes is permanently enjoined from trying the case. It is almost certain that troops will be sent there to preserve peace when the trial does open. Capt. C. W. Longmire of battery A, of Frankfort, has been notified to have his men in readiness to go to Jackson at the shortest notice, in anticipation of other call for militiamen from there.

Gen. Roger D. Williams of this city says the troops may not be needed, but he has ordered the local company of militia to be ready to start at any time. The men of the company are reporting regularly at the army here.

## NO LIMIT ON DISTILLERIES

Denatured Alcohol May  
Be Produced In Any  
Amount.

Washington, Jan. 12.—Commissioner of Internal Revenue Yerkes has prepared a report, at the special request of President Roosevelt, as the result of charges made against Yerkes' department. Newspapers had charged that Yerkes' department had been working against the law, permitting the distilling of denatured alcohol, and that the law was no good, because it compelled the distillery to produce at least 500 gallons a day.

In his report to the president Mr. Yerkes contradicts both these points flatly. He declares there is absolutely no limit, that a still may produce five gallons or 5,000, that the small distiller is placed under no special restrictions under the law. He declares that he has never attempted to head off legislation in this respect, but that on the other hand, he has been supporting the move for four years past.

Mr. Yerkes says that his department has not hedged the law around with regulations that are prohibitive to the farmers, and furthermore, pledges the support of the department for the obtaining of any further legislation that experience may show to be necessary in the interest of the small distillers.

**BABIES** need *Scott's Emulsion* if they are not thriving. It is food for bone, blood and flesh. It makes thin, peevish babies plump, contented and rosy-faced.

Pale, nervous girls need *Scott's Emulsion*. It brings back the color to their cheeks and strength to their nerves.

Nursing mothers must provide nourishment for two. The concentrated nourishment of *Scott's Emulsion* gives strength to both mother and infant.

**SWENSON'S CASE IS PECULIAR**

Insane Suspect May Have Been Given Knock-out Drops.

Knockout drops may have been responsible for the temporary mental derangement of Olaf Swenson, who was examined in the probate court yesterday.

Swenson's case has some peculiar features. He was picked up near the Union depot by the police Tuesday morning, in an apparently intoxicated condition. When he sobered up Swenson seemed to be mentally unbalanced and was taken to the county jail awaiting examination as to his sanity.

The examining board of physicians yesterday afternoon found that he was perfectly rational.

According to Swenson's story and the information had by the authorities, he purchased a ticket for New York last Tuesday intending to start that evening. Swenson claims that he had a large roll of bills when he purchased the ticket, but that when he woke up at the city jail he had become separated from his money.

It is supposed that some person who saw him buy his ticket gave him knockout drops and lifted his roll.

The authorities found no money on his person when Swenson was picked up, but they did find a roll of credit on banks in Norway for about \$250. Swenson intended to buy a steamship ticket at New York for Norway. It is said that Swenson spent about three years in a Norway insane asylum before coming to America, and that peculiar circumstances surrounding his case Swenson's examination was continued until next Monday. It is likely that he will be permitted to proceed back to the old country.

**CURE TO STAY CURE**

The longest established, most successful and reliable specialist in diseases of men as well as women. His name and newspaper records will show.

What the afflicted man wants is not a temporary relief, but a permanent cure.

The beneficial effects of my treatment are as lasting as life—I cure to stay cured.

When once a patient is rescued by me from the ravages of disease or weakness peculiar to his sex, he never again bothers with his former trouble.

I do not treat all diseases, but I treat men—MEN ONLY—and cure them to stay cured.

**Varicocele.**

Under my treatment, which includes no cutting or pain, this insidious disease rapidly disappears.

Pain disappears almost instantly. The pools of stagnant blood are driven from the dilated veins and all soreness and swelling quickly subside.

Every indication of Varicocele soon vanishes, and in its stead come the pride, the power, and the pleasure of perfect health and restored manhood.

**Stricture.**

My cure for Stricture is safe, painless and bloodless, and therefore, free from surgery in any form. It is the only cure that should ever be used, and is only one recommended by the legions of men who have been restored by it.

We charge nothing for private counsel, and give to each patient a LEGAL CONTRACT to hold for our promises. It is not worth your while to investigate a cure that has made life anew to multitudes of men.

If you cannot call at our office, write your symptoms fully. Our home treatment by correspondence is always successful.

**LABOR HUNT MADE PRESIDENT**

Trades Assembly Chooses Electrical Worker as New Head.

Other Officers Elected at Annual Meeting—General News.

Tonight—Longshoremen at Gilley's hall, West Duluth.

Monday—Retail clerks at Labor World hall; Teamsters at Labor World hall; Stone Masons at Axia hall; Tug Firemen at Axia hall.

Tuesday—Carpenters at Rowley hall; Painters, Decorators and Paperhangers at Labor World hall; Stationary Firemen at Labor World hall.

Wednesday—Marine Engineers at Lyceum theater; Cigar Makers at Labor World hall; Steamfitters' Helpers at Labor World hall.

Thursday—Allied Printing Trades Council at Hotel Preaker; Steamfitters at Axia hall; Electrical Workers at Labor World hall; Stationary Engineers at Axia hall.

Friday—Leather Workers at Labor World hall; Iron Molders at Sloan hall; Bricklayers at Axia hall; Ship Carpenters at Sloan hall.

An enthusiastic meeting of the Duluth Federation of Labor Unions was held at Labor World hall last evening, and as it was the first meeting of the new year, the officers were chosen for the principal business taken up. The election was rather a quiet affair, there being but one contest for the presidency. W. J. Hunt was chosen president of the assembly for the ensuing term.

Mr. Hunt was placed in nomination by Delegate Perry, who declared him to be a bright and faithful worker for the good of union labor. Delegate Olmen nominated James Walsh but that gentleman declined the honor, excusing himself by saying that it was impossible for him to attend to his duties regularly. As there was no more nominations the assembly decided to cast the ballot for Hunt.

When called on for a speech Mr. Hunt responded with a few words thanking the assembly for extending the honor to him.

He took an optimistic view of the future and expressed a hope that the work of the assembly would progress as profitably as in the past. In closing, the new president declared that it would be his aim to treat all members of the assembly fairly and impartially.

For the office of vice president, several nominations were made and were followed by as many declarations, but finally two delegates were chosen who agreed to let their names stand. Those who were nominated finally were Frank Fisher of the electricians' union, and William Perry of the painters' union. The result of the balloting was found to be in favor of Mr. Perry, who had twenty-five votes to Mr. Fisher's nine.

Ernest Peters of the leatherworkers' union was chosen unanimously for the position of recording and corresponding secretary. Paul Bealeau was elected financial secretary-treasurer with no opposition. Delegate Northfield was made reading clerk. Delegate Dunlop sergeant-at-arms and Martin Olmen stenographer.

Delegate James Walsh was re-elected to the position of trustee, and the two remaining trustees were chosen to be Joseph Miller and C. W. P. Hegz, all being chosen unanimously as delegates to the Superior Trades assembly.

Immediately after the election, the new officers were obligated and took their respective places. President Shartel acted as installing officer after Mr. Hunt had taken the chair. A motion was made by Delegate Bealeau that all the officers be sworn in, and the retiring president, Joseph Shartel, and also to all of the other retiring officers for their faithful work during the past term.

The complete list of officers as chosen are as follows: President, W. J. Hunt; electrical workers; vice president, William Perry, painters; recording and corresponding secretary, Ernest Peters, leather workers; reading clerk, George Northfield, butchers; financial secretary-treasurer, Paul Bealeau, sheet metal workers; statistician, Martin Olmen, typographical; sergeant-at-arms, James Dunlop, carpenters; trustees, James Walsh, teamsters; P. Hegz, clerks; and Joseph Miller, teamsters; delegate to the Superior Trades assembly, W. J. Hunt, electrical workers.

There were many new faces at the meeting last evening and at the same time there were many of the old members who are so familiar to the laborer. The cement workers' union, which is a new organization formed last fall, sent three delegates to the assembly for the first time, and many of the other unions which have recently held election, sent new delegates.

The delegates who presented credentials from their local unions and were obligated last evening were as follows: L. J. Stewart, Charles Holberg and Axel Landers, cement workers; E. Rickard, George Northfield, and H. J. Roberts, butchers' union; W. J. Hunt, Frank Fisher and Charles A. Metz, electrical workers; Joseph Miller, teamsters' union; Paul Bealeau, Michael Harne, sheet metal workers; Ernest Peters, leather workers; John Brogan, William Christensen, tile layers and helpers; Roger O'Hara, builders' laborers; Jacob Palschowski, H. Roth and Axel Vail, cigarmakers' union; John Barron, typographical union; George Kresgar, plumbers' union.

The assembly voted to endorse the action of the Minneapolis convention in attempting to further the peace measures as adopted by the Hague peace conference. Acknowledgment was read from Samuel Gompers, president of the American Federation of Labor, asking that the assembly request the Minnesota representatives in congress to do all they can to bring about general peace moves and gradual disarmament. A motion was carried that the committee should be authorized to attend to the matter.

The members of the Butcher's union are making great preparations for the grand masquerade ball which they are to give next Thursday evening at the armory. A big crowd is expected to

**How \$20 Can Make You \$1,000**

A Proposition Endorsed By Bankers, Manufacturers, Wholesalers, Men, Judges and Men of Wealth and Prominence.

The Men Who Recommend Our Officers and Property Are Worth Millions of Dollars

Your money will be returned if you find that we have made a misstatement or misrepresentation. We are now giving you an opportunity different from any you have ever had before.

Different because the United Standard Lead & Zinc Co. has a mine—a MINE, mark you—and not a prospect. This mine is located in the heart of the Joplin district, the great and richest zinc and lead producing district on the face of the earth. Thousands of tons of rich ore bearing ground are already opened up. Thousands of tons of the richest kind of zinc ore are on the dumps in plain sight. It is a MINE, and no mistake.

Far value stock fully paid and non-assessable. When you get full particulars—which we will send you upon application—you can see for yourself that this stock is bound to be worth many times its present value in a short time.

Only a Few Days More at 10 Cents a Share.

Only until the present allotment is gone, we will sell a limited number of shares in this great company at 10 cents a share. Far value stock fully paid and non-assessable. When you get full particulars—which we will send you upon application—you can see for yourself that this stock is bound to be worth many times its present value in a short time.

**This Stock Has Already Jumped 100 Per Cent.**

It will positively jump again in a few days. Don't wait or delay, but send for full information, references, maps, assays, mining engineer's reports, mine superintendent's reports and other information of every kind and character. Better still, send in your order at once for all the stock you can afford to carry and investigate afterward, for reasons that we will return your money in full at any time within 30 days if you are not satisfied, or if you find that we have made a single misrepresentation or misstatement.

**A VALUABLE STOCK TO OWN.**

We will not sell less than 100 shares to any one at these extremely low prices.

100 shares at 10 cents will cost you \$ 10.00	1,000 shares at 10 cents will cost you \$100.00
200 shares at 10 cents will cost you \$ 20.00	2,000 shares at 10 cents will cost you \$200.00
300 shares at 10 cents will cost you \$ 30.00	3,000 shares at 10 cents will cost you \$300.00
400 shares at 10 cents will cost you \$ 40.00	4,000 shares at 10 cents will cost you \$400.00
500 shares at 10 cents will cost you \$ 50.00	5,000 shares at 10 cents will cost you \$500.00
600 shares at 10 cents will cost you \$ 60.00	6,000 shares at 10 cents will cost you \$600.00
700 shares at 10 cents will cost you \$ 70.00	7,000 shares at 10 cents will cost you \$700.00
800 shares at 10 cents will cost you \$ 80.00	8,000 shares at 10 cents will cost you \$800.00
900 shares at 10 cents will cost you \$ 90.00	9,000 shares at 10 cents will cost you \$900.00
1,000 shares at 10 cents will cost you \$100.00	10,000 shares at 10 cents will cost you \$1,000.00

If you want to buy in installments send one-half cash with remittance and pay balance in four equal monthly payments, beginning one month from date of first payment.

Fill out the coupon below and mail today. You are taking no chances. It won't cost you a cent to find out all about this golden opportunity and if you subscribe now, you will get your money back if you find where we have misrepresented a single thing.

**COUPON—Fill out this coupon and mail today.**

**LONDON HAS NEW DUCAL SCANDAL**

Southern Countess and Wealthy Duke Threatened With Suits.

London, Jan. 12.—Another scandal, in which figure a southern countess and an immensely wealthy duke, is adding to the gossip that entertains London.

The duke possesses an immense amount of real estate in London, from which he draws a huge income. A few years ago he married the daughter of a woman who was noted for her beauty; another of her daughters, beautiful as she was, was a princess, the wife of a foreigner of very high rank.

The countess, whom this scandal touches, belongs to that ultra aristocratic circle of the "Society." Her husband bears a name equally famous in English literature and diplomacy.

The young duke is a good deal of a gallant and once before saved him from being correspondent in a divorce suit by opening his capacious purse.

The duchess eventually discovered this too obvious devotion to the esthetic countess. For expiation, he went to Africa, "to shoot big game."

He returned not long ago, purified and repentant, his friends said. His duchess did not hasten to meet him when he arrived in port, and it was announced, loudly and gladly, that they had gone together to his splendid estate in the country.

Now it seems that expiation penance has not made the duke less fond of the countess. She has been resumed, and she appears with him nowhere. Worse, she has carried out her threat "to tell everything" to the young earl, who, like herself, has been betrayed.

Now the whole affair is in the lawyer's hands, while mutual friends are striving mightily to keep the case out of the courts. In this the unselfish lawyers may help, since their labors would be lessened and their fees made greater, probably.

**CHARGED WITH BURGLARIES**

Three College Graduates Arrested by Police of Chicago.

Chicago, Jan. 12.—Three college graduates, one said to be a son of a wealthy family in London, Eng., were arrested here last night charged with having participated in a score of burglaries in Chicago within the last two months. The police say that they recovered stolen property valued at \$6,000 in the apartments of the men. The men, who the police state have admitted the accusations, are Richard E. Erickson, 23 years of age, a graduate of Northwestern university; Percy C. Pichlin, a graduate of the Oxford university; and Wheeler J. Brown, 27 years of age, graduate from an optical school in New York city. The property recovered consists chiefly of photographic supplies.

**FOR FAIRBANKS.**

Indiana Will Be Sold for Him If Presidential Candidate.

Washington, Jan. 12.—A conference over Republican national affairs was held at the postoffice department last night. Those participating were: Postmaster General Cortelyou, the retiring chairman of the committee; Harry S. New of Indianapolis, the acting chairman, and Elmer Dover, the secretary of the committee.

Later Mr. New said:

"If Vice President Fairbanks allows his name to be presented to the next Republican national convention as a candidate for the presidency, and I take it for granted that he will, he will receive the hearty and unanimous support of the Indiana delegation."

When asked if a special meeting of the national committee would be called to accept Chairman Cortelyou's resignation, the acting chairman replied:

"The next meeting of the national Republican committee will be in Washington, next December, at which time Mr. Cortelyou's successor will be chosen, and the time and place of holding the next annual convention will be decided upon."

**Woman's Nightmare**

love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally and has carried thousands of women through the trying crisis without suffering.

## RAILROADS

## SHOWS BIG INCREASE

Duluth Freight Business in 1906 Eclipses the 1905 Record.

All Railroads Entering City Handle Very Large Volume.

A remarkable increase in the amount of freight business transacted by the Duluth railroad offices during 1906, as compared with the preceding year, is shown by the records. The Omaha, the Northern Pacific, the Great Northern, the South Shore, the Missabe and the Iron Range roads all handled a very large volume of freight during the twelve months ending Dec. 31.

The year 1905 was considered a remarkable one in point of business for the freight departments, but its record was easily eclipsed by 1906. Both in tonnage received and forwarded there was a big increase. This speaks pretty well for the prosperity of Duluth, for the amount of freight moved is a good barometer by which to judge the business activity of any city. The increase was general, running over a variety of commodities, although the greatest advance in any single line probably was in building material.

The freight movement would have been even heavier if it had not been for the congestion of terminals and the car shortage during the last few months of the year. Shipments and receipts continue heavy, and the indications are that 1907 will be fully as good a year for the roads as 1906, if not better.

As noted in yesterday's Herald, the pulpwood movement is adding to the seriousness of the car shortage. Piers expressed along the street today that the shortage would seriously interfere with the shipments out of Northern Minnesota this winter. It has been expected all along that the movement of lumber would be much larger than for some time past, possibly breaking all records, unless the car situation is relieved very shortly. The total for the season will fall far below expectations.

Pulpwood shippers are meeting with the greatest difficulty in getting enough cars for their wants, and are now afraid that they will be unable to get the wood which has been cut and piled along the tracks to market. There is a big demand for pulpwood, and good prices are being paid. The camp owners stand to make a good profit if they are able to get their entire cut to the mills, for every available cord will be readily purchased. While quite a volume of business is being handled through Duluth at present, it is not nearly so large as it would be if all the cars needed could be secured.

## J. R. Welch Appointed.

J. R. Welch has been appointed assistant superintendent of the Omaha road, with headquarters at Spooner, Wis.

## WAITING ROOM IS PROPOSED One May be Constructed at the Aerial Bridge.

A recommendation from the board of public works and the engineer's office which may come before the council Monday night is to construct a waiting room at the aerial bridge. In the opinion of Mr. McGilvray, the need of such a structure is most imperative.

The council has ordered that duplicate parts for all the running gear of the bridge be bought, and much of this machinery has already been purchased and is either now lying exposed to the elements on the edge of the canal, or on its way here. The exposed machinery will very soon be ruined if left so exposed and even the most careful attention in keeping it oil-coated and weather proof would be useless.

The nearest city building is the Armory and that is at such a distance from the bridge to make it impracticable as a storage place for extra parts.

The waiting room section would be much appreciated by those who are forced to wait for the car on either side of the canal and could be added to the tool shed at very little extra cost. The entire structure, in Mr. McGilvray's opinion, would not cost the city over \$1,500.

Resolutions were received at the meeting of the board of public works yesterday for the street improvements on Junata, Tingo, and Peabody streets in Lakeside. The project is to construct a street from Fifty-fourth to Sixtieth avenues east, a macadamized roadway built there this spring, and the Tingo street residents are desirous of a similar improvement from Fifty-fourth avenue east to the Occidental Boulevard. The Peabody street petition includes a grading of the as well as the macadamizing.

The petition were turned over to the city engineer for estimates, and will be submitted to the council Monday evening.

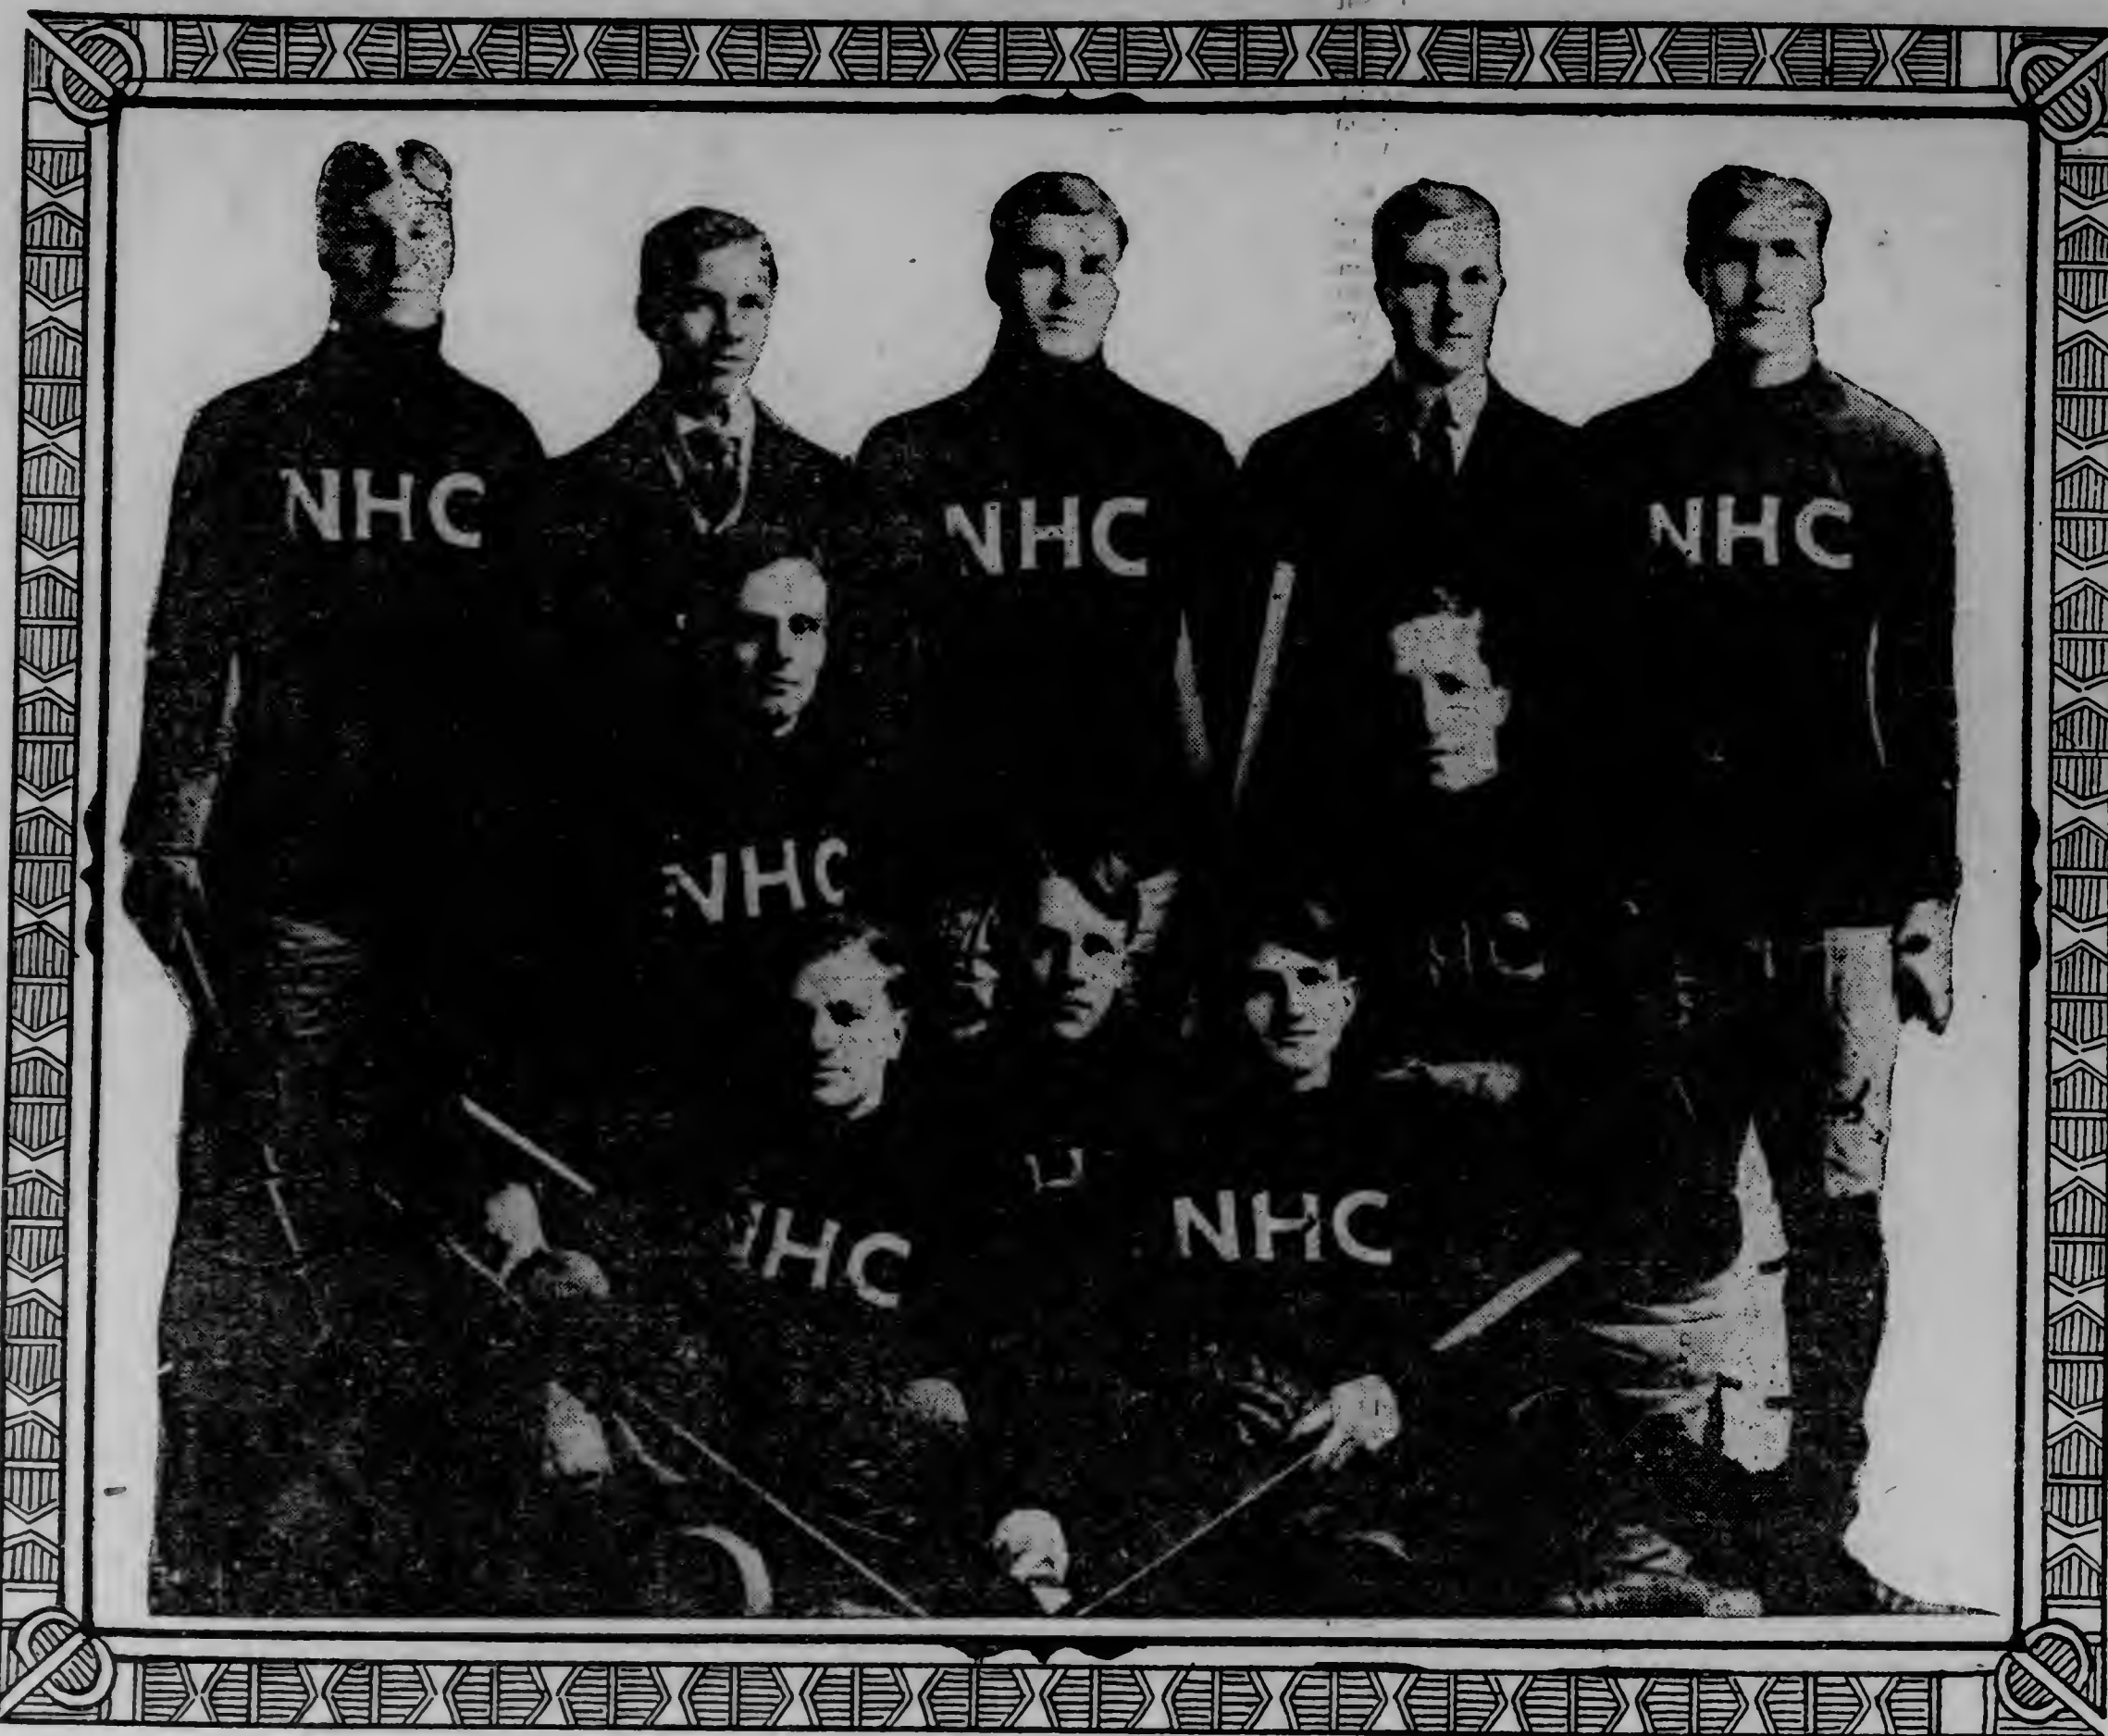

## All Run Down

Wanting in vitality, vigor, vim,—that is a condition that no one can safely neglect, for it is the most common predisposing cause of disease. The blood is at fault; it needs purifying or enriching and the best medicine to take is

## SPEEDY HOCKEY TEAM REPRESENTS DULUTH

NORTHERN HARDWARE HOCKEY TEAM.

Top Row—Winters, rover; Ray Johns, manager; McDevitt, substitute; Wells, president; Al Cummings, left forward. Middle row—Harbison, cover point; Furni, point and playing manager. Front row—Cargill, right forward; Fenton, goal; Deetz, center and captain.

The Northern Hardware hockey team has gone after the game of the puck and stick on a far more ambitious scale than has heretofore been attempted in Duluth.

Backed by W. H. Wells of the Northern Hardware company, they have gotten together a bunch of the best and fastest players in Duluth—old high school men who go into the game with a zest and spirit, which goes a long way toward success, and whose abilities have been clearly demonstrated to the Duluth hockey fans in the contests which they have played at the Head of the Lakes so far this season.

They have defeated decisively the high school team, the aggregation of All-stars made up of Canadian and American players of long experience, and the Columbia seven of Superior, which about completes the round of hockey teams in Duluth and Superior. Yesterday afternoon they journeyed to Two Harbors where they were to play two games with the city team, one last evening and the other this afternoon. These were regarded as hardly more than practice games for the Duluth boys, who expected when the left to have no difficulty in piling up a good sized score.

The biggest proposition which the team has run up against, however, will be the game with the Victorias of St. Paul, which is scheduled to come off

Saturday of next week, and it was for the purpose of getting some good defensive practice for this game that the trip to Two Harbors was made this week. The Victorias have cleared out about everything in the line of hockey teams in Duluth and Superior, and the match between these two teams will practically settle the championship of the state.

Negotiations for the game are not quite concluded, but the only thing which may cause a hitch in the arrangements is the demand which the Duluth boys have made that the Victorias post a forfeit of \$25 to go to the Duluth team in case the St. Paul seven fails to show up in Duluth for a return game two weeks from tonight. As several of the Victorias

team have expressed their opinion that this arrangement will be highly satisfactory, there seems but little doubt however that the series of two games will be arranged. A game with a team like the Victorias played here would be about as effective a booster as the hockey game could receive in this vicinity, and if anything can get Duluth sufficiently interested in the game to insure the construction of a first class hockey rink here, a couple of fast matches like this would do it.

As things are at present, any venture of this kind is bound to be a financial failure, as there is no rink in Duluth which will accommodate enough spectators to pay the expenses of a visiting team.

## FOUR BIDS FOR CANAL

Received by Chairman Shonts of Isthmian Canal Commission.

Oliver and Bangs Were the Lowest Bidders for Work.

Washington, Jan. 12.—Four bids were received for building the Panama canal. W. J. Oliver of Nashville, Tenn., and Anson M. Bangs of 5 Nassau street, New York, associated together were the lowest bidders for the construction of the canal. They propose to do the work for 6.75 per centum upon the estimated cost.

The other bidders were George Peirce & Co., of Frankfort, Me., and New York City, who offered to do the work for 7.19 per centum upon the estimated cost; the North American Dredging Company of Los Angeles, Cal., who offered to do the work for 7.25 per centum of the estimated cost; and the McArthur-Gillespie Company of New Jersey, whose bid was 12.5 per centum.

The proposals show that George Peirce & Co. is a partnership, consisting of George Peirce, G. A. Peirce and Earl S. Peirce. The North American Dredging company is a corporation, whose president is William H. Allen, Jr., of Los Angeles, and whose vice president is R. A. Perry of San Francisco; the McArthur-Gillespie company is a New Jersey corporation, whose chief offices are at 11 Pine street, New York. Its president is A. F. McArthur of Chicago and its vice president, T. M. Gillespie of Pittsburgh.

W. J. Oliver and Anson Bangs, the lowest bidders have had much experience in contracting work. Mr. Oliver is one of the largest railroad contractors in America, and is at present engaged in tunneling Lookout Mountain and other extensive work. Mr. Bangs was the contractor for the Soo canal locks.

More than 100 contractors and their representatives attended the opening of the bids. Before reading the proposals, Mr. Shonts explained that no bid would be accepted until after the commission had thoroughly studied and investigated it.

New York, Jan. 12.—Anson M. Bangs who is one of the lowest bidders on the contract for completing the Panama canal, is president of the Federal Construction company of this city, which is capitalized at \$2,000,000. The directors are: Anson M. Bangs, John F. Donovan and James Hughes.

## CHICKEN THIEF IS FINED \$100

First Slip From Path of Honesty a Costly One.

Pleading guilty to the charge of burglary in the third degree, Charles Wahl, a young married man, was fined \$100 in the district court this morning. His fine was paid by friends.

It is alleged that Wahl and another man who has not yet been apprehended broke into Robert Stitt's hen house at Michigan street and Twentieth avenue west, on the evening of Dec. 23, with the intent of helping themselves to the chickens, turkeys and ducks therein. Wahl was caught in the act. His previous excellent reputation brought friends to his assistance.

## NATIONAL SKI TOURNAMENT

Hundred Clubs Expected at Ashland on Feb. 7 and 8.

Ashland, Wis., Jan. 12.—(Special to The Herald.)—The national winter outdoor sport of Norway has been successfully planted on American soil, and the sport has increased in popularity far to eclipse the national event in Norway. A hundred ski clubs, from as far east as Utica, N. Y., as far west as Montana, and as far south as Chicago, will send their crack riders to the National Ski

Association, which will be held at Ashland, Wis., on Feb. 7 and 8.

The Ashland Ski Club, through its secretary, George F. Merrill, president of the board of regents of the state university, and an expert from New York, the Central Labor council has adopted resolutions favoring municipal ownership, and holds nightly meetings at

tournament, Feb. 7 and 8, for a carnival of winter sports. On the 7th, the long distance race will be held, the racers starting at two minute intervals for a long tramp over hill and dale, through forests and emerging on Chequamegon bay, and terminating their tramp at Ashland. The following forenoon the races between trained dog teams, and other sports, and in the afternoon, national tournament will take place.

The Ashland Ski club has put up \$500 in prizes, besides a special ladies' prize, and special trains will take the riders to the White River hill, where it is expected all former records will be broken for long distance jumping.

## MUST ASSIST HIS FAMILY

District Court Orders W. S. Johnson to Pay Temporary Alimony.

Judge Cant has ordered William S. Johnson, an employee in one of the local railway yards, to pay Augusta Johnson, his wife, \$12.50 per month temporary alimony which the divorce case instituted by Mrs. Johnson is pending.

The order was made on the strength of Mrs. Johnson's affidavit that since her husband has left her she has had to sacrifice what little property she owned outside the city and until lately has barely made a living from \$10 rental that she received for part of a house near Nineteenth avenue west. Mrs. Johnson claims that she was forced to take her 15-year-old boy out of school and put him to work in order to make ends meet. Johnson is said to be receiving a salary of \$45 per month for his railroad work.

## WARM CAMPAIGN ON AT ASHLAND

On Question of Municipal Lighting Plant—Election Tuesday.

Ashland, Wis., Jan. 12.—(Special to The Herald.)—The municipal campaign on the question of municipal ownership of the city lighting plant will come to a close next Tuesday. It has been a long and hot campaign. The special lighting committee of the common council has filed the columns of the local newspapers on the affirmative.

The Ashland Light, Power & Street Railway company, through its secretary, George F. Merrill, president of the board of regents of the state university, and an expert from New York, the Central Labor council has adopted resolutions favoring municipal ownership, and holds nightly meetings at

dressed by speakers. The special lighting committee estimates the cost of the proposed plant, at \$50,000. It has secured an option on a 300-acre tract on White river, eight miles from Ashland, including dam site, and proposes to transmit power to Ashland, and build and operate a plant. The mayor has tentatively appointed John Joyce, T. E. Fuch and Dr. Hosmer as the first commissioners of the plant, to act with the mayor and Alderman Walter Cate.

The present lighting company, which now and has offered for a year, to arbitrate, seeking to bring the rates down as low as any city in Wisconsin. The mayor also announced that it will continue doing business, selling to private consumers, no matter what way the election goes. The mayor disputes this right. The lighting company has a power plant at another place on White river, and proposes to be a competitor with the proposed plant, if one is built.

## PUTS ISSUE UP TO McCLELLAN

Attorney General Advises Mayor to Confer With Judge.

Albany, N. Y., Jan. 12.—Attorney General Jackson today wrote to Mayor McClellan and Corporation Counsel Ellison of New York city, conveying an invitation of Supreme Court Justice Hendricks to confer with him for the purpose of arriving at some agreement respecting the most satisfactory method of preserving intact the ballots cast at the New York mayoralty election of 1905.

Says Mr. Jackson, in his letter: "I have begun an action in the name of the people of the state to try the title to the office of mayor under that election. My duty and my purpose is to keep inviolate the evidence of that title, and the people rightfully expect no less from every public official."

The proposal for a conference was made by the justice referred to, after three conflicting orders in the premises had been granted in as many days by different justices, upon the applications of different parties. In view of the highly honorable source of the invitation, and the certainty that it was inspired by a desire to conserve the dignity of the court, and impartially protect the interests of all concerned, I, for my part, regard an acceptance as obligatory."

## WIFE MURDER AND SUICIDE.

Jersey City Man Kills Helpmeet and Self in Presence of Daughter.

New York, Jan. 12.—Harry Schellenberger, a saloonkeeper, after a quarrel with his wife today in their home in Jersey City, shot her in the head with a revolver, killing her instantly, and then killed himself with the same weapon in the presence of their 11-year-old daughter, Lena. The wife murderer and suicide was 50 years old, and his victim 35. They had six children, of whom Lena is the eldest.

D. E. H., Jan. 12, 1907.

The Yearly Rebate Sale.

Store Open Late Tonight.

CAN you appreciate just what this means?

It gives you the same stylish well-made, well-fabricated suits and overcoats that sold for full price less than a month ago, now for less than a manufacturer could again produce similar clothes in these times of rising prices. Even at the tag end of the season, these would be memorable prices. But you get the clothes while a three months of wearing weather are ahead, and chances are as many months next winter, because the garments are advanced enough in style ideas to be strictly proper next season. There are chevots, cashmeres and worsteds, in checks, and mixtures in the popular grey and rich brownish effects, and lucky for you there are pretty nearly all sizes.

Suits and Overcoats at Cost or Less

## PRESENTS HONORS TO ITALIAN KING

Ambassador White Conveys Degree and Medal to Monarch.

Rome, Jan. 12.—King Victor Emmanuel today received in private audience the American ambassador, Mr. White, who invested his majesty with the academichood of the University of Pennsylvania, and presented the king with his diploma as doctor of laws. Mr. White also gave his majesty the medal bestowed on him by the directorate of the Louisiana Purchase exposition, in recognition of the king's services in promoting the Italian exhibit at St. Louis. His majesty said he highly appreciated the honor conferred on him by the University of Pennsylvania, and greatly admired the medal sent to him from St. Louis. He was sorry that owing to his absence from Rome he did not meet President Francis of the exposition, when the latter was in this city.

Mr. and Mrs. White were the guests of Dowager Queen Margherita and of the duke and duchess of Genoa during the day.

## BRIEF MESSAGE BY PRESIDENT

Roosevelt Calls on Congress to Check Colorado River Break.

Washington, Jan. 12.—The president today sent to the senate a message urging some action by congress toward remedying the situation caused by the break in the Colorado river, four miles below the international boundary line in Mexico, which threatens the property interests in the Imperial valley of California. The message contains a review of the situation and says that prompt action must be taken, otherwise conditions will become so extreme as to be impracticable of remedy. Probably with an expenditure of \$500,000, he says, the river can be restored to its former channel and held there indefinitely.

## EX-MINISTER ACQUITTED OF MISUSE OF SURPLUS.

Lexington, Ky., Jan. 12.—In the circuit court today Rev. J. H. Baker, former secretary of the defunct Industrial Mutual Deposit company, was acquitted of a jury. He was formerly a Methodist minister and was accused of converting the surplus money of the stockholders to his own use. W. N. Bush and W. E.

## PETTY LARCENY CASE.

Woodman Steals Baggage and is Caught and Fined.

Found guilty of stealing a telescope krip and a "torkey" from Dan Conkright, Frank Monette was this morning fined \$20 and costs with the alternative of spending thirty days in the county jail.

Conkright was in the city en route from Michigan to Vancouver, and while he was out to see the sights, left his bag and turkey in the barber shop at the Union depot. Monette came in and made way with both of them, but next day was spotted by Conkright with the krip. The sack he had already put up at a 10-cent lodging house for a night's shelter, but when arrested took his captors back to the place, and the sack was returned intact.

Monette was partly intoxicated when arrested, and in fact is an old habitue of the police court, having been several times for drunkenness and minor offenses.

## BARK CAST ADRIFT IN MIDST OF STORM, SAVED.

San Francisco, Jan. 12.—The bark Big Bonanza, which was cast adrift by the tug Samson during a storm on Jan. 5, while being towed toward San Francisco, and had not since been seen, is now a few miles off the Golden Gate, and will soon enter this port.

SHEA EVIDENCE ALL IN. Chicago, Jan. 12.—The last evidence was submitted in the Shea trial today and court adjourned until tomorrow. It is believed that they will continue for the greater part of the week, and that the case will go to the jury on Friday or Saturday.

LEAVES \$750,000 TO CHARITY. Hanover, Jan. 12.—The late Princess Mary of Sax-Altenburg, formerly queen of Hanover, left \$750,000 to various charities in the former kingdom of Hanover.

Lodge Notes. Companion Court Pride of Duluth, No. 288 Independent Order of Foresters, installed their officers Wednesday evening of this week at Rowley hall. The officers are: chief ranger, Emma Hancock; vice chief ranger, Margaret Bentley; past chief ranger, Margaret McPhail; recording secretary, Anna J. Young; financial secretary, Maud McLennan; treasurer, Emma Bradley; organist, Adeline Opper; orator, Mary McPhail; senior woodward, Hazel McPhail; junior woodward, Anna McArthur; senior beadle, Johanna Burnale; junior beadle, Celia Blake; court deputy, Edith Graham; and physician, Dr. H. B. Webster. The past chief ranger, Margaret McPhail was presented with a silver set.

East End Lodge of the Star of Peace, Phythian Sisters, will entertain at cards Wednesday evening of next week at the old Masonic Temple hall.

Have One Doctor

No sense in running from one doctor to another. Select the best one, then stand by him. Do not delay, but consult him in time when you are sick. Ask his opinion of Ayer's Cherry Pectoral for coughs and colds. Then use it or not, just as he says. We have no secret. We publish the formulas of all our preparations. J. C. Ayer & Co., Lowell, Mass.

THE COLORADO DISTRICTS NORTH BUTTE BREAKS RECORD AT THE LAKE COPPER MINES

Metal Production For Last Year—Tungsten Figures In Report for the First Time—Gold Production Shows Slight Decrease.

Colorado Springs, Col., Jan. 12.—The precious metal production of Colorado for 1906 was as follows: Gold, \$24,644,559; silver, \$3,839,141; lead, \$6,003,972; copper, \$1,790,177; zinc, \$5,059,532; tungsten, \$205,525. Total, \$46,642,202.

Tungsten figures for the first time in this report. The veins are located in Boulder county. Pittsburgh capitalists held options on all lands containing this valuable metal so far as known.

The gold production shows a slight decrease from that for 1905, due to causes which affected the capacity of treatment plants, but all the other metals scored advances.

The total gold production to Jan. 1, 1907, beginning with 1905, is \$404,453,515. The amount of silver mined in this period was \$68,737,590. Lead follows with \$124,451,504, copper with \$20,817,773 and zinc with \$21,571,428.

The Gem Consolidated Mines company, capitalizing at \$1,000,000, has been incorporated to take over the properties of the Consolidated Gem Mines company, located in the Idaho Springs, Col. district. The properties consist of the Gem and Freighters' Friend groups, operated through the Newhouse tunnel, the Newton and Newton Annex mills; steam heating and electric plants in Idaho Springs; several sections of timber lands and several miles of developed and undeveloped water rights on Cripple Creek, capable of producing 4,000 horse power. John H. Galey of Pittsburgh is president; William E. Renshaw of Idaho Springs, general manager and vice president; Guy C. Stumm of Idaho Springs, assistant manager; D. W. Watson of Pittsburgh, secretary-treasurer. Directors: John H. Galey, J. W. Watson, J. M. Guffey, A. M. Quisenberry, J. H. Renshaw, R. Clifford of New York City; Warren A. Hargrove and W. E. Renshaw of Idaho Springs. The Pittsburghers are

Raises 37,000 Tons of Ore in December—January's Output Expected To Be Greater—Coalition Makes Air For Deeper Workings, and Levels Will Now Be Cool.

Butte, Mont., Jan. 12.—The North Butte company broke all of its previous monthly production records in December, mining and raising 1,400 tons of ore more than it had ever mined during any month since it began operations. The total output was about 27,000 tons for thirty days, one day, Christmas, having been lost. This is an average of 1,233 tons per day, and considering the fact that operations were hampered more or less by inability to secure prompt transportation of the ore to the smelter, on account of a shortage of railroad cars, is a magnificent record. With the exception of Christmas, however, mining was not stopped at any time.

If nothing happens to interfere with operations, the output this month will be greater than that of December, for there is one more working day, and the company is producing now going north from day to day. It will likely produce more than 29,000 tons.

Since beginning operations the company has worked up its daily production from about 600 tons to the present mark, and the possibilities for greater output than the present are splendid. It will probably go as high as 1,400 tons a day, and the output for the next months and greatly exceed this quantity when the shaft on the Berlin group is deepened and connected with the main shaft.

According to the best estimates, the Butte district in 1906 produced in excess of \$52,000,000 of copper and about \$12,000,000 of silver. The district, besides big values in gold, arsenic and other metals. In December the copper product amounted

Large Earnings Due to High Price of Copper—Rumors of Coming Consolidations Continue To Fill the Air.

Houghton, Mich., Jan. 12.—(Special to The Herald.)—The era of high prices for copper has made bonanza mines of properties that were not in that class a year ago, and has made highly profitable properties of mines that were of a merely speculative character early in 1906.

The earnings of the Calumet & Hecla are at the rate of \$15,000,000 yearly at present, which, on a 10 per cent basis, would make the stock worth \$1,500 per share. Instead of its actual price of about \$80.

The Osceola, Quincy and Copper Range mines are the millionaires, and even the Tamarack, which has made a hard record for itself, because of increased depth and lessened values, is doing nearly as well. Victoria, which is running about sixteen pounds refined copper to the ton, and by reason of exceedingly high power costs, limited practically to the interest on the investment, is doing as well as the best at a low figure.

Rumors of consolidations-to-be continue to fill the air. The era of consolidation of industrial enterprises of all sorts into larger units began some fifteen years ago, and reached the period of most active development five or six years ago, at which time a majority of the present day were formed. The process is now being repeated, and the new combinations, but the logic of circumstances is inexorable, and the small corporations are being absorbed by the larger ones. Unless they can keep step they will fall behind the line of march.

The Keweenaw Central railway, controlled by the Keweenaw Copper company, has effected a working agreement with the Mineral Range railroad, by which the former is permitted to haul its ore over the tracks of the latter. Until

THE YEAR'S OUTPUT OF SONORA

Has Been Large and Better Things Are Predicted for 1907—Hayden, Stone & Co. Enter the Cananea District.

Cananea, Mex., Jan. 12.—The past year has been one of great prosperity and progress for the state of Sonora. Millions of dollars have been put into new machinery in the state and is now employed in enabling greater returns from its mines. Its agriculture and its agricultural sections. That which has entered into the life of the mining industry, of course, is the progress which is represented in the new investments, and the state has placed the sum total of money thus placed, the sum total of expenditure here during the year for additional equipment, by twenty or more purchasers, probably exceeding \$2,000,000, with the state consolidated the largest individual buyer.

Nacozari district comes next to Cananea district in point of expenditures for new machinery. Into that district and the neighboring districts of Sonora, there has been delivered not less than \$2,000,000 worth of new mining machinery equipment in the last year. The Guaymas has had about \$1,000,000 in the building of additional railroad tracks and other conveniences for it, and the neighboring districts of Sonora for mining properties in that district immediately tributary to the Guaymas has had upwards of three-quarters of a million dollars placed in smelter and mining machinery in the last year. Still and Nogales have sent out more than a million dollars worth of machinery to mining country tributary to the Magdalena district.

Approximate production of Sonora smelters, as figured from the plant and shipping records, and closing, gives an estimate for the year, as presented below. This production is the estimate of the state, and is not an increase in capacity which are now under way in the state, and will increase during 1907 by at least one-third, if it does not double. The number of smelters operating, as shown below, will probably be about the same as the most people. The list does not include

ON THE COAST OF THE LAKE COPPER

Apparent Restraint that is Exerted on Production—Workings of the Combine and Effects on The Supply—Some Reasons for Great Rise in the Price.

New York, Jan. 12.—In an article discussing the control of copper, the New York Journal of Commerce says: The development of mechanical industries in the last few years, especially those involving the use of electricity, has greatly increased the demand for copper and enhanced the importance of that metal to the world's markets. The supply from known deposits is, however, abundant for all present and prospective requirements. It is only a question of providing and utilizing the supplies which are available to the consuming industries. With the incentive of competition in the mining industry to keep pace with the demand there would probably be no difficulty in maintaining the supply at a level which would yield a good profit for the miner. The price of copper is dependent upon the price of the metal, and the price of the metal is dependent upon the price of the metal. The price of the metal is dependent upon the price of the metal. The price of the metal is dependent upon the price of the metal.

GLOBE DEVELOPING GOOD ORE.

Mallory Shaft is Delivering the Goods—Two Strikes Made in the Same Drift—Gem Shaft Making Good Progress.

Globe, Ariz., Jan. 11.—Globe Consolidated has done work at the Mallory shaft which has borne excellent results, and the sulphide vein encountered the previous week has again been crossed in the drift on the 460 level, 160 feet from the shaft and a distance of 400 feet from the point where it was first cut. Two strikes were made in the same drift, the sulphide showing being about three feet wide, the ore of which averages between 4 and 5 per cent, and a two foot streak of high grade ore, which will run about 10 per cent. The whole fact of the drift is in ore. The new crucible on which the two strikes were made is now being pushed west into virgin ground and good results are anticipated.

The Globe consolidated will in a short time begin the construction of an incline shaft from the shaft to the Gem claim down to the foot of Buffalo Hill, where it will connect with the new Arizona Consolidated mine. The hill is very steep and a standard gauge road could not be built to the shaft except with several switchbacks and at a very heavy expense. When the Gem arrives at the shipping stage, it is calculated by the management that ore can be sent down the incline and material brought up with the assistance of very little power. The shaft on the Gem claim is now 325 feet deep, and is still in drift. It is very possible that one or more of the various veins which traverse the hill may be encountered in the shaft long before the shaft reaches a depth of 500 feet, which will probably be early in February.

ONTARIO AND DALY MINES

At Park City Sold to President of Daly-West Company—Utah Consolidated to Move Smelter From Bingham Junction.

Salt Lake, Jan. 12.—The sale of the famous old Ontario and Daly mines at Park City to J. E. Barberger, president of the Daly-West Mining company, and his associates has been the event of the present month. The transaction received the finishing touches in New York and a message quoting Mr. Barberger placed this seal of authority on the transaction. While no statement has yet been made on the subject, the belief here is that the properties will finally go to the Daly-West company, the possession of which, which depend on the three mile Ontario tunnel for drainage, great debt. Mr. Barberger has been trying to secure the properties mentioned for nearly two years.

From what can be learned it is practically certain that the Utah Consolidated company will move its smelter from the present location at Bingham Junction south of this city to a point just over the mountain west or southwest from the mines of the state, and the south of what is known as Pine Canon, about five miles from Bingham. The transaction was made by the Utah Consolidated company, and the same of the attorneys for that corporation have been over on that side of the mountain to make a preliminary agreement with the owner of the ranches not already controlled by the company.

A strike has been made in the property of the Mountain Lake Consolidated company at the head of the Ontario tunnel district and southwest from the Daly-Judge mines at Park City, which is added to mean that the region is going to be highly productive of rich copper and gold ore in addition to the world of lower grade copper that is known to exist there. At the present time a tunnel vein has been tapped and the ore assays 25 per cent copper, 10 ounces gold and 15 ounces silver per ton.

The control of the Dunbar-Swansea company, in the tinic district, passed into the hands of Jesse Knight on Monday. The property of the company adjoins the

LAKE SUPERIOR COPPER MINES

Main Shaft of Steel Corporation's Section 16 Mine at Ishpeming to Be Retimbered—Mary Charlotte Mine Developing Finely—Considerable Exploratory Work in the Cascade District.

Ishpeming, Mich., Jan. 12.—(Special to The Herald.)—The main shaft at the Steel corporation's Section 16 mine, at Ishpeming, Marquette range, through which all the hoisting is done, is to be retimbered from top to bottom, its depth being about 900 feet. When the work is completed it will be possible to operate standard gauge skips and cages, and thus materially increase the output. The work will be started about Feb. 1, when the greater part of the timber will have been framed on surface, in readiness to lower underground. The crews, each working eight-hour shifts, will be employed, and the work will thus go on without cessation day and night. Hoisting will be done by means of a new hoist of heavy timber will be built at points between the crews, so that the men will be in charge of the hoist from falling timber or tools. While the repair work is being done, as many of the regular force as can be employed in the Cascade district ground will be retained. The others will be transferred to some of the company's other mines. It will take from four to six weeks to retimber the shaft and make the necessary changes in the shaftways.

The Steel corporation is particularly active on the range at present, and it is preparing for a large production. It has in Ishpeming the Lake Superior Iron company's mines, all of which are active; the Section 21 mine at Winthrop, two miles

THE BAXTER SPRINGS COPPER

Coal Famine Nearly Ended and Properties Resuming—Baxter Springs Fourth in List of Producing Camps in the Southwest.

Baxter Springs, Kan., Jan. 12.—The coal famine in the Baxter Springs mining camp is now nearly broken. For some time past owing to the lack of care it has been almost impossible to get coal into the mines or ore out, though the coal fields are only distant about twenty miles. This, and the usual dullness of the holiday season, has caused many properties to shut down. However, they are now all in operation and the closing week of the past year showed the largest sales of ore in the history of the camp, reaching \$23,632.22, placing the Baxter Springs mining camp fourth in the list of producing camps in the Southwest, and the shipment would have been augmented had it been possible to get cars, as over twenty cars of ore remain in the bins for want of means of transportation.

Seven drillers out of ten in the field, who have reported to the Baxter Mining Exchange, their year's work, show that there were 333 holes drilled in this camp during the past year, and that 36,944 feet has been drilled, out of that 262 holes were not only in pay dirt, but showed good lead and zinc ore in large bodies. The number will probably be increased by one-third when the other three drillers in the field report. These figures show the fact that the drillers get a dollar a foot will note the immense sum spent in tenting the ground in this camp \$36,944.

There were sixty-nine new shafts put down during the past year, and sixteen new mills built and contracts let for three more.

The statistics for the district of the Southwest in his report gives the total production for our camp as 5,222,250 pounds of lead, valued at \$110,851, and 1,271,650 pounds of zinc, valued at \$46,000, which is considerably short of the amount as shown by

**Model Cloth Afternoon Wraps  
Worn Now by Parisian Women**

Wraps for afternoon wear are now so simple but elegantly made that they are quite appropriate for evening and theater use. Made of light colored cloths, preferably broadcloth, such a coat, trimmed with lynx collar and cuffs, or with velvet and braid, is decidedly effective. Modeled with a fitted waist, or a semi-fitting back and front, these wraps have the fashionable half or three-quarter length sleeves. They are much longer in the skirt than the average evening coat, for they reach almost to the bottom of the dresses. This illustration is taken from the La Nouvelle Mode.

**Dress Stole of Fur**

Long stoles are much worn in Paris this winter. Made in any of the fashionable or imitation skins they are effective and much richer looking than the single coats or even capes. In fact, they are a combination of both and cape, for they are wide and fit shawl-like around the shoulders and neck, and then narrow down to the waist line, where they fasten

**Evening Gowns Made Without Shoulders**

SHOULDERLESS EVENING GOWN.

Now that evening gowns are made without shoulders, the supports necessary to keep the frocks in place are a prominent feature of these new Parisian creations. Made after a princess model on simple but striking lines, the building of such a robe is no easy task, for the decolletage continues in a straight line above the bust from center front to the middle of the back. Careful cutting of the silk foundation and its proper boning is what makes for the success of this dress. The princess lining is carefully boned with soft, pliable feather-bones, in such a manner that the bodice is supported over the bust line and held in place without aid of shoulder straps or sleeves. An added support is given by a half-inch wide elastic run through the edge of the decolletage. No frills or ruffles mar the beautiful svelte figure lines, the only trimming being a stole effect of creamy white lace appliques, set over the bust line and extending several inches below the waist line on the darts either side of the center front and back. The closing is made almost invisibly in the back.

**Odd Fur Trimmings on Coats**

RUSSIAN SABLE FUR WRAP - FROM J. KLEIN AND CO. PHOTO BY JOEL FEDER

Fur coats trimmed with the feet, tails and heads of small animals are smart this year, and are being much worn by women who adopt the new fads in dress. A loose, three-quarter length coat, with box front and back, trimmed in this way about the bottom, with a row of alternate tails, feet and heads attached to a wide collar, is exceedingly effective in the handsome Russian sable, or in mink, and naturally expensive, since these skins are so costly now. A jacket in dyed or imitation fur decorated with made heads, tails,

and especially desirable, because it not only adds much to the dressy appearance of a costume, but is also warm and comfortable on cold days.—Illustration from La Nouvelle Mode.

“The reading advertisement,” he said, “the advertisement gotten up to look like news, is no longer popular because advertisers have found that instead of pleasing and impressing the people, it angers them. It angers everybody, you know, to be fooled.”

“And some of these reading advertisements were enough to fool a wizard. In fact, I know of one case.”

Mr. Roberts paused and chuckled. Then he went on:

“Old Aunt Cornstalk of Croyden Four

**Black Velvet Trimmings  
Used on White Cloth Wraps**

A white cloth coat trimmed with black velvet makes a strikingly handsome afternoon or evening wrap, and when worn with a white lynx boa and muff is especially becoming to young women. Made three-quarters length, it is quite as appropriate for evening wear as an opera wrap, and is much more economical to purchase. The sharp contrast between the white cloth and the black velvet gives the coat character that few combinations can equal. Illustration from d'Art et al Mode.

**Tailor Suit  
For Street**

Tailor costumes are always smart for street wear, and incidentally for afternoon use, if not made so severely plain that they admit of no trimmings that give a dressy appearance. With this style quite a plain skirt is almost essential, for one decorated with frills or with ruffles, etc., even if they are narrow, does not look so well with a coat cut on mannish lines, as all tailor street models are. Of course, the pleated skirt for walking and business wear is much worn this season, but a plain full gored skirt with a smart short coat is quite as effective for the street and much more appropriate for afternoon use. The length of a tailored skirt depends entirely upon the taste of the wearer, for some prefer them long enough to touch the ground, while others like skirts to reach only to the knee, deciding that for business the latter are much easier to walk in, as they do not have to be carried to avoid getting dusty and wearing off round the bottom.

A short coat made tight fitting in the back and left open in the front so that a belted waist or vest may be worn completes a stunning suit that may be worn on almost any occasion and will be correct.—Model from l'Art et la Mode.

Corners said to her husband one night “Ephraim did that there story you was readin’ and happy?”

“Uncle Ephraim answered heartily from his rocking chair beside the stove.”

“Gosh, yes, Huldah! The beautiful heroine got cured of an incurable disease, and the story gave the name and price of the pills what done the trick.”

A CARD OF THANKS.

Springfield, Vt., Reporter: I wish to thank most heartily the persons who

**A Parisian  
Lace Costume**

Lace gowns are worn at resorts this winter for receptions and formal evening functions, and will be charming if made of lace flouncing, the skirt of the triple flounce variety. The illustration, from La Nouvelle Mode, suggests a most attractive model. Sleeves also are made of the flouncing and the body of the waist is constructed in surplice fashion, a glimpse of the net being removable, as the gown is desired high or decolleté.

so kindly gathered and sacked fourteen bushels of butternuts, and then hid them nicely in the bushes. It saved me lots of time during the rush of fall work. Also for the bottle and contents left with the butternuts. We have saved the sacks, and if there are any nuts another year, boys, come around and help us again, for you know that “The Lord loveth a cheerful giver.”

**St. Paul Symphony Orchestra Will Be Heard Wednesday Evening—The County Chairman Returns for Saturday—Dora Thorne Monday Night.**

The St. Paul Symphony orchestra with Chevalier Emmanuel as leader, Mrs. Van Encke, soprano soloist, and Carl Venth, violinist, will be heard at the Lyceum, Wednesday evening.

Emmanuel is no stranger to Duluthians. He is an old Savage conductor, and was seen here last winter with the Savage Opera company.

The St. Paul orchestra is a new organization, but an exceedingly lusty infant, and it is being given the backing of the most substantial citizens of St. Paul, who have raised a fund of \$25,000 for it, and who are now planning to raise an additional \$75,000.

This is the first appearance of the orchestra in Duluth, but it planned to play one or two return engagements before the season is over, if the attendance Wednesday evening warrants it.

The list of patronesses among Duluth society women, is a long and imposing one, and should be a guaranty of a brilliant and fashionable audience.

One of the most interesting features will be the rendition of Ernest Lachmond's German suite in four movements, which will be heard for the first time in this country.

It was composed by Mr. Lachmond while he was in Berlin, and was not heard there until after he left Germany.

It will be included in the regular programs of the St. Paul orchestra in future.

Following is the program for Wednesday night:

Vorspiel to "Meistersinger".....Wagner  
Unfinished Symphony.....Schubert  
Allegro moderato.....Andante.....  
con moto.  
Aria from "Elijah, Hear Ye Israel!".....Mendelssohn  
Mrs. Von Encke.  
Intermezzo—"Racine's Dream".....Mascagni  
Concerto for Violin.....Venth  
(a) Romance.  
(b) Allegro.  
German Suite.....Lachmond  
(a) March.  
(b) Romance.  
(c) Intermezzo.  
(d) Tarantella.  
Aria from "Lucia".....Donizetti  
"Damnation of Faust" (Excerpts).....Berlioz  
(a) Dance of the Sylphs.  
(b) Hungarian March.  
Andante Cantabile for Strings.....Tschalkowsky  
Capriccio Espagnol.....Rimsky-Korsakoff  
Mrs. Von Encke.

### THE COUNTY CHAIRMAN.

George Ade's Comedy Will Be Heard Next Saturday.

George Ade, whose "County Chairman" will be at the Lyceum next week, has been the pioneer in discovering the

innate charm of rustic characters when presented without caricature, and no one else has used this material in the same original way.

The scene of the play is in Indiana, that state that gave the young humorist birth, and he has presented scenes and characters from his youth. There is the village store, and "wise" man of the town, who is always "remembering" things that happened before he was born, the flighty milliner, and a score of others that seem like old friends. He has worked these characters over and presented them in a new guise and favored them with the pliant Adcock humor until they stand out vividly from the canvas. He has succeeded in preserving all the real human nature and heart interest that belong essentially to a rural play.

The dramatist has taken as the central figure of his play, the Hon. Jim Hackler, big of heart and with a ready bluntness. Around him the story revolves. There is an undercurrent of love and one of the prettiest scenes in the comedy is when Lucy, the lovable daughter of the miserly old lawyer, Judge Rigby, in strict defiance of her father's orders, steals out at night to pluck her troth with the Lincoln-like young attorney, Tilford Wheeler. Hackler, with his full knowledge of the "ins and outs" of the political game, has succeeded in having his young law partner, Tilford Wheeler, nominated for the office of the prosecuting attorney, the opposition candidate being Judge Rigby, with whose daughter Wheeler is in love. Hackler and Rigby are sworn enemies of many years' standing and it is Hackler's life aim to defeat the dominating judge for the office. The story is told in a most dramatic way and finally in the last act the cause of right triumphs and Wheeler not only is elected to office, but secures Lucy as his wife.

This is in brief the story. In its course come many of the most distinctive and at the same time laughable characters to be seen on the contemporary stage. Sasafraz, the comical darkey, ever ready to sell his vote and devoting himself with an ambition worthy of a better cause, to making his living without working for it, is truly a ludicrous figure. Then, too, there is the breezy Chicago drummer, who comes to the little community selling windmills. He, too, has his love affair with the flirtatious milliner, who tries with every drum that comes to town and finally even forgets the name of the windmill agent, so numerous have been her conquests. The shrewd boarding-housekeeper whose time is divided between overseeing her culinary department and looking after her shiftless husband who is wont to lounge around the village store and expiate on the ruin of the country and "what he would do if he was up there in Washington" and many more types. Mr. Ade has drawn with just a touch of satire, the management has provided a company to interpret the author's lines that is fully up to the standard of excellence observed in all the productions bearing this author's trade mark. "The County Chairman" comes to

the Lyceum theater on Saturday, Jan. 19, Matinee and night.

### DORA THORNE.

Romantic Drama Will Be Seen at Lyceum Monday Evening.

The beautiful little drama, "Dora Thorne," will be presented at the Lyceum Monday night by a carefully selected company, under the management of C. S. Sullivan.

"Dora Thorne" is a play in four acts, dramatized from Bertha M. Clay's novel by E. Laurence Lee, and is the only dramatization following closely the line of the book. For genuine heart interest "Dora

Thorne" appears to jump to the conclusion that a piece under such a name should be a musical comedy or an extravaganza, but it isn't. "The Heir" is a baby supposedly born during the progress of act II, and "The Moorah" is a mine to which the guileless infant is heir apparent.

Moritz Rosenthal, the pianist, has appeared three times now in New York and has drawn from the critics there an entirely new collection of superlatives. The "Press," for example, declared: "There was no getting away from the spell of his magic. The auditors sat agape, wondering at their senses, were serving them rightly. They rubbed their eyes in astonishment, only to find, on looking at the concert stage, that a man was seated at a big concert grand amid an orchestra; that his hands were short, stoutish, with what rounded back—was producing with no show of effort, effects which seemed impossible to produce on a piano."

Rosenthal will be heard at the Lyceum, Jan. 23.

Following are the bookings for the remainder of the month:

Jan. 14, "Dora Thorne."  
Jan. 15, "Peck's Bad Boy."  
Jan. 16, St. Paul Symphony orchestra.  
Jan. 17, "A Poor Relation."  
Jan. 18, "The County Chairman."  
Jan. 19, Francis Wilson in "The Mountain Climber."  
Jan. 20, "The Pit."  
Jan. 21, Rosenthal, the celebrated pianist.  
Jan. 22, "The Yankee Consul."  
Jan. 23 and 24, "The Bonnie Brier Bush."  
Jan. 25 and 26, Eva Tanquary.  
Jan. 27 and 28, "The Hair to the Moorah."

"Peck's Bad Boy," which will be seen at the Lyceum on Tuesday night, is hailed by the enthusiastic advance agent as one of the funniest shows on the road.

The name sounds good, and the advance man invites Duluth people to take a chance on it, promising they can't be disappointed if they go expecting an evening of solid enjoyment.

"Peck's Bad Boy," which will be seen at the Lyceum on Tuesday night, is hailed by the enthusiastic advance agent as one of the funniest shows on the road.

## AT THE METROPOLITAN

**The London Gaiety Girls, With Pat White as the Leading Comedian, Will be the Attraction All Next Week in Burlesque.**

For several days, the Metropolitan has been showing an amusing and notable Grant's London Gaiety Girls, and that famous "regeneration of stage queens" and "renewal of the old" are now being presented in a new and original manner at the Metropolitan.

This company will be pleasantly remembered as one of the bright spots in the "Met's" season of burlesque in 1905-06. Pat White, who heads the organization as principal comedian, and he is said to be a great deal funnier in the new burlesque than in anything he has attempted heretofore.

A generous management has seen to it that there is nothing lacking to the attraction, one of the best that ever stepped off a sleeper and a

carload of scenery and costumes are used in the performance.

The comedy begins with a merry skit called "Casey's Vacation." Of course, White plays Casey. In his support are a host of clever comedians and girls who can sing and dance.

The afterpiece is called "Ski-do do" and was constructed especially for the London Gaiety Girls. It is described as "a hodge-podge of fun and music."

The musical numbers are all catchy and are sung by persons who have really good voices.

The vaudeville part of the bill comprises stunts by Oscar Lewis and Sam Green, Bell Austin and Rene Washburn, Mlle. eVdmar and the Pony Ballet.

The usual matinee will be given.

Dora Thorne

### LYCEUM NOTES.

**Gossip of Coming Attractions at the Lyceum Theater.**

Francis Wilson, as the victim of circumstances, Montague Sibsey, in the immensely amusing comedy, "The Mountain Climber," which will be presented at the Lyceum, Jan. 25, has all of the pleasant drollery that has made him one of the most delightful figures on the comedy stage. The play is most interesting and scored immensely during its run at the Criterion theater last spring.

It may be of interest to know that Eva Tanquary and her company are all Christian Scientists. A great many leading actors and actresses have become Scientists, but the Tanquary organization has embraced the Edy cult.

The odd title of Paul Armstrong's new comedy, "The Heir to the Moorah," creates a lot of comment and considerable inquiry. A good many

## AT THE BIJOU

**Mrs. General Tom Thumb Will Be the Feature of Strong Vaudeville Bill at This Popular Theater**

---Many Clever Sketches Are Billed.

Duluth people will have the pleasure of seeing Mrs. Gen. Tom Thumb, who has been engaged as the feature attraction of the Bijou next week.

Many of the older people remember this noted lady years ago when she and her husband, Tom Thumb, were starred the world over by the late P. T. Barnum, the noted circus manager. Mrs. Tom Thumb, who is now 60 years old, was married to Charles Stratton, known as Tom Thumb, and together they toured the world. Later she retired from public life, after the death of Tom Thumb. A few years ago the married couple, Magri, and her brother, Baron Magri, they produced several acts and have since been touring the country. They will present their favorite sketch at the Bijou the coming week, entitled "The Enchanted Statue," a playlet which shows these tiny people to their best advantage.

A fine line of other vaudeville attractions will be seen on the week's bill. Mae Dell and Corbly, two musical comedy sketch artists, present an act that is hard to beat in the vaudeville world, working in several different characters and introducing an original line of novelty instruments and comedy sketches. Little Trixie, a dainty Parisian comedienne, will be seen in an act of songs, dances and story telling that outclasses the best of many artists of years and experience.

Carr and Jordan, a sketch team, who have been one of the big Eastern successes, will offer an act, entitled "A Dip Into Vaudeville." These artists are well known dramatic performers, and will be seen in their original style of vaudeville sketches.

Mae Turney, known as "The Song Bird of the East," will render several selections which are unusual and pleasing to hear. She has a well trained voice.

A good novelty will be offered by the clever juvenile artists, "The Two Welcomes," who perform clever tricks upon rolling globes, such as jumping ropes, contortions and other feats. Isadore Silver will sing his favorite song success, entitled, "Two Little Sailor Boys," which is illustrated with beautiful colored slides. The moving pictures will be out of the ordinary, showing "The Wonders of Canada," "Scenes From Ocean to Ocean," and particularly "The Canadian Northwest" will be presented.

Matinees are given daily at 2:45 and evening performances at 8 and 9:30. On Wednesday, Mrs. Tom Thumb will receive all ladies wishing to meet her. She will appear on the stage after the matinee is over, and would be pleased to meet the ladies of Duluth. A special school children's matinee will be given on Saturday afternoon, at 2:30, when scholars will have a chance to see and hear these clever, tiny artists.

## GOSSIP OF THE RIALTO

**"Brewster's Millions" is Full of Amusement—Harold MacGrath Writing a Play for Max Figman—"Matilda," a New Farce, Makes a Hit.**

New York, Jan. 10.—There is enough amusement in "Brewster's Millions," now offered at the New Amsterdam theater for the first time in New York, to warrant the piece staying for some little time. The managers, Thompson & Dundy, declare in a note on the program that they leave it to the audience to decide whether the play is farce, melodrama or tragedy.

There wasn't much exciting betting elicited by this proclamation, for the dramatization of McCutcheon's novel, not touch very strongly on either the comic or the tragic, but while it lasts it does amuse. The story is a farce, but a really a most effective bit of nonsense falling of its effect because of the mixture of melodrama and farce that accompanied and followed it.

Interesting as the dramatization of the book and the "red string" was, the appearance as a star of Edward Ableson, a very clever actor within prescribed limits, were more or less evident during the major part of the evening. Mr. Ableson is not a brilliant actor—it is hardly possible that even he thinks that. The audience, however, was in a friendly mood, and gave the new star a vociferous welcome.

The plot of "Brewster's Millions" offers opportunity for far more humor than Amsterdam. An uncle leaves a young nephew about to commit matrimony a fortune of seven millions, one of the conditions being that he spend a million dollars in a year and incur no legal feminine

responsibilities. He must keep the proviso a secret, and his efforts to spend his money, while his friends endeavor to stop him from what they believe is an insane course, furnishes some pleasant paradox.

The play was well staged, the mechanism in the third act being all that might be claimed for it. The company was there and—hardly the fault of either inability or unwillingness—that was about all. A Miss Olive Murray gave a sustaining and unrestrained imitation of Ethel Barrymore.

The faults of the play," says the managerial prospectus, "may be many, but it has the virtue of cleanliness." What a pity that other managers are not so frank. Think of our miss in having their opinions printed on the program before seeing the show.

And what else it would be!

Harold MacGrath, whose popular novel, "The Millionaire's Daughter," was dramatized by Miss Grace Livingston Furness, and which is now in its second year of stage life, is now writing his first play. The work is intended for Max Figman, a well known actor, who is now at Warburton in "The Man on the Box," a role which Henry E. Dixey presented in New York.

The new play is to be a comedy in four acts, set in the present period, and, according to Mr. MacGrath's present ideas, will give Mr. Figman an opportunity for several sentimental and serious bits of acting. The first performance will take place this season out of town, and it is

SEE MILE VEDMAR AND HER DANCERS.

Week of Jan. 20—RIALTO ROUNDERS.

Manager Carr's plan to bring Mr. Figman into New York in the new play early in the autumn.

"Matilda," a farce in three acts, delighted a large audience at the Lincoln Square theater last night. The play was written by the late J. N. Mortis, who featured a plot somewhat along the lines of "Charley's Aunt," and with situations equally humorous.

Freshly music and catchy songs are interspersed at frequent intervals, the lyrics of which were written by Everett Mackay and the music by George H. Carlton.

The story of the play revolves around a young actress named Matilda, who, in a large fortune with a string to it, the story being a compulsory clause in the will requiring her to marry Lord Jermyngham, a brainless, poverty-stricken youth.

To struggle out of the situation the young woman induces the sweetheart of her maid to impersonate the heiress, which he does, and successfully disguises his young lordship, so that he refuses to marry, according to the will. Matilda, the actress-heiress, therefore, gets the money and marries the man of her own choice.

Alfred Hickman, in the chief role of the false Matilda, as the young English lord, made the hit of the play. Amy Ricard made a pretty Matilda, and Maude Fulton, held a merry smile throughout. Charles Lane, Joseph Tuohy, Edwin Middleton, Robert Newcombe, J. Horner, and Clara Thompson and Katherine Emmett also earned well deserved applause.

One of the most enthusiastic outbursts of applause ever heard at an opera took place in the Manhattan Opera house during the singing of "Il Trovatore." Mr. Dalmora was singing the part of Maurel, while Mme. Russo was a most delightful Leonora. The two singers had just finished the lower scene when the audience demanded a repetition of their duo.

It is against the house rules to repeat, but so long and loud was the applause that the leader, Mr. Tanara, was finally forced to capitulate and have the duo repeated.

The opera was well received by all present. The role of Azucena was sung

THEODORE BABCOCK.  
As "The County Chairman."

# "HELP WANTED" IS THE CRY OF ALL AMERICA

The World Is Beginning the Most Interesting Year in Its History--In Nearly Every Old World Country the Interest is Centering on Possible Trouble, Political and Otherwise, But in Uncle Sam's Land the Greatest Difficulty is to Get Workers to Do the Work That Awaits Them--An Unprecedented Situation.

By DEXTER MARSHALL.

(Copyright, 1907, by Dexter Marshall.) This present youthful century is the liveliest the world has known, and its seventh year is going to be its most interesting one, so far. This is especially true of the United States, the busiest land in the world. But while the interest in most other countries centers mainly in prospective troubles, foreign and domestic, here the chief interest is concentrated upon the affairs of peace and industry. Barring the fading clouds that shade the Pacific, where its waves wash the eastern edge of far away Japan, there is only one thing for the American people to worry about, and that is where and how to get the workers to do the work that is waiting for them to do.

All Asia is in a ferment. Even China and Persia are talking about constitutional government, and that may mean trouble on a colossal scale. Russia, torn and bleeding and uncertain of the morrow, is falling

enough in land "to give us all a farm," but there surely is work enough here to give us all a job--if we'll take what we can get. And more of us have jobs today than ever before since there was an Uncle Sam.

**Help Wanted By the Railroads.** The railroads have more freight to carry than their cars will hold. They can't get the cars they have over the rails fast enough, and the car builders are two years behind the orders for new ones.

The 12,000,000 or 14,000,000 bale cotton crop, the 550,000,000 bushel wheat crop, the 2,000,000,000 bushel corn crop, the 300,000,000 bushel potato crop, added to the coal and iron and lumber, the manufactured products and the general merchandise that has to be hauled up and down the country, has swamped the roads completely. They have simply got to lay thousands of miles of new trackage or the country's business will be swamped.

It was nearly swamped all the fall while the movement of crops was on, despite the heroic efforts which have been going on the past few years to get tracks and cars and engines enough into the service to handle it.

HELP IS WANTED TO MAN THE FISHERIES.

Hindoo--not coolies, but men of better grades. Scant news of this move has reached the United States, though a paragraph did go the rounds not long ago telling of the death from cold of some of these sons of India's sunny time, who had been transported to Canada's bleak shores. I have no complete figures by me, but the first shipment of Hindoos to Vancouver to be set at work on the railroad numbered 300 or 400. Many of them had been in some sort of Indian military service. Canada's exclusion laws were not enforced so vigorously against the East Indians as they have been against Americans imported into the Dominion to do a higher grade of railroad work; less than 10 per cent of the Hindoos were turned back, and they were rejected because of insufficient physique, or poor health--not because of the contract labor laws.

An official of the Canadian Pacific railroad told me the other day that these men are slender, tall, without fat and good workers, although lacking somewhat in stamina as compared with white men. They get \$1.25 a day. Their lodging, in bunk cars or in shacks built by the railroad, is thrown in. They have to buy their own food, which is cooked by their own cooks. There are Brahmins, Sikhs and Mohammedans among them. Compared with what they can earn in Indian their pay is enormous. The deaths from the Canadian cold, he said, had been caused mainly by the lack of warm clothing. This, he added, not the fault of the railroad company, however, it has been its policy to furnish them with heavy, warm clothing immediately on their landing at Vancouver, and not being accustomed to the cumbersome gear necessary in that climate, many refuse to wear it, to their own undoing.

**Women Workers Scarce, Too.** The oldest employment story in America is about the scarcity of women servants. Today there is an unprecedented shortage of women workers in every grade. There is a certain concern located in one of the larger cities whose manager recently found this out to his great inconvenience.

Late every fall he needs to add some fifty women to the clerical force, their duties being mainly to address envelopes for the mailing of circulars. In past years he has been able to get all the address writers desired by inserting a four-line advertisement in a single local newspaper. The first day after the insertion of the "ad" they would be from 300 to 500 applicants. Inside of three days the extra list would be entirely filled. This season the advertisement, identical in wording to that used every year for the last decade, was inserted. How many replies do you suppose the firm received? Six.

Next day the advertisement was inserted in three or four other papers. The gross results from all the advertisements was twenty-one applicants. It took ten days to fill the extra list, and all sorts of means had to be employed. Women acquaintances of the regular clerks had to be imported to come and help out. Letters had to be written to friends in the suburbs, and it was with the greatest

difficulty that the extra work was got out at all. Another unprecedented feature of the situation was the inefficiency of the applicants. Not more than half a dozen of the twenty-one who answered the advertisement could write a hand that the head of the firm was willing to see on its envelopes.

At first he thought this meant deterioration. Later he concluded that most of the competent workers of the class he wished to draw from were already employed regularly, and that none who wanted work were left except those who could not do it satisfactorily.

Another reason, undoubtedly, is that in these days of work at good wages for every man who is able and willing to do it, many men are unwilling to allow wives, sisters and daughters to work for themselves. This is often as true of the man who works for day's wages as it is of the other man, and today, in every great city of the country, as everybody knows, there are thousands of housewives doing their own housework, their own scrubbing and their own washing, because the women they used to employ will not work. The "men folk" are doing so well that they will not have it.

There are probably fifty barber shops in New York whose outfit includes a bootblack chair, where the patrons can no longer get their shoes shined. Ask the boss of such a shop why he has no one to attend to the bootblack's chair, and he will say: "All the boys got steady jobs. Won't shine shoes no more."

**Highest Wages, Great Savings.** It is because there isn't help enough to go round, despite the million or more immigrants of 1906, that wages are higher here than anywhere else, except, perhaps, in some of the American cities bricklayers earn more money than professors in some foreign universities. It is the same with the men who put up the steel frames of skyscrapers are larger than the salaries of government department heads in every grade. Do you doubt it? There are skilled structural iron men who earn \$12 a day, at least. There are men who can cut up \$300 more than the \$120 salary of one of Denmark's most valued department heads. There are plenty of skilled workmen in the Pittsburgh steel mills who are much better paid than the professors here than anywhere else, which awarded the Nobel peace prize to Theodore Roosevelt last December.

It is the American with calloused hands and blackened finger nails to send his son to college. Consequently, the American is not so much the worker for them--and, of course, it's the high wages, largely, that make the high prices. Not altogether, though; the high prices are partly due to the American workman's desire to eat as good food as that which goes upon the rich man's table.

"If the workman didn't continue to buy steak in spite of the high prices, suppose it would sell in New York at from 20 cents to 25 cents a pound as now, no matter what the beef market prices are, he would save a dozen, as they were in New York in mid-December, and higher, as they have been since."

You may not fully comprehend the increase that has taken place in wages in this country since the low water mark of a few years ago. Nobody does, in fact. You could get some idea by studying "Bullfinch," issued by the department of labor, but H. C. Watson of New York, a member of the Civic federation, who has given the subject much attention, puts the case vividly when he says:

"When the army of the unemployed was greatest a prominent labor leader estimated it at 3,000,000. Practically all the men making up this vast number are now at work, and get at the true advance in wages you must figure in their wages, which have grown from nothing to from \$2 to \$2 a day. Prices have gone up, but they are still lower than they were in 1890, and really the purchasing power of the workers has grown much faster than prices have advanced."

There are plenty to say, when they talk about the American workman's high living, when they compare his custom of eating meat every day in the year, his good clothes and his cigars with the cheaper food, the poorer clothes and the pipe that must content the European worker, that the American worker is wasteful and extravagant. "Well, perhaps," but have you looked into the savings banks' figures lately?

Not to dive deeply into statistics here, doesn't it strike you that the American workman is doing pretty well, in spite of the high prices when you understand, as Mr. Watson pointed out to me, that in the past ten years the number of savings bank depositors here has grown from 5,065,494 to 8,027,192, or about 60 per cent? And that, in the same time, the deposits have increased in amount from \$1,907,156,277 to \$3,482,137,138, or about 80 per cent? This means, of course, that the families in this country have bank accounts averaging \$433.78 each. Nor is this all; the savings invested

by 1,600,000 individuals in the building and loan associations count up more than \$400,000,000. It is all right to admire the great savings of the French, accumulated by dint of economy and self-denial that our people could not compass, but, honestly, aren't you proud that you live in a land where, in spite of the high prices, the wage earners have a total of more than four billions of dollars--twenty billions of French francs, by the way, accumulated by their two most favored methods of saving their surplus?

**Great Call for Graduates.** You may happen to know some one who wishes to get work, or seems to, but can't get it, and this may have kept you from appreciating the degree to which "help" is "wanted" in this country just now. But did you read the annual report of the past master general to congress at the beginning of the present session? If you did, you remember that he urged the raising of postal salaries, not only "to meet the increased cost of living," but also because good men in the service are constantly leaving it since they can earn more elsewhere. Between July 1 and Nov. 1 last year, for instance, 2,642 rural delivery carriers resigned their jobs, an average of 523 a month.

This is unprecedented and so were last year's resignations in other branches. Postal employees don't like to give up their places, even if they can earn more elsewhere, for such places are permanent, but today the cry of "help wanted" is so strong in many quarters that they are responding to it in great numbers.

You probably didn't read the report of the New York civil service commissioner. It indicated a similar state of things, when it told about lists of candidates for city places who had passed the examinations, but were already employed when the places were ready for them. This situation has caused a good deal of comment. So has the fact, as reported recently by one of the district superintendents in New York, that the metropolitan available supply of school teachers is no longer equal to the demand. The relative number of young men and women sufficiently educated for teaching does not seem to have fallen off, but there is so much greater demand for them now than formerly in other callings that they go into them instead of teaching.

Nobody heard the cry for the help of trained young men more clearly than the authorities of the colleges and technical schools previous to graduation time last year. The call was not delayed until just before commencement season. It began in the winter months, and was voiced by the agents of all sorts of big employers. The secretary of one of the largest and best known universities in the country told the writer, last March, that jobs were then waiting for every member of the graduating class that he could recommend as likely to do good work. Situations were offered in big railroad offices and in the offices of

Railroads Cannot Carry the Freight, Since Both Their Cars and Their Tracks Are Inadequate--Without Last Year's Million of Immigrants Business Would Have Been Swamped--High Wages, High Prices and Their Cause--Enormous Savings Banks' Accounts--Hindoo Laborers in Canada--Scarcity of Women Workers--Must be Willing and Competent.

great mining, commercial and manufacturing corporations. Civil engineers, electrical engineers and mechanical engineers were wanted. Suitable jobs for graduates were offered by the proprietors of department stores, by trolley companies and by great financial institutions. There was an especially strong demand for young men who knew enough of chemistry to help push along the work that has to be done in the laboratories, which are such important features of the smelting works, the steel works and half a hundred of the country's other great industries.

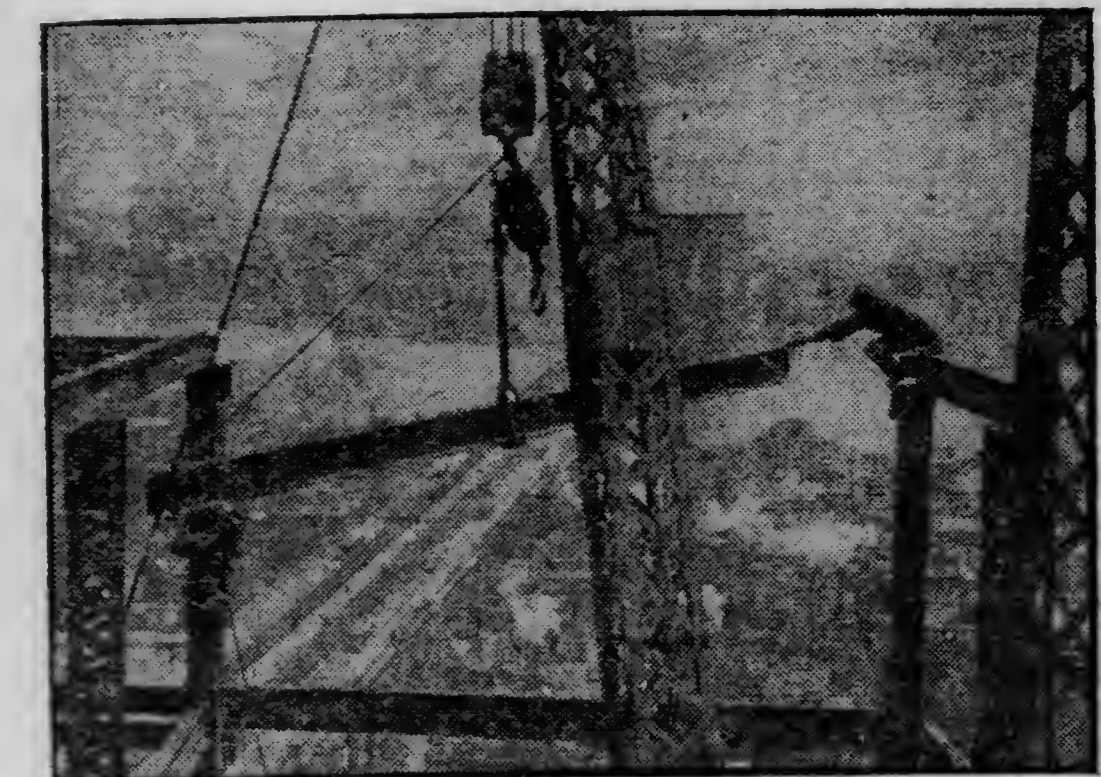

**Must Be Competent and Willing.** But--and this is something which must not be lost sight of--the cry for "help wanted" in this country is one not to be satisfied by any except the thoroughly competent. The employers of the United States have a job for every one, but to get one of these jobs you must give signs of competence, and to hold it you must make good. The work to be done is important, and would better not be done than done poorly.

That is one of the reasons why, despite the real shortage of workers, there often seems to be a surplus,

one of the great industries mentioned above.

For those who cannot find work in practical science because they are not thoroughly prepared, there are only two courses open; they must either prepare themselves all over again, or they must take what they can get and be ready to work with all their might and strength. The cry is "help wanted," and there are few jobs worth while for those who are not able and willing to "help" in the fullest sense of the word.

This America, which has more work to give to her sons, both native and adopted, than there are sons to do it, will not tolerate the lazy any more than the incompetent. Speaking about this feature of the situation, a famous architect said the other day that there is a heartbreaking shortage of competent and industrious young men with the necessary artistic sense to do the minor work in every big architect's establishment in the country, yet there are more applicants than there are places, constantly. "Many of the applicants who do not get places, or, getting them, fail to keep them," he said, "are young

HELP IS WANTED TO BUILD STEEL SKYSCRAPERS--PHOTOGRAPH OF A CONSTRUCTION GANG AT WORK 200 FEET ABOVE THE GROUND IN NEW YORK CITY.

Into a worse state of anarchy than ever. Germany is in the midst of the elections ordered for a new reichstag to take the place of the one dissolved by the kaiser, because it wouldn't vote money enough to carry on his pet African colonies.

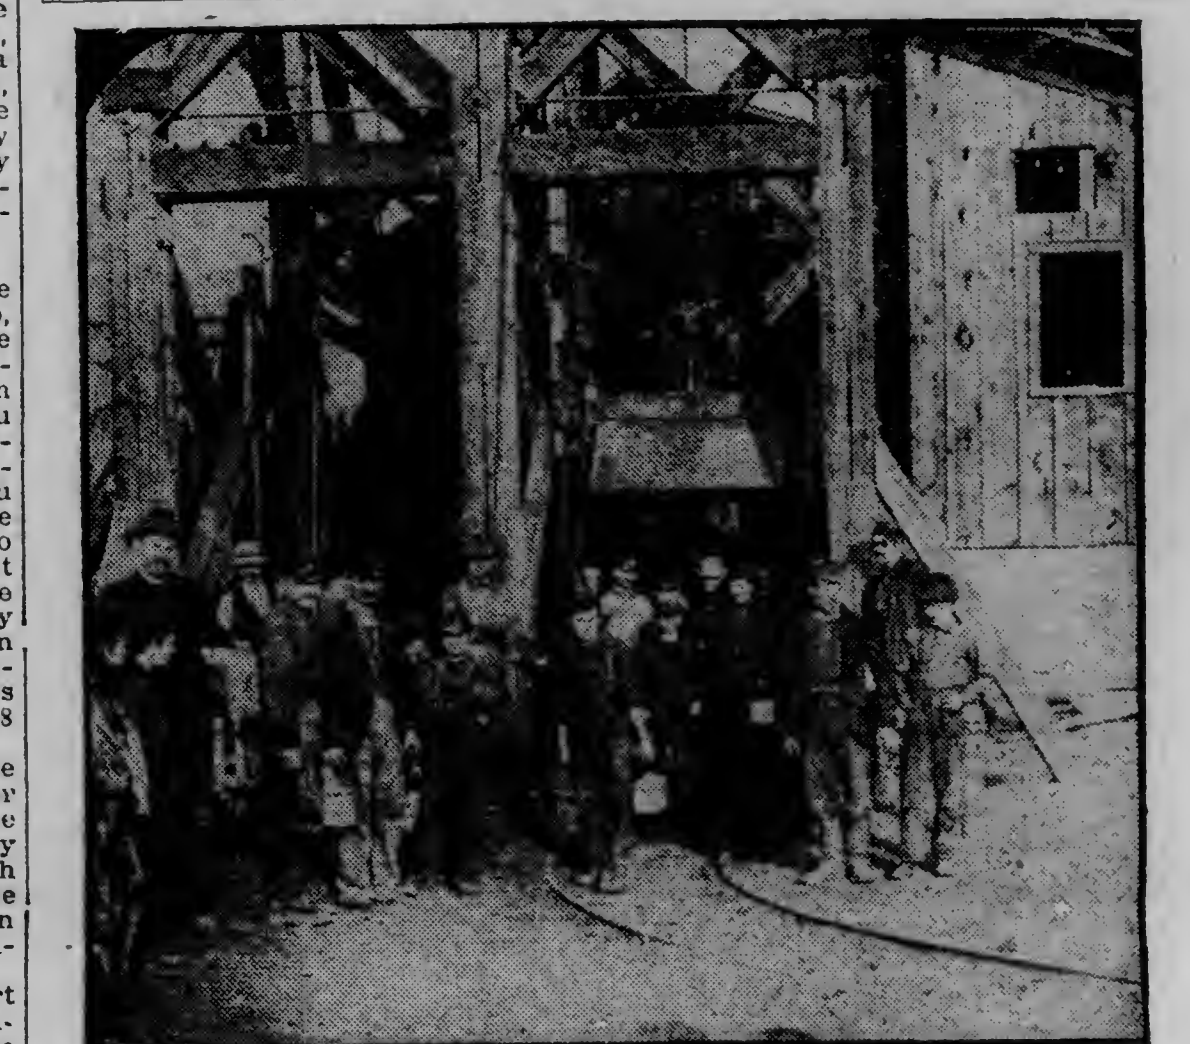

France is in the throes of her struggle with the Vatican. Great Britain is wrought up over the quarrel between the lords and commons, and wondering whether the unrest in India will be noticeably increased by the general Asiatic ferment.

But in America "Help Wanted" is the overwhelming cry. Help to plant and harvest such food crops as have never been grown in any other land. Help to dig ditches, and the coal to smelt them with. Help to lay railroads to carry the crops after they are harvested; the ores and the coal after they are dug, and the iron and the copper and the lead after they are smelted. Help to build homes and skyscrapers; churches and hospitals; art galleries and universities and museums. Help to bore tunnels and dig canals. Help to do useful work of every sort that was ever done under the sun; skilled and unskilled, and more of it than was ever employed by any one nation since the world began. All this may not yet have dawned upon you, but it's true as gospel, every word. Uncle Sam may no longer be rich

adequately. People are freezing in some parts of the West for lack of coal, which the roads can't get to them, and the interstate commerce commission is now trying to find out the real reasons for the situation.

It has been the thousands of unskilled laborers needed by the railroads to extend their mileage and to keep their tracks in order--not forgetting the other thousands employed on New York's barge canal and the really vast municipal improvements going on in nearly every city in the land, that have made it possible to absorb the unprecedented current immigration. It was the great cry for help from the railroads that made it a physical impossibility for uncounted farmers, North, East, West and South, to harvest all their corn and cotton, their wheat and potatoes and hay last fall. The tight money market is largely due to the vast sums of currency which the railroads have had to use, and are still using to pay wages with, though certain men in Wall street have contributed to the situation, and so has the need of much money "to move the crops." But without the current vast wage payments the manipulators would have had little chance to push up the rate as they have.

The Canadian railroads have been as hard put to it for help as those in the United States. The Canadian Pacific has found it so difficult to get graders, track laborers and other unskilled "help" that it has taken to importing

HELP IS WANTED TO MINE THE COAL--MINERS LEAVING A SHAFT IN THE ANTHRACITE REGION.

especially among those who believe themselves to be well trained. You could find a good many last year's "scientific" graduates who have not yet found themselves, while any man well versed as to the need for experts in electricity, chemistry and sanitary, mechanical and civil engineering can tell you of employers who are at their wits' end to find competent youngsters to enter these callings.

The writer was present at a recent meeting of skilled and employing chemists, when the chief question discussed was, "Where are we to find enough experts to man our laboratories?" At the same time it was freely stated that applicants for laboratory situations, who had gone through the prescribed course of preparation at famous scientific schools, were constantly being turned away because brief practical examinations showed them unfit for the work they aspired to do. This condition is not peculiar to the chemical industries; it exists in every

European trained in European schools of the first grade. Some of these young men have all the artistic taste and perception required, but few are willing to work as every one must work in this country.

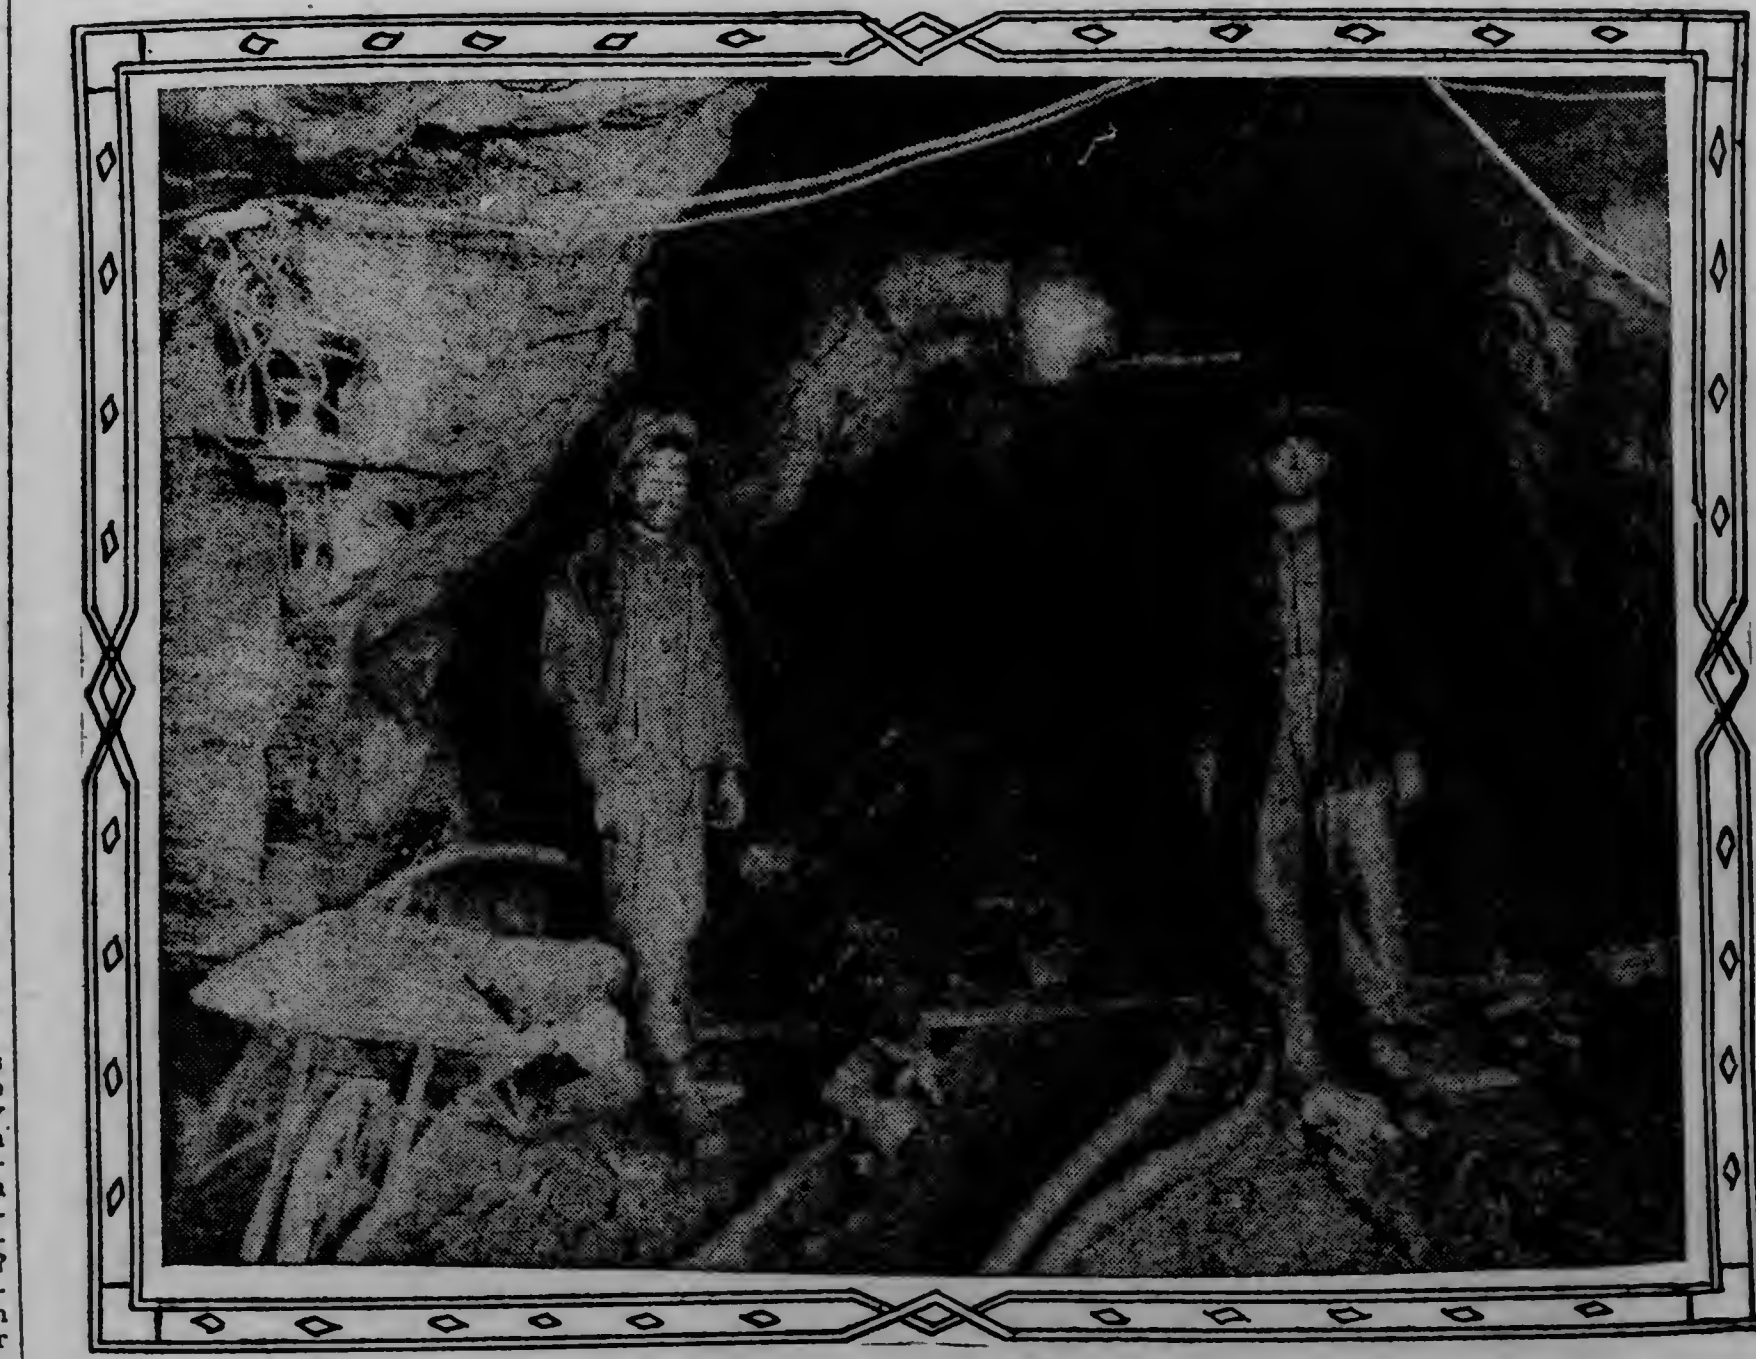

"I have in mind at this moment," he continued, "a young man, the son of a prominent Parisian. The father wrote to me, asking that I allow his son to come to me and work with me in America, where he was sure the boy could rise rapidly to distinction and accumulate more wealth in a few years than he could in a life time spent in France. I wrote:

"Send him along. If you will, and I will give him the chance you ask for. But I advise you to keep him in France; he will not be able to maintain the American pace."

"The father 'sent him along' however, and I put the youngster at work. I paid him twice as much as he could have got in Paris after two or three years of practical work, although not big wages, of course, and gave him every opportunity. But do you suppose he made good? Not a bit of it. He seemed willing enough, but the hard work and persistent application neces-

titions over which they labor, were unable to accede to the demands made. This involved the loss of the rights of eight producing properties, the Golden Reward, Mogil, Reliance, Imperial, Dakota, and the Golden Crest, to the L. H. and Lundberg Dorr, Chicago, Ill. Co. and the mines will decrease the yearly gold output of the district by 100,000 ounces and the bullion value for that length of time about \$1,500,000. All the works of the L. H. and Lundberg Dorr employ a watchman being kept at the plants, and the mines will be allowed to fill with water. The Turner and Galena unions upon the Gilt Edge Maid, the Golden Crest and the Reliance will be allowed until the 20th of the month to give their reply. The consequence to take place in the Black Hills. Both sides seem equally determined to make no concessions.

Terry, S. D., Jan. 12.—The Dakota mine, valued at \$12,000, was burned to the ground and all its contents completely destroyed. The mine was owned by the Diamond Drill owned jointly by this company, the Imperial and the Reliance was valued at \$10,000. The fire is not yet known how the flames originated, though it is supposed the cause was from a gas explosion. This fire has caused the plant to suspend all operations even before the strike was called.

Galena, Jan. 12.—The Arizona Mining company, which is located in this town, is now working several mines, and is about to increase its force. Messrs. F. S. and J. H. Post, all of Minneapolis, have been visiting the property and are pleased with the prospects. They are anxious to sell some of their Minneapolis people. There are great quantities of milling ore in the mine, and the owners are anxious to warrant the erection of a mill.

## ALL RECORDS WERE BROKEN

years ago, and there is now considerable evidence of an erasable good stoping ground ready for operations.

The Summit mine was the scene of the last strike of free milling ore. Nels T. Johnson of Orient is the lucky man. He sank thirty-five feet on the stoping, and in the quarter mile then crosscut, striking a ledge eight feet wide in ninety feet, which is filled with high grade quartzite. The miller, who gives very high assay values. A road is to be built to the mine and machinery installed for its use.

A new 1,600-foot tunnel is being driven on the Mountain Bay. In the south half of the Mountain Bay, the amount of rich gold and silver ore was found in the old workings.

**Large Number of Men Taking Ore From Columbia  
Group of Free Gold Mines---Old Abe Stamp  
Mill Nearly Finished.**

not yet completed his tables, but says that the gold yield will be considerably greater than last year. The gold mining industry here has been very successful and very prosperous.

Work is progressing satisfactorily in the Kentuck and Osborn mines, both of which are located about 10 miles below Horseshoe Bend. The former has been developed by tunnel to the depth of 1,000 feet, the latter for several hundred feet.

There are many other mines in the district, but only one, and that the indications are that it will soon take its place among the most important of the district, is the Kentuck mine, a mountain nearer to Quartzburg than the other two. The indications are that several locations on veins the prospect of which has been known since during the winter. The mountain in which they are located is one of the many streams go down from the summits, affording excellent milling facilities. They are located in the famous Iowa and Good Hope Hill mines.

The company that recently secured the rights to the Boulder mines has twenty stamp mills on Elk Creek above Idaho City, has commenced work on a new vein, and will soon move into the mountain. The ledge is very large, and a few hundred feet below the vein, several other veins are exposed.

**Made in El Favor Mine in State of Guadalupe  
Mexico---Deal on for Buena Vista and  
Xochitl Mines.**

could have been bought six years ago for \$1,600. The ore blocked out a tonnage valued at more than \$1,000,000 and the company will sell the property.

The new smelter of the Oaxaca Smelting and Refining company, now Oaxaca, has been blown in.

A forty-ton cyanide plant will be installed at the Oaxaca mine, located near Tapala, State of Jalisco, by the Chatterton Mining company.

Much interest has been aroused in the proposed strike of the Buena Vista mine, which is owned by El Payo Mining company.

The Mexican government is giving its aid to the United States authorities in exposing wildcat mining schemes which are operating in the border States of Mexico and for their supposed mines of fabulous wealth.

the output of the property. Attention has been attracted recently to the coal deposits in the State of Guerrero. Several Americans have been investigating the deposits with a view to opening up the rich coal and copper mines there. It is stated that there are a number of other districts in that state where there are rich deposits of coal. Little work has been worked very little on account of the fact, probably, that they are remote from the coast.

The Angangueo copper mines in the State of Michoacan are to be worked by the Angangueo Copper Company, which was recently organized in London, Eng., with a capital of \$1,000,000.

The Toluca Copper Company, an English corporation, has acquired copper mines in the State of Durango, and will develop on an extensive scale.

**In Nevada for Non-Payment of Taxes a Year Hence---  
Mae and Boone Mines at Johnnie have  
Been Sold.**

the rich edges has been proven at greater depth.

In the 700 level of the Johnnie Consolidated mine the ore body maintains its width and high value. Work is being pushed on the upraising of new shaft, but the progress is still slow owing to the broken ground and the amount of timbering necessary.

On the Globe Johnnie work is confined to the lower tunnel, which is being driven to the bonanza ground. Though good ore is being extracted, nothing of sensational nature has yet

Word has been received by the local manager of the Globe Johnnie mine will be started soon. This property is near Minnie Mae Hill and adjoins the Globe Johnnie.

The Globe Johnnie mine is doing work on the Beryl claim disclosed a three and a half foot ledge of quartz that carries gold and chloride of silver. On the 1st of Star the ore on the Globe Johnnie encountered in porphyry. So far this is the first porphyry discovered in that part of the country and everybody is jubilant over the find.

On the 2nd of Star a quartz ledge was encountered in the shaft of the Midway Johnnie that assays \$12 across the face. The property is three miles south of the town of Sunshine and even the Star mines.

**Greene, Cole and Ryan Are Honored by the American  
and Mexican Citizens of the Great  
Mining Camp.**

zens of Cananea. After several plans had been suggested, it was decided that a reception would be the most appropriate form the entertainment could take, and it would give all of the citizens a chance to see the men who had stood out as the commanding figures in the copper world today.

Under the new plan, the arrangements were made and the Cananea Club house was decorated for the occasion. Stripes and stars occupied a prominent place.

Shortly after 9 o'clock the guests began to arrive, and from that time until after midnight, when the reception was concluded and the magnificent banquet was served in the residence, where an elaborate banquet was served.

The Portland mine, Cripple Creek, is in a rich vein of ore at 1,400 feet depth. The value approximates \$400 a ton. The result of the suit for damages for ore alleged to have been wrong

royalty and profits retained, \$350,000; London expenses, \$245,000; total dividend to date, \$4,850,869. Since the leasing system was introduced two years ago the production has reached \$3,000,000.

The United States Reduction & R

for many miles by the Allouez conglomerate, supposedly identical with the Albany & Boston conglomerate now being worked by the Manitowish Conglomerate Co. The Allouez conglomerate is a wide and strong lode, bearing copper in varying quantities. A considerable production from this lode was made by the old company, but the copper was worked at a profit by tributaries, on several occasions, but the company always lost money when working the mine itself. The Delaware conglomerate, which the Delaware mine worked a conglomerate, but quit business after sinking about \$3,700,000. The Delaware is now the Manitowish mine, and the Allouez conglomerate workings are not being reopened. Principal developments on the Manitowish under the new ownership, are on the Mo-

of which adjoins the West Columbia bridge at the mouth of Waverly river. They have bought the controlling interest in the company and have control of the plant. The directors are J. M. McDaniel in room 68 of the Silver Bow hotel last night, four of the old directors and the president, C. McKelvey and secretary resigned, and Pittsburg men were elected to succeed them. The directors who stepped down were E. A. Brown, H. L. Clayton, F. J. Hobban, George A. Griggs and R. W. Charlton. The men who succeeded them were J. M. McDaniel, J. B. Gault, J. S. Whitcomb and John B. Chapman, all of the smoky city.

J. Patsy Browne resigned as president and J. B. Gault was elected to succeed him, but Mr. Browne was elected vice president in place of J. T. Little. Little resigned as treasurer and B. Chapman was elected secretary.

[illegible]

Pittsburg capitalists work in the Miller canyon. Bisbee people have taken a bond on the Montezuma spur, east of the Butte & Arizona, and work is soon to commence. A company has also been organized to operate

Sinking will be resumed on the Calumet and Hecla property, and the desire of the company to take this shaft down 1,000 feet, at least, is well known. The latter is the Belvidere shaft. The latter reached a depth of 640 ft. last evening. After a station is cut and a pump installed, the shaft will be lowered, and south will begin and probably continue until the vein is determined. There are several large veins north of the shaft, and the company is anxious to open them.

The Anaconda company is mining a lot of good copper ore in the Belmont section, and the city is anxious to have it. The city, but was compelled to perform considerable work in the Belmont section. It has been opened properly, for the workings were in horrible condition last spring. It is mining on the 800 and 900 foot levels, and the Belmont section is a section that has not been very productive at depth. The company is anxious to open them to the rule.

development of the Colonel Sellers and Bird, which adjoin each other end for end, including an air compressor that has capacity for twenty-three drills and two large boilers, one of fifty horse power and the other forty. It

The South Butte company is sinking a shaft on the property on the property located south of the old smelter of the Colorado Fuel and Iron company. The shaft is being sunk to a depth of 90 feet and is going down rapidly. The company is well equipped with machinery and the manager expects to cut the vein the latter part of the month. The company is well pleased with the shaft is on the hanging wall. Officers of the company are confident of commercial quantities. Their shift is the best of the district and according to report, the deeper the work progresses the better the showing.

Few persons in Butte are aware of the fact that copper ore in commercial quantities has been mined 3,600 feet west of the city. The veins are not being worked according to report. Farther west than the city the veins are not being worked. The metal has never been discovered, except, perhaps, in small bunches not worth working. The veins are not being worked has been done. The veins west of the city are not being worked. The veins of the big Butte are strictly silver-sold bearing with hardly a trace of copper ore in their ore-filling.

A well known mining man of Butte

to dip deep in their approach to Missoula gulch, and the fact that the vein of the garnet ore is not exposed at the surface to the west at a depth of 2,000 feet in the Gagnon indicates that the ore is not far from the surface. According to his idea, which has been partly proved, the end of the ore body is at the base of the city, near the rhyolite of the big butte, and if copper is in the ore, it is more than that at which it is found east of the rhyolite.

The pitch of the west end is at an angle of about 40 degrees. The bulk of the ore is in the upper part of the main shaft of the Alice in Walker's ville, but it is in the lower part of the main shaft of Rainbow lode. It has been found fully 100 feet west of the main shaft of the Alice in Walker's ville, and south of the Gagnon none of commercial value has been found.

At Missoula gulch, the ore is in the upper part of the main shaft of the southern part of the city, but are carrying copper. However, is of the silver-gold class, and is mined for these values principally. The ore is in the upper part of the main shaft of the Alice in Walker's ville, and has ever yielded copper ore in which the silver-gold values, but some very rich silver ore has been found. The fact that the ore is not far from the surface is sufficient to strike the copper zone, has never been struck.

# THE DULUTH EVENING HERALD

## Frazee

Frazee, Minn., Jan. 12.—(Special to The Herald.)—Rev. J. R. Davis of Frazee, Minn., the new M. E. presiding elder of the Crookston district, conducted the services here Sunday.

Mr. and Mrs. James Daily have returned from their visit to Frazee.

Mr. George W. Clayton has returned from Miller, S. D., where she has been visiting her daughter.

H. M. Olson was called to Fergus Falls to attend the funeral of his brother-in-law, recently.

A. W. Charron, a freight brakeman, was very seriously hurt here this week. The accident was caused by the freight suddenly meeting the snow pile. The snow was sent with such force against the window of the cab that it broke it in and Mr. Charron was badly cut up.

Mr. and Mrs. Arthur Lewis of Hawley, visited Rev. and Mrs. Dodge, recently.

San Geronimo children, who have been here visiting, left their home at Frazee, Minn., this week.

The members of the Sacred Heart church are quite proud of a new statue which they have placed in their church. It is a beautiful piece of art and is highly appreciated. The dedication services was held on Wednesday.

There were thirteen deaths and forty-six burials in Frazee last week.

Miss Nellie Kettner, who has gone to her home in Wisconsin for a visit, lost a purse containing about \$10 on the night of her departure.

The dance at Bauer's hall on Monday was reported as a success.

A party was given at the home of Mr. and Mrs. N. Rosenbloom on Tuesday. A large number of friends were present and a most enjoyable evening spent in games and cards.

Mr. and Mrs. J. H. Hall, who have been visiting relatives here, have gone to their home at Frazee, Minn.

Rev. George Warner was out to Luck's Mill, recently, where he performed the marriage ceremony of John H. Early and Miss Laura Warner.

Miss Georgina Stiff has withdrawn from the high school and will take up the study of music.

The Yoman will install their officers on Monday afternoon, after which they will have a ball, card party and supper.

The W. C. T. U. met with Mrs. Geiser on Thursday.

Miss Margaret Schmitz has returned to Minneapolis.

Little Mildred Fay sprained her wrist and received several other injuries on Wednesday, owing to a fall.

## New Duluth

## THE PAPAL NUNCIATURE AT PARIS SAID TO HAVE DABBLED IN POLITICS

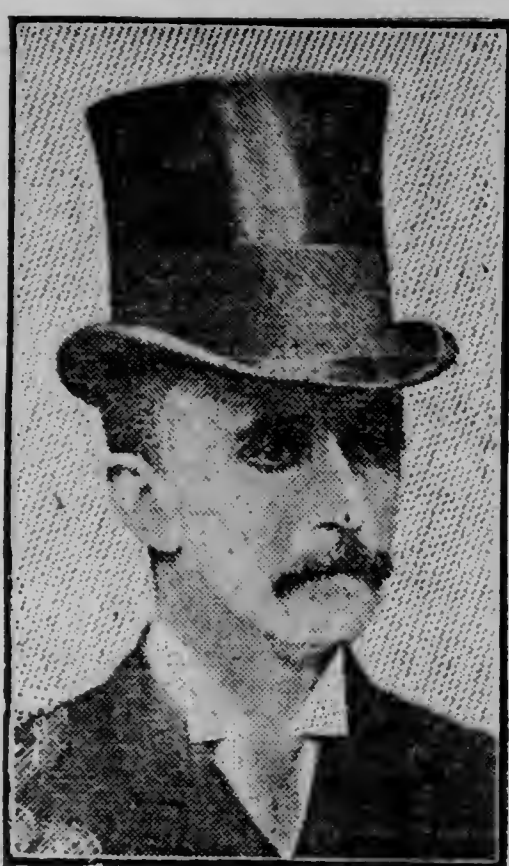

Assertion Made on Evidence Found in Montagnini's Papers.

Had Regular Relations With the Opposition Deputies.

Petite Republique, Which Makes Charges, Prints No Documents.

Paris, Jan. 14.—Having decided in advance to adhere to the recent papal encyclical, the work of the French episcopate which meets tomorrow will be largely confined to discussing the practical matters involved in the condemnation of the amended church and state separation law and the benefit which can be obtained from the public meetings law of 1901. The question of the churches' resources will be uppermost, and the cardinals and some of the bishops, who were again in session today, have virtually resolved to recommend the establishment of a central fund in all dioceses. It is doubtful, however, whether the legal plenary assembly will approve the reorganization of the seminaries as superior theological schools in accordance with the law of 1875, under which a number of them already have been reopened.

The Petite Republique, while it does not publish the text of the documents, asserts today that Mgr. Montagnini's papers prove that the papal nunciature was constantly dabbling in politics and had regular relations with the opposition deputies and senators and members of the Legitimist and Bonapartist parties, and was in correspondence with Emile Olivier, the ex-minister of Napoleon III. The paper also says that it has proof that through the Portuguese government, the government of France learned that the Vatican's circulars previous to the visit of Ex-President Loubet to Italy was not identical in its wording in the case of all the powers.

EARL GREY  
Governor General of Canada. Who Will Entertain Secretary and Mrs. Root the Latter Part of This Week.

## LEPERS ARE DELIGHTED

With Their New Colony in the Philippine Islands.

Comfortably Housed and Well Fed by the Government.

Washington, Jan. 14.—After a long and vexatious delay, the Culian leper colony, in the Philippine islands, with accommodations for about 300 patients, was opened in May, 1906. The first lepers taken there were from Cebu, and they protested vehemently against going. When they arrived they were delighted with their surroundings, and indeed their present life, according to a report to the insular bureau, is in forcible contrast to the one they had been living. To any one who has seen these poor creatures begging in the streets, or driven from town to town, and obliged to live out a living as best they could, it is a great pleasure to see them comfortably housed, well fed and looked after, and situated where they have a modern sewerage system, pure water, laundries, bathhouses, a church and a dining hall, capable of accommodating 300 people at a time. In addition to all this they have a brass band and a theater.

The lepers are taken from all over the archipelago to the colony. A careful examination is made of each patient before he can enter the colony. It has been found that in a great many cases, persons supposed to have leprosy have merely been afflicted with tropical cancers or ulcers.

Four sisters of charity have volunteered for duty in the colony, as has a Jesuit priest, Father Wallis, who is to be the chaplain. The quarters of the non-leperous residents are removed about a quarter of a mile from the colony.

## STATE'S SUIT AGAINST R. R.

Filed in Supreme Court by Illinois Attorney General.

Springfield, Ill., Jan. 14.—The suit of the State of Illinois against the Illinois Central railroad for the several million dollars which the state alleges has been withheld from the state's gross earnings tax of the railroad, was filed in the state supreme court this morning by Attorney General Smeal. Summons in the case was issued by the clerk of the court, and the attorneys for the railroad will be served on Local Agent N. J. Near of the Illinois Central, in the absence from the court of President Harahan. The supreme court convenes again on Feb. 5, and at that time the attorneys for the railroad will appear in court and answer the summons. A fight on the jurisdiction of the state is expected, and it is possible that the attorneys for the railroad may attempt to have it taken from the supreme court, in case the supreme court assumes jurisdiction, a master in chancery will be appointed to hear evidence in the case.

## EXPLOSION IN A MINE

Causes Death of Several Men at Clinton, Ind.

Four Bodies Recovered and Others May be Found.

Clinton, Ind., Jan. 14.—Joe Joseph, Ed Wolfe, John Herman and Peter Letvish, miners of mine No. 7 of this city, were killed in a gas explosion this morning. The cause of the accident is not definitely known, but is supposed to have been caused by the explosion of a keg of powder in Wolfe's room. It is not known how many more men are in the mine, but it is thought six or seven more will be found dead. Searchers are unable to get into the remote part of the mine on account of the intense heat. Six injured have been brought from the mine.

## PRESIDENT STANDS PAT ON BROWNSVILLE AFFAIR

Sends Message to Senate Concerning Discharge of Troops.

Accompanied by Evidence Recently Collected by Purdy.

Various Exhibits of Cartridges and Bullets Submitted.

Washington, Jan. 14.—President Roosevelt today sent to the senate a special message regarding the Brownsville incident which gives the additional evidence collected by Assistant Attorney Gen. Purdy and Maj. Blockson, who were sent to Texas by the president to investigate the affair. The president submitted with his message various exhibits, including maps of Brownsville and Fort Brown, a bandoleer, thirty-three empty shells, seven ball cartridges, picked up in the streets a few hours after the shooting; three steel jacketed bullets and some scraps of the casings of other bullets picked out of the houses into which they had been fired. The president declares that the evidence is positive that the outrages of Aug. 13 were committed by some of the colored troops that have been discharged, and that some of all of the members of the three companies of the Twenty-fifth infantry had knowledge of the deed and have shielded the guilty ones. The negro troops are referred to by the president in his message as "outrageous" and he declares that very few, if any, of the soldiers dismissed "without honors" could have been ignorant of what occurred. That part of the order which bars the soldiers from all civil employment under the government is revoked by the president. This clause, the president says, was lacking in validity. The discharged troops, however, will be forever barred from re-enlisting in the army or navy, and as to this the president says that "there is no doubt of my constitutional and legal power."

## WOULD BE A HOODLUM ACT

To Pass a Japanese Exclusion Act, Says Jordan.

San Francisco, Jan. 14.—"No congress could pass a Japanese exclusion act and no president would sign one, because it would be a hoodlum act," said David Starr Jordan, president of the Stanford university, in addressing a meeting at Equity hall last night, of Socialists by whom he had been invited to speak on the Asiatic problem. Dr. Jordan quoted President Roosevelt in saying that as a general rule "it paid for a nation to be a gentleman," and he was of the opinion that the remedy of the immigration troubles did not lie in lawlessness nor yet in mass meetings denouncing the Japanese as a nation, because they did not go to the same Sunday school we attended.

"It is all nonsense," he said, "that we have to fight with Japan to see who shall have the mastery of the Pacific."

He said he believed Japan was sincere in its desire to stem the unskilled labor immigration to this country.

The president, in a special message to the senate regarding the discharge of the negro troops at Brownsville, defends his action, saying it would be impossible to preserve army discipline by pursuing any other course. He presents exhaustive reports of investigations made at Brownsville, with maps, diagrams and photographs. He says there is no question as to his right to discharge the troops and the order cannot be reversed except by another executive order. That part of the order which bars the soldiers from all civil employment under the government is revoked by the president, who says it lacks validity.

dence is positive that the outrages of Aug. 13 were committed by some of the colored troops that have been discharged, and that some of all of the members of the three companies of the Twenty-fifth infantry had knowledge of the deed and have shielded the guilty ones. The negro troops are referred to by the president in his message as "outrageous" and he declares that very few, if any, of the soldiers dismissed "without honors" could have been ignorant of what occurred. That part of the order which bars the soldiers from all civil employment under the government is revoked by the president. This clause, the president says, was lacking in validity. The discharged troops, however, will be forever barred from re-enlisting in the army or navy, and as to this the president says that "there is no doubt of my constitutional and legal power."

Secretary Taft's report, giving the sworn testimony of witnesses is transmitted with the message. The testimony of fourteen eye-witnesses is given and the president declares that the evidence is conclusive that the weapons used were Springfield rifles, now used by the United States troops, including the negro troops who were in the garrison at Brownsville.

The president's message follows: To the senate: In my message to the senate treating of the dismissal without honor of certain named members of the three companies of the Twenty-fifth infantry, I gave the reports of the officers

Has No Doubt of Right to Dismiss the Troops.

Cannot be Reversed Except by Another Executive Order.

One Part of the Order is Revoked by President.

upon which the dismissal was based. These reports were made in accordance with the custom in such cases; for it would, of course, be impossible to preserve discipline in the army save by pursuing precisely the course that in this case was pursued. Inasmuch, however, as in the senate, question was raised as to the sufficiency of the evidence, I deemed it wise to send Maj. Blockson and Assistant Attorney General Purdy to Brownsville to make a thorough investigation on the ground in reference to the matter. I herewith transmit Secretary Taft's report and the testimony taken under oath of the various witnesses examined in the course of the investigation. I also submit various exhibits, including maps of Brownsville and Fort Brown, photographs of various buildings, a letter from Judge Parks to his wife, together with a bandoleer, thirty-three empty shells, ball cartridges and four clips picked up in the streets of Brownsville within a few hours after the shooting; three steel jacketed bullets and some scraps of the casings of other bullets picked out of the houses into which they had been fired. A telegram from

## ENGINEER IS KILLED

In Collision With Heavy Engine at Allison Park, Pa.

Pittsburg, Jan. 14.—Chicago Express No. 6, eastbound, on the Pittsburg & Western branch of the Baltimore & Ohio railroad, was in collision at Allison Park, Pa., at 8:10 o'clock today, with a heavy shifting engine. The passenger engine was wrecked, and C. W. Myers, engineer of Chicago Junction, killed. Fireman H. C. Lewis, also of Chicago Junction, was fatally hurt. Several passengers on the express were slightly cut by broken glass, and all were badly shaken up by the impact, but none was seriously injured. The collision was due to a freight wreck. Traffic on the main line was tied up for several hours by the accident.

## THEIR LIVES ARE SOUGHT

Attorneys and Witnesses in Hargis Case Threatened With Death.

Troops Will be Sent If Judge Carnes Asks for Them.

Lexington, Ky., Jan. 14.—John Smith, the Breathitt county feudist, who confessed to his part in the assassination of Dr. Cox, and who fled from Jackson to prevent assassination, is still hiding today at the home of his brother, Govan Smith, nine miles from Jackson. Smith says he has received warnings that his life is sought, and several of his relatives are at the house day and night, armed and guarding him. Smith is badly frightened, and says he will appear at the trial of Judge Hargis only on condition that he be given a bodyguard.

Attorneys who have been conducting the prosecution of Hargis also have been threatened with assassination, but all say they will return to the city on Friday. It was learned here that if Judge Carnes again asks for troops at Jackson they will be sent. Many of this city is thrilling daily, and the men are virtually under arms.

Swift Punishment for Alleged Assault on Young Girl.

Angry Crowd Took Him From Home Sunday Evening.

Great Excitement Prevails and Further Violence is Feared.

Bemidji, Minn., Jan. 14.—(Special to The Herald.)—Last night shortly after dark, a mob of masked men, said to be residents of Solway, went to the home of James Wilcox, a farmer living near Solway, took him from his bed and treated him to a coat of tar and feathers, as swift punishment for alleged attempted assault by Wilcox Saturday night, on the person of the 13-year-old daughter of J. F. Rock.

As near as can be learned, the allegations made against Wilcox are that he was detected by a brother of the Rock girl, attempting to assault her, that he got away, and that the brother of the girl told her parents.

As the story gained circulation among the inhabitants of Solway, much feeling was wrought up against Wilcox, and it was decided to organize a crowd and apply a coat of tar and feathers to his person.

The crowd was gotten together and went to Wilcox's home. One of the crowd ran on the door. Wilcox was in bed, but got up and opened the door. He was seized by the crowd and taken behind his stable. In the rear of the premises, where a heavy coat of tar was applied to his body and feathers were liberally mixed with the tar.

It is not known how badly Wilcox was injured by the tar and feather treatment. There is said to be great excitement at Solway over the affair, and it is feared that further violence will be done Wilcox.

## SEVEN PEOPLE BADLY INJURED

By Collision Between Monon Train and Wabash Sleeper.

Chicago, Jan. 14.—Seven people were injured early today when an outward bound train on the Monon railroad collided with a sleeper on the rear end of a train on the Wabash road at One Hundred and Twelfth street. The following people, all of them passengers in the Wabash sleeper, were injured: Manuel Cook, Indianapolis, Ind., head cut; Edward Persenhan, Chicago, left leg bruised; William Morgan, Chicago, shoulder cut; James Chancey, Ashland, Wis., leg bruised; W. F. Chapman, Louisville, Ky., head cut, and hip injured; F. J. Spencer, Chicago, head cut; John Faulkner, Bay City, Mich., back hurt and head cut. Injuries serious.

The accident was caused by the inability of the trainmen to discern signals in the dense fog. The signal was up warning the train on the Wabash road to stop, but the engineer could not see it and proceeded. He had nearly passed the crossing when the Monon train struck the sleeper.

## PEIRCE IS ACCUSED

Of Representing Vessel Owners While Acting for Government.

Serious Charges Made Before Ways and Means Committee.

Washington, Jan. 14.—Sensational charges against Herbert H. D. Peirce, United States minister to Norway, who was formerly the third assistant secretary of state, were made before the house committee on ways and means today by Prof. H. W. Elliott, of Cleveland, Ohio, in connection with a hearing on a resolution for the further protection of fur seals on the high seas.

Prof. Elliott stated that while Mr. Peirce was representing the United States government before The Hague tribunal in the settlement of claims growing out of the seizure of the sealing vessel, J. Hamilton Lewis, by the Russian government, on the charge of piracy, he also represented the owners of the vessel and even instituted action in the United States district court for the District of Columbia to insure payment of his fee out of the money awarded to the vessel owners.

## Great January Sale of Overcoats

A rousing, reckless, unloading sale of Men's Winter Overcoats—the biggest bargains ever offered in Duluth, with the coldest half of the winter yet to come.

Buy now for next winter—Only an exceptionally mild winter so far could bring about such extraordinary low prices as these. Better invest a few dollars now and save as many more next season.

Best materials—every style, \$16.50, \$15 and \$13.50 values now.....

**\$9.85**

To see these is to buy—You cannot help it. At our regular prices they were admittedly the best values in Duluth. At these prices they simply upset all records. Rich overcoats with the graceful French curve or loose box back with a rich dressy finish. They were quick sellers at \$30, \$27.50 and \$25. Now going at.....

**\$14.85**

FIRST TO SHOW THE NEW THINGS.

New 1907 spring and summer suits and top coats now on display.

## LOOK FOR A LARGE CROP NO NEED FOR AN ANSWER

The Duluth Ice Companies Statement of Railroad Have Begun Cutting Attorney Contained No Operations. New Arguments.

Houses Empty, and Harvest Will be a Big One. Appeal From Condemnation Award Taken as Favorable Sign.

The Duluth and East End Ice companies look for a good crop of ice for the winter. The Duluth and East End Ice companies look for a good crop of ice for the winter. The Duluth and East End Ice companies look for a good crop of ice for the winter.

The annual harvest on St. Louis river and Spirit lake is now in progress, although operations at the latter point were only begun today. The East end company will probably not begin cutting here until Thursday morning. Beginning a week ago last Saturday, the latter company began cutting in the vicinity of New Duluth, while the other firm had teams and men at work farther down the river a week earlier.

The cut at these river points is about completed, but at Spirit lake there will be cutting for a week or two yet. The ice on the river is now of exceptional quality. Both companies last winter cut about 100,000 tons of ice. The Duluth company has a large amount for commercial and domestic use, and a large amount for the city. The East end company's total will, it is expected, run considerably above this amount.

Practically no ice was left over this season from last year. The East end company, indeed, was entirely out of the commodity before the end of the year. The Duluth company had little more than enough to carry it through. There was a shortage at outside points last year, and many demands were made upon Duluth to furnish ice. Most of them were of necessity turned down. Large railroad orders that were filled had something to do with the rapid depletion of the local supply.

When the ice-cutting season opened last year conditions were different. For many thousands of tons of the commodity were left over from the previous season, and therefore the cut was not nearly so large in 1906 as it will be in 1907.

Ice generally forms on the lake in February, and the companies figure on beginning cutting during the latter part of February, or early in March at the latest. The season usually does not extend beyond March 15.

### NIECES WANT A SHARE

Of the \$2,000,000 Estate Left by James A. Bailey.

White Plains, N. Y., Jan. 14.—A legal struggle for the possession of the \$2,000,000 estate left by James A. Bailey, the circus proprietor, began before Surrogate Millard here today. Under Mr. Bailey's will the entire estate goes to his widow, Ruth Louise Bailey, who also is made sole executrix. The instrument is being contested by Mr. Bailey's nieces, May Gordon and Annie Robinson, both of Detroit. They contend that at the time the will was drawn, Mr. Bailey was of unsound mind and that he was moved in disposing of his property by undue influence, misrepresentation and fraud.

"All is soon ready in an orderly house," and the ad. you are looking for is soon found in The Herald want column.

## THE POLICE COURT GRIST

Thomas White is Fined for Theft of Some Lumber.

Would-Be Suicide Is Let Off With Nominal Fine.

"You might as well steal diamonds as lumber nowadays, Tom," said Judge Windom, in municipal court this morning, as he imposed a sentence of \$15 and costs on Thomas White, charged with petty larceny for the theft of a four by four beam from the distributing station of the Great Northern Power company, at Thirteenth avenue west.

The arrest is the result of a number of petty thefts of lumber and other light articles, which were left exposed around the plant, and White was made an example of simply because he was the first one caught in the attempt to get away with the goods.

Oscar Wolf, the Miller cafe cook, who created such excitement at a prayer meeting at the Bethel, Saturday night, by a sensational attempt to commit suicide, and who slashed the hand of the officer who attempted his arrest, was brought before the judge this morning, charged with disorderly conduct. Wolf testified that he was drunk and did not know a thing about what he did in the Bethel, nor for some time preceding it. He is said to have become despondent after having over one week's wages. He had nothing to take home to his family, and he finally worked his way to the pitch where death looked inviting. Judge Windom let him off with the fine of \$5 and costs.

A Matt Tuillia, a cripple, who, while drunk, attempted to strike up a flirtation with a woman standing in the window of a store at 201 West Superior street, and made himself very offensive, although he said that he was so drunk he did not know what he was doing at the time. He was fined \$5 and costs.

Charles Magnusson, Christ Johnson, and John Paulsen, three woodmen, who are charged with having stolen numerous personal belongings from their roommates in the Danes lodging house, on West Michigan street, pleaded not guilty to the charge, and their trial was set for 2 o'clock this afternoon.

The case of the State against Wilfred Sheehan, charged with assault, in a tussle in the kitchen of the Delicatessen restaurant, last week, when Hugh Brown, the party plaintiff, in the rough house was dangerously injured by a knife thrust in the stomach, was put over one week on account of the inability of the Brown boy to appear in court to testify against the defendant. Brown is lying in a very weak condition at St. Luke's hospital, and if he should die the case would develop as a charge of manslaughter would probably be preferred.

The participants in the scrap were scuffling in the kitchen restaurant, and according to Sheehan's testimony, both had knives in their hands when the trouble started. Brown says Sheehan received the cut as he fell to the floor with the knife under him. Both were somewhat under the influence of liquor at the time.

## DUTROW TELLS COMMISSION

That Train Crews Tried to Place Blame on Him.

Washington, Jan. 14.—The investigation into the causes of the Baltimore and Ohio railroad wreck at Terra Cotta on the night of Dec. 30 was resumed today by the testimony of William D. Dutrow, the operator at the block station at Silver Spring, Md., who was held responsible for the wreck by the coroner's jury. Dutrow caused considerable surprise when he testified that an effort had been made by the train crew of extra No. 230 to place the blame on him, and that he was responsible for the recent wreck at Terra Cotta upon him.

"How do you account for the fact that the train crew of No. 230 and No. 66 testified that they saw the double green light at your station on the night of the wreck?" asked Mr. Walters, the interstate commerce commission's attorney.

"They want to put the responsibility off on me," Dutrow replied. "Dutrow's testimony was practically a repetition of that given by him before the coroner's jury. He testified that he was not required to undergo an examination as to the rules of the Baltimore and Ohio road, but was simply asked if he knew the rules and when he replied 'yes,' he was given to understand that that was 'all right.' Dutrow testified that he knew of no rule forbidding operators from receiving visitors during office hours. He said that he had frequently received callers. Dutrow admitted that he was dissatisfied with his work on the night of the disaster.

RIGHT, COME IN!

New Haven Correspondence, New York World: The naturalization court sat in New Britain today for making new citizens. A large number of applicants appeared. One of the applicants was asked by the judge if he knew what the constitution is.

"Oh, yes, I know," was the reply. "What is it?" asked the judge.

"It's a big stick," was the response. He got his papers.

## CHURCH THREE CENTURIES OLD

**Episcopalians Will Celebrate Founding of Church in America.**

Tuesday, Jan. 15, marks the three hundredth anniversary of the establishment of the Episcopal church in America, and in all the churches of this sect throughout the country fitting services will be held tomorrow evening.

In connection with this celebration a concerted effort is being made to raise the sum of \$2,000.00 for church work. This record breaking donation is to be known as the "Three Centuries Old Church" fund, and will be used to advance the work of the church in this country.

The building of a handsome memorial church over the site of the first Episcopal church in the country at Jamestown, where the first church in America was erected in 1607, has been considered, and while plans for the structure are still somewhat vague, its erection being somewhat dependent upon the financial results of tomorrow evening's celebration, it is very probable that it will be erected in the near future.

At tomorrow's meeting at St. Paul's church the opening address, "Jamestown in 1607," will be delivered by Rev. J. J. Mooney, and besides describing the hardships endured by the pioneer Episcopalians he will deal with the progress and prosperity of the church from 1607 to the present day.

Rev. Frank Durante of Illinois will be the second speaker of the evening and he has selected as his topic, "The Meaning of the Three Hundredth Anniversary." Judge Page Morris has been selected to deliver the most important address of the meeting on "The Men's Thank Offering," and to explain the significance of the offering and the need for liberal donations.

Bishop J. D. Morrison will conclude with a talk explaining the "Reasons for the Thank Offering."

Under the able direction of Prof. A. F. Morrison, the musical program for tomorrow evening's celebration.

## HELD UP IN DAYTIME.

**Girl Carrying \$340 Payroll Robbed, But Thief Drops Money.**

New York, Jan. 14.—Margaret Hoffman, 14 years old, with \$340 clasped to her breast—the payroll for the employees of Bernard Waldstein of No. 14 Westchester street—held up and robbed on Saturday of the money on her way to the shop from the German Exchange bank which is on Bond street and Bowery.

With a fast gathering crowd at his heels the highwayman ran through the streets to Broadway, where, right in front of the Manhattan bank, Detective Murphy tripped him up. He threw the wallet containing the roll into the gutter, and almost as it fell, the girl who had robbed pounced upon it and then sat down on the curb in the rain and cried.

## RUNAWAY WIFE GIVEN UP BY OWN DAUGHTER.

Appleton, Wis., Jan. 14.—Mrs. Mary Hoegrel, aged 30, was arrested in Milwaukee Saturday afternoon on a charge of larceny and brought to Appleton after having purchased a through ticket to New York with \$1,000 of her husband's money, with the evident intention of reaching Germany.

Her husband, Frank Hoegrel, went to work in the paper mills Saturday and his wife packed her own clothes and the best of all things, her own car, after Minnie, the stepdaughter of Hoegrel and own daughter of Mrs. Hoegrel, who has been married, gave the first intimation of the flight and furnished information leading to the arrest in Milwaukee.

Hoegrel has been married to his wife seven years and always gave her his pay envelope and she was made custodian of all the money he earned for them on her person. As the funds were voluntarily given her it is doubtful if the charge lodged against her was correct.

There was no trouble in the family here, but it is said the woman's first husband is still living in Germany and she was going to him.

## Doctors Admit

**That They Can Do Nothing More For Your Stomach Than Stuart's Dyspepsia Tablets are Doing Every Day.**

## COSTS NOTHING TO TRY.

According to the expert analysis of government authorities in the United States and Great Britain, Stuart's Dyspepsia Tablets contain the exact elements provided by nature for digesting food in the healthy stomach.

Stuart's Dyspepsia Tablets have saved sufferers from stomach disorders millions of dollars by giving them, in one small 50 cent package, more relief than countless treatments by physicians would bring about at \$5.00 per visit.

Perhaps you are afflicted with dyspepsia—or some kindred disease arising from a disordered digestion. It may be headaches, heartburn, palpitation, liver trouble, insomnia, nervous debility. They all have their beginning in a stomach which does not secrete the juices or grind the food which is taken into it.

If so, we urge you to send for a free trial package of Stuart's Dyspepsia Tablets. It will cost you nothing and surely will bring us no gain unless you find, after using it, that you are benefited and feel that you need a full-sized package.

There is absolutely no danger in using Stuart's Dyspepsia Tablets. Nothing is contained in them that has not been subjected to the closest scrutiny by the government officials.

Stuart's Dyspepsia Tablets will digest your food without demanding a careful diet. One grain of these Tablets has power to digest 3,000 grains of ordinary food. You can be sure therefore that no matter what your condition, these little tablets taken after each meal will shortly restore your stomach to its normal condition and render it capable of doing its work unassisted.

We withhold the names of hundreds who have written us voluntarily expressing their gratitude to this simple substitute for nature.

Send for trial package today. P. A. Stuart Co., 70 Stuart Bldg., Marshall, Mich.

## WIFE'S AGE KILLED HIM

**Woored by Mail, Sister of First Wife Was Disappointment.**

**Husband Worried Over It and Died of Broken Heart.**

New York, Jan. 14.—In the story of poverty and despair, as told by Mrs. Mary Koubek, of No. 718 Clement avenue southeast, the widow who was without food on Christmas, are woven the threads of tragedy and an intolerable existence in a strange land.

Without a relative in this country, and bedridden by the infirmities of age, Mrs. Koubek pines for the prosperous home of her childhood and wants to return to Austria that she may die among those who knew her best.

For several years she has lived in the knowledge that she was married to a man who despised her because she was not young and beautiful, as he thought when he wooed her by mail, and who died heartbroken as a result.

In 1895 the woman's youngest sister was won by John Koubek, a stalwart Austrian who had determined to seek his fortune in the republic beyond the sea. The present Mrs. Koubek was not at home while he was wooing her by mail, and she did not see her brother-in-law at that time. Koubek and his bride came to Cleveland and established themselves in a home of their own. Four children were born and all went well until Mrs. Koubek died. After the funeral the bereaved husband began corresponding with his sister-in-law in Austria, whom he had never seen. Letters followed each other in rapid succession until last June Koubek proposed that the girl come to America and marry him, after the custom of a brother-in-law prevailing among certain classes of the Hungarian peasantry.

In the courtship Koubek in some manner, came to believe that his sweetheart was beautiful as well as young in years. To his friends he described the handsome girl who was soon to join him here and become his wife. Preparations were completed for the wedding, and it was arranged that the girl was to be met at the station by the bridegroom and his friends. At the appointed time the sanctuary was filled with guests and the impatient lover went to meet his bride. As she stepped from the train Koubek was dumbfounded to find that instead of being a young and pretty girl his fiancée was well beyond middle age, and even her admirers could not assert that she was fair to look upon.

Rather than repudiate the contract made in good faith, Koubek kept his secret, and with his bride, on his arm, left the church apparently the happiest of men. Within a few months the bride learned the secret, and from that time Koubek made no attempt to conceal his aversion for the woman he had made his wife. According to her story, he was brutal and abused her. At the same time, he began to grieve and soon gave evidence that a change of environment alone could save his life. Mrs. Koubek offered to leave him, but he would not listen to this. He became moody and low spirited. Within a few months he was bedridden, and asserted that he was the victim of a broken heart. Until the day of his death he fondly imagined that some day he would be wedded to a younger woman, both handsome and good.

After his funeral Mrs. Koubek was left alone to fight the battles of existence. Embracing years added to the burden of her life, she suffered for lack of life's necessities. While her strength lasted, Mrs. Koubek worked hard to support herself, but recently she has been incapacitated and forced to remain at home. A short time ago she was obliged to move, and she fears that she will not be able to pay her rent. An agent of the Associated Charities called on the woman Saturday, and learning that her story was true, immediately purchased food for last week's dinner. As Mrs. Koubek practically is without a friend in this country, her condition is pitiable. Despite the hardships she has been forced to undergo, she makes no complaint, except that she ought to have realized that her husband had committed a grave mistake and refused to allow him to make good his promise.

# GREATEST FUR-SAVING EVENT EVER OFFERED DULUTH WOMEN!

**Entire Stock of Fur Coats, Scarfs and Muffs Included.**

For the coming week we have added to our annual Clearance of Women's and Children's Ready-to-wear Garments our entire stock of magnificent Furs at great reductions, presenting an opportunity never before offered Duluth women in the variety and style of Furs included or in the low prices quoted. This is not a riddance of a few undesirable pieces but includes every Garment, Scarf and Muff in our stock. Not the least attractive feature of this great sale is the S. & B. Co. guarantee which goes with every fur piece sold and which alone makes it worth more than the usual offering. It will be a stirring sale and to get the greatest values it will behoove you to be among the early comers. Note the prices.

## Opossum and River Mink Throws.

\$5.00 for \$8.50 Sable Opossum Long Throws.  
\$11.50 for \$22.50 River Mink Long Throws.

testimony probably bore the stamp of delirium. Indeed, he himself understood this.

After two days' rest in prison Schmidt was taken before the examining magistrate and accused of organizing and participating in an insurrection against the czar. A confession was demanded from him. Schmidt declared that all he had said previously was forced from him by threats and was a lie, and that he had done nothing disloyal. He was taken again to the secret police department, and on Sunday, Jan. 13, he was again brought before the examining magistrate, again terrified, brain weary, almost in collapse, confessed all he had said before.

"Now Schmidt is being tried on the evidence he gave himself—that is, the ravings of a madman."

## DEATH OF THREE

**Caused by Escape of Gas in a Brooklyn Tenement.**

New York, Jan. 14.—Illuminating gas which escaped during the night from a small stove used for heating, caused the death of three persons, including the wife, Rosa, 58, and their son, Philip, 17, in a Brooklyn tenement today. Their 15-year-old daughter, Rosa, who also was in the house at the time, is now at a hospital, unconscious and in a critical condition as a result of inhaling gas.

## WICKERSHAM ABANDONED.

**President Said to Have Decided Against Him for Alaskan Judge.**

Washington, Jan. 13.—There is a report here that the president has decided not to nominate Judge James Wickersham for judge of the Second division of Alaska, but is to nominate Harry Ballenger of Port Townsend, Wash. A decision of this kind means a victory for Senators Nelson of Minnesota and McCumber of North Dakota, both of whom opposed the nomination of Wickersham last session and succeeded in preventing favorable action by the Senate.

## Call and Let Us Explain to You How We Do It!

In selecting our goods we exercise the greatest care to buy only those fabrics which will give good wearing value. These are made up in the latest styles and fit guaranteed. At almost the same price you would pay for an inferior piece of goods in a ready-to-wear suit.

**MORRISON, Tailor,**  
8 LAKE AVENUE SOUTH.

## DOLLIVER IN GRAVE DANGER

**Likely to be Rejected Unless Present Conditions Change.**

Des Moines, Iowa, Jan. 14.—Rumors previously believed groundless, that a movement was on foot to unseat Senator Dolliver and elect Governor Cummins to the United States senate took a startling turn Saturday.

Unmistakable evidence came to light that the progressive strength in the Iowa legislature has organized to oust Dolliver unless he names Chase of Hamilton county United States district attorney as his opponent.

The Iowa delegation stands evenly divided between Chase and M. J. Tobin of Clinton, the standard candidate. Senator Dolliver holds the deciding vote. He has pledged to Tobin. If he goes back on his promise, the standpatists in the legislature, who are angry because Dolliver supported Cummins in the recent campaign, will join with the Democrats and oust Dolliver from the senate.

If the senator refuses to name Chase, the progressives, who are in the majority, will put up Cummins' name and send him to the senate.

## DEMANDS BAILEY INQUIRY.

**State Solon Seeks United States Senator in Texas Legislature.**

Austin, Tex., Jan. 14.—The cause of Senator Joseph W. Bailey was given a severe jolt in the legislature Saturday in a four-hour speech by Representative John Duncan of Smith county. He introduced a resolution for a rigid investigation of Bailey. He put Bailey on the rack and kept him there the entire time. Bailey's friends are completely demoralized.

Bailey's friends offered a substitute to the resolution, providing for a very mild investigation, this being caustically ridiculed by Duncan.

Bailey gave out a statement Saturday.

## DISTRESSING STOMACH DISEASES

Permanently cured by the mastic power of "South American Nerve Tonic." Invalids need suffer no longer because this great remedy can cure them all. It is a cure for the whole world of stomach weakness and indigestion. The cure begins with the first dose. The relief it brings is marvelous and surprising. It makes no failure; never disappoints. No matter how long you have suffered, your cure is certain under the use of this great health-giving tonic. Pleasant and always safe. Sold by all druggists.

## PACKERS UNITE IN BIG MERGER

**Combine With \$500,000, 000 Capital Said to be Completed.**

Chicago, Jan. 14.—The organization of a colossal packers' combine, it is said, has been completed. All of the big stockyards, plants, except Schwarzschild & Sulzberger, have merged into one tremendous organization. Its capitalization has been fixed, tentatively, at \$500,000,000.

The allotment of trade zones to concerns represented in the combine is now in progress. In a short time each house will be doing business in its own exclusive domain.

Under the new deal the last details of which were settled today, Louis F. Swift becomes the packing king of Chicago. J. Ogden Armour, who was authoritatively stated, is preparing to retire from commercial activity, though several years will elapse before his affairs permit this step.

Seven companies, in addition to the big three—Swift, Armour and Morris—are included in the agreement. The control of these seven, either by ownership or pooling arrangement, has passed to the National Packing company, or to Edward T. Tilden as the personal representative of the new order of things.

The seven concerns which have passed under control of the National Packing company are: Libby, McNeill & Libby, the Anglo-American Packing & Provision company, the Omaha Packing company, the Hammond company, the Continental Packing company, Lipton Packing company, Hately Brothers.

## PORTER LOSES LIFE

**DIVING FOR COINS**

Rome, Jan. 14.—An extraordinary case of drowning has just occurred at Bologna.

A traveler staying at one of the hotels accidentally let a number of silver coins fall down the wastepipe of a lavatory, and they were carried into

the canal below. Giving up the coils for lost, he went his way.

A porter, however, hearing of the occurrence, decided to dive into the canal to see if he could recover any of the money and succeeded in finding nine pieces. With these he made merry with his friends, and when all the money was spent he volunteered to dive again to procure means for prolonging the orgy.

He plunged into the canal, but did not reappear. Shortly afterwards his body was fished up, and a silver coin was found tightly fixed between the man's teeth.

Write it in your cook book that Hunt's Perfect Baking Powder can be relied on for leavening strength and purity.

## INVENTS NEW TORPEDO.

**Hudson Maxim Assists Naval Warfare Will be Revolutionized.**

New York, Jan. 14.—Driving a self-propelled torpedo by steam generated in the burning of high explosives carried within the torpedo in concentrated form, Hudson Maxim has concluded experiments from which he asserts that the range of the naval torpedoes will be doubled and naval warfare revolutionized.

To meet the demand that torpedoes must have effective action, equal to the gunfire to which the attacking torpedo boat would be subjected, Mr. Maxim burns motor oil, a new explosive, to generate steam at a high pressure and by this means the regulation naval torpedo is reborn in efficacy over the use of compressed air, the motive power now generally used.

## J. J. WALL'S FAMILY LIQUOR STORE.

## GREAT ANNUAL

# MID-WINTER SALE!

## 10 to 50% DISCOUNT

on Furniture, Carpets, Rugs, Draperies, Crockery, Lamps, Stoves and all House Furnishings. Sale Began Monday Morning at 8:30 and Continues Until February First.

### First St. and 3rd Ave. W.

This picture shows the greater French & Bassett store as it will appear when enlarged and remodeled, with a new story added above and practically one below. For the storage will be removed from the avenue floor to our new warehouse on Michigan street and the space transformed into a handsome salesroom for Crockery, China, Stoves and Housefurnishings. A spacious new entrance will be made to this floor on the corner nearest Superior street.

The entire building will by degrees be completely remodeled, decorated and arranged with every modern convenience and improvement, and we intend to make it one of the handsomest and most agreeable stores of the kind in America. When complete this store and warehouse will contain nearly four acres of floor space devoted to the sale and distribution of house and office furnishings and kindred lines, making one of the largest west of Chicago and about as large as all similar stores in Duluth combined.

This will be the most sweeping mid-winter clearance sale we have ever made and we are making it the last half of January instead of in February, as usual, for the reason that our basement must be cleared for the contractors to begin alterations on Feb. 1 and owing to delays in material our new warehouse will not be ready on time so we must make room by selling the goods and to do this we have placed the larger discount tags throughout the stock with a lavish hand.

**An Immense Stock to Select From.  
The Greatest House Furnishing  
Event Duluth Has Ever Known.  
You cannot afford to miss this  
opportunity. Come Early.**

In this store at all times goods are marked in plain figures at their correct selling prices, which are, in most cases, lower than prices in the ordinary store. During this sale a special tag is attached to the regular price tag, indicating the various discounts from 10 to 50 per cent according to color as follows:

### 314-16 W. Michigan St.

This picture shows our new warehouse which is now nearing completion, at 314 and 316 West Michigan street, extending back to the railway tracks. This building is most conveniently located, only one and a half blocks from our store, and contains four floors, with electric elevators and every convenience for the care and distribution of goods. Railway cars can be placed within four feet of our rear doors and goods unloaded directly into the warehouse, thus saving much expense in cartage and breakage. In fact, it means that furniture can be loaded into a car at the factory anywhere in the United States and be unloaded directly into our new modern warehouse without rehandling, and from there delivered to your home or office at the smallest possible expense.

This all means better and more prompt deliveries, with furniture in better condition and at lower prices.

## Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by overwork, exacting social duties, the too frequent bearing of children, or other causes, will find in

### DR. PIERCE'S FAVORITE PRESCRIPTION

the most potent, invigorating, restorative, strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless boon to prepare the system for baby's coming and to render the ordeal comparatively easy and painless.

It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, pelvic catarrhal drain, ulceration, prolapsus, anteversion, retroversion, or other displacements of womanly organs from weakness of parts, will, whether they experience many or only a few of the above symptoms, find relief and, generally, a permanent cure, by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for woman's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native, medicinal roots without a drop of alcohol in its make-up. All its ingredients are printed in plain English on its bottle-wrapper and attested under oath. Dr. Pierce thus invites the

fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of all woman's peculiar weaknesses and ailments.

Dr. Pierce's Lotion Tablets and Antiseptic Suppositories may also be used with great advantage conjointly with the use of the "Favorite Prescription" in all cases of ulceration, and in pelvic catarrh. They cost only 25 cents a box each, at drug stores or, sent by mail, post-paid on receipt of price in stamps by Dr. Pierce whose address is given below.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for his free booklet treating of same.

You can't afford to accept as a substitute for this remedy of known composition a secret nostrum of unknown composition. Don't do it.

## THE STAGE

### COMING ATTRACTIONS.

LYCEUM—Tuesday, "Peck's Bad Boy." Wednesday, St. Paul Symphony Orchestra.

### GAITY GIRLS MAKE A HIT.

Cliff Grant's Organization Pleases Patrons of the Metropolitan.

Frankly, the show given by the London Gaity Girls at the Metropolitan is as replete with horseplay as any ever given at that popular burlesque theatre, but at the same time it is one of the best staged in the city. The girls are, for a long time, it is a big laugh for everybody, from the opening chorus to the finale.

Squirt guns, inflated bladders, and a slap stick or two play a prominent part in the production, but nevertheless it is all good, and is as favorably received by the highest type of intellect as by the lowest. Some people could not get away with the horse play the way Pat White and his associates do, but as they hand it out, there is nothing to do but to laugh.

Cliff Grant, manager of the London Gaity Girls, has some mighty good ideas, or perhaps his stage manager is responsible. But anyway, the comedians are not allowed to stage all of the time. The chorus has plenty of show. There are something like a dozen or fifteen changes of costumes for the show girls during the action of the two burlesques.

Pat White, Sam Green, Oscar Lewis and the rest have some good gags, but they are very funny. And then the chorus trips out and executes some sprightly, jingling, musical number. Every member of the chorus is a good dancer, and the musical numbers are well selected. Pat White romps away with most of the comedy honors. The olio is a crackjack. Mabel Webb, who is not a bad soprano, opens it with a couple of very good songs, which she sings well. Rene Washburn and Belle Austin come next with a sister act that gets the hands. Their songs, too, are very good. The Zerkas, quibblers, to stunts upside down and otherwise, and are well received. Oscar Lewis and Sam Green have a good conversational act. Green's songs and Lewis's Swedish dialect get the applause. The Musical Belles are the very best ever. They beat anything in the way of musical artists that have been seen here this season. They do a lot of ordinary stunts and cap the climax by playing ragtime on the bamboo bells, or whatever they are.

"DORA THORNE." The popular novel, has been dramatized, and is said to be an excellent comedy drama. All the principal characters of the book appear in the play, and tell the story

## TO ABOLISH THE GRADE

House Is Opposed to the Grade of Lieutenant General.

Measure Not Aimed at Interest of Any Army Officer.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 14.—(Special to The Herald.)—The house of representatives has gone on record in opposition to the grade of lieutenant general. While the army appropriation bill was under consideration last week in the lower branch of congress, Representative Dalzell of Pennsylvania, in reporting a rule permitting the house to vote on the question whether the grade of lieutenant general should be abolished, stated that the present holder of the distinguished rank, Gen. Arthur MacArthur, said:

"I believe that there is an opinion prevailing that it was a mistake to create the grade of lieutenant general for any officer after the death of Gen. Sheridan. That the grade was created for a man who was chosen to the position where he would be entitled to this place, if it was to be created, Congress felt it would be unfair to deprive him of what his predecessors had had. This distinction to these officers has now ceased to exist. All the officers have been chosen to the grade by reason of their seniority to become lieutenant-generals have been provided for, and if the office is to continue it will be conferred hereafter upon those who have had no connection with the civil war."

I want to say here it is a great mistake to assume that I heard it as assumed on the outside, that this measure is aimed at the interest of any officer. I think, by the house to be passed as a bill, it is not aimed at the interest of any officer. The grade of lieutenant general has been created for the purpose of giving a grade to those officers who have been chosen to the grade by reason of their seniority to become lieutenant-generals have been provided for, and if the office is to continue it will be conferred hereafter upon those who have had no connection with the civil war."

It is generally understood that Mr. Dalzell was referring to Gen. Leonard Wood, who was promoted to the grade of lieutenant general in 1898, and who was then in command of the Philippine army.

The grade of lieutenant general has been a subject of discussion since the beginning of the government. Washington, D. found it impossible to obtain bids for a building in response to advertisements sent out, and after they had sent personal requests to the principal contractors in the vicinity, they were unable to obtain an offer at any figure.

It is not alone the increase in the cost of building material that has brought about this state of affairs, although lumber is nearly 40 per cent higher than it was two years ago. The rate of wages in all building trades is materially higher, but the difficulty found in obtaining labor at any price, is nearly all government contracts a day's laborer which provides for a heavy fine for delay in completing such contracts. This clause makes the contractor wary about entering into an agreement to complete government work within a given time. All the building trades in every section of the country are at work to the limit of their capacity and the prosperity works to the disadvantage of the federal government.

The weather bureau will attempt during the next fiscal year to erect a number of weather stations by day's labor. It will be interesting to watch results.

John Sharp Williams, for four years the minority leader on the floor of the house, has been elected to the Democratic side of the aisle in the new congress. He is a native of England, and speaks English as well as he does English, and German as well as he does English. He is a remarkably well-read man and his head is full of apt information. He is a good speaker and a good debater. He is a member of the majority and the minority. He is a member of the majority and the minority.

difficult to treat as honestly made. This theory supposes that the assassin succeeded in obtaining the uniform of the negro soldiers; that before starting on the raid they got over the fence of the fort unchallenged and without discovery by the negro troops, opened fire on the town from within the fort; that they blacked their faces so that at least fourteen eye witnesses mistook them for negroes; that they disguised their voices so that at least six witnesses who heard them speak mistook their voices as being those of negroes. They were not Mexicans for they were heard by various witnesses to speak in English. The weapons they used were Springfield rifles; for the ammunition which they used was that of the Springfield rifle and no other and could not have been used in any gun in Texas or any part of the union or in Mexico or in any other part of the world, save only in the Springfield rifle used by the United States troops, including the negro troops in the garrison at Brownsville, and by no other persons save these troops—a weapon which had only been in use by the United States troops for some four or five months prior to the shooting in question and which, not in the possession of private citizens. The cartridges used will go into one rifle used in the United States troops when specially chambered—the Winchester of the 18 model.

It is not alone the increase in the cost of building material that has brought about this state of affairs, although lumber is nearly 40 per cent higher than it was two years ago. The rate of wages in all building trades is materially higher, but the difficulty found in obtaining labor at any price, is nearly all government contracts a day's laborer which provides for a heavy fine for delay in completing such contracts. D. E. H., Jan. 14, 1907.

The full sale values at the Columbia are there whether the sale is advertised in a full page or in a seven-inch space.

The whole store is full of "big bargains," if the best clothes on earth at cost prices may be termed that way.

Besides all clothing for men and boys, we offer all our winter underwear at cheap prices while you can get full use and enjoyment of them.

## 25 PER CENT REBATE ON ALL UNDERWEAR.

We are still able to give you the exact fit, color and quality which you are after. Consider this and the rising prices of wool and you will appreciate our offer, for "one-fourth off" now may be the equivalent of "one-half off" on next season's prices.

Union Suits of every grade, also Belfast linen and our entire line of silk, wool, cotton and mercerized goods are included.

What 25 Per Cent Rebate Means:

The \$1.00 Suits are now 75c	The \$5.00 Suits are now \$3.75
The \$3.00 Suits are now \$2.25	The \$6.00 Suits are now \$4.50
The \$3.00 Suits are now \$2.25	The \$7.00 Suits are now \$5.25
The \$4.00 Suits are now \$3.00	The \$8.00 Suits are now \$6.00

And so on to the \$20 Suits, which are now \$15.

## Odd Garments at Half Price.

All lines of underwear of which we have only a few garments left at half price. Among these is some Lewis Underwear, the best wool goods made in this country.

## Columbia Clothing Co.

We are taking inventory this week, but the selling goes on just the same.

What 25 Per Cent Rebate Means:

The \$1.00 Suits are now 75c	The \$5.00 Suits are now \$3.75
The \$3.00 Suits are now \$2.25	The \$6.00 Suits are now \$4.50
The \$3.00 Suits are now \$2.25	The \$7.00 Suits are now \$5.25
The \$4.00 Suits are now \$3.00	The \$8.00 Suits are now \$6.00

And so on to the \$20 Suits, which are now \$15.

# We Do the Clothing Business of the Northwest Because We Deserve It

## THE BIG DULUTH'S \$15 SUIT SALE BEGINS TOMORROW

We've never deviated one iota from our fixed policy that all goods must be sold during the season for which they were bought—We lose money now by adhering strictly to this policy, in fact, we expect to sacrifice merchandise, no matter how great our loss may be, in order to dispose of it at this season of the year—but it's worth this loss to us to start the Spring season with an entirely new stock—We need the room the winter stocks now occupy and we would rather count dollars than clothing when we inventory February 1st.

For these good reasons and to make a clean sweep of every Suit in our entire stock we will, commencing Tuesday morning at 8 o'clock, give you your free and unrestricted choice of

### Any Suit of Clothes in the House for only

Not a few special lines, broken assortment or job lots, but your choice of our entire stock of Finest Suits that have been selling at and are worth today \$30, \$28, \$25, \$22.50 and \$20.00.

And you want to be on hand early for when the Big Duluth gives you these \$15 choice sale, it gives you the best clothing values in the world. There are no reservations except our \$25 and \$30 staple blacks and blues.

Kindly note that this sale is positively for cash only.

**\$9.85** Gives you the choice of our \$12.50 and \$15 Suits

**\$8.50** Gives you the choice of all our \$10 Suits.

## TALKS FROM PULPITS OF DULUTH CHURCHES

**Rev. Kerby S. Miller Says Man is a Promoted Reptile.**

**Preaches Strong Sermon on Topic "The Universal Kinship."**

At the First Unitarian church, yesterday morning, Rev. Kerby S. Miller, the pastor, preached from the topic, "The Universal Kinship," a subject which was passed on J. Howard Moore's recent book of the same title.

Rev. Mr. Miller claimed that universal kinship means the kinship of all the inhabitants of the earth. He claimed that in the past, thinking man has been generally regarded as the center of everything. The earth, sun, moon, and stars have been considered as soulless adjuncts for human purposes and animals have been regarded as simple commodities created for his benefit.

**FOOD OF ACTRESS.**

**Knew How to Get Well.**

A young lady, well known to the theatergoers of the land, gives an interesting experience. Writing from Chicago, she says:

"In December, 1902, I was laid up with a sick spell, at the expiration I was very weak, nervous and extremely delicate, so much so that when I attempted to resume rehearsals such a faintness seized me that I was compelled to stop.

"My strength returned very slowly and I spent my time in lying down and worrying. I felt my mother persuaded me to try Grape-Nuts food for my breakfast. I confess that I had but little hope that it would do me any good, but made up my mind to give it a good, fair trial.

"I am more than glad that I did. It quickly brought back my lost strength, made my nerves strong and healthy again, and gave me increased health and weight. I always carry it with me now, as I find that some hotels do not keep it. Grape-Nuts food has emphatically demonstrated itself a blessing for me in my case." Name given by Postum Co., Battle Creek, Mich. "There's a reason."

has slowly evolved by the same processes which brought the souls of all other animals.

"Man is an animal, and does not differ in any essential points of his structure from the other vertebrates.

"There are all grades of intelligence in the animal world, from the mindless forms to man's mind. The same factors exist everywhere as in the mental life of man.

"The antecedents of human ethics are found in the ant and the jungle. Savage ethics are purely tribal, and while a good number today hold theoretically to the brotherhood of man, only one here and there has emotions sufficiently civilized to extend his ethical relations to all living beings.

"The antecedents of human ethics are found in the ant and the jungle. Savage ethics are purely tribal, and while a good number today hold theoretically to the brotherhood of man, only one here and there has emotions sufficiently civilized to extend his ethical relations to all living beings.

**PLENTY OF WORK AT HOME.**

**Dr. Cleland Says There is Need of Missionaries Here.**

Missionary work, like charity, should begin at home, according to Rev. T. H. Cleland, who delivered an address on "Another Chance" before the mass meeting of the Y. M. C. A., at the association rooms yesterday afternoon.

"We are sending missionaries to foreign lands to convert the people of other nations, but we have the greatest field right here in the United States," said Dr. Cleland.

"We have in this country from 20,000,000 to 30,000,000 emigrants and the number is increasing all the time. It is to these millions of men that we owe the foundations of our immense industries and big manufacturing plants. They lay the stone of our large buildings, they go down into the earth to work and develop our mines, they till the soil and make our railroads. We must bring religion to them and give them another hold on the country who threw away their early opportunities. We must give them another chance and not allow them to throw themselves away."

**TO WORK OUT SALVATION.**

**Dr. Ryan Explains Motives Prompting People to Seek It.**

Dr. W. A. Ryan, rector of St. Paul's Episcopal church, preached an able sermon at the morning service yesterday, his subject being "Working Out Our Own Salvation."

"We went deeply into the motives that might prompt different people to seek salvation, and stated that selfishness is one of the chief motives. The speaker declared that selfishness is good as well as bad, which is self-assertive and self-interested, but selfishness is that which is self-centered, and especially to his God is commendable.

"The real problem," said Dr. Ryan, "and the only one worth mentioning, is to make the man worthy of what he wants, worthy of his own salvation, and worthy in the sight of God. It is a pity, in a way, that we are not as sensitive to

language as we should be, and there is the other thought that ideas develop and change themselves, and then we coin new words to cover the new values, while in reality the original word might have done for both.

"Take the word salvation, that we have known and which has now too narrow a meaning for us. Then take the word development, or evolution, and they have the less at home or novel meaning for us. There is little real difference, as salvation means that we are brought up to the full development of which we are capable. It must mean the evolution of all the powers and faculties which we are capable of. We cannot get into And getting ready for it, we need have no fear that in this well-regulated voice we will miss it."

"With reverence be it spoken, it would not seem that God who did not put you in a heaven which you did not deserve. We think of heaven as a condition and not as a place, and our condition while on earth determines the condition into which we shall go."

The speaker went on to explain that there is nothing in the world that man should be so much concerned about as his own salvation, and there are but few things about which a man can be readily deceived. He stated that if we then it is of imperative importance that we make the very most of ourselves. It is the duty of every man to take the inspiration and the guidance from Christ and then make them his own by self-proprietion and self-effort.

**HARD KNOCKS HELP SOME.**

**Rev. E. M. Noyes Says Discipline of Life's Changes Builds Character.**

"The Discipline of Life's Changes" was the topic of the sermon given at Pilgrim Congregational church last evening by Rev. E. M. Noyes of Newton, Mass., who ten years ago was pastor of the church.

Dr. Noyes reasons that the man who never changes or experiences trouble can never improve his character or his mind. He argues that the changes in a man's life are for the purpose of enabling him to reach out toward the perfect and that hardship build up the character.

He declared that love was the greatest truth in religion and has been such for ages. In conclusion he stated that the changes in life were the things which should boost a man along to the great goal and God.

**DR. RICE PROTESTS**

**Against Location of County Jail Next to School Building.**

An emphatic protest was registered yesterday by Rev. M. S. Rice at the First Methodist church, against the location of the proposed new county jail next to the Jackson school building. It is his opinion, that the jail would have an evil influence on the characters of the children.

**SEATON-DAY ELECTRIC CO.**

**At Your Service**

Best material—best workmanship. It will pay you to pay us to do your electrical work.

5th Ave. W., opposite McKay Hotel. Zenith Phone 38. Bell Phone 1227.

that must attend the school so near it. The speaker maintained that the citizens of Duluth should not allow the jail to be located on this site. He believes that the county commissioners could not have thoroughly understood the location of the jail had they been in the school. The matter of money should not enter into such an undertaking if the purpose of the school is to be endangered by it. Dr. Rice says that if the jail is located on this site, it will be a storm of protest. But surely it should not be located where the school overlaps the grounds and comes from the multitude of homes whose tender children would have to be schooled in the shadow of a jail. We can far better afford to transport every prisoner a long distance between the court and his cell rather than, for mere convenience and extravagant economy, put it where it is now proposed."

**TEMPERANCE LECTURE.**

**Chicago Minister Likens Liquor Traffic to the Biblical Ox.**

The North Star lodge, No. 11 of the Good Templars, held a meeting at the First Swedish Methodist church yesterday afternoon at 8 o'clock.

It was opened by Rev. John A. Anderson, pastor of the church, who introduced the speaker, Rev. J. O. Johnson.

"The Bible gives rules and regulations regarding the conduct of men," said the speaker. "If it had been proved according to the scripture just read, that the ox was to be stoned, and the sheep also put to death, would you have been able to do it? No, you would not. And so it is with the liquor traffic to the ox, and said that it had been proved that the liquor traffic is a sin, and plans to cultivate the habit among the young."

Mr. Johnson will speak under the auspices of the Minnesota Grand lodge of Good Templars in the following places: To-night, at Elby; January 15, at Virginia; January 16, at Elby; January 17, at Virginia; January 18, at Elby; January 19, at Virginia; January 20, at Elby; January 21, at Virginia; January 22, at Elby; January 23, at Virginia; January 24, at Elby; January 25, at Virginia; January 26, at Elby; January 27, at Virginia; January 28, at Elby; January 29, at Virginia; January 30, at Elby; January 31, at Virginia.

**FILES CURED IN 6 TO 14 DAYS.**

**PAIN OINTMENT** is guaranteed to cure any case of Rheumatism, Gout, Bladder or Pilonid. Files in 6 to 14 days or money refunded. 50c.

**WATCHING OPPORTUNITY**

**TO PULL OFF STEAMER.**

Chatham, Mass., Jan. 14.—The position of the Clyde Line freight steamer Onondaga, which ran her nose well upon Orleans beach yesterday, remained practically unchanged today. The crew still remains aboard, and tugs are at hand for an effort to pull her off when conditions are favorable. At low tide it is possible to walk out to the vessel.

**ELECTRIC AIR LINE IS**

**ABOUT READY TO BUILD.**

Chicago, Jan. 14.—The construction of the proposed electric trunk line between Chicago and New York, which will be the longest electric line in the world and on which New York can be reached from Chicago in ten hours, is now practically an assured fact. Ground having been broken for the first roadbed at La Porte, Ind., inside of ninety days the first cars will leave La Porte, and the engineering work will be completed. The preliminary work has been done and the roadbed is now being laid. A section of the workers will come toward Chi-

cago and another will take a direct course to New York.

The promoters of the electric railroad are confident of their ability to overcome all obstacles. The success of the road, it is expected, will mark the passage of the steam railroad.

An additional feature of the road is that it is being built by popular subscription. The stockholders, coming from all parts of the world, have been paying for the advertising campaign carried on in its behalf. The Chicago-New York Electric Air-Line Railroad company has been in process of formation for two years.

Post-offices are to be placed at intervals along the route, which will permit uniform speed. All grades are to be eliminated as far as possible.

**SCHAEFER ACCEPTS.**

**Will be State Public Examiner. Succeeding Kerst.**

St. Paul, Jan. 14.—Anton J. Schaefer of Rushmore will be the new public examiner. He, on Saturday afternoon, signified to Governor Johnson that he would accept the appointment tendered, and he will take hold in a few days, succeeding P. M. Kerst, resigned, to accept the post.

Capt. Schaefer, who is prominent among the traveling salesmen of the Northwest, is an officer of a bank, and was Democratic candidate for railroad commissioner in the recent campaign.

**UPPER MICHIGAN**

**Two Postponed Criminal**

**Cases to be Tried at Houghton.**

Calumet.—Two criminal cases which have been postponed from term to term remain for the February term of circuit court. One of these is that of J. A. Fuller of Hancock, head of the former brokerage firm of J. A. Fuller & Co., which failed in 1905. Mr. Fuller is charged by Leonard J. Dolph of Kalamazoo with embezzlement. This case has been in court for a year, but has been postponed from term to term on account of the illness of Mr. Fuller, to whom physical infirmities came largely as a result of his business troubles.

The other postponed case is that of Frank K. Provost of Kalamazoo. He has been awaiting his second trial on the charge of blowing up the residence of N. J. Dolph of Kalamazoo in 1905 and sentenced to a term at Marquette prison and served several months, when his attorneys succeeded in inducing the court to grant him a new trial. Since then the case has been postponed from term to term, it is now being tried.

Harry Beaumont of London, Eng., was arrested Friday night in Leavenworth on the charge of having forged the name of James Bell of Calumet to a check for \$100,000 on the First National bank. This check was presented to Johnson Vivian, Jr., of LaPorte and paid. It went through the LaPorte State Savings bank but was held for payment at the First National. Beaumont was taken before

Judge Trathen Saturday morning. He pleaded guilty and the case was turned over to the next term of circuit court for final disposition.

Miss Clara Engelhardt, accompanied by Mr. and Mrs. Edward P. LeGrand, left Sunday for Chicago, where she will complete a course in painting at the Chicago Art Institute.

Vord has been received in Calumet to the effect that W. J. Light, formerly manager of the Tamarack co-operative store, and now located at the Michigan Soo, is lying dangerously ill at his home there.

Post-offices are to be placed at intervals along the route, which will permit uniform speed. All grades are to be eliminated as far as possible.

sound, Mrs. Samuel A. Armour, alone in the Sperry lighthouse, two miles from the shore, kept the lights burning bright, kept the fog horn sounding, and did her duty like the heroine she is.

Yet during every instant of the night, while she was wearing sailors of the shoals and rocks, Mrs. Armour was distracted by the dread that her husband, the lighthouse keeper, had perished Saturday night, while trying to reach her through the gale. Then, only then, she collapsed.

Capt. Armour left the lighthouse Thursday on an errand of mercy. His assistant was very ill. Armour took him ashore here in a subboat that he might go to the Bridgeport hospital. Twice on the way Capt. Armour had to bail the little boat with all his might lest he might sink.

"You see she has lighted the lights as I asked her to. I told her I would be back tonight and back I go."

He pushed off and disappeared.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Dean's Laxative. They operate easily, tone the stomach, cure constipation.

**BECKMAN NOW ATTACKS**

**HILL LINE CHARTERS.**

Washington, Jan. 14.—Victor H. Beckman, secretary of the Pacific Coast Lumber Manufacturers' association, has announced that his association has instructed its attorneys to make an investigation of the charters of the Northern Pacific and Great Northern railroads, with a view to asking the federal authorities to bring suit for annulment. The basis of this suit will be the alleged failure of the roads to comply with their implied contracts to furnish adequate service in return for the magnificent land grants given by the government.

When Mr. Beckman was in Chicago last week he told about suits for damages to his constituents against these roads for their failure to supply cars to move the freight offered, which, if successful, would amount to such a vast sum that the roads would be thrown into the hands of receivers. He said that the lumber manufacturers of the State of Washington alone had been deprived of millions of dollars' worth of business in the last fourteen months because they could not get cars to move their product.

The Northern Pacific is a land grant road, chartered by congress, while the Great Northern is a Minnesota corporation but it is made up of a number of smaller roads, one of which, the Manitoba, received a land grant.

Minnesota and Minnesota are interested in this proposed action of the Pacific coast association because of the large timber holdings of T. B. Walker, the Weyerhaeuser, T. H. Shewlin and other Minnesota lumbermen in the Far Western territory served by the roads.

**HATPIN STAB KILLS MAN.**

**Woman Held for Having Caused Death of Her Escort.**

Philadelphia, Jan. 14.—Strabbed in the throat with a hatpin at the hands of a woman, Sept. 12, during an altercation with her escort, Harry G. Blaise, of 1906 Venango street, died at the Hahnemann hospital. Death was caused by blood-poisoning and meningitis brought on by the tiny wound.

Locked up at the city hall, her name kept a police secret, is a young woman prisoner who is charged with being responsible for the wound which resulted in Blaise's death.

**WOMAN RUNS LIGHTHOUSE,**

**HER HUSBAND DROWNED.**

New Haven, Conn., Jan. 14.—For two nights, while the storm raged on the

shore, kept the lights burning bright, kept the fog horn sounding, and did her duty like the heroine she is.

Yet during every instant of the night, while she was wearing sailors of the shoals and rocks, Mrs. Armour was distracted by the dread that her husband, the lighthouse keeper, had perished Saturday night, while trying to reach her through the gale. Then, only then, she collapsed.

Capt. Armour left the lighthouse Thursday on an errand of mercy. His assistant was very ill. Armour took him ashore here in a subboat that he might go to the Bridgeport hospital. Twice on the way Capt. Armour had to bail the little boat with all his might lest he might sink.

**A THIRSTY CAT.**  
Kansas City Times: "Perhaps you think the old water-in-the-milk joke has been worked to death, but I've found a new variation of it," said a South side man recently. "You know I have a small negro girl as a nurse for my children, and one of her duties is to bring me a glass of water before

it to tell them. They always listen intently to what she says, and last night I decided to listen, too. This is what I heard:

"'An' de cat, she got thirsty, an' got thirsty an' mo' thirsty, an' finally she went to a pan ob milk sittin' in de pantry to get a drink ob watah!"

"I told the story to our milkman this morning and he didn't laugh at all."
